

I am ^{telling} ~~writing~~ my story in hopes that someone somewhere might find comfort in the fact that they were not alone. that no matter what has happened to them in the past, must continue to rule their lives now. we all have our secrets and fears, for some the memories still rule their lives. the memory of things that happened to us when we were children or even young adults must be put aside. and we must go on. I'm not saying that you must forget them. I'm saying to remember them and use them to make yourself strong. and to become a complete person who knows who they are and where they are going. to help others grow with in themselves. and be able to stand up and face the world and say I am a good. and decent person. who is in control of my life and my future. and to help others grow with in themselves! I give permission for this story to be told by my friend. for the reasons stated above!

Mary

this story told here is the story taken from Mary's
 diary, journals, and taped interviews. I chose to tell
 this story in a story form rather than from a dated
 time line. the story is of a young girl growing up
 on a farm in the foothills of the rocky Mtn, about
 300 miles from Billings Montana. During the time of
 world war II and how she came to exist and accept the
 things that happened to her. as the way things should
 be. there are many distortions and crimes committed
 by the people within these pages. we say to ourselves
 that these things can't happen now! but they do.
 what happened to Mary when she was young happens
 to millions of children each year. they happen to
 the boys and girls they may happen in different
 degrees and with different outcomes but they do
 happen. I will attempt to tell Mary's story using
 the thoughts, feelings, and words of Mary as told
 verbatim. there are parts of the story that might
 be called esoteric or sick and if you get aroused
 hope that you also get mad. mad enough to
 stop these things from happening to all the children
 that are abused and killed each year. This was
 Mary's hopes all the way up until her death,
 Mary's father grew up in a orphanage and had no living
 relatives and her mother had only one living relative
 a brother who was killed at pearl harbor on Dec. 7, 1941
 a father sold life insurance and her mother stayed home
 I took care of the house.

So welcome to the world, as seen through a small
girl's eyes, and reality as seen through the mind
and understanding of that same child.

The date is Dec. 25, 1940. I am 12 years old and my name is Mary. My mom gave me this diary for Christmas. I promised that I will put all of my thoughts and actions that I do, say, or think in this diary. This will be my safe friend that I can tell everything to.

John made me a dollhouse for Christmas. I love John. He is my best friend. I can tell him everything and Dad made me help Mom get dinner ready. Dad and John sat around the radio and talked and listened to the news. Dinner was over and John went back to his room in the barn. I wish he lived here in the house with us. Dad said that I'm getting to be big girl now and Mom said that I'm almost grown up now. I see Mom and Dad

always hugging and kissing but they don't hug or kiss me. Why is this? I'm lonely. I wish I had someone to play with someone my own age to talk to. We cleaned up the dishes and went to bed. I couldn't sleep so I went down stairs to get a drink of water in the pitcher and I heard Mom and Dad crying and laughing in their room. I went to their door and looked in. Mom and Dad didn't have any clothes on and Dad had this thing and he was putting it in and taking it out of Mom. and Mom liked it and she kept saying love me. I have never seen anything like this before. I watched them for a few min. and then I went back to my room. When I got back to my room I closed the door and turned on the light. Dad had put in the house the light witch was about the size of a silver dollar and about three inch deep and the top turned. turn half way.

and the light came on turn half way again and the light went off. I went over to the mirror on the wall and I sat down and raised my legs up to see were dad put that thing into mom I didn't know that there was a place in there I felt around and there was a hole there I never knew I had a hole there but I have no hair like mom did. mom has long blown hair and blown hair between her legs. maybe some day I will have hair to. I put a finger into my hole and the hole opened up a little and it felt good. I kept putting my finger in on out until my finger got wet. I thought I peed on my hand so I stoped and wiped my fingers off. I turned the light off and went to bed. several times after that I went down

ire to watch moon and dad love each other they did many different things and they looked happy I wish they loved me to. the trees in the grove have little white flowers on them and some roses are starting to bloom and the little garden is starting to sprout the days are getting longer and the sun feels good. dad is teasing mom again telling her she robbed the cradel she would pretend she was mad. and throw something at dad. mom was 29 and dad was 28 years old. and they always were together and kissing and playing. I like to swim in the pond but its still to cold in the water. the grass was turning green and John were planing to paint the house and barn. I'm said that I can help paint too. dad and John start painting the house and then they paint the barn. dad let me paint the chicken coop and the fruit trees

in the orchard. I paint the trunks of the trees up to four feet high. The summer is here now dad and John and me we all go down to the pond take our cloose off and go swimming. Dad teaches me to dive and John teaches me to swim underwater. Dad says that I'm starting to fill out. I thought he meant I was getting fat. When I got back to my room I looked at myself in the mirror I didn't think I was getting fat. I took moms tape measure and measured my waist 16 1/2" I then measured my hips 22 inches then I measured my chest I was starting to get breasts my nipples were about 2 inches higher than my chest. I made a mark on the door at the top of my head. I then measured the mark and I was 5 feet tall. I go down stairs and use some scales I'm 96 pounds. I can see some small blown hair starting to grow above my privats and that makes me happy. I go out to the barn to John's room and ask him what dad meant when he said I was getting fat. John said I didn't hear him say you were getting fat. He said you were starting to fill out. He meant you were starting to look more like a woman. I felt happy inside I was becoming a woman. I ran all the way back to my room I took off my cloose and stood in front of the mirror and lapped and pinched myself. I couldn't believe my good luck I'm becoming a woman. After dinner I went to bed I was still smiling at myself. I soon fell asleep. I awoke to day and I could feel the chill in the air winter was not far off. We had gathered the apples and pears from the trees. also picked all the grapes. all the vegetables.

(4)

were gathered and we had dug up the potatoes they were the last to be taken in and put away we had enough in the root cellar to last us until next year. after the first freeze dad and John made hard cider I liked it but it made my nose numb and made me dizzy. dad and John just laughed at me, but that was ok. we had fun. John also showed me how to milk the cow to get milk and mom showed me how to churn the milk to get butter. mom also taught me to cook. at times I felt mom didn't want me around. like I was always in the way. and dad would rather be with mom than me. why do I feel so out of place. at night John comes up to the house and we all sit around the radio in the living room and listen to the radio shows and the news this was the way it was every night I would sit on John's lap and listen to the radio. on my birth day John bought me a new dress it was red with white flowers on it like the flowers on the apple tree. mom and dad bought me a make up case with makeup in it. John had the lady in the store put all of the under garments in the box with the dress there was also a pair of black shoes with a strap across the top. I had never seen anything so beautiful before only mom had things like this. I had to try everything on before I could go to bed. I was so happy I had trouble sleeping. I was years old now and soon I would be a woman.

one night as we were listening to the radio we had just turned the radio on and the radio said

that we were at war with Japan. that the Japanese had bombed Pearl Harbor today and killed many Americans and sank many ships. no one said a word mom was the first to say something I hope my brother is ok. the date was Dec. 7, 1941 dad and John just looked at each other and they had tears in their eyes.

John was the first one to speak he told dad that he would not join, but if he was called he would go. dad just shook his head and said ok. I asked John what is a war and John said that war is when men fight other men to keep the woman and children safe and make sure that people are free to live their lives as free and happy people it is to stop the bullies from hurting people who can't defend themselves. its helping people. I asked can I go to war and help the other kids dad said no ma'am only men can go. the woman must stay at home and make sure the home runs ok. mom told dad you can't go you've got to stay here with me. dad got up and took mom into the bedroom and closed the door. three days later dad came home and told mom and me that he joined the army because he would be called up because he was not a farmer he was a insurance salesman so he joined. he had to leave for boot camp tomorrow I said dad I'm glad you're going to war to help the children mom looked at me but said nothing just stared at me. she didn't say anything. to dad she went to her room and cried.

⑥

the day after dad left for boot camp John got a letter to report to billings for active duty. the next day John was gone. Christmas that year didnt come to our house and it felt strange. In the last of January two men showed up at our door and said that dad had given them a letter to give to mom. mom said my husband says to hire you for the job of hired hands the letter went on to say that he was with John and that they were in the same company. the letter also said that these two men tried to get into the army but couldnt because they had flat feet, and the army wouldnt take them so he hired them to help on the farm.

the first man was named James he was about 6'4" tall and 200 lb. the second ^{man} was about 6'1" tall and also 200 lb. both men were 22 years old. mom told them they could bunk in the tack room in the barn I said they cant live there thats Johns room. mom said when John gets back he can live in the house with us, that made me feel good now John would be here with us, mom told the men what their jobs would be and that what their pay would be. the men said thats fair and thank you. after the men went to the barn mom said keep an eye on them they look like them no stranger to hard work. I to me really dont know much about them or mom I watch them. here it is the first of may mom told the men that she wanted a large garden this year.

he said that she wanted 10 acres of garden this year and that what we dont keep we would sell in town I told mom that I had been watching them and that they work all the time and always help me carry things that are heavy and that they are very polite and always say thank you. mom said thats good when your father gets back we might keep the men on. John can be the farmer. that sounds good to me I told mom I remember March 12, 1941 as the day I thought I was dying I was getting up from bed. and I found that I was bleeding from my private I got scared and called mom she came into my room and looked at me I asked her what was wrong

was I bleeding. mom said that the bleeding was normal that all woman bleed every month that it lasts for about five days and its over I said why would mom said that its gods way to let woman know that they were a woman and that everything was working ok. mom also show me how to take care of myself. as mom left my room she said your a woman now your not a little girl anymore. the fear had gone and was replaced with pride in myself. now Im a woman.

after the bleeding stopped I stood in front of my mirror and looked at myself again I had moms tape measure again I measured my waist I had 18 inches my hips had gotten bigger to 25 inches my chest was bigger it was 34 inches I had big tits now I dont have a breast

I didn't have a lot of hair on my private but the hair was about three inches long and as brown as my hair on my head and that hair was down to the middle of my back. my nipples had the color of a peach. and my eyes were blue. I weighed myself and I weighed 105 lb. but I was still only 5'11" tall. but that's of moons only 5'5" tall and she weighs 110 lb. my tits are the same size as here but her hips are bigger than mine. I feel good about myself I'm a woman now.

on June 20th we received a telegram saying that both dad and John had been killed when their ship was torpedoed off the coast of Africa. and that they were lost at sea.

when mom read the letter she started screaming and for about two hours mom acted like nothing had happened. I there was no letter I felt sick inside I wanted to be held and to hold on to mom but she acted strange walking around talking to chairs and doors and sitting in hours just looking at the wall she acted like she was alone and no one else existed she was the only one in her world. she would make her own dinner and eat it and seemed that she didn't see anyone else. I cried alot I tried to hold on to mom but she pushed me away I said leave me alone. I felt like my whole life had been torn in to. everything that I knew and loved was gone my dad and my best friend were gone and I would never see them again. and now my mom didn't want me. I feel so sick and lonely I feel like crying all the time. when I go to bed I cry myself to sleep every

right and every morning I don't want to wake up because I know I will have to face the pain all over again. I want to die too. here I am a woman now but I wish I was a little girl again and dad and John were here and we were happy again.

James and dan have both been real nice to mom and me they have done everything they could to make this time better they have did there jobs as well as did the cooking and cleaning in the house all the jobs that mom and I did. they have tried to make us accept the deaths and go on with our lives. for this I love them. but mom acts like they arnt even hear life she doesnt even know they are here. and I acts like I'm not here also. like I don't even exist I feel lonely. and I want to be loved again I want someone to love I don't want to be alone anymore here it is Aug. the weathur is hot mom has locked herself in her room again. James has gone to town to buy groceries and supplies he returned about 1:00 I helped him put the food away. dan had been out working in the barn all day James went down to the barn. so I felt like I would like to take a swim in the pond so I took a towel and a old blanket and I went down to the pond the sun was hot and the water looked cool and nice I remembered the last time I went swimming and that made me feel lonely again dad and John were here and we had fun. now I'm all alone and dad and John are gone and I will never see them again.

I feel like I want to cry again, but I don't. I take off my close spread the blanket on the grass next to the pond and dive in the water feels nice as I swim I can feel all the hurt and pain slowly wash away I'm feeling better I'm getting tired so I crawl out of the water and lay down my back on the blanket I pushed my hair back off of my face and tilted my head back so I could feel the sun on my face I think I fell asleep sunning myself in the warm sun when I awoke James and Dan were sitting on the other side of me they had a bottle of wispys and they were passing it back and forth and drinking and talking. I asked if they were going swimming and they said yes but we didn't because we didn't want to wake you, oh I said that ok I was just laying in the sun it feels good. I said to myself I'm glad that James and Dan were here I don't like being alone. Dan handed me the bottle and they both started getting undressed then they jumped into the pond and splashed around wam across the pond and back. James told me to have a drink so I did I thought it was like hard cider but it was stronger I coughed Dan said I told you she still only a child and she can't drink. I said I'm a woman and then I took another long drink of those wispys. I didn't catch my breath my throat burned. James is you don't have to drink we know you can't handle it. I got a little mad and took another long drink it didn't burn as much this time, but I felt

like the gown was moving I felt funny I couldn't make my mouth say what I wanted to say. both dan and james came out of the water and layed down beside me. one on each side. james took the bottle away from me and said you have had enough. I was laying flat on my back with my arms tayed straight out on the blanket away from my body and dan and james were laying on them. first james leaned over and kissed me on the lips and then dan did the same I felt good noone had ever kissed me before like that I asked them to do it some more. james kissed me again and dan leaned down and kissed my nipple and then he reach up and started rubbing my tit then james

ched up and started rubbing my other tit and kissing me all over. my stomic soon dan had both of my tits in his hands and it was heaven it felt so good. I kept saying more it feels good. I liked to watch dan kissing my tits and squeezing them. I could also see james kissing my stomic and I could feel his hands going down and up my legs I felt james run his hand down between my legs and gently move then part his fingers were rubbing my private and that felt really good. soon I felt james stick one of his fingers inside me and move it around I knew I was in heaven soon james. come back up to me and kissed me on the lips he said we love you and we always want to be with you and love you. I kissed him hard and I kept saying please love me. love me. love me.

James asked me do you want me to love you and stay with you I felt I found love at last and I said yes love me. the hole time dan was still rubbing my tits and kissing my nipples and it felt really good. James went back down to my legs he spread my legs apart and put his hands under my butt and put his mouth over my private he was lapping between my legs his tongue seems to be lightning little pieces of jagg through out my body I couldn't get enough I heard myself saying more please more. I felt my stomach tighten and then I felt the very best feeling that I ever felt my private exploded with a jarring feeling and that was the best feeling of all. I heard James say you're got the best pussy I've ever seen. do you want me to go all the way I said yes yes love me, love me, please love me. at that point dan stopped rubbing my tits and kissing them I looked down and saw James kneeling between my legs his. James said is this the last time that I had a man inside of me. I said yes. So at that point James layed down beside me on the blanket on his back he told dan to run back to the barn and get some new ^{not to be used on tender human skin} ~~alder~~ grease dan left and James kept telling me he loved me and wanted to love me all the time. I felt I was in love with James and dan they were here with me and I would never be alone again I felt happy and I would do anything they wanted just don't leave me alone again James had me rub his thing the old me to call it his dick. and his dick was going to my pussy so now my private were my pussy

James's dick was longer and bigger than dads was
 I sure looked big I wasn't sure he could get it into
 my pussy my pussy had such a little hole but I'll
 try. I'll do anything to have James and Dan love me.
 that was the only thing that was important to me
 I had to love James and Dan always. Soon Dan came back
 with a can of apfel grease. James told me to roll over and
 kneel down. I did then he told Dan to spread a good amount
 round and inside my pussy and butt. It felt funny and
 it tickled as he pushed the grease into my pussy. then James
 told me to take a little and rub it all over his dick I did
 it was about 10" long and about as big around as a plum.
 James then told me to stand up and kneel down straddling
 his dick with one leg on each side of his hips. So I did
 he told me to lower myself onto his dick and guide it into
 my pussy I did what he said but I had trouble finding the
 hole when I did only the head would partly go in
 started getting upset because it wouldn't fit. James said
 'ask him and relax, as I started to relax I felt the
 head of his dick slide into me and then it stopped again.
 James said if the head goes in then all of it will fit all you
 have to do is relax and gently move up and down. I did what
 he said and each time I rose up and came down his dick would
 go a little deeper inside of me. James asked if he was hurting
 me and I said no there is no pain. soon there came a point
 where his dick would not go any deeper. I looked down and
 I could see that more than ^{half} of his dick was ~~not~~ ^{not} in
 me. James said dont worry that normal men see there

a thin piece of skin that covers part of the chanel and it had to be ^{not pushed away} pushed away ^{but he}. I was glad that he knew so much. I thought I couldn't take all of him and that he would be mad at me. he said that on the count of three I was to push all of my weight down on his dick and he would push up at the same time, but the first thing was for me to relax and gently move up and down slowly I did and it was starting to feel real good again I felt my stomic lighten and then the feeling spread to my pussy and I felt like a gear had gone off in my head and in my pussy there was such pleasure my hole body shook and I relaxed I heard James count one, two and three and I push down onto James dick and at the same time James took a hold of my hips and pulled me down onto him and pushed up into me. I felt like I was being torn apart inside I guess I fainted when I came to I looked down and I had James' dick all the way inside of me. I sat there for a moment until all of the pain stopped I told James that it didn't hurt anymore he told me to straiten my legs out and lay down on top of him when I did he slowly put his arms around me and roled over on top of me. he was still inside me. slowly at first he began to move in and out of me and the feeling started to return to feeling of great pleasure as I began to explode I felt my nes titen and I felt a warm gush of liquid inside me. I exploded over and over again and again each one harder and more powerful until I had no more

strength left in me and I went to sleep when I awoke I was in my own bed. I looked for James or Dan but I was alone I felt my pussy and I discovered that I was sore and that as I touched myself I felt the stinging of excitement again. I stopped and hugged myself and smiled to myself and for the first time in my life I felt happy and loved. It was almost time to get up and I looked around and Dan came in he said hi. sleepy head. I felt happy all over. Dan was carrying a tray. he had made breakfast for me there was juice, milk, eggs, bacon and hot biscuits with jam. he told me to sit up in bed. and I did he put the tray on my lap and then leaned over and kissed me on the lips. he sat on the edge of the bed and watched me eat. no one had ever brought me breakfast in bed before never. I told Dan that he made me feel special and that I loved him. he smiled and said you are special and I love you too. I wanted to laugh and say see I'm a woman. but I didn't. as I was eating he reach over and put his hand on my pussy and said how do you feel. I told him that I was a little sore but I was ok. he said that he carried me up to my bed last night he said that he cleaned most of the grease off. he also told me that he sleep down stairs on the couch last night because he wanted to be close to me in case I woke up and needed something. I told him that I loved him the most. and please never leave me. he said that

he would always be there for me and that I could believe in him. I felt all warm inside. after I finished eating Dan took the tray and put it on the table he asked me if I could stand up I got out of bed and stood up he then asked me if I could walk ok. I walked around the room, he said that good. I've got a surprise for you. he took the tray and I followed him down to the kitchen he put the tray down and then he went down to the cellar I followed him and it was hot down here. Dan the stove lit, he said that last night he put water in the tub and was heating the water for me to soak in and the hot water would take away all of my sores and I would feel better.

I took off my robe and Dan took off all of his clothes we both got in the tub the water was hot and it took a few min. to get use to it. Dan sat down on a low stool that was fastened to the bottom of the tub the water came up to his armpits he told me to sit on his lap with my back to him after a few more min. I was able to sit because the water was so hot, Dan had his legs between mine and as he opened his legs the hot water rushed into my pussy and I jumped because it hurt. I soon settled back down on his lap. he started rubbing my neck and then my shoulders and arms felt all of my sores wash away. it seemed that all of my strength was gone also. I just layed back in his arms and couldn't or didn't want to move. Dan slowly started rubbing my stomach and then my

tits as he rubbed my tits he said that I had beautiful tits and that he could rub and kiss them all the time I told him that sounds good to me, as he held and squeezed one of my tits his other hand went down to my pussy he started rubbing the outside of my pussy and then he pushed one of his fingers inside me. the heat of the water didn't bother me now, I asked dan why he didn't love me like James did yesterday, he said that he was bigger than James was and he was afraid that he might hurt me. I love dan for saying that he was afraid that he would hurt me but I didn't care I wanted him inside of me now I told dan to love me now he said that he would but only after all my soreness was gone. he kept his fingers going in and out of me I told him that it felt good. he said that he was trying to get any grease out of me I felt that spasm of pleasure go through me and I exploded again this time it lasted for a longer time and I felt real good. dan asked me how I felt now and was I still sore I said that I feel great and there was no soreness and that I wanted him inside of me. dan turned my face to him and kissed me hard and long I thought I was going to pass out from lack of air but I didn't dan told me to turn around and face him I did and his legs were between my legs again he told me to reach down and rub his dick as I did I could feel it getting bigger until it didn't get any bigger his dick must have been 12" long and half again

rider then James dick. he said for me to put my hands on his shoulders and he would do all the work and for me to just relax and enjoy the feelings. I did and he slowly kept rubbing the head of his dick in my pussy until I felt that feeling of warmth go through me again at the same time his dick let go a gush of warm stuff into me as I relaxed again his dick slid all the way into me I thought I was sitting on a fence post, it was so big but there was no pain this time and for that I was happy dan felt good inside of me he slowly moved back and forth and I thought I was going to go crazy with pleasure I never wanted to stop, I wanted dan inside of me all the time I ain't enjoyed and again by that time I had my arms locked around daves neck I felt dan starting to take his dick out of me and I begged him not to so he pushed it back inside of me. I asked dan to carry me up stairs to my bedroom and ~~force~~ ^{force} me all day and not to take his dick out of me he laughed and then said ok I will. as dave started to get up out of the tub I put my legs around him and crossed my ankles. Dan carried me up stairs as I had asked he closed the door and locked it he reached down and pulled all the bedding back I the bed. Dan sat down on the bed and as I unlocked my legs he rolled over on top of me and push me across the bed using only the force of his hips he stayed inside of me the whole time. dan started kissing me he had one hand under my butt and one under my back slowly dan began

to push and pull back inside of me. at first there was no movement inside of me and then slowly his dick began to move a little at first and then there was full movement he moved inside of me and I seemed to mold around him as if I was a glove ~~was~~ a hand. it was as if we were the same person moving as one person I felt that I was going to melt away into dream and live for ever as a happy and ^{lasting} dream, and for me that was all I wanted, I felt dan explode many times inside of me and I exploded I would guess maybe 30 times we layed on my bed together all day as we sleep we held each other and came to feel closer to each other than I even though was possible. it was late when we awake dan kissed me and asked me if I was ok I asked dan to love me again he smiled and we loved each other several more times before we seperated and rested. I heard noise in the kitchen it sounded like mom making dinner dan and I dressed and went down stairs mom was starting to cook dinner and james was sitting at the table watching mom as we came in he smiled and said hi love birds we looked at each other and smiled James said that mom call him pet, and kissed him. I said that was my dades name as we watched her ~~move~~ come over to james and kissed him again she started talking to james as if he was dad. mom still didnt see or hear us she was still in her own world. dan told james to talk to her as if he was pet try to make her believe we are pet. and you are home to stay with her. and that you love her. dan asked me your dades name was pet I said no that is what mom called him, his name was Peter

but mom called him Pet. as mom cleaned up after dinner she kept talking to Pet. as if he was still there and had never left. mom came over to James and took him by the hand she then led him into her bedroom James left the door open and Dan and I followed them in. mom started taking off her blouse and Dan did the same when they had all there blouse off Dan said she look like you. you two could be sistens Dan gave me a squeeze and whispered but I like this sister the best. I love you to. I said and squeeze him back. James layed down on the bed and mom got on top of him. it reminded me when James first loved me yesterday mom lowered herself down on James' dick just a little then all the way down she kept going up and down on James' dick until she colapsed on him as she shook from her explosion James rolled her over on her back and started loving mom pushing his dick in and out of her. mom was pushing up to mom locked her legs around James and pulled him deeper inside of her until they both exploded and colapsed on the bed mom got back on top of James and started going up and down again at this point Dan and I left and went back upstairs we made love all night in the morning James awoke and told Dan that it was his turn to go into town and pick up the banded wire for the fencing that needed to be done. as Dan left he said I love you. and I'll see you when I get back. 244

Dan asked James how did he and mom get along last night. he smiled and said great. the two of them went downstairs together and dan got in the truck and left soon James came back and said I hope you didn't mind. that I was with your mom last night I said oh no I thought you two were beautiful I hope that you and mom have love all the time. dan was saying that you two look good together James said you have learned real quickly and that's good. you know that there are other names for what you call having love. there is fuck and intercourse. also they all mean the same thing. the expression we had intercourse. and the other is I want to fuck or do you want to fuck they all mean the same thing and I would like it if you would ~~try~~ using these other words also. I told James that I would. James then asked did dan only fuck me in my pussy. and I said yes. he got a smile on his face. then I should show you how you can fuck different ways. I said good then I could show you that I've learned more. James had only a pair of pants on he took them off and he sat on the bed. I said here put your mouth over my dick and lick my dick I did what he said but I could only stick the head in my mouth he said here try this I layed back on the bed and had me straddle him with my mouth on his dick and his mouth on my pussy. I tried to stick all of his dick in

of mouth but I couldn't James was too big. Dan
 is even bigger and I knew that I would never be
 able to fuck this way. James said. don't worry when
 you get older it will be easier for you to do. he
 then had me kneel on the bed and put two pillows under
 my hips he said this is another way to fuck. James
 got behind me and told me to spread my knees apart
 and lay my head on the bed with my butt up in
 the air I did what he said he then put his dick into
 my pussy and slowly pushed it in me. it felt like
 James had gotten bigger and longer but it felt good
 and he fucked me like that for several min. before
 we both exploded with pleasure. he kept his dick in
 me and told me to lay down on my stomach and keep my
 lips on the pillows. I did he still had his dick in me
 and he pushed and pulled his dick out of my pussy
 he moved my legs apart more he then said relax
 them he put the head of his dick against my butt hole
 and gently pushed his dick into my butt I felt his
 dick go deep inside of me again and it felt strange
 then a few min. of him pushing and pulling the dick
 and out of my butt it started feeling good and my pussy
 started feeling as if I was going to explode but I had
 hard time coming to the point of exploding but when
 did it was a long and slow very intense feeling. I
 felt real good. James fucked me several more times
 my butt until he was too tired to go on, and I was
 red too. slowly James got up and put his pants ^{Chill} _{was Ref}

He patted me on the butt and left and I slowly felt my strength return and I put my robe on and went down to take a bath. I thought I'll surprise dan with the new ways I have learned to fuck he will love me more. after my bath I went to the kitchen and fixed something to eat. I then went up stairs and got dressed and started cleaning the house. I heard mom singing in her room, that made me feel good. mom was starting to return to her same old self. maybe she will remember who I am or even see me. I miss not talking with mom, at least I have dan and James to talk to, and love. I was in the kitchen making dinner when dan came home he came in and said he had a present for me. I ran over and made dan give me the present oh come on show me what you have. oh ok. dan took out a large rubber bag with a rubber hose on it and there was a funny end ~~at~~ the end of the hose. dan said there are several different ends I asked what is it and dan said its an enema and this is how its works and what the different tips were for and how to use the enema as a douche and by putting a little vinegar in the bag with water it will keep me fresh and clean he said that he got one for me and one for mom and that they were the last two. because of the war and the shortages of rubber. I didnt know what to say so I said thanks I do need something so I can keep clean down there. I pointed to my suspect.

I was smiling and I told dan that I had a surprise for him to. he said what is it, what did you get for me. I jumped up and said I have learned two more ways to fuck. he looked puzzled. so I told him how it was done. dan got a strange look on his face, and said I'll be back in a little while go ahead and make dinner and we will talk when I get back. dan asked me if james was in the barn I said I think so. and dan left the kitchen. I made dinner and waited for dan and james to come and eat. dan left to find james about 2 hr. ago and neither one has come back yet. I was about to eat when I heard a gun shoot and it came from the barn. about 20 min. later james came out of the barn and came into the house 'is blouse was torn and he had straw on him he had a cut above his left eye. he sat down and took me in his arms and said that dan had been cleaning a gun and it went off and he shot himself he said that ~~for~~ dan was dead james held me until I couldnt cry anymore he then took me upstairs and put me to bed. he told me that he would take care of everything. I cried myself to sleep. the next morning I came down to the kitchen in james said that he had taken duns body into town for burial and that they were going to send him back to his family. I felt the same way I felt when dad got killed in the war. and how John died also. died. before I had noone to hold me or talk to. I'm glad james is here he loves me and he loves mom. I can count on james. hes here and I love him.

mom came out of her room and started fixing breakfast she started talking to Pet or should I say James as if she had just seen him 10 min. ago it was strange, mom still didn't know I was sitting next to James she didn't see me at all. mom sat down at the table and started eating she also made breakfast for James. James said from now on just call me Pet, like your mom does with two names even I get confused. I said I like that I'll call you Pet also. I just wish dan was here to. Pet said so do I. I miss him to. But I believe he would want us to go on with our lives and I think he would be sad if he thought we were to stop doing what we like to do so I would like us to stop thinking and talking about him. I think he'd like that. I told Pet I'll try he said I know you will and so would I. mom didn't hear anything we said she only sat there and ate breakfast and talked to herself. Pet said I got to do some work today I'll be back or noon. to eat. I kissed him and then mom kissed him and he went outside to do some work. I went downstairs and let the old water out of the tub and cleaned it and moved it out. I then refilled the tub and started the stove to heat the water in the tub. I thought a lot has happened this last week. I fucked for the first time I've had a dick in my pussy, and mouth, and butt mom has started talking, and dan had gotten himself killed and I have found someone who loves me, and loves mom, we are a family again. I was sitting on a stool in the basement and I remembered the present dan had got me. so I opened the box again.

I read the piece of paper and studied the picture I decided to try it. the paper says for duche use small amount of mild soap dissolved in warm water but not hot. fill bag with soap and water. squat down and insert tip all the way into opening, release hose clamps and move tip around. I didnt know what mild soap was so I thought laundry soap must be mild. so I took a small hand full of laundry soap and mixed it into the bag with warm water the water was real sudsy I took my blouse off squatted down over the drain in the floor I pushed the tip up all the way inside my pussy. I started moving it around and at the same time I opened the clamps on the hose

bag was hanging on the back of the chair I felt the warm water rush into me and as I moved the tip around and around water was pouring out of me and there was a lot of suds I felt clean inside after the bag was empty pulled the tip out and refilled the bag with water only kept filling the bag and moving the tip around inside my pussy until all the soap suds stopped coming out then read the paper again and it said fill bag with warm water and add 1/8 cup white vinegar to water the only vinegar I could find was dark vinegar so I put 1/8 cup of dark vinegar into the water in the bag.

I repeated the moving tip around as the water with vinegar rushed inside me my pussy ^{no feeling inside the} began to burn ^{traying because there} side me and then it stopped and I felt ^{are no more feeling} cool inside again. I dressed again and put the bag away and went upstairs. (S)

For the rest of the summer we spent loving each other and taking time out to do work on the farm some men from one of the farms came by and helped us get the alfalfa in and also get the apples and the vegetables in after we filled the root cellar we had a lot of food left over so we gave most of it to the other men for their families they thanked us and left. I felt good being able to help the other families of the men that helped us. I told Jane and Pet how I felt and they said that it made them feel good to and that we could always help others if we can. I was proud and happy to be part of this family I saw it as the best place in the world to be.

Chapter I

The first snap of winter we brought three steers in and butchered them we also killed four hogs and butchered them after wards we smoked some of the beef and most of the hogs we put one steer and two hogs in the cold house. and one hog and one steer we took around to the family of the men who had helped we get our crops in. we still had one steer and one hog left over we decided to take the meat and a load of vegetables to billings to give to the poor. Pet and Jane and me got into the truck and put all the food in the back and we left for billings when we got there Pet asked a notice man where was the place for people who wanted to donate food to the poor. I remember that the policeman told us to follow him Pet followed the policemen's car. to a big building. then the officer helped Pet carry all of the food inside the people were very happy to get the food and asked if we would like to stay and eat with them. I remember we had a little to eat and as we were leaving two woman asked if we would be able to take in some kids from orphanages that they were getting full. Jane spoke up and said we have room for some kids at our house Pet and I were surprised to hear Jane talk to anyone else then so we just went along with Jane. Pet said the kids need to be at least 10 years old no small kids. I don't have area for small children. one of the two woman said that we get kids from all over the country and there were a lot of them Pet said we will do what

we can for them. Jane said please no more than six and the lady smiled and said when can you take them. Jane said anytime. The woman said how about now and Jane said that fine. Pet spoke up and said please give us a couple hours we need to do some shopping first we will come by in two hours to pickup the children. The two women seemed so happy that they could find someplace to put the kids I thought she was going to kiss us, but she didn't. As we drove towards town no one said a word. I guess we were in shock. Jane said I always wanted kids around the house I just didn't want to have kids. I felt hurt inside and I wanted to cry but pet put his hand on my leg and squeezed it and then he patted it. I knew that he was trying to make me feel better but it didn't help too much. It still hurt me inside. Pet spoke up first and said that Jane and him had talked about getting me something for my birthday and we decided to get you some real nice clothes to wear. Jane said yes I would like to see you in some sexy loose. I noticed that you don't have very much to wear and we want to get you a good coat too. I couldn't believe what I was hearing. Jane leaned over and kissed me on the cheek and said pet and I love you and want you to stay with us. I was happy again and didn't know what to say. We stopped at a big store and Jane grabbed me by the hand and pulled me along with her. We went from one counter to another and then another he was looking for something. As we came to the area 255

that sold coats June looked at several and then grabbed four coats and said which one do you like I looked at them they all looked too expensive to buy I said I don't know they are are too pretty to wear. June grabbed one and said try this one I did and it fit I said this is beautiful June said then this is the one we'll buy. I kept the coat on and put my old coat in the bag. June then took me to the ladies department for seffy under were and accessories June picked out many things and said we'll take them June said maybe you'll let me wear some of them sometime. I smiled and said anytime you want. I was so happy I had butterflies in my stomach. do you see anything else that you would need I just said no. I saw Pet across the store he had a box of light bulbs with him. he was also carrying a bag of something I couldn't see what it was June said up what must have been lemon. I stamps for the clothing and Pet used up some more stamps I'll be glad when this war is over and the stamps are gone to. ration stamps were depressing June also bought several bolts of cloth to make things out of. when we got done we meet Pet at the truck. we went to the gas station and used more stamps to fill the tank up. we then headed for the place to pick up the children I felt funny again I was always the child and now I was to be the grown ups and to look after and teach the smaller children. when we got there we went inside and were met by the two woman again she said I'm glad you came back we were afraid you might have changed your mind June said not ~~we~~ we are here 256

pick up the children the woman said we have six children and they are all older than 10 years old. there was four girls and two boys. they were all older than 10 but they were almost as old as I was. I felt better now I had someone to talk to and play with. the oldest was a boy about 14 years old he was black and I had never seen a black person before he was about two inches taller than me. the youngest was a girl 12 years old. and she had red hair and green eyes and I was the same height as her the other boy was white with black hair and brown eyes he was about the same height as me and he was 12 years old. one of the girls ~~eyes~~ had blown hair like me she was 13 years old and had blue eyes. the next girl was also 13 years old and she was also black and had black hair. and brown eyes and she had just turned 13 years old. the last girl asian pet said she was from tyland she had long black hair and black eyes the shape of an almond nut. she had just turned 13. also the two woman said thank you for taking them we were hoping that we could find homes for them before winter sets in. pet told the kids that we had a long ride home and if anyone needed to go to the out house to go now. four children left and when they came back we all got in the truck Jane asked the ladies if they had any extra blankets for the children to keep them warm on the way home one of the woman told the children to each grab one of the blankets and we were good. after the kids got into the truck we left for home it took 9 hrs. to get home we stopped twice for gas but when we got home were we all tired I went into the 257

living room and started a fire in the pot bellied stove
June lit the stove in the kitchen and Pet started the stove
in the basement to heat the water in the tub. June started
fixing some food to eat most of the kids steps in the truck
coming home. So did ~~June~~ June and I. in about a hour
the house was good and warm June called the kids into eat
and everyone was hungry and eat alot. Pet and I showed
the kids where the water closet was at, also the out house, and
we showed them how to use the water pump also we showed
them how to use the lights and that they were to be turned
off when going to bed or leaving the room, that the lights
ran off battery. we also told them that anytime they were
hungry they could come down and get something to eat. we also

told them that if they had any questions or problems they
could come to any one of us and we would try to help as
best as we can. after eating we all went into the living room
and sat down. we told the kids how we did things here
how we helped each other get there jobs done and how
we share everything we have. we told them that this was
in home and it could be there home too if they wanted to
stay that noone would make them stay if they want to
go. that this is a home not a prison. everyone said
that they wanted to stay. here and live with us and each
then I asked if the black boy and the black girl were brother
and sister they smiled and said no. I then asked if anyone
were related and everyone said no. I said that here
this family everyone takes a bath together in a tub
in the basement and that the water is heated.

1 explained that during the winter months work is slow and that there is not much to do, but in the summer there is a lot to do, and everyone works together. I said tonight everyone will take a bath and sleep in the living room and tomorrow we will set to putting people in rooms. Pet said that the water was warm. So June and I told the kids to follow us to the basement. June had grabbed a arm load of towels and taken them down with us. when we got down stairs the basement was warm. June said for everyone to take off there clouse and I took off my clouse also. June told me to show how I would take a bath. I took a bucket of warm water from the tub and washed myself all over. I then used soap to scrub myself.

2 Then I took another bucket of water and rinsed all the soap off. I then went up the stairs and stepped into the tub and sat down and started soaking. June asked who is next. I stepped forward she was the asian girl she repeated everything I did and then got into the tub with me. the little girl with the red hair also did what we had done and got in the tub with us. anna the black girl and lue the other blown headed girl did what we had done and got into the tub also. paul the white boy and Sam the black boy washed and rinsed and got into the tub. sam was forced to sit next to me. as June washed and got into the tub she sat on the other side of the tub from

3 making sam move closer to me. his body was touching mine and I could feel that he was nervous and hence he sat with his hands in his belt. 259

with all of us in the tub the water was up to our necks and the fire was still going and the water was getting warmer. I said lets go around and tell ~~how~~ we come to be here I said sam you start. Sam didn't speak right away but after a few min. he said that his parents had died in a ~~concrey~~ fire and he was all alone he then said that he was glad to be here the storge went from one kid to the next until all had spoken I then said June is my sister and this is her home and I'm staying with her. June looked at me and smiled and she said thats right and both mary and pet and myself are really glad to have all of you here with us. by now everyone was relaxed from talking and the heat of the water. I said "ll be right back. I got up and got out of the tub I then turned the valve off on the water line leading to the stove I then got back into the tub. I made sure that I sat down very close to sam. I asked if anyone had ever taken a bath like this were everyone were in the tub together Jan said I use to bath like this with my whole family. then do you like the way we bath Jan said yes it makes me feel closer to everyone you know like a family. I though that is nice the only one of the kids is a asian girl who has ever bathed like this. at this point I let my hand go into Sam's eye and hold his hand he jumped at first but then relaxed I said sam do you like the way we take a bath. Sam said yes I then asked paul did he like the bath he also said yes. I asked each of the girls in turn if they liked this they all said yes they do. June said I would like everyone.

I put there arms around the person sitting next to them
 I put my arms around Sam and he put his arms around
 me and so on an on until everyone was holding another
 person now June said kiss that person Sam gave me a
 peck on the cheek and I said Sam like this I put my mouth
 on his and kissed him hard and long, until he started
 to respond to the kiss, I then stoped and pulled back now
 isnt that better he shook his head up and down and smiller
 June then said do the same with the person on the other
 side of you. on the other side was a stairs leading out of the
 tub so I got up and went over to the girl on the other side
 of the stairs that was rose I put my arms around her and
 she around me and we kissed she felt like she did want to
 go so I kissed her again and she sat back down and
 smiled at the red of her hair and the pink of her skin from
 the water made her look like a tomato with a big smile.
 June said I've got to go something's wrong you can stay
 as long as you want. and she got up and got out of the
 tub. she dried off and picked all the clouse up and put them
 in the washing ^{tub} machine in the corner. the circle opened
 up a little because June left but Sam moved closer to
 me. Sam hand went after my hand but as he found my
 hand I squeezed it and put it in my lap I then put my
 hand in his lap I could feel that he had a dick as big
 as Pete and Sam were only 14 years old. as I touch him
 he jerked back away from me, as if I had hit him.
 Then said its about time we get out and get some sleep
 I got out of the tub first and was followed by everyone

I see we dropped off and raped the stools around ourselves as we left the basement I turned off the light & then told Sam that I wanted to talk to him he said ok I took the others into the living room and Jane had layed good blankets out for everyone. I said better get some sleep tomorrow will be here soon. everyone took a blanket and raped up in it. Sam also got a blanket and I said Sam would you please come with me I would like to talk to you. Sam followed me up to my room. I turned the light on and sat on the bed I then pulled my legs up and put my head on my knees I had taken off the towel and I sat there naked in front of him. the look on his face was one of shock. I asked him why was he standing up with the blanket around himself. his mouth was moving but no words came out. I said take that blanket off and come over here and sit on the bed with me. I would like to talk to you. he let the blanket fall to the floor and he was nude I said please close the door he did and then he came over and sat down next to me. I asked him why he jumped when I touched him on his dick his mouth was moving again but he still could not speak he stopped trying to speak and just looked at me. I asked him I don't understand In I that ugly? he said no your beautiful. I asked him have you ever seen a girl before and he said yes with clothes on. oh then you have never seen a girl naked before he said no. do you want to see me like this he said no. I mean yes yes I do. I said there is nothing special about how a girl is

made me are all the same just different, and that is good he thought as mine. and said I guess so. I said here give me your hand. I took his hand and put them on my tits & then said rub them and feel them he did now kiss them he did that to and again and again until I started feeling like I was going to reach the exploding point & then said taking his hands off my tits how do you feel now. I looked at his dick and it was large and long I thought only men had dicks that big Sam only had a little hair on his dick area. I asked Sam do you know what that is for he said yes. I said I mean when it comes to woman. he said yes. do you know were it was he said yes. I said were then and he pointed at my pussy. I said that is right. and you have never done that before have you he look down and said no. do you want to put your dick in my pussy he said yes well then you will have to learn all about how a pussy looks and feels and taste and how to make a woman feel good to. he said ok I will I then layed back on the bed and spread my legs apart and lifted my knees up so my feet were flat on the bed. I told Sam to get down and look how a pussy is and how it feels I told him to touch me with his tongue he did and it felt good I told him to put his tongue inside my pussy and taste how I tasted and he did & then told me to put his finger in my pussy and feel how it feels inside of me he did that to he kept doing all the things I told him to do. I then said now Sam

lay down on your back next to me she did and I moved out of his way. I took a hold of his dick and started rubbing it with my hand around it until it was full length it was at least 10" long and all big around as Sam was with a big head. I said do you want to put your dick in my pussy now he said yes so I straddled his hips and put my pussy over his dick head I then lowered myself onto his dick I felt his dick jerk and he exploded into me and I hadn't even gotten the head of his dick into me. I told Sam don't worry then I said put your hands on my hips and I will do all the work just lay back and enjoy what I'm doing. He did I lowered myself onto his dick again he was still hard as a rock I found with his cum inside of me I could lower myself down onto him easier I felt like Sam was inside me again but same dick head was bigger and his dick harder than Sam as I reached bottom I asked Sam how does that feel his eyes were glassy I moved up and down again and again faster and faster until we both came together and I rolled over in the bed Sam held me and stayed inside of me he was still hard as a rock I said do you want more he said yes! then you will need to get on top and fuck me. He fucked me for more than three hours without stopping. I said when he stopped now go down the tub and wash off good and go to bed ok I will be said can we do this some more I smiled and she said yes I will let you know when. He left with

smile and his blanket. I washed up in the wash basin and went to sleep. The next morning I woke up and rose was sitting on the side of my bed looking at me and smiling. I said hi. and she started talking saying that Pet had taken the boys with him this morning to do chores and that Jane was in the basement washing the tub and that June was helping her. she went on and on until she didnt have anything else to say then she smiled. I got up and she looked at me I was nude and I said what are you look at. She said someday I hope I'm as beautiful as you are. I laughed and said dont worry you are already she said but you have big tits and hair on your privates. I said this is called pussy ok. she said see I have no hair on my pussy and my tits are only small. I looked and she had tits about two inches high and I told her to open her legs and she was right no hair set. I came close to her and put my arms around her and kissed her on the lips and squeezed her and told her you will be the most beautiful girl here just wait and see. her smile spread across her face and she giggled. I went down stairs with out putting any clothes on feet rose rapped up in her blanket and followed me. I went down to the basement and all the girls were there they had the wash tubs full soapy water and were washing all the clothes all of them were naked I saw June in the tub so I went over to her and kissed her on the lips and said good mornin.

June told me that pet took the boys to cut fire wood
 and bring in another steer. I told June that sam would
 make a good addition to the family she smiled and
 said that sounds good. I went over and started helping
 the girls do the wash as we worked we talked after a
 while I asked if any of the girls had ever been fucked
 by a man. there was no sound and then anna said
 that three month ago a man at the exchange had
 fucked her and it hurt I told her that it always hurt
 the first time but after that it is the best feeling that
 you can imagine. she said really I didnt know that
 so I told her about the peice of skin that is in the
 way and has to be pushed out of the way of a mans
 "ick". The other girls lissioned to every word June said
 she is telling the truth about that. Sue spoke up and
 said when can we fuck. Jan spoke up and said you
 have to be married before you can fuck. I said do you
 dont any girl can fuck when her pussy is big
 enough to get a man inside of her. June said yes that
 is true and a man or a woman dont need to be married
 to fuck. if a woman is married she has to fuck if her
 husband wants to. but if she is not married she can
 fuck anyone anytime because she wants to. not because
 she has to. all the girls smiled and said thats good
 like that. Jan said I always thought I had to be
 married before I could fuck. June said that was a rule
 that men made up to force woman to do what they
 want them to do.

266

she said have you ever fucked before. and I said yes all
 the time. who was he. I said I have fucked Pet and a man
 who died and I fucked some last night. all the girls
 looked at me and then at each other. but women can
 fuck each other also. that is without the use of a mans
 dick. how was the question that was asked by all of the
 girls. I said latter I'll tell you but I've got to
 fix breakfast now. I went up stairs and started fixing
 breakfast and anna and rose came into the kitchen and wispered
 can you show us how to fuck and enjoy it I said do
 you mean with a man or with a woman anna said both
 and rose said with you. I put my arms around both of
 them and squeezed them. I said I would love to show
 you. But why are you wispering I said what you
 are asking me to do is good and right and you should
 not be embarced to say I want to fuck you or
 please fuck me. that is something to be open and clear
 and feel good about. not something to be wispered about
 is being shameful or bad. and rose you said that
 you wanted to fuck me not anna here or anyone
 else but why just me. she looked at me and I saw
 a tear come to her eye then she said I love you.
 I hugged both of them and said I love both of
 you. and I would feel real happy to fuck both
 of you. the two girls looked at each other and went
 'ok down to the basement. I put the food on the
 table and called everyone up to eat. Jane said
 'can do then. have a lot of questions. I could hardly

uncrew one before another was asked. June then said maybe
 they will come to love you and me as much as I
 love you. Oh. by the way I liked that last night
 about us being sisters. well we are in a way I love
 you as a sister and a sister is part of of each one.
 after breakfast I took the girls up stairs and let them
 pick two rooms out and decide who they wanted
 for a room mate as I though anna and rose were
 in one room and Sue and Jan were in the other room
 I told the girls that the other room was for the boys
 the girls spent the rest of the day fixing there rooms up
 and putting there chaise away. I said maybe it would be
 nice if we all helped by putting the boys room together
 them. they all started cleaning and making the bed and
 putting there chaise away by the time come for dinner
 and the men came home the house was cleaned and
 everything was put away pet came in with the boys
 and went down stairs they washed up and put clean
 chaise on. then we all ate dinner as we ate we talked
 I could see that they had worked hard today and
 had trouble staying awake. I said these two
 almost worked me into the ground. they did real
 good today, those words were like someone just
 gave them a 10 hour sleep they both sat up and
 were smiling. but after a few min. they were half
 asleep again. anna said that they had all got
 together and put the boys room together for them
 and Paul thanked everyone and kissed them

dinner. Paul and Sam said that they wanted to get some sleep that they were tired so Anna and Sue helped the boys to their room as soon as they layed down on their bed they were asleep. Anna came up to me and said can you show me tonight rose heard what Anna said and asked and me to. I said sure I can. I asked Anna and rose to give me a hand so Sue and Jan went down stairs to session to the radio. I took the girls back into the boys room and said we need to take them close of as the girls took the boys close of they layed then on a chair next to the bed the boys were sound asleep when the girls had all of the boys close off I told the girls to take a good look at the boys to touch and feel the boys bodies Anna was looking over Sam's body and rose was looking over Paul's body I told the girls to change places now Anna was touching Paul's body and rose was touching Sam I then asked the girls what the boys looked like to them and they started telling me how they looked and felt. I noticed Anna rubbing Paul's dick and touching her self on her pussy. I said pull the blankets up over them and turn the light out and come with me. I took the two girls into my room and told them to take off their clothes and they did. first I had Anna lay down on her back on the bed and spread her legs wide open she did. I told rose to look at everything to touch and feel but only with her tongue on Anna's pussy. I told her to lick every

face she can get to. I told anna to relax and just enjoy the feeling of how good rose's tongue feels inside of her. the more rose kissed and licked anna's pussy the more she wanted to lick her pussy also I could see that anna was having the time of her life I told anna not to hold back just to let go and go with the pleasure after a few min. anna started cumming and rose licked her pussy even harder after she was finished cumming I told rose to change spots with anna and to do the same thing to each other, and they did and they both acted and responded the same as the other did before. after they stopped I said now its my turn and I took the position twice for each of them

I took them. after wards as we sat on the bed I gave them a piece of paper and a pencil and told them to draw what a man looks like and put in every detail that you can remember they did then I gave them another piece of paper and told them to draw what a girl looks like both on and in her pussy. both drawings were good with detail anna had more detail of the man and rose had more detail of the girl. I told the girls to go back to their own and do what ever they want to do. that we will do some more tomorrow. I went down stairs and out into the living room sue and Jan were sitting in the ingroom listening to the radio and talking and came into a room they both stopped talking. I said hi how you are Jan she said she went to bed her and Pete I said ok.

I told the girls that tomorrow I planned on taking them around the farm and show them the whole place. I thought all you girls should know their home, and what is here. I think after you see the place then you can decide if you like this place and want to stay. They looked at each other, and said we like it here and we want to stay if we can. I said why can't you stay. I thought that you didn't like us and didn't want us here. I went over and sat down next to the two girls and said what did I do to make you think that I didn't like you. The two girls looked at each other and then said that Anna and Rose said that you showed them how to fuck each other, and you didn't show us, we thought you didn't want us, we thought that you would make us go back to the orphanage. I said I showed Anna and Rose how to fuck each other because they asked me to show them they came to me and ask me to show them I didn't go to them. I wouldn't go to any of you girls and make you do something that you don't want to do, but we do want to fuck each other and you and men also we want to learn everything. I said and if anyone doesn't want to risk either a man or a woman that would not be a reason to take anyone back to that place, you don't have to be any type of sex, it's all up to you. Jan and Sue both woke up at the same time please show me how to fuck. I said hey didn't you ask me earlier. Jan said I was afraid that I would say no. Jan I said I would never say no to you we said will you show me to how to fuck please. I said ok how do you want to do it. They both said now.

I said ok. I went upstairs and both Jan and Sue followed me into my bed room I took off my cloose and told the girls to do the same when they had taken off all of their cloose I had Jan lay on the bed on her back and spread her legs wide open Jan had the most beautiful pussy I had ever seen I told Sue to watch what I do watch how I do it and watch Jan's movements I told Jan to just relax and let the feeling of pleasure take her wherever it wants to take her to totally let herself go.

I knelled down on the floor with my head above Jan's pussy she had a small stripe of hair just starting to grow the outer lips were only about 1/2" long the inside of her pussy was pink not wet and warm I first took my tongue and slowly went from Jan's butt hole up to her pussy taking my tongue and slowly pushing one side of the lips apart and then the other then I took my tongue and made large circles on the outer lips of her pussy slowly moving my tongue inward to lap at the inner most part of Jan's pussy at this point I slowly put my mouth into her pussy and licking her deeply at this point Jan is 'crying and crying more more o.o. I feel so good. I move up to the bed and lean over and kiss Jan long and hard on her lips and she kiss me back longer then I could hold my breath and I moved my mouth down to her little tits and they were hard and nice. I asked Sue if she saw everything I did and she said yes I asked her if she was ready Sue id yes I had been watching her from time to time when she was rubbing her pussy. I told Sue to knell down and do exactly what I did do you think you can do that. Sue said I want to do this. Sue knelled down as I did and started licking

Jane's pussy and Jan started moving her hips to the movements of Sue's tongue as Sue's mouth was sucking pleasure into Jane's pussy. Jan exploded into Sue's mouth and Sue licked it all. Sue climbed up onto Jan and started kissing her all over. I said that was perfect. I told Jan to get off the bed and for Sue to lay down as Jan did. Jan watched me as I did the same thing to Sue that I did to her and she envied. Like she was on fire. Sue's pussy was larger than Jane's and she was more fit to except a mans dick than rose or Jan was they both needed more time to grow before they could take a mans dick. I then had Jan do what I did to Sue and Jan was eager to suck on Sue's pussy and she licked and sucked Sue's pussy until Sue came and came and then Sue fell limp and was panting.

I trying to get her breath I told Jan and Sue to go to their rooms and get some sleep that tomorrow would be a long day. Both Jan and Sue said dont you want us to do it to you we want to. I said tomorrow will be nice but Im real sleepy. The girls went to their room and I went to sleep. The next morning when I woke up I put my robe on and went down stairs and Jane was sitting at the kitchen table drinking some tea. I got a cup and asked her if she felt ok. she said that pet had worn her out last night and that she was a little tired. I told her what had happened with the girls last night and how they all really enjoyed there new knowledge. I told Jane that I had planned for today and she laughed and said that sounded good. Jane said that she would like to sit in on our lessons but that she didnt feel

up to doing anything. I asked June if there was anything that I could do to help her. she said you have already done that you have sat with me and talked I like just to sit and talk. June ~~at~~ said that she would like to help guide the girls in there learning about loving themselves as well as men. as we sat talking the girls started coming down to the kitchen when all of them had shown up I got up and started fixing breakfast anna said that she would help me. soon we had the food ready and everyone sat around the table and eat breakfast. after we were done Sue and Jan did the dishes and cleaned up. after that we all went into the living room June had started a fire in the stove in the living room.

I we all sat around and started talking and of course the subject was about to what they had learned last night. and about the conversation that Jan and sue had with me about them thinking that I didnt want to have sex with them and how they felt like I didnt love them we want them here. I explained again that noone had to fuck anyone that we all come together out of love and a need to show ourselves with the ones we love. June said that we fuck each other and men because we love the other person and want them to feel good and 'cause we like the feeling also we want to be as close to the other person as we can, but everything is done out of love. both for the other person as well as for ourselves 'one asked if they liked what I had shown them last night all of them said yes and they did everything.

vain and again after they went back to their rooms, all the girls except rose wanted to know when they would be able to fuck a man. I said Sam's too big for any of you know but I don't know about Paul I will find out and let you know. I said that I thought that both anna and Sue were big enough to get a man into them with out any trouble I said I don't know about Jan it depends on how big Paul is Jane said that all men have different size dicks and some are easier to get into our pussys but the first time there is always pain after that there is no pain only pleasure and happiness. I said that there is more to loving and fucking someone then just the tick of a tongue on a dick. I showed you only how it is done it is up to you to put your own feelings into what you do knowing how different feelings make you feel and how they make the other person feel. I said you must experiment with as many different ways of pleasing yourselves as well as with the person that you are with. don't be afraid to try new things. I said I would like to see rose and anna take Jan and Sue as lovers change partners. when would we do this sue said how about now Jane said right here in the living room. the girls all got undressed and paired off and started touching each other, kissing and licking each others bodies and pussys with a few men. they were all having lots of fun changing partners again and again. I leaned over to rose and asked her if she liked what I had done. she smiled

not said yes very much. I asked June to ask pet if he would
 leave Paul here after lunch today so I could see how he would
 be for the girls. June said that sounded good. I'll do it.
 the rest of the morning the girls layed around and took care
 of each other and grow closer to each other and more comfortable
 with there new found knowlage of sex. after lunch I took
 dan down stairs to the basement and had him wash off
 and get into the tub of water with me as we sat there I asked
 him what type of work they were doing and Paul said cutting
 fire wood and pruning the apple trees I could see that Paul
 was feeling the warmth of the water and relaxing him I asked
 Paul to rub my shoulders that they were sore he said sure
 I got up and asked him to sit on the stool in the center of
 the tub were dan had fucked me Paul sat on the stool and
 I sat on his lap facing him. he started rubbing my shoulder
 and it felt good. I had my hands on his hips I moved
 round on his lap trying to push my pussy down on
 his dick soon I could feel his dick starting to grow against
 me. I told Paul that I needed to go upstairs and lay
 down and that I would like it if we would come along
 and rub my back as well. he said sure. as we got out
 of the tub I changed off and put my robe on and Paul put
 his pants on and carried the rest of his clothes. we went
 up to my room I asked Paul to close the door and I
 took off my robe and layed down on the bed on my stomach
 spread my legs far enough apart to see my pussy
 from the back. I asked Paul to take off his pants and
 lay on his bed. he did! then said to straddle me so he could

rest both hand on my back he did he shaded my
 butt and started rubbing my back and shoulders I said
 that feels real good and asked him to rub harder on my
 lower back and hips he had to move down to sit on my
 knees I told him how good that felt I asked him if he minded
 doing this for me he said no anything you want me to
 rub your back just ask me I will do it all the time.
 I knew he could see my pussy. asked Paul if he would mind
 rubbing my shoulders all the way down to my legs he
 had to lean far forward to reach my shoulder as he leaned
 forward I pushed my butt up and touched his dick I kept
 doing this until I thought he was going to come. I then
 said Paul would you mind if I roll over and would you
 rub my stomach and legs too he said I dont mind he got off
 of my legs and pulled them out from under him. I then turned
 over and put one leg on each side of him he sat back
 lower on his knees and leaned forward and started
 rubbing my stomach I closed my eyes and said now my
 hips and upper legs as his hands rubbed my hips and
 upper legs I opened my eyes and looked to see his
 dick it was about 8" long and about half as big around
 as mine I thought that would be the exact size for
 the girls. I asked Paul to rub the inside of my legs
 and to please do it slow and hard. he seemed eager to
 do what ever I wanted him to do. he rubbed first one leg
 and then the other It felt so good I didnt want to stop
 but I needed to bring Paul to fucking me. I told Paul
 that that feels great good. but could he rub higher up

CONFIDENTIAL

on the inside of my leg he did and I said higher now
 I could feel his hands brushing the lips of my pussy
 every time his hands came up my legs I could feel that
 everytime his hands came up my leg his fingers would
 go to my pussy and on occasion a while his finger would
 go into me. I said that feels real good. now his hands
 and fingers stayed both on my pussy and inside of me
 I told him that he was real good at this that he
 must have done this before he said no that this is
 the first time. I asked him if he liked doing this to me
 he said oh yes. I ask Paul if he would kiss my pussy
 no sooner had I asked him to do it he was laying down
 with his face buried in my pussy kissing me all
 over and inside of me with his tongue he kept doing this
 until I came and come he would not stop he just kept
 licking my pussy I had to get him to stop it was
 getting hard for me to think. I reach down and took
 a hold of his shoulder and squeezed him. he finally stopped
 and look at me. I said you do that like I've never
 had it done before I'd like to do something for you.
 I said come here he shifted himself and came up
 face me. I pushed my hips up putting my pussy
 against his dick I reach down and took a hold of his
 dick and strong guided it into me when his dick
 touched my pussy lips he exploded I then urged
 in to fuck me at first he entered me slowly after that
 I started fucking me faster and faster I told him to slow
 down and take his time that a girl likes it slow until

To time to cum he slowed down and took his time
 soon he exploded again and again. Although even though
 he much smaller the same or Pet he still feels real
 good inside of me. and in some ways he felt better I didn't
 feel like I was sitting on a pole. I had room to move around
 and I could move so he would touch the places I needed
 more feeling on I was happy with Pauls smaller dick
 I locked my legs around him and moved to his moves
 I started cumming more and more than I have ever
 cummed in the past I felt great and the thought of Paul
 inside of me want more. soon we both were laying
 next to each other trying to catch our breath. after a few
 min. I rolled over and kissed him hard on the lips I said
 'ank you that was the best fuck that I have ever
 had. Paul was all smiles. I told Paul that I had a problem
 and asked if he could help me he said yes before I could
 tell him what it was. I said what I want to tell you
 what the problem is first. he said ok. ok. I told him
 how the girls wanted to know more about fucking
 but both Sam and Pet were to big to fuck them
 that I needed him to help me teach the girls Paul
 said you want me to fuck the other girls I said yes
 'ut dont worry I will be there to help too. Paul said you
 'ont mind if I fuck the other girls. I said no not at all
 to make me feel good when everyone is able to fuck everyone
 I would like to see you fuck all the girls and June and me
 all the time. I dont get jelous you see I love you as well
 as I love Sam and Pet and all the girls and June. and I

would like to see you love everyone too. So would you help me and the other girls too. a big smile came on his face and he said yes I'll help you. I gave Paul a big kiss and said could you please fuck me again and we did we stopped before dinner time and cleaned up and rested. I was feeling real good about myself and the fact that everything was going just ~~fine~~ fine. Pat and Sam came in for dinner and washed up I could see that they were really tired just like last night. Pat said the woods all cut and put away tomorrow we will take it easier I leaned over to Pat and said thanks everything worked out fine. Pat smiled and said 'do you think that we can find some time tomorrow to get together Pat said I think we can find some time for that.

Pat and Sam went off to their bedrooms and passed out. Anne and I started cleaning up after dinner and I asked Anna if I could talk to her for a min. we went into the basement and I said do you want to fuck tonight. she said ok then I said there will be you and me and Paul do you want to try to fuck again this time with Paul I will be there to help. she was silent for a long time and then said yes I would like that. we went upstairs to my bedroom and Paul was already there Anna and I came and closed the door. I was the first to take off my clothes Anna and Paul took off their clothes at the same time I asked them to get on the bed with me. I asked Paul to lay on his back on the bed. Anna and I were on either side of him. I told Paul that a man in the org. had fucked Anna before and he had hurt her and she was

would to fuck again because she was hurt before. Paul
 said I promise I won't hurt you Mary asked me to help
 her, to help the girls in here to help you not hurt you
 I would never do that. I saw a sense of relief go over
 anna's body and she relaxed and started talking. I told anna
 to do what I do I first reached down and kissed Paul on
 the lips long enough for my pussy to start to twitch then
 anna did the same. I put my hands on Paul's chest and
 ran them down to his stomach and down to his dick and rubbed
 him and then reach down and kissed his dick. anna did the
 same as I had done and when she came to Paul's dick she rubbed
 it but instead of just kissing his dick she put her mouth over
 it and it looked like she was trying to get his hole with
 her mouth and then she sucked it until Paul came
 and she kept sucking him. I told anna to straddle Paul
 head and she did soon they were in a 69 position each kiss
 ing and licking and sucking the other and they both were
 enjoying themselves and the other person. They had come
 several times and had stopped to get some air I asked anna
 to straddle Paul's dick and when she did she gently lowered
 herself down on to Paul's dick he slid into anna as if he
 was made for her and the the look of relief that came over
 her once she found out that there was no pain just
 pleasure. I told them to keep doing what they are doing
 I enjoy themselves and each other and stay as long
 they want. that I'll be back later I don't think that
 they heard me put my robe on or leave the room.
 stayed back at the room and they had just stopped to catch

then breath and rest until later I asked them to wait a while that I wanted to do something. They said ok.

I looked around and found Sue sitting in the living room reading a book I came over to her and said Sue do you want to fuck a man and she said yes. I said Paul an anna are up stairs now and I'm going back up do you want to fuck a man now. she was on her feet and we headed upstairs to my bedroom, as sue and I came in the room Paul and anna were laying on the bed talking and laughing naked with there arms around each other. I said Sue is here to join us tonight at first anna looked hurt and then she said sue I was hoping you could come up Paul said I'm glad to see you too I hope that we can all have fun together anna said yes I hope so. sue and I took off our cloase and we got on the bed together first anna told sue she was afraid and now she was happy that she came and had sex with Paul they hugged each other again Sue said that she was here because she wanted to have sex to. so I had anna show Sue how to start anna showed Sue how I had showed her to get ready Sue did perfectly. the same as anna did and when it came time to straddle Pauls dick anna said dont worry about the pain. Sue said I dont mind any pain I just want to fuck she eased herself down on Pauls dick until she came to the patch I skin she slowly raised up and down until beads of sweat were on her forehead I could tell she was close to coming just as she was starting to cum she pushed all of her weight down on Pauls dick and it slid all the way

& into her she cried out just once and stopped soon
 she was going up and down on his dick like she had
 been doing it all her life anna said how is the pain
 and sue said the pain is gone it only lasted a min.
 now there is no pain. they keep fucking again and again.
 they would cum and cum soon they fell apart panting
 for air. anna put her arms around them and said
 I love you both that was beautiful. I said why dont
 the three of you go back to one of your rooms and have
 one of your room mates change rooms for for the night.
 now I want you to go back to your room and practice ~~what~~
 everything that you have learned here tonight try
 all types of variations and experimentation with new
 things dont be afraid to love each other. now go get out
 I here have fun. after they left my room I felt lonely
 I wished I was with them having sex and fucking the
 night away. as I layed down on the bed. I heard a knock at
 the door I said come in and rose and jay were at the door. they
 came in and stood in the middle of the floor and just looked
 to me and said why didnt you ask us if we wanted to fuck
 why didnt you let us say yes or no. I kissed them
 and when they finished talking I said sit down and I
 pulled the bed. both jay and rose sat on the bed next to
 e. I said do you last night jay when I had a talk with
 you and sue and how you thought I didnt like you two
 cause I didnt show you how to fuck another woman
 I rose didnt you tell me that you didnt want to fuck
 a man that you wanted only to fuck me.

and today when we were together in the living room didn't I
 say that I believed that Sue and Anna had pussys big
 enough to allow a man into them and neither one of you
 said how many I want to try to take a man inside of
 me now I don't remember hearing anyone say that
 also Paul is only one man and he can only last long
 enough to satisfy at the most two women in one night
 he has only so much strength. now you tell me what
 was I suppose to do? please tell me I said rose I believe
 that if you were able to get a man inside of you that
 if it was even Paul that it would hurt you and I don't want
 anything to hurt you because I love you and for your
 pussy is probably the prettiest pussy I have ever seen
 and the size of your opening is probably just big enough
 to get Paul inside of you but if it isn't and it hurt
 you how could I even forgive myself for telling you to
 go ahead and try I also love you just as much as I
 love rose or Anna or Sue. I feel responsible for you.
 and don't you think that I would like to be in the other
 bedroom fucking Paul and Sue and Anna tonight but no
 I'm here with you to instead of enjoying myself with
 them Paul could not satisfy both Anna and Sue and me,
 or for that matter, now do you have any more questions
 I don't even go to bed. both of you are
 smart enough to think why things are the way they are.
 two girls said we were wrong for thinking that you
 didn't think we were good enough to fuck a man. we
 know that you love us. we love you, too.

I told the girl if you want to fuck a man just tell me that you want to fuck a man and I will try to set it up and then I will do the best I can do, to make sure that your are not hurt but I can not promise that. Jan said I want to fuck a man rose said I'll wait until you say that I'm big enough to take a man. are you sure Jan. she said yes I said ok I will do what I can. I asked rose if she would mind if Jan stayed here tonight and for you to sleep in your own bed. and tomorrow night you can sleep with me. rose said ok. and she left the bed room I told Jan to get ready for bed and that I would be back in a few min. I went down stairs to the root cellar and got up some things and raped them up in a towel and carried them back to my room Jan said what do you have there I said just some things to get your pussy into a mans dick and to make your pussy larger Jan said will it hurt and I said maybe a little but not as much as it would if you dont have to do tonight. Jan said thank you marry I will always love you for helping me to become a woman. I said Jan take off all your clothing she did and was sitting on the bed I poured a large glass of hard cider and handed it to Jan I said drink it all she drank it all and handed it back to me I refilled it and she drank it all I did this several more times before Jan could not sit upright she kept rolling over she was quite drunk by now I said how do you feel. how she started giggling and saying she was drunk all over I reached down between Jan's legs and punched

the outer lips of her pussy hand and she felt nothing, Joan
 was laying on her back on the bed. I started kissing Joan's
 pussy and licking her deep inside of her pussy. she still
 didn't feel a thing soon Joan passed out and she went
 limp. I gently put a finger into Joan I felt all around inside
 of her she was wet and slippery I put two more fingers into
 Joan and it was tight inside of her soon she started getting looser
 and my fingers moved easily I put my last finger into her
 pussy and her lips and opening seemed to loosen up I took a
 carrot out of the travel I first put the carrot into myself held
 it on to the small end I finally had the whole carrot inside of
 me. I started cumming again and again I kept thinking how
 nice it would be to be able to fuck Joan like a man would
 if my fingers were inside of her I pulled my fingers out of her
 and pulled the carrot out of myself. I reached down and kissed
 Joan's pussy. I looked at the carrot and slowly put it into
 Joan's pussy slowly moving it in and out each time the carrot
 went into her it went a little deeper Joan had about four inches
 inside of her. I thought that I have spit her piece of skin I
 moved the carrot a little in and out until she was moving every
 around the carrot. I took a deep breath and pushed hard into
 her at first the carrot would not go in any farther then the
 carrot dropped into her and my hand was against Joan's pussy
 I saw a small amount of blood oozed out from around
 the carrot and the carrot moved in and out of Joan easily
 I took the carrot out of Joan and wiped the carrot off and put
 it away and then wiped Joan off I wiped away her blood
 and I felt sorry that I had hurt Joan but she didn't feel it

now she won't feel the pain of her first time. I was glad for that. I pulled Joan up onto the bed farther & then put two pillows under her butt and layed her legs and her pussy was pushed up into the air, and the tiny outer lips lolled back to reveal a pink valley of cotton candy with a dark pink pit leading to heaven itself. I had to lean down and kiss her lips and valleys and pits. I went down the hall to get Paul as I came in the three of them were sitting on the bed laughing. I said I need to borrow Paul for about 1 hour and then you two can have him back. Paul followed me into my bedroom he saw Joan laying on the bed I said I need you to fuck her now I said I will tell you everything to do. Paul said ok I'll do what ever you say. I put my hand on Paul's arm and said yes I know you will you see she has never had a man before and she is not all that big inside so I need to make sure that she doesn't get hurt. Paul said I understand I handed Paul a glass of cider he drank it and said what do you want me to do first I said kiss and lick her pussy. Paul did what I had told him to do after a few min. I was on the bed beside him I was kneeling down only a couple of inches on Joan's sweet pussy. I told Paul to put his dick into my pussy from the back he got behind me and put his dick to my pussy he pumped a few times then I said come over here and I will guide you into Joan's pussy Paul scooted down between Joan's legs and braced himself with his arms as if he was doing a push up. I took hold of his dick's shaft and moved the head around on Joan's pussy

lips as her pussy lips got onto his dick I pushed the head
 down about 1/2 inch into the fluffy pink gash slowly moving
 the head of his dick around and around the outside of the
 dark pink pit. and very slowly I pushed the head into your
 pussy first in a little then out and then in a little farther
 and back out until Paula hole dick was in her he layed
 there inside of you then I told him to slowly fuck her.
 he did everything I said after a few min. I told paul
 to fuck your lips his life depended on how good he could
 fuck her. Paul then took you in his arms and fucked her
 over and over again and again he exploded inside you about
 four times and he had to stop to catch his breath. I told
 him that was enough for one night and that he did a
 al good job. I reached up and kissed him I then knelt
 down in front of him and sucked his dick licking off every
 trace of you. Paul thanked me and left. I went over and
 kissed and licked your pussy for about 2 hours. I turned
 the light out layed down in bed next to you and pulled
 her into my arms and held her all night. the next morn-
 ing you and I awoke at the same time and she was still in
 my arms I kissed her long and hard and she responded
 by doing the same to me. we layed there for a while in
 each others arms and I said you got what you wanted
 last night I had paul fuck you when you were drunk
 I couldn't take any more pussy. today I'll have both
 you and paul fuck together is that ok with you
 you looked at me with her eyes and smiled at me
 and said thank you marry. then there was a knock

to the door said come in, it was Paul he said that
 Sue an anna were asleep. I said we were just talking about
 you I told Paul to come in and join us that we had
 a need for a man in this bed. Paul pulled his pants
 off and jumped into bed with us. I had Paul get between
 Jan and myself. I asked Paul to tell Jan everything that
 we did last night in full detail. and not to leave
 anything out. Paul took his time and told Jan everything
 that he and I did when he got done telling her everything
 Jan asked if she did ok. I told Jan she did great and that
 I was proud of her Jan asked am I a woman now and I
 said yes you are. she smiled at us and kiss both
 Paul and me. I told Jan to look at this. I want to show
 you what a man looks like up close. I put my hand around Paul's
 dick and turned it to show Jan how it works I said see this
 this is called the shaft. as I moved my hand up and down the
 shaft. and at the end of the shaft is the head feel how hard
 his dick is but it is also soft to the touch I had Jan put her
 hand around the shaft and touch the head of his dick I told her
 to feel the underside of the shaft. do you feel the buldge running
 along the shaft. that is how he pees and also when a
 cum comes inside of a woman the cum comes through the
 urethra tube but not at the same time. I said gently squeeze
 the shaft feel the muscles. when a man wants to fuck his
 muscles make his dick hard. now feel down here this is his
 ck and in it is were the cum comes from. what I want
 you to do is to kiss his shaft and the head and the sack
 and also to put your mouth around his shaft and head

and suck on his dick and at the same time run your tongue around the shaft try to get all of him into your mouth and when the cum starts swallow all of it and keep sucking Jan did what I told her to do but she could only get about half of his dick into her mouth so she sucked his dick and moved her pussy around until it was in front of Paul's mouth and I told him to lick her pussy real good and not to stop, as they layed there sucking each other I went next door the girls were just waking up I told them to go down stairs and start the fire in the basement and heat the tub water I told them that I had a surprise for them and to wait for me there. they went to the basement and I went back to my room. I told Jan to stop and straddle Paul's dick she did I took hold of his dick and told Jan to lower herself onto his dick slowly as she came down I told her to stop and hold where she was she was close enough for Paul's dick to rub her pussy lips I rubbed his dick around her lips then I told her to lower herself a little at a time I guided Paul's dick into her pussy once it was started in I told Jan to slowly lower herself down on his dick and to relax she took a deep breath and let it out and then lowered herself all the way down on his dick. she had Paul's dick all the way inside of her I asked her if it hurt for said no it just feels so big I told her just relax and be still she sat there a min. and said I feel better now slowly she began to raise up and down on Paul's until Paul exploded inside of her. after that she said that she better I can move better now. she started going up and down and Paul started moving with her she came with a cry

this feels great I want more I told them to stay in bed

 but never stopped fucking, as I was coming out of my room
 I bumped into June I said I was just coming down to see you, she
 said that's funny I was coming up to see you I was wondering
 if Sam was up yet we both smiled and I said I don't know but
 I believe you can get him up, and in at the same time, we went
 to Sam's room as I taped on Sam's door I heard his say come in
 June and I both came in and sat on his bed. Sam didn't say
 anything he just looked at us, I said I told June how you

 you can show June some tricks also, at that June took off her
 robe and said I need a good fucking can you help me, Sam
 said yes mam, June layed down on the bed and Sam started
 kissing her and rubbing her tits and going on down the list
 I sucking on her pussy, I could tell that both of them were
 trying to have fun today, June said please fuck me now
 need your dick in me, Sam rubbed the head of his dick
 into June's pussy until his dick was wet then he guided
 into her pussy June had trouble catching her breath
 I said more and Sam pushed it in all the way, I
 saw June's eyes go big and then a big smile came to her
 face June said I'll be here all day, I told them to have
 fun and I left I went downstairs to look for Pet but I
 didn't find him, so I thought I had better tell the
 girls that they would have to wait until I could find Pet

 never end. I said all of you feel like my family and

Chapter II

It been 15 days since the kids came to live with us and I have never been happier roll sleeps with me now and I like that, she's really special she's also very funny. I have not been fucking anyone. everytime I look around for someone they are already busy or tired from fucking or going to work, or tired from working all day. Pet and June called me into the living room this morning and everyone was there June said we need you to go into town and mail this letter for us. I said ok what's so special about the letter, and Pet said that everyone has been talking about how you have tried to make everyone feel welcome here and happy that we thought it would be nice if we asked the people in bellings to send us six more kids that the last six were so good and fit into our family that we could take six more but instead of four girls and two boys we asked them if they could send four boys and two girls this time. also each person wrote a small letter in here telling how they like it here and want to stay that they feel good being here and asked if they could stay even after the war was over. everyone thinks that with four boys around maybe we can find someone on a regular bases. So I need you to take the letter into town and mail it. I was smiling and said I'll go right away. Pet said I don't want you driving round the roads alone, so Sam said he would go with you. I snored last night again but the roads were not to bad but it was cold. and walking on the snow was like walking on gravel. your nose stung when you took a deep breath, Sam put gas in the pickup and started it up it would get warm soon. there was just a little snow. come in and see me.

"one said drive carefully and I've packed a good lunch for you two
 maybe if the people get the letter some time they could have the facts
 here before Christmas. what a nice present that would be, rose
 said I'll keep the bed warm for you and was laughing and throw-
 ing snow balls at me, and I was throwing them back at her, I
 missed her with the snow ball but Sam got her, and she
 was saying that's no fair two against one. I'll get you.
 At that we got into the truck and Sam drove town was only
 about 47 miles away as we drove the driving was good we
 didn't see any more cars or truck on the road. we had the
 road to ourselves it was just after lunch when we got to town
 we left the truck running and went to the post office. there was
 a sign on the door "Closed wife having baby" Sam and I looked
 each other I said all this way and it is closed Sam said
 is there anywhere else we can mail the letter at I said there
 is a post office in the next town Sam said what are we
 waiting for. We got back into the truck and started from the
 next town it was dark by the time we got there. Sam stayed
 with the truck and put gas in the truck from cans he had
 brought with us. I went inside and mailed the letter when
 I came out it was starting to snow again so we started for
 home and a hot meal and a warm bed. we had been
 driving about an hour when the snow really started coming
 down, and the wind was blowing the snow into the truck
 through the cracks in the old truck. the heater was on hi.
 it was really cold in the truck we had trouble seeing
 cause of the blowing snow. just as we hit I saw a cow
 on the road I was thrown into the windshield and so was Sam

we were moving and now were stopped soon got out of the truck and then came back and said the cow is dead. Sam said that he saw a light over there he was pointing to a spot I could not see I said we can't stay here we'll freeze to death. so Sam and I started walking toward where Sam had seen a light it felt like we had walked miles and we were both frozen and had trouble standing up. then Sam said there is the light I saw it. to about 20 yards away as we reached it Sam banged on the door soon the door opened and the light hit me in the eyes and it stung. Sam and I stumbled into the house a mans voice said damn idiots out in a white out saw out to be dead. I felt hands pull my coat off and then I heard the mans voice call out to some other men away on were I could not see the voice said look here and I heard feet coming towards me a white girl and a rigger boys. one of the other voices said can't be there and no riggers around here and another mans voice said well keep the white girl here but we aint gonna keep any riggers here heard Sam asking for help that he needed help I heard one of the men say oh he wants help well help him the foot steps left and then came back I was thinking please help him he's my at that point one of the men pushed Sam to the door and the man who went for help said if your freezing here is some water and I heard the water being thrown out the door then I here Sam scream then door was closed and I was inside and Sam was outside if the voices was laughing and said did you hear that when scream he thought I thought hot water on him

another voice said when your freezing cold water feels
 like hot water soon he will be a black ice cube I could
 not believe what I was hearing I thought I was going to
 be sick I tried to scream but no words would come out
 I could not move either I was leaning against a wall and I
 could not move someone grabbed me and threw me into a chair
 then they put a wet rag over my eyes and the rag burned
 my eyes soon I could see a little a voice said your eye
 lids were frozen shut I tried to speak but no words would
 come out I kept trying and the only noise I could make was
 help. two of the men said she is asking for help and a
 another voice said no not for her she is asking about the
 nigger. oh yes well lets see our black ice cube how
 he out to be done by now. I didn't know how much time
 had passed since I came in but I was starting to get the
 feeling back into my arms and legs. one of the men said I would
 how our ice cube is doing he grabbed a lamp and put on his coat
 and went outside then he was back he told someone to bring the
 girl and someone grabbed me and pushed me toward the door
 I was falling and someone grabbed me again and they carried
 me to the door by the arm. on the ground in front of the door
 was some body face down in the snow the man carried
 me out to some and the one with the lamp put it down
 next to some and used his foot and turned him over. he was
 talk gray his eyes were open and he was stiff one of the
 men said well that's one bad nigger in the world. I felt
 weak and cold and everything went black. the next thing
 I remember was waking up I was laying in the cot 297

in the floor and my feet and hands and face tingling then I remembered Sam and what these people had done to him. They had killed him, and for what he didn't do anything bad to them I loved Sam and he loved me we were like family I remember how I felt inside I was mad and sick and I wanted to hunt these people I knew that if I had a gun I could kill them for what they did to Sam he saved my life and they killed him I hate them all. I tried to get up but I couldn't I thought I was still frozen so I layed there waiting to though out so I could move and the hole time I could only think how I wanted to kill these people. I will find some way to kill them. I heard foot steps coming near and I tried to get away but I still could not move. I here one of them tell the other

to the white bitch who loves niggers is awake and trying to get away I felt hands grab me and pick me up and through me into a chair he then took off the ropes that were around me. I was tied up I thought I was frozen there was four of them and they stunk and the house stunk the smell made me sick to my stomach. the one who untied me stood up and I picked him and hit at him. he slapped me and I fell back into the chair and the other were laughing at him he leaned over me and slapped me twice more and I picked him again. he then grabed me by the hair and through me on the floor. as I landed on the floor he sat on my back was on the floor and he was heavy he slapped me in and I could taste blood in my mouth. I got even mad. I tried to hit him and bite him, but he had my arms pinned to the floor. I was saying I'll kill you I'll kill you

he called the others over and told them to hold me. That
 he was going to teach this nigger lover some manners,
 one came over and grabbed my hands and held them above my
 head and pinned to the floor the other two each grabbed one
 leg and pulled my legs apart until I thought they were
 going to pull me apart I could not move then the one
 sitting on me pulled out a big knife and said do you want
 me to cut you. I was still fighting and saying I'll kill you.
 the man moved down to my hips and sat down again
 he put the knife under my shirt and cut it off of me I was
 wearing long underwear he cut it off of me also then I was naked
 from the waist up and the men lapped and lapped as the big
 man rubbed my tits and squeezed them he then pinched the
 nipples and twisted them real hard the pain brought tears
 to my eyes and I keep saying I'll kill you. you killed soon.
 he was getting madder every min. he then got up off of me and
 stepped between my legs he reached over to one of my legs
 and grabbed the bottom of my pants put the knife under it
 and cut its pants all the way up to the crotch then he
 did the same to the other leg where the two cuts met he cut there
 to he then put the knife under my waist of the pants and
 cut down to the crotch and my pants fell away he then
 cut off my longjohns bottoms and my under pants I was
 completely naked the men holding my legs had taken off
 my ~~shorts~~ shoes and socks. I had no clothes on. I could feel
 by hatred for the men I wanted to kill them. I felt the
 name brand going all over my body his hands were
 red and hard. and he stunk all I then stunk. 299

the one holding my hands had taken the rope and tied
 my hands together and then tied them to something heavy
 I could not move it then he to who running his hands
 all over my body rubbing and squeezing pinching and
 probing into me, I felt the big mans fingers go into me
 and I hated him but it felt good and I didnt want
 to feel good I only wanted to kill then all he kept doing
 his pushing and twisting of his fingers in side of me and the
 harder I fought the feeling of pleasure the stronger it
 got until I didnt even feel it when the other man was
 twisting and pulling my nipples it hurt but it felt good
 I was looking down at the man who had his fingers inside of
 me and I was calling him names that I can not remember all
 that I knew was that I hated him, the harder I fought the
 pleasure that he was bringing to my pussy the more pleasure
 there was soon I was pushing my pussy up to him crying
 for him to fuck me. he took his pants off and his shirt and
 he put his dick into me and I though it was the best thing
 in the world I wanted to fuck him to death I was mad
 and at the same time I never wanted him to stop my hips were
 going up and down like a cork on a fishing line every time
 he would push into me it seemed like he was going to push
 me through the floor and my pussy hurt and the pain
 felt good to. my legs were free and I could move I started to
 fuck harder I felt a pain in my butt and in my pussy
 to pain felt good. I want more please more I hate you!

 the back and it hurt I started crying saying please

 me to my feet. I was holding his hand wrapped in my
 hair. crying saying please dont hurt me. he slapped
 me in the face twice and said you will do what I
 tell you to do I said yes I'll do what you say.
 he said I didn't hear you what did you say.
 I screamed I will do what you say. please
 dont hurt me. he said if you dont I will kill
 you. I looked at him. he said oh you dont
 believe me. he dragged me to the door by my 301

hair opened the door and through me out into the cold it was daylight and sam was laying there in front of me looking at me in a frozen glow. I tried to scream but no words came to me. I looked out sam and at the door and then at the fields of white all around me. The wind bit into my skin I started banging on the door the man opened the door and said what do you want I said "come in" he said what will you do. I said anything you want. he stepped aside and I went in and stood near the stove to warm up. I looked at myself and knew that I was one of them I could have stayed with sam or I could have ran away for help but no I came back to these men. I belong to and with them. I feel empty inside I dont know what to do. I stood next to the stove and turned around and around trying to warm all of me at the same time. the four men sat at the table and lapped at me saying not bad to look at and come fuck pretty good to. maybe she might last for a while. the men said me over here and get up on the table. I did and they all lapped one of them said squeeze and rub those big tits and I did he said squeeze the breasts and did another man said spread your legs wide and I did that to. he then said put your fingers in that pussy and fuck yourself. and I did and other man did not tell me how much you love me I started telling him that I loved him he said tell me how you love my big dick to and how you want me to fuck you all

the time. I did tell him how I loved his dick inside of me and how beautiful his dick was and how it made me feel. and the one said tell me how you want to suck my dick and take it all in your mouth and swallow my cum. I told him everything that I could think of the second man said I told you to fuck yourself why haven't you started cumming yet I started rubbing the inside of my pussy harder moving my fingers around more and more until I felt the spasm spreading through my hips and pussy and into my fingers my knees buckled and I fell to my knees on the table and I was panting and trying to catch my breath one of the men said get on your hands and knees and crawl over here to me I did and he said suck my dick. I opened my mouth and he put his dick into my mouth and I started licking and sucking on it. he said bitch take all of it I keep trying to get all of it into my mouth but I couldn't he got mad and grabbed my head and pulled my head onto his dick I tried to cream and his dick went down my throat he was all the way in my mouth when he said suck it I started sucking it and catch a breath of air when I could. he soon started cumming and I tried to swallow it but some came into my mouth and he said you had better not swallow one drop swallow all of it I got all of it down he said lick my dick clean and put it back into my pants I did everything he said. one of the other men said see I really likes all of this I was thinking see they know how I feel they know I want to be here and doing this with them it must all be true.

one of the men said go clean yourself up you stink I won't
 have a stinking whore around me clean yourself up and
 come back here. he said put that tub in the middle of
 the floor and wash in it. as I was putting water in the tub
 the other three men went outside the cold air from the door
 opening made me shiver I finished putting the warm water
 into the tub and I got in and was washing with a brown
 bar of soap the same soap that the men used on their
 hands after work it didn't soap up like reg. soap it was
 hard and ruff. and when I rubbed it across my skin it
 left a red area where it had scraped the skin it was
 like sand paper. but I scrubbed my body with it anyway
 I also washed my hair as I washed my pussy the soap
 cracked my pussy lips and it stung but I had to get
 all of that dirt off of me. I tried to wash inside of my
 pussy and that was even sower tears were coming
 to my eyes because of the pain of the soap inside of
 my pussy and because I was with these men after
 they killed Sam. and I came back to them I was worse
 than they are. the big man yelled at me to hurry up
 I poured the rest of the water over me to wash off the
 soap and some to wash out my pussy as the water
 splashed into my pussy it felt like hundreds of little
 pieces sticking me. he yelled at me again to come over
 there to him. I got out of the tub and ran over to
 him he was sitting in the big easy chair in the living
 room. as I stopped in front of him he stood up and
 slapped me in the face I wanted to cry but I was too

afraid to cry out, he looked at me and said you are
 my dog get down on all fours and bark like a
 dog. I did what he said. as I crawled around on the floor
 barking he said wiggle your tail and bark, soon my
 knees were getting sore from the floor. he then said
 keep kneeling but put your head and shoulders on the
 floor he came up behind me. and took off his pants
 and let them drop on the floor he then spread my legs
 apart and took his hands putting his thumbs into my
 pussy and spread my pussy lips apart. he said I
 told you to wash good, didnt I. yes sir you did
 well I still can see soap in here. I will wash it out, and
 you better not move I was scared to move. he left

I came back with a bottle of wiskay he then put the
 neck of the bottle into my pussy and shoved it as
 low as he could into me. as the wiskay gushed into me
 I felt like I was on fire I felt the fire go into me
 it seemed like it was burning all the way up to my
 head and the pain was horrible he pulled the bottle out
 from me and took a drink of it. he told me to stand up
 and pick up his pants and follow him up stairs to
 his room I did what he said I could feel the wiskay
 draining out of me and it burned me again when
 we got to his room he turned to me and said aint
 you going to thank me for washing your cunt out

I using my wiskay. I said thank you Im glad
 you helped me wash I could not rinse without
 you. please help me to wash some more. he looked

To me, and said get on the bed and kneel down with your
 head over shoulder on the bed and your pussy up in the air
 again. I did what he said and he took the rest of his clouse
 off and got on the bed behind me he put the head of his
 dick into my pussy and it felt like I could feel every
 inch of him my pussy seamed dry and sore and as he pushed
 into me I thought I was going to scream out in pain
 he grabed my hips and pulled me back onto his dick
 and at the same time he pushed his dick into me
 it felt like he had put a branding iron into me. this
 time I could not be quiet I screamed out with pain
 was shure he had torn me apart inside. he kept fucking
 me and I was crying begging him to stop that it hurt
 he just lapped and fucked me harder I prayed to be able
 to pass out not to feel this pain but I couldnt stop
 the pain he said shut up or you will be sorry. he shot
 his cum into me and it stung inside of me but it soon
 tipped hurting and his dick moved more easy inside of me
 I could still feel every inch of him but the pain was gone
 he said bitch you better fuck like you like it or you will
 be sorry I said yes sir. I tried to think about how good
 I was feeling but all I could think of was how the pain
 had hurt and some cold eyes watching me. he stopped
 fucking me and pulled his dick out of me he turned me
 around and threw me down on the bed on my back he then
 started fucking me again this time he was kissing me on the
 neck and my ears soon he was kissing ~~me~~ on the lips
 hard and loose. he pulled my legs up and told 305

me to put them around his back I did what he said
 he put one arm under the small of my back and the
 other he put under my neck and keep kissing me he said
 fuck like you did this morning on the pain will start
 again I pumped my hips and pussy but I felt only fear
 & hatred for him I felt dead inside I felt as dead as sam
 he said you belong to me. yes I belong to you I'm
 dead to me he soon cummed inside me again he got up
 and said I'll see you later bitch now just stay there
 and be quiet. I layed there and didn't move I was afraid
 that wone of them was watching me and if I moved they
 would come out and hurt me. I layed there I started
 thinking about all things that had happened to me how
 was going to mail a letter the snow and cold the
 row in the road. the accident sam saving my life those
 men killing sam. those men fucking me. I liking the
 fucking. those men letting me go. I came back to
 them, I said I'll do anything letting them fuck me
 again. sucking his dick not fighting back doing what
 they told me to do I told them I would do anything they
 wanted. I'm just like them I don't deserve anything better
 belong to them I've got to make them love me and
 will learn to enjoy the fucking they give me I want
 them to fuck me I want to fuck I want to stay here
 want to live. I don't want to die. I heard voices
 in stairs and then laughing a few min. latter there
 was foot steps out side the door to this room. I kept telling
 myself I'll do anything they want. I'll make myself

'he it. I'll make them like me. the door opened and in
 stepped two men. they came over to the bed and look
 down at me laying there. I said I will do anything
 you want. one said get on your hands and knees I
 jumped and did what he said he pulled out his dick and
 said suck it the other man dropped his pants and was
 behind me I put the first mans dick in my mouth and
 started sucking his dick he said take all of it first like
 before the man in back of me put his dick against my
 butt hole and was pushing against my hole I tried
 to relax but I was scared I felt the presher on my butt
 hole and all of a sudden he was in my butt it hurt and
 screamed and the mans dick went down my throat
 I couldn't back up because of the dick in my butt
 and I couldn't go forward because of the dick in my mouth.
 the dick in my butt stopped hurting and was started feeling
 good. but I had trouble breathing but I was breathing
 and started sucking his dick and trying to get more
 I him down my throat my jaws hurt I felt the
 dick in my mouth explode and start going limp the
 dick in my butt started cumming and I felt the presher
 in my guts I felt like I had to go to the bathroom
 the two men were laughing and left the room I layed
 sick on the bed and felt sick to my stomach. the door opened
 and in walked another man he was as tall as the
 others. I told him I'll do anything you want me to
 he handed me a bowl and said eat this I said I'm
 too hungry he said eat or you will die. I started 307

 it also he said how old are you I said 14 he said I want
 to fuck you I said I will fuck you all night. but I've
~~to go to~~ got to go to the out house he said ~~how~~ I want
 go for that you will have to use a chamber pot I said ok
 he pulled a pot out of the closet and put it on the floor he
 then handed me a rag and said there a bucket of water over
 there clean yourself up if you can. he then took the empty
 bowl and the cup and left the room. I wondered why he acted
 different than the others he was nice to me why ~~he~~ had
 told me that he had me all night. I washed up and took care of
 the business with the chamber pot I pushed it back under the bed.

couldn't see very well they had no lights and they didn't
 leave a lamp. I washed my pussy out but it was still a little sore
 the man came back later and asked if I had finished cleaning up
 and used the pot. I thanked him for his kindness and asked
 him why he was different from the others he said he had nowhere
 to go that these men took me in when I needed help they
 were good to me I asked who are they he said they are three
 brothers. I am the out sider. he said come with me we are going
 to my room. we walked down the hall and entered his room
 he said please make yourself at home he stopped and said I'm sorry
 that I ment please sit down I went over and sat on the bed.
 he said you told me you wanted to fuck me do you still want
 fuck me. he said yes but you don't have to I won't force you
 fuck me I said I want to make love with you. you are kind
 to me.

I got up on the bed, and said I'm ready when ever you are. I stopped him and said what is your name he said my name is Dave I said that's a nice name Dave had his cloose off and was on the bed with me he started kissing me and touching my tits and kissing them his touch made me feel light headed and warm all over I wanted I wanted him to fuck me I wanted him to love me I needed to feel loved there people scared me and hurt me. Dave started kissing me all over my body he touched me all over he started kissing my stomic and hips soon he was kissing me on my pussy and on the inside of my legs and at the sametime he was rubbing my legs I asked him to please fuck me I needed him to fuck me he started kissing me all the way back up my body until he was between my tits and his dick was peeping at my pussy I was wet and his dick eased into my pussy I was able to feel every inch of him as he slowly entered me he seemed like a dream he was finally inside of me and I could not remember feeling so good his dick was hard and deep inside of me I wanted more I never wanted samone so much his dick felt like it was part of me he slowly started fucking me and before I could even start fucking he exploded inside of me his cum felt hot it felt like it was going all through me and I wanted more Dave never lost stroke he keep fucking me and I loved it. he was on top of me and I was on top of him all night we fucked I felt like I was in heaven I had never felt so good. at night when we were resting I told Dave about how sam and the other kid want to live with us. and Dave told me that he didn't join the army because he didn't believe in fighting in war.

and killing people, he told me he was a cranious objection and didn't have to go to war he told me that he was raised as a mormon but that he had trouble with some of the people in the church and decided to leave, dane also told me that he would try to get me home again, that if they find out that he was trying to help me they would kill him and probably me to. so he said just do what they want and wait I felt safe with dane and I was afraid for him we fucked every way we knew how all night long the next morning as we were still laying in bed and dane was still inside of me I heard a loud noise and heard voices there was gun shots and screams dane jumped up and pushed me onto the floor on the other side of the bed, he threw blankets on me and said stay there and dont move dane grabed a chair and shoved it under the door handle to keep the door shut he then grabed his pants and shoes and put them on soon there was beating on the door voices outside the door saying heres a door that is locked the must be in here, they were beating on the door and the bar broke in and men came running in they grabed dane and threw him to the floor and put a gun to his head, I was screaming dont hurt him stop dont hurt him, there was three men that I had never seen before I saw someone that I knew it was pet, he had me for me one of the men kicked dane in the side I said what is your name he said dane, pet said no dont hurt him see the one, top of the 310 men took dane by the arms and helped him up

I had the blanket wrapped around me. pet picked me up and carried me out of the house. I said ~~where~~ did you know I was here and I was saying that those men killed sam. Pet said we know we found sam's body pet put me into the truck and asked if I was ok. Pet told me that when we didn't come back from town they thought maybe the pickup broke down or maybe the load went into the ditch that they came looking for me we saw the sign at the post office and thought you might go into the next town so we came this way we saw the truck last night and moved the letter on the seat telling what had happened and that you were here and that they had killed sam and that they were going to kill you too. that you were all alone but to hurry and get help that there was three brothers and a stranger there and they had guns, it was signed dave. I told Pet that dave didn't hurt me he told me that ~~he~~ he was going to get me home again and that he helped me. and don't hunt him pet said I'll be back in a min. I sat in the truck and pet went to the house. there must have been eight or nine men round the house I heard two more shots I had a pain & fear in my stomach I then saw pet and dave come out of the house one of the other men was holding a lamp and he threw it into the house. Pet and dave got into the truck. I hugged pet and said thank you pet. I then put my arms around dave and he put his arms around me and held me all the way home I felt safe now but felt dirty both outside and inside.

as we drove up to our house I felt sick to my stomach and I started
 crying pet parked the truck and June and the rest of the family
 came out to meet us June said you found them I was
 crying and Dave was carrying me toward the house and every
 one was laughing they all came up to me and said are you
 ok are you hurt, did you have car trouble several said were
 is Sam I started crying even more several said who is this
 and Pet said his name is Dave and he will be staying with
 us, they started asking about Sam again Pet said everyone
 into the living room and everyone headed for the living room
 Pet stopped Dave and said take Mary down to the base-
 ment, and pointed to the door Dave was still carrying me
 he took me down to the basement and I said over there he
 put me down on a stool next to the tub I told him to start
 the stove to heat the water in the tub Pet came down and he was
 carrying towels and my robe and some cloths for Dave he said
 that he told the family what had happened and about Sam,
 and how Dave helped us to save you, Pet shook Daves
 hand and said thank you, Pet said do you want June
 or anyone to come down and help you I said no Dave
 will help me and he will be staying with me, Pet said just
 as you wish Pet put his arms around me and said well
 be back home and he kissed me, I could see tears starting to
 come to Pets eyes he then turned and went back upstairs
 and closed the door, Dave helped me out of the blankets
 I said are you ok you are bleeding I said my curse
 started last night but it stopped Dave took off his cloth
 and he had dried blood on his dick and upper legs 312

I asked dave to carry me into the tub and stay with me
 we sat down in the warm water and it felt good the cold was slowly
 leaving my body and being replaced by warmth dave grabbed a bar
 of soap and started washing me he started with my hair and
 worked his way down my body he tried to wash me real good
 and at the same time trying to be as gentle as he could. he
 picked me up and put me on his legs and finished washing my
 back and my butt and then my pussy he washed my pussy
 and took great care not to hurt me I felt the warm water
 go into me and it felt real good dave put me back down on
 the bench and started soaping his self he scrubbed and rinsed
 us both off he then carried me out of the tub and stayed me
 off and put my robe on me I had no strength left in me
 it brought down some food for us to eat and told dave
 where my room was at. after we ate and dave put a pair
 of pants on he started to pick me up but I told him
 to drain the tub. I had already to get that the tub
 needed to be cleaned. I told dave that I could walk but he
 said that he wanted to carry me so I let him. dave
 took me to my room took off my robe and put me to bed
 I told dave to come to bed with me that he sleep here too.
 dave got into bed and I put my arms around dave and
 I felt asleep holding each other. we sleep for about
 twenty hours before I woke up and dave was already awake
 he was laying next to me with his arm around me. I asked
 in how long had he been awake and he said about
 and hours I said you should have woke me up. he
 said no I like to watch you sleep. your so beautiful

I felt happy inside because Dave loves me and he thinks I'm beautiful and I love him. he said that he had to hold my leg the day they fucked me that if he didn't they would have killed him and then he could not have helped me and that there was nothing he could do to save my friend Sam. I told him lets not talk about what happened with those men it makes me feel sick and I want to cry when I think about them I never did anything to them and Sam never did anything to them. I never hated anyone before in my life but I wanted to kill them and I've never been scared like that in my life. thank you for helping me. I love you Dave said now you know you are 14 and I'm 19 what will your people say about me being in bed with you or staying here with you. I said Dave I love you and as long as I love you they would want you to stay here. and I say who I sleep with or who I fuck. Dave said ok but want you to know that I love you and I want to make love to you all the time. I said I hope you will always fuck me and love me. Dave kiss me and said I guess we ought to go down and face the other. I said Dave stay by me k. Dave said I will never be far away from you. again. you are the prettiest woman that I've ever seen in my life. I got out of bed and got dressed and went down ston's June was fixing breakfast and rose was helping her. as Dave and I came into the kitchen rose ran up to me and threw her arms around me and started kissing and hugging me then one by one everyone took turns hugging and kissing me and then they hugged and kissed

have for bringing me back home to them. Last June and Pet
 took there turn welcoming me back and welcoming Dave. Sam,
 and Jan were still crying even after we sat down to eat
 breakfast. There was lots of questions of what happened and how
 Dave saved me, and why those men killed Sam. I told
 them that I would answer all these questions later after
 we have eaten we will all go into the living room and I will
 tell everyone what happened. After I said that everyone just
 ate there food and smiled at me and Dave. I really didn't
 want to answer any questions today or any other day but
 if I don't there will always be more questions it is best
 to answer all these questions now, and then we can forget
 it. After breakfast we all went into the living room and sat down
 none asked many what happened. I told them what happened
 and why we had to go to the next town and how we had the accident.
 Lying the cow Pet said it was a steer not a cow I continued of
 how Sam saw a light and how we made our way to the
 light and what happen when the men saw us and what
 they said and then calling Sam a nigger and throwing
 a bucket of water on him and how he froze to death and
 how the men hurt me and the things they made me
 do and how Dave helped me and helped save me so
 Pet and the other men could save me and bring me home
 we said what is a nigger and Anna spoke up and said
 that a nigger is the name people call black people now
 and why did the kill Sam. Dave spoke up and said
 some people live with hate in there hearts and look for
 someone to take that hate out on and in

This case sam happened to be what they took the late out
 on. they think if they hurt other people they can take there
 Pain and hatred away. but it doesnt work there pain an
 hatred only grows and they keep hurting more people
 sue said were is sam now Pet said he in town at the
 undertakers we will be burying sam here with us. Paul
 said were are the men who did this to sam and mary
 Pet said they are died in there house when it burned down
 I started to say something and dave said no. I'll tell you
 later. It seemed that all the questions were answered then
 rose said is dave going to stay here with us. I said dave
 is going to live with us he is going to sleep with me all
 the time I could see dave look around he seemed uneasy until
 everyone started saying that will be nice. rose said come
 I'll sleep with you and I said yes of course you can
 right dave. dave said yes we would love to have you
 sleep with us. rose said great. after everyone went about
 there bussiness dave stoped me and asked why didnt I tell them
 that I was there and helped them off do those things to you
 I told dave It would do no good to tell them anything about
 you being there they would not be able to understand
 you and I are the only ones who need to know what happen
 there or who was there I dont want to even talk about it
 again but how did they die dave said dont ever tell any
 one this those men were not the sheriff they were farmers
 so Pet knew. and they killed the men and burned the
 house down with them inside. I said understand In glad 316
 that you told me. I love you dave said I love you too

Dave then said what is with rose I told him and after
 I was done he said yes I understand you too, Dave said
 does this mean we can't fuck I told him ~~no~~ we can still
 fuck maybe rose would like to fuck alex if its ok with you.
 Dave just looked at me for a long time and finally smiled
 and kissed me. you know you wouldn't care if I fucked
 rose or anyone else I told Dave no of course not, as long
 as you loved me, I kissed Dave and said lets go upstairs
 I think we need to take care of something in my room, Dave
 smiled and said I believe your right, we went to my room
 and loved each other for more the two hours, I discovered daves
 dick was about 8" long and a little bigger around then Pauls
 I was happy that Dave didn't have a real big dick
 sometimes a big dick was nice but a smaller dick
 like daves or Pauls felt the best, we Dave and I were
 coming out of my room Pet and Paul said good you can
 be of help to us Dave said what can I do Pet said we need
 to move marys bed over against the far wall to make
 room for the other bed. we also need a hand bringing
 the other bed down from the attic Dave said mary and
 will move the bed and we will be up to help you
 with the bed. Pet and Paul left and Dave and I moved
 my bed against the wall I had a big bed and my
 room was the largest up stairs, Dave said is this
 bed for rose I said no silly its for all of us you
 remember the letter I told you about and that there
 are six more kids coming from the airplane they
 need a place to sleep. come look Dave told me about

how they made bunk beds for the other bedrooms
 the bed that pet had for my room was as large as
 my bed with both beds side by side making one bed
 the bed was almost 12 feet wide pet put a piece of wood
 under both mattresses to make the mattress come together as one
 and there were several more pillows for the bed. dave said
 is there something else I can do to help pet said would
 you take the side out to find a Christmas tree use
 the big truck. I will be fixing the pickup they brought
 it back this morning. and I need to get it fixed. everyone
 jumped into the back of the truck and I pointed where we
 always got our trees before we drove to the woods
 and who looked and found a big tree paul had the
 saw so he had the honors of cutting the tree down and
 we all help drag it back to the truck we finally got
 it on the truck and tied down we went back home
 we spent the rest of the day putting the tree up and
 decorating it everyone had fun helping. that night we
 all took a bath together, dave was a little shy at first but
 he slowly started acting like everyone else and he said
 that he liked the way we all work and lived
 and loved together how everyone is part of everyone
 else and how good it feels to be accepted and loved
 by everyone. dave also said that the way we looked
 at fucking and loving each other was new to him but
 felt safe and truly loved by us June said dave
 is not us anymore to me, you are part of me
 and we are part of you. we are one.

Dave said that's beautiful, I will try to live up to your words of love. after the bath was over we went into the livingroom and sang Christmas songs I don't think this big old house has had so many people singing in it before. the whole house seemed a whole lot warmer and friendlier with all the laughing and singing I loved each and everyone there I finally had a familiar we finally quit singing and got ready for bed. rose helped anna and sue clean up the livingroom as dave and I went up to bed. we took our clouse off and jumped into bed. I started sucking on dave's dick when rose came in dave jumped when he saw rose but I kept on sucking dave's dick rose took off all of her clouse and got into bed next to dave. dave was starting to cum then and at the same time he was trying to look like nothing was happening. I could only guess how dave looked. but I bet he looked funny. and rose being her funny old self she would be talking and asking questions and looking for answers soon rose put her head down next to mine and said how is this done can I do it to. I felt dave stiffen and try to stop what was happening but he was too far into his cumming to stop when he exploded at my mouth rose said can I taste his cum. too I moved back and she put her mouth on dave's dick and sucked the rest of his cum into her mouth and swallowed it. as rose came up off of dave's dick she had the biggest smile on her face.

as rose and I came up to daves face. his face was as white as snow and his mouth just stayed open and he was not saying anything. slowly dave said did it happen what I think happened I said I dont know I sucked your dick and rose and sucked up all of your cum. dave said that what I thought. dave said do you two always do this rose said no this is the first time rose looked at dave and said didnt you like it did I do something wrong I try to do better next time, tell me what I can do. dave tried to get a word in but he had to wait till rose stopped talking kindly said rose you did real good and I liked it you just caught me by surprise. you did real good.

big smile came to roses face and she threw her arms around dave and kissed him on the lips and said I love you to. things calmed a bit and rose said dave will you do something for me. dave said yes what do you want. rose spoke out and said dave will you fuck me. daves face went white again and I said rose dave needs to get some sleep but dave will fuck you tomorrow ok. rose jumped up and kissed dave again and then layed down and curled up in his left arm and went to sleep. later dave asked me what do you mean ill fuck her tomorrow ~~red~~ please dave please fuck her she is the very best "escort". she wants to learn how to fuck she has never had a man inside of her and she really likes you dont worry ill be there please do it for me. 320

The next morning when Dave and I woke up Rose was sitting
 on the other bed smiling at us Dave said did you sleep well
 last night Rose. and Rose said yes all night long
 I dreamed about you fucking me today can we start now
 I wanted to laugh but I didn't want Dave or Rose to think I
 was laughing at them. Dave looked at me and the expression
 was one of please help me. I said Rose probably the best way
 to start would be for you to suck on Dave's dick until he cums
 Rose said yes that a good idea. and Rose hurried down
 to Dave's dick and started sucking him Dave looked lost
 at first but then he started enjoying it. I told Dave it
 would be nice if you sucked on Rose's pussy as well
 I moved Rose's butt around until her pussy was near
 Dave's mouth I said Dave I love you and Rose loves you
 please do it for us he slowly pulled Rose's butt over to
 him and kissed Rose's pussy she wiggled and sucked even
 harder and Dave started licking her pussy and putting
 his tongue deeper and deeper into Rose's pussy Rose
 had only a few strands of hair and they were red also
 were other girls pussies are pink inside Rose's was red
 It look funny Dave's pink and Rose's red inner pussy
 soon both of them were cumming together and it looked
 like both Dave and Rose loved it. Dave was smiling and
 Rose was laughing saying more. so I told Rose to straddle
 Dave's dick and I told Dave just lay back and enjoy
 that was going to happen. Then Rose layed down on
 Dave and kissed him and whispered to him please Dave 321
 but worst it only hurts a little I'll be ok please

to this for me and then passed him again. rose got back up and straddled daves dick again I told rose to spit in her hand and rub it inside of her pussy and put some all over daves dick. she did just what I said then she slowly lowered herself down onto daves dick she had trouble to get the head of it into her small pussy but after several tries she was able to get the head of his dick into her she slowly started relaxing and moving up and down each time going down a little farther then she came to that flaps of skin she tried to push down but she couldnt her legs were shaking and she lost all of her strength she started to cry and said mary please help me. I said dont you want to stop. she looked at me and said no I need help to go all the way as promised me. I said ok I'll help you. I told rose to relax and as I knelt behind her with my left hand on her hips and my right on her shoulder I had her go up and down some and try to relax I could feel her body loosen up some all at once I shoved her down onto daves dick and she seemed to hang in mid air then rush downward onto dave. after a moment rose look down and started crying mary Ive done it look dave all the way inside of me. I told dave now you got to kick her for quite a while I helped rose lay down on dave and dave put his thong around rose and passed her he gently rolled over on top of rose and slowly started going out and in on rose's pussy soon rose said there is no more pain it was starting to feel good I told 322 them that I didnt want to see them for at least 2 hr.

I went down stairs and got something to eat Pet came in as I was finishing up eating breakfast he said I have something for you. he went into his room and brought out my coat that the men had taken off of me I had forgotten it when we left that place Pet said that he had seen it and grabbed it but had forgotten to give it to me. Pet said many I was so afraid to think of losing you that I got sick with worry when I found that note in the car I thought you may have been killed you see many I love you and your jnose and the thought of losing you was more than I could stand. I'm really glad that you're home again he put his arms around me and kissed me on the lips so hard and long and as he held me I could feel his body shaking inside and I knew that he did love me. I asked Pet who were the men you brought he said do you remember the people who helped us get the crops in and the people who we gave the food to. well! but please don't even talk about this to anyone. I told Pet I won't tell anyone. June came into the kitchen and sat with us she also put her arms around me and kiss me then she started crying and said I didn't realize who close we came to losing you. I'm so happy that you are back with us. and a used fan, now it works fine June asked where is Dave & told them that he was fulfilling a promise I made to Rose June said oh Rose finally learned to fuck. we all started laughing and I said like a duck to water. and we all laughed again. soon I heard Dave and Rose coming down the stairs and they were laughing together as they came into the kitchen. Rose came up to me and put her arms around me and kissed me and said many I love you that was the best thing that I ever felt thank you may we do this again soon I said Rose we can all do this all the time. Rose was all smiles and she was telling everyone all about how she was a woman now. Dave took me aside and asked me if I was mad at him for fucking Rose. I kissed Dave on the lips and said no why would I be mad at you for fucking Rose she is my best friend and even if she wasn't I have no right to tell you who you can fuck or who you can't. I said Dave I love you, so what ever makes you happy makes me happy. I then asked Dave how was Rose after I left she was great I really like fucking her. I said I hope that you too fuck a lot more. Dave stopped and said I asked Rose if it hurt her when I first went into her and she said yes very much. I asked her why didn't he cry or say something she told me that she was afraid that if she let me know how much it hurt that I would have stopped and that she didn't want to make me feel bad. Dave said do you want to go upstairs and fool around. I said yes I would but I can't. My nose started a little white. maybe in a few days.

but what would be nice is if you take rose back to bed and tire her out because if you dont she will keep me up all night talking. So take her upstairs and you two have fun. dave went off looking for rose and soon I herd rose telling dave hurry up lets go. I was feeling good about the fact that my curse started that meant that I wasn't pregnant from those men.

I told June and she was happy too. we sat around the rest of the day and talk about the family I asked June if she was happy with all the people living here. she said oh yes the more people that are here the best chance there would be for me to be lonely I get afraid when Im alone. I told June that I would always be here with her. pet came in

I said that he had a letter from Billings and they are asking if we can come to Billings to pick up the children and that they would pay for the gas and they had extra rations books for gas and clothing. they are asking if we can come to get the kids on the 21st. of december June said that's only four days away June was all smiles and she went off doing something. Pet sat down next to me and said I would do anything for you in June I feel like I belong here and I'll do what ever it takes to make you ^{me} too happy. later I went looking for paul and when I found him he and una were just getting done with a session and laying back catching there breath. I asked if anyone has seen June and paul said that she didn't feel good I said were she anna said the last time I saw her she was

headed for the root cellar. when I went to the root cellar Jan was sitting on a sack of potatoes and she looked like she had lost her last friend I sat down next to her and asked what was the matter was she sick she just shook her head. I put my arm around her and she started crying. after a while she told me that after I left her and paul alone ~~she~~ when they were fucking the first time that all the pleasure of fucking stopped for her she said that the only time she can have pleasure is when I'm there. I told her that she needed to try to fuck paul again and see if everything gets better. maybe she ought to try fucking with someone else. she said if you aren't there I will not like it. I asked Jan if he would like to sleep with dave and me and rose. she looked at me and shook her head yes. saying thank you many but well you be there the next time I fuck and don't leave. I said yes if that is what you want. I do I do she repeated several times thank you again many. I found sue and fit fucking in Pete's room and they were having so much fun. I didn't want to interrupt. so I closed the door and left. I went upstairs to my room and Jan was sitting on the bed talking to rose and dave and I came in dave gave me a look like he was asking why I told the girls that I would like to talk to dave alone for a few min. and would they go down stairs and help me fix dinner. no sooner had I said it they were leaving and I heard Jan telling rose boy many going 326 to get it how. did you see the way dave looked at her.

only in the morning of the 21st. Jane said come on and both Jane and Dave left for billings to pick up the kids. Pet told me that Jane had decided that she was going to get the kids and that she wanted Dave to drive she said that she wanted to talk to Dave because ever since he got here she hasn't been able to find time to talk to him. and that she wanted to know more about him. Pet said I gave Dave a gun just in case. Pet asked how I was doing I smiled and said last day of the nurse he left. and said when the kids get here Anna and Paul and sue have asked to move in with Jane and me. Chapter III

[Faint, illegible handwriting]

It was about 6:00 P.M. when Dave and June returned from talking with the kids. when Pet saw the kids he went silent and just looked at June. he then said I thought we decided that all the kids were to be at least 10 years old June said you didnt think I could just leave them there I had to take them. look at them aren't they cute. and there are eleven kids and one extra a man who will be a real help on the farm and he can stay in the tack room hes 30 years old and big and very strong. he said that he would work for room & board. he couldn't get into the army because he a little short. Pet said I'll take him out to the barn after he eats and there are two boys who are 15 years old their names are Ted & Tom and they can be of help around here and help make your work easier. Pet looked like he was softing up a little. June said let me introduce you to the boys this is Bill 9 years old Tim 9 years old and Harry 7 years old and these are the girls this is Janet 10 years old, Peter 9 years old, Colline 8 years old, Karen 9 years old, Darline 6 years old, and Diana 8 years old. I thought we only were going to get six kids June said well we do have extra room now that we have more led space. Dave said dont look at me I just drove the truck and here you can have this book (GON) Pet took it and put it in his room. Dave said sorry but I really tired I'll grab something to eat but Ive got to get to bed. wake me up in about two weeks we all started laughing and I told Dave that I was really proud of him and get some sleep

The dinner we all went into the living room and talked. I said hello to the new handyman John and I remembered a handy man named John and a tanager of ~~some~~ went through me

Pet took John out to the truck room and got him settled in and showed him around and told John what he expected from him. When Pet came back in from the barn he said I think he will be ok. I asked Pet if he was going to take a bath with us. Pet said no not tonight. I'm feeling tired. I've had enough of a shock for one day. As we sat around the living room the smaller kids keep looking at the Christmas tree and then one of the kids asked does santa come here to. one of the other kids said of course he dose see the snow that for his slaps. I said that we've had some surprises tonight (the other since I was talking about the younger kids.) I said that coming to a new place was scary at first and I was asking the older girls to stay with the younger kids for a few days until they get settled in. to also sleep with them and make them feel comfortable. Rose, Anna, Joan, and Sue started gathering the kids to them and they took great pleasure in being asked to help take care of the younger kids. I told Ted and Tom that they weren't that young and that they would be with me. Tom said It looks like everyone is taken care of and that I should go to bed and take care of Pet I think he wants to talk to me. I was smiling and thinking yes I bet he wants to talk to you but I didn't say a thing. I said its time for a bath and the girls all got up and ushered the kids along with them. Ted and Tom said well just wait until after the kid get done. I said that not how we take baths and I took them by the hand and took them along to the basement with me everyone had been shown where the out house was at and how to use the water closet. when we got down to the basement it was warm from the fire in the stove heating the tub water. Sue and Rose took

turns washing and helping there kids into the tub then came
 anna and Jan doing there kids the same first washing then getting
 them into the tub I took my cloth off and told ted & tom to do
 the same they hesitated at first then they did the same. as
 ted and tom and myself got into the tub the water level rose
 up making the older girls put the smaller kids on there laps
 when I sat down I had ted on one side and tom on the other side
 of me. I told the girls to do the talking this time and I layed back
 and lissioned to them they were doing a real good job. I put
 one arm around toms neck and the other around teds neck and
 layed back and relaxed. soon I could feel both ted and tom starting
 to relax they were both sitting close to me. I put one leg over
 one of there legs and I said how do I feel and soon I had
 two different hands on me first they were rubbing and
 squawling my tits and one leg one they took turns feeling
 my legs and my pussy and it felt good. I herd the girls
 gathering there kids together and taking them out of the tub
 and going upstairs and to bed. soon only the three of us
 were left in the basement. I said I think you two have
 been here before. I said I've got to get out of the tub
 as I got out of the tub both ted and tom were next
 to me and they both had hard dicks. I said I bet you two
 want to fuck dont you. they both said yes. I went over
 to a pile of blankets on the shelf and layed them down on
 the floor and then layed down on them looking up at them
 I said what are you waiting for both of them were laying
 next to me kissing me all over and touching me everywhere
 was one of them was sucking on my pussy and licking 331

deep inside of my pussy he then got on top of me and started fucking me soon he cumed and he got up and the other one started fucking me and he started cumming I told them to stop again only this time go slow after about four hours they were so tired to fuck any longer. So we got back into the lub and washed off again. I took them up to my bedroom and he got into bed. there was just dave, tom, ted and myself in bed. together and I felt satisfied with myself. these dicks were about the same as Pauls and they felt good. two days later both rose and Jan returned to sleep with us now ~~we~~ we were six and we all enjoyed each other.

At this point mary stopped telling me about how her family came together and what was going on in the house. mary started again at the age of 21 she had two children one boy and one girl. she never said who the father was. but she led me to believe she really wasn't sure who he was. she said that june had a baby boy and that rose and Jan both had babies and anna had twins boys sue and Paul got married and moved to denver. and they had a baby boy. mary said that dave left because he couldn't get over the fact that she (mary) wouldn't fuck up him. ted joined the army the next year and was killed in D-day in france and bill and harry went off to school in bellinz "the smaller children the girls are still there and tim was 17 now and determined to be a farmer. Pet was 34 now and he would tell the same. tom spends most of his extra time with the girls 332

at home and I think there are two who are pregnant by him I don't fuck hardly any more with the exception of Pit and Tom from time to time and a couple of times with Tim. all of the children mine and all the other children ^{and} raised as if everyone was there matter. I've been thinking of lately if John would be available to have love with me. he so quiet all the time.

Summer of margs 21 year

I got another diary for myself the other one was full. and for seven years I didn't keep a diary but now I thought it would be nice to keep one again.

We been feeling lonely lately yet I have my children and June and Pit and all the others there to old to be calling them children so I will call them my brother and sisters and use the word children for the children. I've been spending more time out around the farm walking and planting and weeding in the garden. John is quiet and hardly says anything he work really hard and done a real good job. he's about 38 year old now and I've never seen him with a woman. he only talks to me if I speak to him first and he calls me miss margs. I've made up my mind that I wanted John to fuck me. I went out to the barn and I was wearing only my robe and John was in bed already and it was only about 4:00 clock P.M. as I came into the tack room where he sleep he jumped as if I surprised him I said did I scare you. John said miss margs I was thinking about going down and having swimming and I said I'll go with you. he said 333

no head already taken a bath. I came over and sat down on the side of his bed and said John I need your help. he said I'll get dressed and help you now. I put my hand on his shoulder and said no not that kind of help. he said I'll do anything for you miss mary. I said John I need to fuck a man and I want you to fuck me tonight. now! he said but miss mary it would hurt you and I don't want to hurt you I'm your friend. I said John I'm asking you to please fuck me now I need your help well you do this for me he seemed to be looking down and he said ok miss mary I'll do what you want. but I don't want to hurt you. I said do you mean that your dick is to big. he said yes I gently reached down and took a hold of his dick it was big bigger than I ever felt on seen. I told John how about if we use some apol grease to make it easier for us my mind was going back to the first time I had fucked Pet a long time ago. John said ok and he went and got the can. I took just a little bit and put it up inside of my pussy and a little on his dick there wasn't that much used I thought I could get him inside of me with out the grease. but the grease was to make John feel better. I asked John to make me a promise not to take his dick out of me until I tell him to and if I fall to sleep or faint not to stop fucking me I told him that I wanted him in me all night he said miss mary I promise. I was telling myself now he won't stop if I cry out with pleasure or faint he will still fuck me. I said John move over and get on top of me I told him that he could touch me wherever he wanted. he said you won't be mad at me

no John I will only be mad if you stop or take your
 dick out of me. John said I promise John kissed my
 tits and rubbed them he acted like a dog with a bowl of
 food after not eating for a week. he was getting more
 and more excited and my pussy was on fire from John
 kissing and rubbing I couldn't take it anymore I told
 John fuck me please John put his dick against my
 pussy and started slowly pushing I could feel the
 pressure of John's dick pushing against me then all of a
 sudden John's dick head was inside of me he drove his
 dick all the way into me I could not move or speak
 his dick must be as big as a fence post I started
 getting dizzy and my head felt like it was going to
 explode the last thing I remember is John cum racing
 through me and coming out of me and running down to my
 butt. as I woke up John was still inside of me and he was
 slowly pulling out and pushing back into me he seemed
 to be moving easier and the feeling was making my body
 was racked with spasms one after the other this went
 on and on one explosion after another I felt drowsy
 at twenty two explosions I passed out again I woke up
 again and it was getting light outside John was still
 inside of me, but he was part out I tried to roll him
 off of me but I couldn't he was too big and heavy, and
 I seemed like I had no strength left in me I felt weak
 and light-headed, I layed there trying to clear my head
 soon I felt John growing inside of me again he was full
 size again. I got John's attention and asked him to stop 335

and let me up he rolled over on his back and his weight was off of me and I could breath again I tried to get up at that point I realized that John was stuck inside of me every time I tried to get up I got a pain in my pussy and had to fall back on to John. John asked what was the matter I told him that we were stuck together and the only way that I could think of was to start fucking again and when we cummed for him to take it out then. I started rotating my hips pushing my pussy down on John dick slowly I felt both John and I started cumming and as he ejaculated and I quick pulled away from him his dick was at least 12" long and as big around as my ankle. and as I was pushing myself off of Johns dick my pussy seamed like it didnt want to get of his dick and as the head of Johns dick came out of me there was a funny popping sound. the suction was hard to break. John held me on his lap for a long time and then he said miss mary are you mad at me did I hurt you. I put my arms around John and kissed him. and said no you didnt hurt me I liked that did you like it to. John said yes I liked it it was nice John said do you want to do it some more I said yes. but not right now but yes I do want to do this a lot more and thank you for fucking me that was the best Ive ever had. that brought a big smile to Johns face. John said you come back soon I we fuck some more. John then asked me if I was still his friend. I told him we are more then friends and we always will be. ok John said. as I got off 336

I John says I found that I didnt have control of my legs and I felt weak I asked John to give me my robe and for him to get dressed he started rubbing my legs first one then the other slowly the feeling was coming back to my legs and I could stand but John carried me up to my bedroom and put me in bed. as we came in the door of the house June asked did I hurt myself I said were John is just carrying me to my room I felt weak and I was having a spasm in my legs June said can I do anything I said no I just need some sleep than I'll be ok. John put me in bed and I gave him a big kiss then I rolled over and went to sleep I had wild dreams and all of them were around John and me fucking I woke up laughing several times

It was about 4:00 P.M. when June came into my room to see how I felt. if my legs had stoped hurting me. I said June I told you that because the kids were around also because I didnt want John to feel bad. the truth is I made John fuck me last night and it was so good I stayed with him all night. my legs went to sleep from fucking on his bed. you know his bed is really small and it hurt my legs June said ok in that case you must find a better bed. June will you do something for me. June first looked at me and said I bet you are going to ask me to talk to Pet. lets see rather to get John a better bed or have John move in with you? which one is it. I said one in with me June said is he that good. I told June what happened and her eyes got as big as saucers I dont believe it, how big I told her and her mouth 337

just stayed open 12" long and as big around as my ankle
 and the head was a little bigger. June said I'll have Pet
 move him up right away I've got to see this, June. I said
 we mustn't scare him he's so afraid of hunting anyone
 were got to go slowly. but do have Pet move him up right
 away. June said it done. I got up and washed up and got
 dressed I went down and got something to eat out of the root cellar
 a couple of apples, boy did they taste good. I heard some noise
 upstairs and I went up to see what was going on John had
 his belongings with him, and he said that Mr. Pet told him
 to move up to the house because he wanted to rebuild the
 tack room in the barn. I said there is only one room open
 and it means that you would need to share the room with
 that person John said that will be ok. I said come on up
 stairs and I'll show you your room. I took John into my
 room and said here you are you need to share the room
 with me. John said would that be ok with Mr. Pet. I said oh
 I think it will be ok with him. John said good I don't want
 to get Mr. Pet mad at me. he's the boss. I told John to put
 his things away and get ready for dinner. he got busy
 putting everything away and then went down stairs to wash up.
 as John was washing Pet came in to wash up too John
 said Mr. Pet is it ok with you if I share a room with
 Miss Mary she said it would be ok John stood there
 waiting and then Pet said yes I think that would
 be a good place for you to stay. John said good
 like Miss Mary she's my friend. Pet said come on
 John lets eat dinner. we all wanted to leave but we didn't

after dinner we sat around the living room listening to the radio about 7:00 P.M. I asked John if he would like to go to bed now. yes I have to get up early for work. as we start upstairs I told Pet John might be a little late tomorrow. he said I thought so said Pet. We went into my bedroom and got undressed and we got in bed. I asked John if he would fuck me again he said that he would like that. I said that last night was the best sex I've ever had and I would like to have sex with him all the time. John said I would like that too. but what if Pet finds out. If Pet finds out I'll just tell him that I love you and I want to fuck you and he will say ok he happy. would he really say that Mary. I said yes he would. ok little luck. but remember let me know if I hurt you. I said you will hurt me. I said little try this I put my pussy in John's face and I started sucking on his dick this was really amazing his dick was as large when it hung limp as Pete's when he was hard and as he sucked on my pussy I watched and felt his dick as it grew to a size that I could never get my mouth around this size really amazed me. I never knew a mans dick could get this big or how I could fit around it. with the pleasure of my pussy and the dick in my hands and my mouth. I started moving so hard that my stomach hurt. I spit on John's dick and made it really wet. I said John now its time to fuck he hurried up and straddled his dick. I could only get his dick partly in and only the head. I said that we couldn't start this if he asked should we do it the same way we did last night. I said that would probably be the best idea I layed down on the bed and John got on top of me he put his dick against my pussy

again I tried to relax every part of my body slowly I could feel Johns dick easing its way into me first its head and then the head moved a little deeper then out and back in again each time John went a little deeper into me I felt like I had a fence post inside of me and the fence post keep getting deeper into me my chest felt like he was going to push everything up to my head. I took a deep breath and let it out and at the same time I pulled John the rest of the way into me now he was all the way inside of me and soon my body started relaxing and getting into the size of his dick he made a couple of motions and he started to cum. I felt his cum ozing inside of me and out of me then all the uncomfirt stoped and he slid easily inside of me I felt in and out in short strokes and then in longer strokes soon he was going and out of me in long steady strokes my hole body was shaking and moving with every move of Johns body I said John dont take your dick out of me all night again he said I was hoping you would say that. do you know that you are the first girl Ive ever fucked no other girls would have sex with me because I was too big and they said it would hurt them. I felt my hole body start to explode in a river of pleasure I started cumming one after another the whole world was in my pussy and I loved it. and I wanted more I couldnt stop cumming they lead and my body lost all sense of time and motion I was in a dream of happiness I tingled all over and I dreamed that I was in a hot bath tub with big soap bubbles all round me and I didnt have a care in the world then a while I though the bath water was getting cooler

and I woke up to find myself back in bed with John still deep inside of me and he was smiling at me, and he said are you alright I said Im perfect and this was even better than last time. John said there was no pain and I didnt hurt you. I said John I love you this does not hurt me it makes me feel real good, and I never want to stop. I asked John if he was tired and wanted to rest, he said no I feel great. I said do you want to try something different John said I will do anything for you miss mary. I said the first thing you can do is stop calling me miss mary, call me "mary" please? John said yes mary, then I said John roll over on your back but keep your dick inside of me, he did and now Im on top, said make sure that you stay inside of me, now I want you to help me get into a sitting position he did and my legs were straight out to the side of me, now move me around until Im facing the other way John took one of my legs and passed it over his head and then he took ahold of my hips and my leg and slowly turned me around until I was facing towards Johns feet. I told John to put two pillows one on top of the other in the bed and then roll over so my hips were laying on top of the pillows when this was done I told John to rub my tits and stomach as much as he wanted and suck me some more. I could feel Johns dick getting harder and it seemed to be getting bigger and longer then before. Johns hands were ruff and hard from hard work and the way he squeezed and rubbed my tits made

want to cry out in pleasure or in pain. I don't know
 which one I liked best, and as John filled my pussy with
 his beautiful dick this also felt great it seemed his dick was
 touching places he had not touched before in side of me. I told
 John when good it felt, he said I like this to, all night we
 fucked until we both passed out in exhaustion neither of us
 could move anymore. The feeling had come over me several
 times that night of the repeated cumming and the hot bath
 with lots of big bubbles and as I sleep with John inside of
 me I felt happy and safe and loved for the first time
 in a really long time, and that felt good too. The
 next morning we woke up feeling like we were on top of the
 world. I asked John to stay inside of me and at the same
 time to hold onto me and get out of bed. he did this I said
 to stand facing the bed, and help me to kneel on the bed,
 after that was done I told John that I wanted to lay my
 head and arms on the bed but for him to remain standing
 on the floor this he also did. I was kneeling on the bed and
 my head and arms and tits were on the bed also and John
 had his dick inside of my pussy. I told John to take
 hold of my hips and start fucking me slowly as John pulled
 back and my insides felt like he was pulling them out also
 and when he pushed back in I thought he was going to push
 me thru the bottom of the bed after a few min. John started
 cumming and a shot of warm cum hit me inside my
 pussy and it felt like this cum was going to run out
 my ears, as John pushed in again I could feel his
 cum leaking out of me. Now he was sliding early inside of

me and this felt a hole lot better, my own body was starting to scream at me to fuck to cum then I was cumming and John was fucking me faster and faster deeper and deeper my whole body exploded and I started cumming over and over again and again I couldn't catch my breath there was a buzzing in my ears my mind keep saying more more at that point I must have fainted but when I came to John was still fucking me and then he exploded in my pussy again and I was in the warm bath tub again with those big soapy bubbles I felt John stop I asked him why he stopped and he said miss Jane. I look around and Jane was standing next to John. I said John show miss Jane how we like to fuck. John started fucking me some more and then I exploded again. I told John to take his dick out of me slowly and to let miss Jane see how good you are to me I felt John slowly take his dick out of my pussy and as the head came out that funny popping sound was made again, and I felt empty again and that didn't feel good, as I turned around Junes eyes and mouth were open and the expression was one of disbelief and wonder. she just stood there and looked. I wanted to laugh but instead I told John to wash up and get something to eat and that I would talk to him later and to do a good days work. also I said John I love you and I'll see you tonight bye I waited for June to say something but she left the room with that same look on her face and then I lapped to myself slowly I got up and put my robe on and went downstairs to take a bath.

After I came back to my room. I felt happy like when I was a young
 girl swimming with dad and John in the pond and I remembered the
 time when dad said that I was starting to fill out and I thought
 he meant I was getting fat, and how I stood in front of my
 mirror looking to see if I was getting fat how I used the tape
 measure to see how fat I was I decided to measure myself again
 I got the tape measure out and started measuring myself.
 Chest 39½", hips 37", waist 22". Then went over to the door frame
 and saw the old mark that I had made before to see how tall I
 was. so I stood against the door and made another mark and
 measured that to the floor 5'3½" tall I put my robe back on
 and went down stairs and weighed myself 122 lb. I said to my-
 self that not bad. here I am 21 years old I've had two children
 we been fucking since I was 13 years old now I have a man
 who has a really big dick and we fuck all of the time
 and I'm really looking good. I got dressed and went outside
 to get some sun. I went walking down to the lake pond and
 Jane was laying on a blanket naked getting some sun also
 as I looked at her she had about the same figure as I did
 maybe a little bigger in the waist not much maybe 6 or 7 lb heavier
 and she was 40 years old. I said to myself I hope I look that
 good when I'm 40 years old. everyone except Pet and myself
 think Jane and I are sisters but Pet and I know that Jane
 is my mother even Jane doesn't know that she ever had a
 daughter. I wonder if she will ever remember dad's death in the
 war and remember that the man that she calls Pet my dad's
 name is really a hired hand hired by dad when he went
 to war.

"I love June and she loves me I think that if she hadn't lost her mind when dad died, that she wouldn't be here now she would have probably died. But now we have a loving relation... she and I believe we would never have had if she hadn't trap the hired hand as dad. So I'm happy for that also.

I walked down to where June was laying and said is there any room on the blanket for me. June said yes I was hoping you would come out here I would like to talk to you. I said about John she said yes. June said I'm sorry for walking in on you this morning. But when I saw how the two of you were fucking I was curious just how big he really was and when he took his dick out of you I couldn't believe a man could have a dick that big. or that you could get something that big inside of you

or it hurt you. I said no it does feel uncomfortable for a little while until he comes then everything turns to pleasure and I feel as if I'm happy inside every inch of me screams more I can't get enough he is great and he is gentle to he wants to please me and make me happy. and he is always very careful not to hurt me. It's funny I've never fuck a man like him to so great. and the really strange part is I really love him. I know he's older than me but I don't care I want to be with John all the time. its as if we are the only two people in the world. when we are together no one else exists for me. June looked at me for a long time and then said, you really do love him. I've never seen you like this before but I like it. I asked June if she would like to fuck John to see how he feels like to her. she looked at me again and said you mean you wouldn't care 345

I put my arms around Jane and hugged her and then kissed her on the lips and said I really do love John but I also love you too, and if I can make you and John happy at the same time then I would be happy also. Jane said yes I would but he so big. I said I will help you maybe the best way would be the same way it was for me the first time I fucked Pet got me drunk and I knew everything that was going on but I didnt care if it hurt or not I was totally relaxed and he fucked me until I went to sleep, of course he also used grease, yes maybe you are write maybe that the way to go. Let me think about it and I'll let you know lotta I said ok. I then asked if I could get some sun with her and she said imazid love you, and then moved over.

the blanket. after dinner Jane came to me and said can we do what we talked about at the pond today I said do you mean about John. Jane said yes. I said ok love about 7:00 @ clock P.M. in my room Jane said bring everything needed I said ok. at about 1:30 John and I went to our bedroom. we got undressed and got into bed. I told John that I had a surprise for him tonight and John said about fucking I said yes but not with me I think you should fuck someone else tonight but I'll be here all night with you. John didnt say anything for a few min. and then said did I hurt you. and dont you want to fuck with me anymore. I said John listen to me you didnt hurt me. and I want to fuck you all the time but I was trying to show you how much love you by getting someone else to night to fuck or you would feel better about fucking more then one.

and this way you can fuck another girl and when
 you do fuck her I will know that you love me
 John said Maryd do love you and I will do anything
 to make you happy. I said it is miss June that you
 are to fuck tonight. and dont worry Mr. Pet said
 its ok. at 10 P.M. June came to my room wearing her
 robe only. she had a bottle of whiskey and a jar of something
 June came in and took off her robe and sat on the bed.
 she then handed John and me a glass then poured us a
 glass of whiskey on one for herself. she said that she had
 already had one glass. also she chose to use lard instead
 of grease. I thought yes that would be better than grease. I
 told June that I had told John about tonight and
 that it is ok with me and Pet. June said that is right
 June said John I would like it if you would fuck me
 tonight. John said yes I will do what you ask. I
 told John we will do the same thing we did last night I
 told John to lay down on the bed and I told June to
 she had her pussy on Johns mouth really quickly
 and she was having the same trouble I had in sucking
 on Johns dick. soon June was cumming and John was at
 full size. I told to lay down on the bed and spread his
 legs I then took a pillow and put it under her butt
 then took some of the lard and rubbed it into her pussy
 and then I smeared it on Johns dick the head on down the
 shaft. I told John to do everything slowly and I told
 June to think of nothing but relaxing and dont move. I
 looked at the head of Johns dick as it touched June's

pussy. June pussy looped small next to Johns dick
 head. John started slowly pushing into June pussy by
 now John had pushed her pussy out of my sight but still
 hadn't entered her and then all of a sudden his dick
 disappeared into June's pussy she had taken all of it and
 as I looked at June's face her eyes and mouth were open
 John slowly moved in and out slowly he started cumming
 after that she relaxed and started enjoying the fucking she
 was getting. John looked over at me and I smiled and nudged
 my head yes. he then started fucking June steady with
 long strokes in and out. June started moaning and her eyes
 rolled back in her head and then her mouth opened and she
 started shaking like she was having a fit John looked at
 me and I smiled and told him to keep going John never
 lost a stroke. John exploded inside of her again and she stopped
 shaking and her eyes opened and she looked at the two
 of us and I smiled and said your doing great she was
 going with Johns fucking again she started shaking and
 her eyes rolled back into her head again and it looked
 like she was having a fit again this lasted for about
 8 min. and then she stopped and looked at us again she
 said stop and at the same time John started cumming and
 her mouth opened and closed and she didn't say a thing I
 told John to slowly take his dick out of her so John eased out of
 June and the sound of the pop was heard again. John layed
 on beside June and I layed down on the other side of June
 for about one hour June said thank you for stopping I thought I had
 died. June said maybe take me down to my room I want to 348

sleep I'll talk to you tomorrow but I need to sleep now.
 John get dressed I put James robe on her and also put
 my robe on John carried June downstairs to her room
 and we put her to bed. I told John to go on back to bed
 and get some sleep I was going to stay here with June
 tonight I'll see you before you go to work in the morning
 I got in bed with June and put my arms around her. I thought
 that she might die. I was afraid that I had helped in killing
 my mother. how could I have done something like that I started
 crying. Pet came in and asked what was the matter I told Pet what
 happened and that I was afraid. Pet checked June and said she is
 sleeping and I don't think she in any danger of anything but sleeping
 I think she had maybe the best fuck she ever had and she wasn't
 ready for it she will be fine. pet said I would like to fuck you
 tonight I said that would be nice but your sure June is
 going to be alright Pet said yes pet said I want to fuck
 you in the butt. so would you kneel on the bed. I knelt
 on the bed and Pet put his dick into my pussy and I hardly
 felt anything in me but when he told me to lay down on the
 bed. Pet put his wet dick into my butt and that felt real good.
 it had been a long time since I had a dick inside my butt
 I put my legs together and squeeze my butt cheeks together
 making Pet's dick feel even better I pushed my butt up to his
 dick and Pet said oh wow now that feels real good. Pet fucked
 me hard and long and I was cumming after only a few min.
 I cummed about four times before Pet dumped his cum into my
 vult and I wanted to keep fucking. but Pet was worn out
 from fucking one of the girls earlier tonight.

Pet said Mary June will be alright she's just sleeping go on back to bed I'll stay with June tonight you go on back to bed and keep John happy. Mary June told me that you really love John and she said that she was really happy that you had finally found someone at last, and so am I, you see I love you to, and for happy that you have found someone to love at last. I want you to be happy, now go upstairs and fuck John's dick off, and be happy. I went up to my bedroom and John was asleep I sat on the bed, and looked at John laying there sleeping he looked so peaceful I sat there just looking at John and my head hurt. I had to walk around I needed time to think. I went outside in the early morning darkness, as I walked I came to the pond where I had spent so many hours relaxing and having fun. I sat down on the grass next to the water the moon was bright and shining on the water and the sound of the breeze blowing through the leaves of the apple trees was relaxing. I layed down on the grass, my mind was all cluttered up with all of my feelings both Pet and June said that I loved John I don't mean love as in fucking, but love as in part of me. I didn't know what they meant but I felt something different with John something that was different it felt good to be around John and when we were alone I didn't want it to end. I was asking myself is this love or is it just for a perfect dick that was attached to a man. I wasn't shower. I thought back to how I felt with all the men and boys I had fucked and how I felt about them, not the fucking, but them as a person 350

as I though I realized that I never wanted them all I
 wanted was there dicks and hands and mouths on and in
 me. if one left there was always another to take his place
 shore I felt close to some of them. like Pet, or Dave or Dan.
 but I never wanted to be with them all the time and when
 Dave left I felt bad but I always felt another man would
 come along. I know John is slow in his thinking and that
 it would be easy to love him as long as I wanted him
 but it was more with John shore he had a fabulous dick
 but John also had something I am not sure what it is but
 I want to be with him all the time I tried to think what
 I would feel if he left me how would I feel then. then I
 knew that my hole would fall about and want to
 lie. I though now I know what Pet and June were talking
 about. I do really love John. and I want to be with
 him always. I wanted to be with John only. I looked around
 me and the sky was starting to get light in the east.
 I got up and walked back to the house. my heart was
 pounding in my chest and I felt as light as a feather as
 I moved across the grass as I got to the house several
 people were already up and getting breakfast. as I came
 in the door I was greeted by several people. and I spoke
 to them and then I hurried upstairs to my bedroom. John
 was getting dress for work. I asked John to sit on the bed
 that I needed to talk to him. John looked at me as if I
 was going to say something that he didn't want to hear.
 nary are you mad at me. I said no I'm not mad at you
 we have done nothing wrong. everything is good.

I saw John relax as I started talking first I said John your not going to work today we have got to talk about some things. John said ok many I'll talk with you. I smiled and that seemed to put John at ease. I said John you said that you grow up in a orphanage and never knew your parents. see thats right never knew them John who do you feel about me what do you really think about me. John was silent for a long time and then said I think your sad and lonely I told John I think your right, what else. he said I like you your nice and pretty and your are nice to me. I said do you want to stay with me. John said please dont send me away I want to be with you forever I love you. I said John I'm not going to send you away. I said John how would you be to stay with me forever and always be together all the time. John said I love you and always will love you. I said John would you like to be my husband and I would be your wife. John sat there and finally said yes I would like that very much. I said then from this day on you and I are married for ever. I kissed John and he kissed me again and again I told John not to say anything to anyone that we will tell them latter together John smiled and said ok. I said lets get something to eat. John and I went into the stairs and ate breakfast we both eat a lot. Jane came out her room with Pet. when she saw us sitting there she came over I put her down around us. She said pet told me how he found us last night. Im ok well talk latter but that was the best we ever known thank you. Pet came over to us and said Im glad that the both of you are here. because I have to say 352

It came up to John and shook his hand and said John your
 not the handy man anymore! you are family and welcome
 to welcome you into the family. John said thank you
 I've never had a family before. It wasing well lets
 have a wedding reception. John said to me what's that
 I said its a party to celabrate the marrage, its for us.
 the men took John away to one side of the room and the
 woman took me to the other side of the living room. It was
 pouring drinks of hard cider that he made last winter
 as woman had some also rose said I thought I was your best
 friend and you didnt even tell me. I said I didnt tell
 anyone and yes you are my best friend and I expect
 you to be happy for me. you mean you didnt
 even tell your sister June. I shook my head no, does
 this mean you are going away are that I cant sleep
 with you anymore I said silly I'm staying right
 here and yes you can still sleep with us. but not for
 at least a week. rose giggled and then said why? and
 lapped some more. June said Well talk soon I'm really
 happy for you and John he's a good man, and
 you had better take care of him. yes I will and hell
 take care of me. June said thats what its all about.
 there was a small dinner because most of the people
 were drunk. soon I found John and the two of us went
 upstairs to our bedroom. John said are you happy?
 I said throw my arms around John and kissed him
 hard on the mouth and then said Im the happiest
 that Ive ever been in my whole life. John said Im

happy too. I heard a soft knock on the door I opened it
 and June handed me a bottle of cider and a jar, in it was
 hard and then she said have fun kissed me and John and
 left smiling. John sat down on the bed with his head
 down. I asked him why was he looking so miserable on
 on his wedding day. John took a deep breath and said
 why did you marry me I'm older then you I have
 nothing I'm slow in the head and I don't have much school
 I'm not handsome. did you marry me because you felt
 sorry for me. You know you didn't need to marry
 me just to keep me around I would have stayed as
 long as you wanted me to stay. I took a deep breath
 and sat down next to John. I took hold of his hand and said
 I've been fuckin' men since I was 13 years old I have
 had many men some of the men were real good looking
 all of them have treated me good. some wanted me to only
 fuck them and nobody else, some I have lived with and sleep
 with for years two of them saved my life. and I never
 wanted to marry any of them. I don't feel sorry for you
 or think your someone to pity you I know I didn't have to
 marry you that you would have stayed with me
 and all I had to do was ask you to. and you say that
 you are older then I am John I know what I want and that
 is you not someone else. I look at you and I see a big
 man who cares about other people what they think as well
 how you can help them you have a good heart. and you
 are kind. you when I first came to you in the tack room
 all I wanted was to have a man fuck me. but after I had

a chance to get to know you. I couldn't think of being alone without you. I needed you to know that I love you so much that I would rather die than be without you and that the only time I feel good is when you are with me. John said do you really mean that. I love you to. John ~~was~~ squeezed my hand and said come we have sex now. I told John its about time you got around to that John said I saw the hard for that Jane gave you. I said do you think we can find a good use for it. John laughed and said I think so. we slowly got undressed when we both had all of our cloose off I stood in front of John and told him to take his hands and touch every inch of my body and John did what I had said and I told him that everything he 'as touched and everything that is inside of that belongs to him. everything belongs to him. he started touching me all over again saying I love every inch of you. he told me to do the same to him and I did he said all of me belongs to you also. he then reach down and pick me up and layed me on the bed. he started kissing my hair and then my ears my face and neck my shoulders and arms and hands my best and tits and nipples he then kiss his way down to my stomic and hips down to my left leg and on down to my left foot and toes and then to my right foot and toes up to my right leg then he slowly parted my legs and kissed my pussy licking and sucking my pussy until I started cumming. he still licked and sucked my pussy over and over and cummed then slowly he took the jar of lard and neared some inside of me and then he smeared the lard on

his dick he then wiped his hands off on a towel John raised my hips up and put a pillow under my butt he then gently put the head of his dick against the opening to my pussy he gently pushed his dick into me and there was only a little resistance and then he slowly went into me I could feel every inch of him he never felt so nice I started cumming before he was half way inside of me by the time John was all the way inside of me I felt like I was in heaven and I didn't want to stop there was no more discomfort only sheer pleasure John said I don't want to take my dick out of you tonight, I said yes I want that too. I found that I could move my legs and I put them around John butt and as he pushed into me my legs pulled him in deeper and at the same time my hips were pressed up against John hips I wanted more and more of him John was kissing me and fucking me and I never wanted to stop I felt complet I had never felt like this before I didn't want any other man only John inside of me we fucked all night and in the morning John rolled me over and put his dick into my pussy from the back and at the same time he rubbed and squeezed my tits my nipples were so sore after about an hour that everytime John rubbed his hands over my nipples my pussy tightened and we both got a kick out of that. I have never known a man who could fuck for hours at a time and still want more. I found someone who could fuck as much as I could. we stayed in our room for about 2 1/2 days before we had to come out to eat and clean up and after we rested John went outside and started playing.

with our two children. the children that I never had time for it wasn't until this happened did I realize that I was treating my children just like my mother treated me when I was young, and I remembered how I felt growing up and how lonely I was, then I remembered once when my mom said that she liked kids but never wanted to have any, and how I felt when she said it, I didn't want my children growing up thinking that I didn't want them or love them, I just wanted time for myself, and how I have time, and I have children I've got to get to know them, my sons name is Peter after dad and my daughter after my mom Jane. I went outside where the children were playing with John and I told the kids that John was there too, Peter was six and Jane was five and for the first time in my life I came to realize that the kids loved me more than mom and I loved them, after that John and me and the kids went everywhere and did everything together, like was like a dream we were a family and the kids brought a new feeling into my life, and thanks to John I can enjoy ^{life} the more.

Mary stopped at this point and wouldn't talk to me for about seven weeks, then one day as I came by to see how she was doing she said please come in, I needed time to sort out my feelings and memories of the past, Mary went on to say that for the next eleven years everything went great with all of us, then in 1969 Peter was killed in Viet Nam, the same year my mom died of cancer, my daughter Jane went off to school.

with hopes of becoming a teacher. It seem like everyone just faded away. Tim ran the farm with help from John everyone else all went there own ways. Tim married a girl from Billings and the two of them have three kids. the following year John died of pneumonia. when I was 32 years old and I had no one to share my life with life for me was hell I was alone again. more alone than I had ever been. I decided to leave Montana. and go somewhere, anywhere where there were people. somewhere that there was no snow. winter cold made me think of everyone ~~at home~~ that had died in my life I wanted warmth. and bright lights and happy people.

she put her things in and old pickup and headed for Hollywood and the ocean she had never seen the sea. she drove across country to a place called Rockaway wood. where her truck broke down.

June 1959 I'm in a city and the ocean is over there I can see it. the gas station mechanic said my truck is beyond repair. I didn't doubt him because the pickup was more than twenty years old. As as I was standing next to my truck at the gas station a big black car drove in to get gas. I saw that it had calf. plates on it. the car was a Cadillac "57" it was long I asked the man in the gas station what kind of a car was that he said its a touring car with jump seats that fold away. the car had four seats in it. and one of the boys heard what I was asking the gas station man. the young man said havent you ever seen a car like this before. I said no.

I heard the other boys laughing the boy said would you like to take a look at it. I said ok I'm not going anywhere my truck is down for. the boy said is that your truck. I said yes. he then said your from mass. and you drove it here? I said yes. were were you going I said hollywood Cal. he kind of smiled and said you want to be in the movies. I said no. I just want to go there. Here its warm all year round and I can swim anytime. he laughed and said thats right. I asked him were he was going he then said home to cal. he then said that he and his friends had just got out of school. I looked at them and said school. he then said College! oh I understand now he said do you need a lift to hollywood you can come with us I said would it be ok you see I've got two boxes of belongs that I got to take the boys said shore well put them in the trunk. I got in the back seat and the other boys moved aside to let me sit in the middle of the back seat. the man at the gas station said I hope you get to hollywood. he seemed real nice. as we left the gas station one of the boys said you were celebrating summer vacation way from collage. I said that sound good. people should have fun because life seem to pass you by so quickly. one of the boys handed me a beer and said welcome to life! I thanked him and drank the beer then another handed me another beer. I drank that one too. the boys were drinking also one of the boys said here and he poured some whiskey into a bottle of beer. it was really more than half whiskey now were drinking and the boys had the radio on and the

windows down. we had driven over a really high bridge
 and one of the boys said ~~off~~ we are in one. now another
 boy said here try this I said what is it he said something
 I don't remember what he said it was, but he said lol like
 it so I took it and wash it down with another bottle
 of beer. we were driving along next to the ocean and the
 sun was setting and it was beautiful. I started to feel like I
 was on a cloud I felt like I was a young girl again. the
 two boys next to me pulled me back from the window I was
 tapping. one of the boys kissed me and I could see John kissing
 me and I wanted to be with John. then another boy kissed me
 and he was John too. I was really happy I had two Johns.
 I felt John's hand go under my shirt and grab my tits
 now John had taken off my shirt and bra. and he was kissing
 my tits and John felt good. I felt John's hand go down and
 unbutton my jeans and he slowly pulled them off of my
 legs John had moved me down on the seat. then he slipped
 my panties off. I had no clothing and John's hands were
 rubbing my legs and up inside my pussy. John had taken
 his belt off and put it around my ankle one on each ankle
 he then tied the other ends of the belts to hand loops above
 the side windows. my legs were wide apart when the car
 stopped I don't know. first John fucked me then the other
 John until four Johns had fucked me then again and again
 to some time during the night I realized these boys were not
 but my John was dead. I started screaming and yelling
 trying to get free one of the boys but we in the mouth
 and said shout us where.

and they were laughing they kept fucking me in my pussy and in my butt over and over again I was still fight to get free and eventually they would change two of them would hit me another one took a belt and started beating me the buckle cut into me and I was bleeding and they kept on beating me and fucking me they called me names as they beat me. I felt a pain in my pussy so bad that I screamed out in pain and they just laughed and spit on me and called me more names one of them squeezed my nipples so hard that blood oozed out of them. the next thing I remembered was waking up in a hospital bed. I had a hole running out of my nose and a hole running out of my pussy. another hole had blood running into my arm. the pain was great and I hurt all over. a nurse came in and gave me something for pain. then two people came in and said that they were police and asked me to tell them what happened and the man came in and said he was from prosecuting attorneys office. I told them what had happened and they said nothing. then they asked me about myself and I told them about myself. they said that they would be back soon and not to worry. I asked where I was at and the nurse said you are in the hospital in portland ore. the nurse said that they got the people who did this to you. id for me to rest and get well. I spent 5 months in the hospital. the doctors said that they had to take part of my vagina out because I was torn up inside so bad. but I was lucky that I didn't die. I said you so lucky that I was beaten up and raped by four boys.

The doctors told me that all the hospital costs were paid for. There were other people who came to the hospital to see me, attorneys for the boys families. My doctor said I shouldn't talk to them with out my attorney present. I told him I didn't have one, he told me his brother was a real good lawyer and did he want him to call him. I said yes I think so.

Mary then went on to tell me what happened with the attorney. I found out that the police had crossed upon the car with me inside and the boys beating me. The police put them in jail and had taken me to the hospital. They said I was close to dying several times. The families of the boys were really rich in Calif. and the family had paid for the hospital costs for me. The family asked to be able to handle the case outside of court. My attorney asked me if I wanted to press charges on the boys, he said that he could make a deal were the boys could get psychiatric treatment outside of jail and that I could be paid enough money to live quite well. He then asked me what I wanted to do with my life. I told him how I wanted to live in the warm sunshine in Calif. near the ocean and work at making friends. After several weeks attorney returned and said that the families offered to pay me to drop the charges against their sons and for doing so they would give me a lot of money they had in Calif. on the beach and pay me \$1000.00 in dropping all charges. I asked my lawyer if he knows this hotel he said that he went to Calif. to look at the 362

place. he said its about 10 years old and it sets on one city block that there are four stories and a basement for storages and there are 114 apartments with ~~cooking~~ kitchen and bathrooms in each apartment. he said he had a electrician and plumber check all the apartment also he checked all loans and financial costs against the place and all checked out good. he said its a good deal. I asked how can I pay you and he said that he gets $\frac{1}{3}$ of all property reserved in a settlement. but in this case he would only take $\frac{1}{3}$ of the money and I can keep the apartment house

I agreed to the agreement and reserved the money and the deed for the apartment house. I gave the lawyer his share. and he said if you ever need a lawyer again to lease call him. I had more money than I thought needed and a place to live. a place I owned. my attorney took me to my new apartment house by bus. he took care of all the paper work and setting up a new bank account for me and the house he then put all the paper work in order and found an accountant for me to do my paper work for the apartment house after all this was done he said good by and left. I picked out a apartment on the top floor over looking the ocean it was a corner appartment after a while I had carpenters take out the wall between my apartment and the next one to make one large apartment. out side of my door was the stairs leading to the roof. I liked to go to the roof and look over the city I was the tallest building around no other buildings had more than four stories. and the ocean was beautiful but really pretty at sundown. I also liked to walk

along the beach at night with bare feet and the wet sand against between my toes. everything was peaceful. I had lived there for about a year before I felt like meeting other people again. I slowly started getting to know first the people in the apartments then I started getting to know the people who lived and worked around my place. The apartment house was making money and paying all the bills.

June 1961

Today I layed on my roof staring at the sun going down over the ocean. and I remembered the first time I saw the ocean and how the sun looked going down all the colors. and then I remembered the pain and the fear and those many long days of pain and suffering laying in the hospital room and the operations to try to put me back together again. why did they do that to me. they seemed like nice boys how could they hurt me like they did. what have I done to them why me then I realize that this is the same things that have been going thru my thoughts every day since it happened it is time I find out why I can't sleep at night why I can't make friends why I can't trust people. have I changed so much. or is it that everyone else has changed. I tried to sleep again last night but I woke up twice thinking that I wasn't home I got up out of bed and there was noone else there and I felt foolish. I decided to go to the doctor to get something to make me sleep at night he gave me some pills. and then said I would like for you to see an other doctor he is

a specialist he deals with the mind. I said a scrip he said yes but I think he can help you. I went to see him he was a little old man who smoked a pipe. we talked a while and then he said come back tomorrow at noon and we will talk someone after about three weeks I had told him everything about my life that I could remember. he then started telling me how I had been raped all my life how after my dad was killed and my mom lost her mind how the two handy men had raped me and my mother. I couldn't think of that as rape he said it was rape because you were not a willing person you could not reason the facts of life you didn't know about life and how people were you were only a child and saw things as a child saw then you were looking for love and someone to take care of you. your knowledge was the knowledge of a child these men raped you and then made you think that what they were doing was the way things were supposed to be then to the part about your mother did she know that this hired hand was not her husband. I said no she thought he was dad. there you see your mother thought she was having sex with her husband, and these men made you think that having sex with them was right and having sex with your mother was right. do you think that your mother would have sex with her daughter if she had known you were her daughter would was starting to understand what he was saying. I saw my whole life as a lie based on a lie he said these men didn't love you or your mother they used both of you for their own sexual fulfillment, and didn't care about you. I was having a hard time trying to look at what he said

the following day when I saw the Dr. I told him if they
 didn't care about me or mom, why did they save me
 from those other men, and kill them. the Dr. said think
 about it. did they save you because they loved you or
 was it because you belonged to them and were they just
 getting back their property, and didn't you say that you
 were teaching the other kids to fuck. think if they wanted the
 other kids to fuck also wouldn't it be great to have your
 property take control of the other kids to bring them to do
 what they wanted. these men rape you and raped your mind
 and have told you what to believe and trick you into helping
 them. I said well how about John. the Dr. said that part of
 your life I see as being real and loving and good I don't see
 anything wrong with what you did or had between you
 you said John was slow in thinking and you were thinking
 with misinformation so I see your marriage as good.
 when the Dr. said that about John and me I felt better and it
 was easier to look at everything else as a rape of my
 body and mind by people I trusted. a lot of my memories
 that I had that I thought were good about my childhood
 I started to realize as being horrible. and the rape by the
 boys as just a continuation of my life. I had to put all of these
 memories out of my life I had to stop looking back and
 living in the past, and feeling sorry for myself. I had to look
 at today as today and hope that tomorrow will be better
 to trust others again and realize not all people out there
 do you harm. It took a few months before I could sleep
 to night and put everything behind me I had to forgive

others for what they did to me. but the hardest was to forgive
 myself for what I did to myself and to others. my motives
 may have been good at the time but what I did was
 wrong. there came a time when I wanted to clean up everything
 I had the hole apartment house painted and had awnings
 put over all the windows and doors. I had larger fans
 put on the roof to bring more air thru the building
 I then had the roof resurfaced then I had the carpenters build
 a flooring like a board walk covering the whole roof. there
 was a small wall around the roof about 12" high. I then
 had the wall made of out of wood a fence like wall put
 around the roof on three sides and leaving the side toward
 the ocean open this wall fence was 6" high and made out
 of redwood as well as the board walk flooring on the roof.
 I then had plants and scrubs and small trees planted on the
 roof. and a gazebo built on the roof it had eight sides
 and a eight sided roof on top of it. it was made
 out of redwood. but painted white. there was a building
 across the street that was two stories I think it was a
 restaurant at one time with living quarters above and an office
 I had my accountant buy the building and redo it I made
 a restaurant out of it and redid the upstairs I brought new
 equipment and fixed the place up like a picture I saw in
 a magazine of a french cafe with outdoor tables. I put an
 help wanted article in several papers looking for people in the
 restaurant business. the menu was simple coffee, soda pop, ice cream
 etc, soup, hot dogs, & hamburgers. I sat on my roof and watched
 the people come in and out every day. and my accountant says

track of the money it took less than a year before the building had paid for itself. the people who worked there were mostly collage kids, and they did a real good job.

I had been seeing the script for all this time about once a week, and everytime I saw him he would ask if I was seeing anyone yet, and my answer would always be the same no. then he would say why not you a beautiful woman who could pass easily for twenty two and I would laugh and say I'm too busy working. then he would say your not fully cured until your head comes to grips with your pussy. never get out of here and find someone. and I would tell him if I have time to, he would say make time. I told him just think if I get well you want see me any one and look at all the money you'd lose, and we would laugh. I went home and took off all my clothing and looked at myself in the mirror he was right I look the same as I did when I was twenty one. no wrinkles no flab. my tits didn't sag... my skin was tight, my hair was almost white from the sun. I got dressed and went about my day I don't have time for this. the next day I was walking on the beach and it was dark and the wet sand felt good under my feet. I saw a camp fire just off the beach as I got closer I could see a man who was naked he had just come out of the water and was drying himself off. I started fantasizing about having sex with him. I shook the thought out of my head. started walking and walked down the beach and I heard the man's voice say its a beautiful night isn't it I looked around and the man was standing near his camp fire. he had a

towel wrapped around him. I said yes it is. he asked
 me if I would like a coke and I said yes I would. I walked
 over to the fire and the man handed me a bottle of coke
 it was cold. he had an ice chest there. As I drank he held
 out his hand and said my name is Brad and yours?
 I told him mine he said that a pretty name. he then
 asked if I would like to sit and talk a while I said ok I sat
 near the camp fire and he sat on the other side of the fire he
 asked if I lived around here I told him I lived up the beach
 ok. I asked him where did he live he laughed and said you're in
 my living room. I didn't expect that type of answer and I
 guess I blushed and then I laughed also. he said do you come
 here often I said about three times a week but I've never
 seen you here before he laughed and said I moved in today
 and I haven't had time to clean the house yet on most the
 nights as we talked I felt at ease talking to him I could see
 his dick under the towel he was wearing and my mind was
 racing with wild fantasy. my pussy was starting to itch with
 anticipation of a fantasy fuck I tried to get up saying I've got
 to go now and he got up and put out his hand to me and
 said here give me your hand when I did he pulled me up to
 my feet I fell towards him and pulled his towel off. he flopped
 and said maybe I should have put pants on, but he never
 picked up the towel or tried to hide himself I looked at his
 dick and then at his eyes and then back at his dick. he took
 steps towards me and tilted my face up to his and kissed
 me hard on the lips and I responded to his kiss. between
 kisses he said I want to make love to you right here

and I was busy taking my clothing off and saying yes soon I was naked lying beside him on the sand. we kissed and touched each other slowly he started rubbing my pussy and I couldn't think I went with the feeling of steam pleasure he then started kissing and licking and sucking my pussy and the feelings were driving me crazy I cried out please fuck me and he did. he felt so big inside of me the sensations were unbelievable we fucked and fucked for hours and as we rolled apart he got up and said I think it's time you leave. I couldn't believe what I was hearing he was telling me to leave after just fucking me to the point where I wanted more of him. I got up and got dressed as I was walking away I turned and asked why. he said my name is Brad not John if you are going to fuck me please fuck me not someone else. I walked on back to my place and took a hot bath and layed down on my bed. I told myself so I called him John while the big deal then I thought what is as we were fucking Brad had called me another girls name ~~the~~ how would I feel. after a little while I realized why he got so mad and asked me to leave and I was truly sorry for hurting his feelings. I didn't mean to.

The following visit to my Dr. scribble I told him about my having sex with the man on the beach and how I felt, and how he told me to leave because I called him John when his name was Brad and how I wanted to find him and tell him that I was sorry for calling him John my husbands name and how he died.

The Dr. asked me did the sex feel good. I said yes it did and I want to find him so I can fuck more. The Dr. said I don't want you to seek him out or tell him about I don't want you to have sex with him again. I ask why you told me to find someone and have sex with them now that I have done just that you tell me not to have sex with him again or look for him. I don't understand what you want. The Dr. then said I wanted you to have sex with someone to feel the physical feelings of sex and in so doing not remember the rape by the men in the car and how you felt during and after the rape. now you can go forward with healing yourself. you see many I can't heal you, nobody can, only you can. I can only advise you how to go about doing the healing, and show you where the danger areas are, and why. he said I'm going to say things that you may not like but remember I'm only a guide to help you grow in your understanding of yourself. how we can get to the heart of some of your problems.

The Dr. went on to say do you remember when you told me about your childhood. I said yes, well you said that you were the only child in your early years, and that the only people you had around you were adults, yes I remember.

there was your mother your father and a handy man and no other kids around. so all of your contact with people was adults no other kids. you related to others if on a adult level you didnt have a loving relationship with your parents. and your best friend was the handy man who lived out in the barn and when your father and your best friend left and three new handy men came to help on the farm you saw them as your father and best friend together. and when the word of your fathers and the handyman death came and your mother lost her mind. you felt completely alone you didnt have any connection with the only person who you felt close to she didnt even know who you were. so when the two handy men raped you. you thought that this is what it is to love and know you loved 'em. but in reality you were grabbing onto a hope that you want be alone anymore. that people loved you that your father and the handy man had come back to love you. and you told me how one of the handy men died in the barn I think that the one you called Pet. killed him to keep his power over you and your mother to himself to have total control over everyone. and when you had sex with your mother this also presented by the handy man Pet. and you thought this was normal also. and you would do anything to get your family back. you told yourself that this was 've and the way it should be. and this was reinforced by thinking that when you your mother and Pet sleep together and had sex together. it makes you feel good because you weren't alone anymore. and when the other children came along who were your same age you went about teaching them what you thought to be true to be

fact. you were prompted by Pet and your mother who was not in control of herself, to bring other kids around to there way of thinking and then Pet could have sex with them also, but in reality he wanted to rape them just like he raped you, and your mother, you thought that having sex was love, you always thought of love as sex, and when you were raped by those men and they killed the black boy Sam, you again found one Dave to think he loved you, and the others didn't exist, and when you had sex with John in the barn he was the handy man, and then you arranged to have him moved to your room, and you didn't care what he wanted the only thing that mattered was what you wanted. And when you found that you could manipulate him to do what ever you wanted. You have to tell yourself that you loved him because he made you feel good in bed, sure the two of you had love between you and John that grew but it started out as a rape of John, and did you know that you never talked about the new group of children as you talked about the first group with the exception of the two older boys, why do you think you didn't talk about them, I said I don't know I was never very close to them Dr. said think about this you were close to the adults and the other children about your own age, but not the younger children or even your own children, and that only changed when John took notice of your children. It you still did associate with the younger children in your family, see if what Am about to say makes sense to you.

you treated your children and the younger children
 just like your mother treated you, when you were at
 that age, and the children that were there at the ages
 of 1, 8, 9, 10, did count because you couldn't have sex with
 them they were too young, and to you that meant no
 love, only a wast of time, so to you they didn't exist
 in your life, and why when you were raped and beaten
 by those boys in the car did that make you back off
 from having sex and trusting people and wanting to be
 with people, why do you think you had nightmares
 and had trouble sleeping, I'll tell you why because you
 couldn't find someone to look at as a lover, you were
 raped and beaten and you couldn't find someone to fill
 the place of someone to love, and without being able to
 go to that place of comfort, you withdrew within yourself,
 and questioned everything and everyone, the act of fuck
 now meant pain and hurt, and being alone and scared.
 I said I never thought of things that way it sounds
 wright but I've got to think about all that you have
 said, then the Dr. said many do not have sex with
 anyone or get emotionally involved with anyone, I said I won't
 all the next week I thought of all the things the Dr. had
 said to me, and it all made sense to me, and he was
 right on all points, he was right on everything, why didn't I
 see things myself, the next visit with the Dr. I told him
 that I had thought about what he had said and he
 was right about everything, and then he asked me if I
 wanted to turn my life around and start being well 374

and living my life to the fullest. I said yes of course I do that's why I been coming to see you for two years. He then said when do you want to start changing your life. I said today straight now. he said very well let start. first get it thru your head that love has nothing to do with sex and sex has nothing to do with love I asked if two people loved each other wouldnt they have sex. he said not all the time. I ask how can that be. he said I loved my father and I never had sex with him, just like I love my friend sue she dont have sex. on the other hand I had sex with my nabor's daughter and I didnt love her. this happened when we were both 17 years old. but when two people love each other and they have sex together that is better and the love is better but love and sex are two different things. what I would like you to do is have sex with as many different people but never with some one you like or if you do only once never twice. if you want to fuck then find some one you dont like or someone who makes you feel sick. this is to enjoy sex as sex and not to fantasize about loving that person. and if you do feel attracted to a person then dont have sex with them because this would only reinforce the distinction that sex and love is one. when you know that they are different. so go on home and think about what I have said. its up to you to force the yourself to your choice to do what you think is best for you. but make sure you let the person know you only want sex and nothing else. this way your not lying to someone and using them. 375

to fulfill your sexual needs this way you both one on equal grounds and none is victimized by the other.

After left and went home he had said so many things that made sense but at the same time were strange I didn't know if I could do what he had suggested for me to do. For several days I ruffled with my thoughts and feelings about the dilemma I was faced with.

The following week I went back to see my Dr. and told him that what he said was true and his ideas were good also I told him that I wanted to do what he had suggested but I couldn't think of anyone whom I didn't like. he said you don't have to dislike them but you need to not know them and it would probably be a good idea to not let them know who you are, or were you like. make them think that the meeting is by chance. go places that you haven't gone before and want go to again. but just remember these are people that you are not to fantasize about during or after the sex. the sex is to enjoy to the fullest that you can. now do you understand. I said yes and left my hair was up, and I needed to prepain myself. I went to a clothing store were they sold woman's clothing and I asked the lady there for her advice about clothing I said I wanted something to make men take notice something to show off my attributes and tell men I'm available. She said she got just what you want. she came out with a short skirt that came only just below your crotch she said with pants and a little top and a pair of sandals men can't resist I bought several pair of them red, black, pink, blue, white and shear lace pants like type also in colour. 376

the several halter tops and silk short blouses, three pair
 of sandals with short heels. I took all of these home with me and
 tried them on I got a rush of goose bumps when I saw myself
 in the mirror, it took two more days before I had enough nerve
 to try the outfit out and go out looking for someone to fuck.
 I decided to take the bus to San Diego to where no one would know
 me and I could fuck all the time. I checked into a hotel where
 I would never check into on my own the place was old and
 run down and they rented rooms by the hour I took a room for
 a month. the part of town that I was in there was no light nights
 night bars and dance halls and pool halls the thought of going into
 a place like that made me want to go and take a shower to get
 clean. all of these places smelled and the lighting was dim at
 best there was always bad music and cigarette smoke. I said
 I would never come to a place like this or see these people again
 so it would be safe for me to do what ever I want to do.
 there could not be a fantasy about this place, or its people
 here. but I could find men to fuck me. I finally got my nerve
 up to leave my room it was about 10:00 P.M. on a Friday night
 I felt nervous my stomach felt tight and empty then I remembered
 that I didn't have dinner tonight so I headed for a coffee shop
 in the next block. I went in and sat down in a booth away
 from the door I didn't want anyone to see me. but I wanted
 to see them. I was wearing a silky blouse that you could see
 through and I had no bra on I had white silk lace
 underwear and the black short skirt with a pair of leather sandals
 and no stockings I ordered a cup of coffee and a piece of pie.
 the booth was made of a plastic material and it was in a house

shoe shape, the girl brought me the coffee and a piece of apple
 pie, and asked if I wanted anything else I smiled and said
 no thank you. she left and gave me a bill. the hot coffee
 felt good and the pie was ok. as I sat there two men
 came into the coffee shop and got a cup of coffee one of them
 saw me in a booth and they came over to the booth and
 sat down one on each side of me, one said how much and I
 said how much for what. the other one said for what and started
 laughing he said how much for you. oh I said I'm not a
 prostitute. one of them said you arnt a prostitute and you are
 here wearing these kind of clothing get real how much. I said
 how much do you think one said \$20. I laughed and said no \$30.
 for both of you they said ok lets go. I said where the money
 was they had \$30.00 on the table so I put it in my pocket
 and got up and left with them I payed the girl for the coffee
 and pie. and we went out into the street I had one man on
 each side of me with their arms around me the men headed
 for a hotel and I went along the man at the desk said
 \$10.00 for a hour. the man behind the counter said second door
 upstairs left side then he said one hour. we went upstairs
 and went into the room. there was a bed a table and a
 chair. with one light hanging from the ceiling. the first
 man said take off your clothing and I did they said lay
 down and get ready the first man got on me pumped
 2. five times and got up. the second man stayed on me
 for about 15 min. and then he got up. the first man did his
 again. and then the second man. the two men had came
 inside of me and now they were getting dressed and I never

summed the feeling was there but I never reached my
 stage of pleasure. it was like going to the bathroom
 just doing it, and whispering nothing else. we all left together
 the men headed for a bar, and I went back to my room
 when I got there I took off my clothing and washed real good
 I had a duce bottle in my suitcase case so I duced and
 then I felt cleaner. I had a bottle of whiskey in my room and
 I poured a good amount in a glass and drank it. I then put
 my blouse back on but this time I put the hutter top on inside
 of the blouse. the whiskey had stoned the butterfly in my
 stomach and left a warm feeling in the place. I felt relaxed
 and not as scared. I told myself I will enjoy myself to night
 I will have sex, and I will enjoy it. I went back out on the
 street and walked along the side walk as I passed by a bar
 I could hear loud blues music playing so I went in the
 place was crowded and the place was big inside I went to the
 bar and ordered a large whiskey payed for it and walked
 round the place until I came to a stairs going up to a
 balcony I went up and there were more people up stairs leaning
 on the railing listening to the music and moving to the music
 and singing. I moved around until I found a place where I could
 lean on the balcony and listen to and watch the band I had
 finished my drink and I was feeling good. the lights were low
 and you could hardly make out who was standing next to you
 I could feel two hands rubbing my butt soon one pair of
 hands were under my hutter top and squeezing and rubbing my
 tits and that felt good at the same time the other pair of
 hands were pulling my pants down and then taking them off 379.

of me slowly the hands were between my legs pushing
 them apart and I could feel fingers rubbing my pussy one or
 two fingers going into my pussy and rubbing me inside
 I felt the hands vanish and the hands returned they were
 around my waist and gently pulling me back away from
 the railing and into a room with a bed the hand on my tits
 had a piece of cloth and put it over my eyes so I couldn't
 see then the hands moved over me removing the last of
 my clothes and guiding me to the bed. I had the feeling that
 there were many people in the room and I was the center of
 their arousal. I said I don't want to see anyone but I want to
 fuck all night long will you please fuck me. I heard
 several people snicker and then they said any to please a
 lady. all night long men would fuck me they came in
 all sizes and shapes and moved differently from each other
 I lost count at about 20 but there were probably many more
 the pleasure had made me cum so much I thought I
 was swimming in a lake of pleasure they fucked me in my
 pussy and in my butt and in my mouth and at times all
 three places at the same time. and in a many different
 positions as I think possible. It felt so good I didn't want to
 ever stop but soon I passed out and when I awoke I was
 dressed and laying on the bed with a note beside me saying
 come back whenever always welcome. signed the gentlemen
 I went back to my hotel room and took a hot shower and
 when I finished I layed down on the bed and fell asleep when I awoke
 it was dark. I had sleep all day and I was hungry
 I not dressed and went down to the coffee shop

and asked the girl if they had any real food she said yes and that she would get me something to eat. after a few min. she returned with bacon and eggs and toast and jam. I thanked her she also brought me a large glass of milk and a cup of coffee. I thanked her paid the bill and left I put the money I had in my pocket from the night before that I got from those two men in the girls pocket and said thank you. again. as I went out of the coffee shop I thought about the pleasure I had the night before and it made me smile. but I remembered what the Dr. said only once and don't fantasize about a person or a place. only focus on the sex not the people or the place. and remember sex is not love. that sex is a biological function that people do. its like stretching or sitting. I had to smile to myself at the analogy that he gave. but I understood what he was trying to show me. but to know what sex is. and feel what sex makes you think of is different things. I went down the street where there was loud country music coming out of a bar. I went in and the people were dressed in cowboy clothing and singing along with a band that was not very good. there was little of drinking. I went over to the bar and asked for a large whiskey and burned it when it came and I ordered another one. I asked the bar tender how much I owed him and he said that the man over there has already paid for it. the man walked over to me and said are you here alone. I said yes 381 he then took me by the arm and led me to a table

at one side of the dance floor. as we sat down he asked if I wanted to dance. I said no not right now maybe later. I finished the drink and the girl brought me another drink. I was feeling more relaxed now. he leaned over and asked if I wanted to go someplace and get some air. I looked at him and said. I just want to fuck nothing else. he looked at me with the stranger's look on his face. then he smiled and said well lets go both of us got up and he led me to his hotel room. when we got there we both got undressed and fucked he was good I cummed several times he fucked me dogie style and that felt the best maybe because I didn't have to look at his face. Im not sure but it was better. the Dr was write there is no love here just sex. after I cleaned up I went back out onto the street I was standing on the street corner trying to decide which way to go. and then there were two girls standing behind me yelling at me to find my own corner that this corner was theirs. I said I dont want your corner I just want to fuck. one girl said so you want to fuck Ill show you who can help you they took me by the arms and led me to a warehouse about two blocks away. as we came in one girl said go in here. a small room in the corner one girl pushed me in and closed the door behind me I stayed in there for about 30 min. then two big black men came in and sat down in two chairs next to a table then a notha big black man came in and sat in a notha chair. and said the girls tell me you were on there corner and then told then you want work on the street.

that you said that you just wanted to fuck. is that correct or are you a cop. I said my only reason for being there was to find someone to fuck me. I didn't want any money. The men all looked at each other and shook their heads and one said I don't believe you are you some kind of a nut. I said no my Dr told me to go out and fuck men just for sex and nothing else the other one said shes a nut alright. The first one said take off your clothing and get up on the table. I did what he said and I reached for the table and he said stand on top of the table I did what he said. he said dance for me and make me want to fuck you. It felt strange but I did what he said the more I danced the more I wanted to fuck soon I was rubbing my pussy and my tits at the same time and crying out for him to fuck me. he said sit down on the table as I did the other men forced me to lay down on the table each one took one of my legs and bent my knees up so my knees were touching my chest I was laying on the table with my butt hanging over the end of the table the man who had been doing all the talking got up and dropped his pants he had a huge dick and as he stepped up to me I knew he was going to fuck me real good like I wanted for a long time he put the head of his dick on my pussy lips and gently pushed the head in me after the head was in he jammed his whole dick into me though he was going to push my insides out of me the discomfort stayed and was replaced by sheer pleasure and I wanted more.

This man fucked me for about 15 min. until he started cumming inside of me I felt his cum going into every inch of me and it felt good he pulled out of me and said is that what you want. I said yes he then asked me if I wanted more and again I said yes. he said ok. the other two men took me to another room where there was a hard ~~the~~ bed I went over and sat on the bed and the other two men took off their clothing and got on the bed with me the first one pulled me up into a dogie style and fucked my pussy hard. he seemed to go deeper into me and I liked it when he cummed inside of me. after he cummed he kept on pumping my pussy and got hard again. he then pulled his dick out of my pussy and put it into my butt. when he was in my butt he rolled over on his back and the other man put his dick into my pussy now I had two dicks in me and it felt really good. as they fucked me over and over again I had the feeling of two dicks beating together on my head. and it felt great. they fucked me for about two hours and then they quite they threw my clothing to me and said get dressed I did what they told me to do. and one of these said come back tomorrow night about 9:30 PM, I said ok and I left. I went to my hotel room and wash myself inside and out. I felt content and I felt good I layed down and sleep. I awoke about 2:00 PM and decided to get something to eat. after I ate I got on a bus and went home to S.A. I had got there I walked in the sand the sun was going down and I felt good. I realized I didnt love any of those people only enjoyed having sex. and I didnt care if I ever saw any of them again. I could see the difference and feel the difference

the next day I went to see my Dr. and told him what I had done and how I felt about the fucking and how I felt about the people I had been with and what I had done. he said that was not what I had in mind for you to do but if you are ok then I guess its ok, but don't do that kind of thing again please you could have been hurt in a place like that. I went back home and sat around my apartment then I went up to my roof I spread a blanket on the roof and took my clothes off and layed down to catch some sun. after about a hour the sun was starting to go down so I got dressed and went down to the restaurant to get something to eat. I went in and sat down one of the girls came over and took my order. as I sat there looking out over the beach my thoughts went back to the sex I had on my little trips. I then looked around the restaurant and I saw Bart cooking over the stove. he had on a pair of shorts and a tank top on. he looked like he knew his way around a kitchen. he made his work look easy. I saw ann the manager and motioned her to come over and sit down. as she did I asked her about the new cook who was he and if he was any good. she said his name was bart and yesterday was his first day and she thinks he'll work out ok. she has had no complaints about his cooking or his work habits. she says he lives on the beach. I told ann that the job carries a room next door room 418 it over looks the restaurant I'll tell him now. I said no more until later. ann asked if I was interested in him.

I said yes, but not in that way and she smiled
 as if it was taken care of. I finished eating and went for
 a walk on the beach I had called the apartment house
 and told them to hold room 418 for the new couple. I found
 a peaceful place near the water and I layed down to catch
 the last rays of the sun and listen to the lapping waves.
 I fell to sleep feeling good about everything around me. I was
 awakened by someone standing over me looking up at me
 "marg are you up are you awake" I opened my eyes to see
 Bert standing over me. when he saw that I was awake he
 sat down on the sand next to me. and he said I need to
 tell you that I'm sorry for the way I treated you the last
 time we were together. I said no you don't owe me and
 apologies if anything was wrong I did it I'm sorry for hurting
 your feelings. he said can we start over again. I said
 I'd like that. he went on to tell me that he got a job
 yesterday cooking at that restaurant over there he was pointing
 to my restaurant. yes I saw you there a few hours ago.
 he said why didn't you say hi. I told him that he looked
 busy and I didn't want to bother him. I asked him why he
 wasn't working now he said my shift over. I won't come
 with the job so I've got to move my things to the room. I'm
 going to miss the beach a little. Bert asked if I'd like to have
 dinner with him. I said I've already eaten but thanks you
 maybe some other time. he said oh you've got a rain check on
 that. he smiled and got up and headed for his things left
 on the beach to take them to his room. I got up and headed
 for my room I took a hot bath and went to bed.

The next day I went to my gynecologist and he checked me and said I was just fine. I asked him if there was some way to get more feeling out of fucking he said you already know that you can't have anymore kids because of that accident you had but we can tighten the opening out a simple process that can be done in a doctors office I asked him if he could do it he said yes, but that a Dr. he knows would be a lot better than he could be, I got the Dr. name and my Dr. made an appointment for me the following day I thanked him and went home. back to my roof to get some sun. the next day I went to the plastic surgeon and told him that I wasn't getting much feeling when I had sex that when I was younger I had much more feeling. he told me that he could do a couple things but I would be sore for about a week and would be able to have sex for two weeks and then be careful until the stitches were out. I said lets do it. the process took about four hours. I had a local so I was awake during the whole operation and he talked to me and asked questions as he worked on me. he was right I was sore for almost 10 days and after the stitches were out. I was a little hesitant about fucking anyone so I didn't I walked and worked out and got stronger and I looked better also. and when I asked the Dr. what he did he said a little nip and tuck work so he sat down and explained the whole process he said since you are work out I've checked your vagina both the opening and the width of your vagina has toned up to that of a 16 year old girl. I don't think you will need me anymore just your regular visits with your Dr.

the following week I told my Dr. scrib what I had done, of course I waited until after my stitches were out before I told him. he asked why did I wait so long before you told me. I said I was afraid you would be angry with me for having it done. he then said you know damn well you are not answerable to me. you dont need my approval to do anything you want to do. but tell me why you wanted to have the operation done in the first place. I told him people have face lifts and belly tucks and tity implants all the time. I just had my pussy tightened. he said yes people do have all these things done everyday. but you had something else done, why. I didnt know what to say. so I said because I wanted to. the Dr. said yes you do know why but your not facing the truth and you know it. He then went on to say could it be that you wanted more sensation when you fuck that the contact of a male organ rubbing inside of you makes you feel more desirable to yourself or is it to make the man feel more secure in his possession. or is it to reinforce your belief that love is sex and if the sex is good for you then that means the sex is good for the man. and he'll love you and you'll be happy and you wont be lonely. I said all of what you say might be true. But when I had the operation done I was wanting more sensation in my pussy so I could enjoy sex more. when I was having sex in san diego a couple of weeks ago I found that there was very little physical sensation of sexual pleasure that most of my sexual pleasure come from my memories of how sex feels. so when I do have

sex with a man the sexual arousal will come from him
 not a memory of how sex felt before. I want to live in
 a here and now life, not in my memories. The Dr. asked
 how my new modification worked and if things were better
 I said I don't know. I've been a little scared to try to test
 drive the new equipment. I'm letting everything heal real good
 first. plus the surgeon said because of me having had two
 children plus the fact that I had other operations in the same
 area that now the skin will give a little but won't stretch
 and become loose as before that what I have now is ^{the} limit
 to the enlargement that I'll get either in the opening or in the
 vagina diameter, and that there is one area deeper in the vagina
 that narrows down smaller before it get normal again and that
 is because of the previous injury that I had in the rape in the
 car. and that he would suggest that the first few times I use a lub-
 ricant to reduce the amount of discomfort that I might feel.
 The Dr. said keep me informed how things work out. I said
 I will. I went back home and sunned myself on my roof
 as I was laying in the sunshine I could hear voices from
 down the beach it sounded like many people laughing and
 having fun. I sat up and looked up the beach and in
 the distance about one mile away people were building
 a bonfire they were still gathering wood as I watched
 them I thought that I bet I could get a good fucking
 from at least one of those men. my mind started racing
 at the fact that the stitches were out and its been more
 than three months since the operation everything should
 be healed. I told myself many we are going to that

party tonight and we are going to fuck and have a good
 time. I got up and got dressed and went down stairs to
 my apartment and looked thru my bathing suite I found
 one that was a two piece and ~~very~~ very revealing I
 think the sales lady called it a string bikini it was
 hot pink and I put it on I looked at myself in my mirror
 and saw myself my yellow golden hair my light brown
 skin, my blue eyes, my flat stomach and shapely hips, big tits
 that stood out by themselves and covered slightly by a hot pink
 piece of cloth it looked like I had hot pink nipples and a
 hot pink pussy you really had to look hard to see the strings
 I put on a pair of sun glasses and a large basin hat made
 of straw. I had a pair of sandals on my feet I said ~~you~~ you
 look good enough to eat, or be eaten. I walked around my
 apartment and looked at myself a few times. I then remembered
 what the Dr said use a lubricant the first few times. I tried
 to think how would I carry it. Then I remembered I need to
 take a towel anyway I carry a towel and a draw string purse
 I can put it in there. I decided to use a tube of naval jelly that
 I had. I threw in a comb and some lipstick and a compact with a mirror.
 I also put a bottle of crown royle in it purse. I told myself
 that was to give it some weight but I laughed and said ~~you~~ you
 really. I also threw in a tube of copper tone and a few bucks
 just in case then I wrapped a thin scarf around my waist and
 let it hang down my legs and come together in front.
 I thought now I'm ready. as I left the apartment house
 felt like I had spurs on my feet. I walked on down to the
 water's edge and stood looking out over the water. ~~holding the~~

please full sound of the waves wash over my thoughts
 and I felt at peace with the world. I started walking up
 the beach toward the people building the bonfire the sun
 was just starting to go down. I said to myself I timed this
 pretty good I will be getting there just as the sun drops
 into the sea and disappears about the same time they light the
 fire. I thought as I walk along the wet sand I make a pretty
 good picture. not many women or girls look as good as I
 do. I get their attention quick enough. I was about 1/2 mile
 up the beach the town building ran out now there was
 undeveloped land and the beach and the ocean. As I walked
 along the beach five men came across the sand toward
 the ocean they were carrying two cooler chests and the
 little man was carrying a large radio and a large bag
 of hotdogs and hamburger buns. they asked if I was going
 to the beach party. I told them I wasn't invited but I was
 going down to see if I could join in. the five men seemed
 to amuse at the same time you invited. I smiled at
 them and asked if I could help carry something the man
 with the radio said do you want to carry the buns or
 the radio. I looked at him and I said the radio. he
 handed the radio to me and we all strolled toward the
 party up the beach. I guessed the mens ages to be about
 22 average. and I thought the Dr said make it clear that the
 man knows that I'm interest in sex not love or a long
 term relationship. But he didn't say I had to tell anyone
 my age so as of now I'm 22 years old people have said
 I had the body and looks of a 19 year old.

as we strung out walking the men carrying the ice chests
 fell a little behind. and I could hear them talking to each other
 about me. and they didnt say I looked like there sisters
 or that I had a nice hat. or that they wanted to take me to
 church on sunday. there comments revolved around my
 physical attributes and how they would like to admire them
 a little closer. I smiled to myself and said better then most
 woman or girls. and I seemed to get a little more spring
 in my steps. and the radio seemed a little lighter. as we
 came to the others who were still gathering wood. the fire
 had just been lit and it was starting to burn good the
 sun had gone down now and people were drinking and dancing
 to a another loud radio that was already there. the men
 with the ice chests put them down on the sand away from
 the fire one of them said here I take the radio I said better
 put it on a blanket or it will get ruined if it gets sand
 in it. he smiled and said good idea. I dont want to ruin
 it I just bought it yesterday. I told him and it looks
 like a good one. he then opened one of the ice chests and
 dug around and came out with a cold beer. I said its cold
 he patted the chest and said dry ice lasts longer.
 I thought to myself this guy had some brains I stuck
 out my hand and said hi my name is mary. and
 yours is. he looked down and then back up at me and said
 Jim. he was smiling he then said here put your things
 over here. I said how about farther away from the fire
 consider when bags drink they have a tendency to run around
 and kick sand everywhere.

Jim took my beach towel and spread it out on the sand and I sat down cross legged on the towel. Jim put his towel next to mine and said do you mind if I put my towel next to yours. I smiled at him and said of course not I would like some company. I was watching the house play on the beach around the fire, but I was thinking about Jim he looked to be about 22 or 23 years old he was about 6' tall and had brown hair he looked like he worked inside he didn't have much of a tan but he wasn't fat he was about 180 lbs. and soft spoken and had a nice smile. his hands were soft and smooth. I could see he was glad to see me because he had a hand on, and was trying to hide it. I had finished my beer and two of the other men came over and ask me to dance with them. I said I'd love to but Jim first asked me to dance so maybe later I looked at Jim and he smiled again. I said you didn't think I would desert you did you? he said it would have been alright you don't have to stay with me. I smiled at him and said Jim lets dance. he got up and held out a hand for me. I stood up and took off the scarf and the hat. all that I had on was the bathing suit. Jim and I started dancing in the sand to the music. I could tell that Jim didn't dance a lot, it was a twist. the next song was a slow dance I said now we can dance a dance made for people to dance to. he held me lightly and moved easy to the beat. I stepped closer to him and let my tits rest against his ^{torso} ~~waist~~ here he is 6' tall and I'm 5'3" tall. I told him that he was a good dancer. the song ended

and Jim took me back to my towel I asked him if he would get me another beer. He seemed glad to get it and as he left the two men showed up again and asked if I would like to dance. I got up and started dancing another twist and then a slow dance the guy put both of his hands around me and pulled me tight to him I could feel that he had a hand on also but he wasn't trying to hide it. After the dance I walked back to my towel and Jim stood up I sat down and Jim handed me the cold beer as Jim was about to sit down one of the two men jumped onto Jim's towel and moved over next to me. I could tell Jim wanted to say something to him, but he just stood there looking at me. He looked like a lost puppy. I said sorry boys but Jim and I are going for a walk I picked up my bag and stood up I then took Jim's hand and we walked along the beach. I finally said why didn't you tell that guy to get off your towel. He said I don't want to cause any trouble. I squeezed his hand and said I want to be with you not with any of them. I want to fuck you not then do you understand me. I saw that he wanted to say something but he said yes I understand but why me. I told him I don't like bad roudy people. I asked him what he did for a living he said he just got out of collage and was looking for work. I said what type of work he said hotel/motel management and accounting. I asked him where he finished in his class he told me second and I asked him what was his score as opposed to first place he said 6 points he told me he lost 8 points on a test because he wasn't

aggressive enough. I then asked him if his girl friend was proud of his graduation from College. he said that he didn't have a girl friend. then I asked him if he had any jobs lined up he said everywhere he goes people say that they are happy with the people they are ready have. I then asked him what kind of salary he was looking for. and he told me I asked him if that amount of money was enough to pay for his schooling and support himself. he said he didn't owe anything for school that he won a grant and didn't have to pay it back. that he got free schooling. he didn't seem to know that ~~we~~ we had walk about $\frac{1}{4}$ of a mile further up the beach and we were alone and there was a full moon tonight there was a grassy patch of green on the hill side and I walked over to it I sat down on the grass and Jim sat down next to me. I opened my purse and pulled out the bottle of Crown royal and opened it. I took a long drink and handed it to Jim I smiled at him and said to the future he took a long drink also. and said that's warm. we passed the bottle back and forth until it was half gone. we were both laughing at some stupid things and as we were laughing I reached up and took off my sweater top and put it in my purse. I then layed down on my back and asked Jim to lay next to me. He layed down on his back and I rolled over onto him. I moved up until my tits were on either side of his head then I would sleep him with one tit and then the other tit. he started getting excited and was

trying to get both nipples into his mouth at the same time
 I slowly rolled back over on my back and Jim was following
 me still trying to get both nipples at the same time. I
 asked Jim if he had ever been with a woman before he
 said once but I don't know if I did it right. I asked
 him did he want me to show him how to do it right
 he said yes. of course I knew what he would say before
 I even asked the question. I told him to take off his swim
 shorts he did and then I told him to take off the bottoms of
 my suite he did that also. Jim said you're more beautiful
 than I ever imagined. I told him to kiss and rub my
 tits and he did and I told him to touch and feel everything
 around my tits and he did that too. I told him to slowly work
 his way down my body and he soon came to my pussy
 I told him to open my legs up and feel everything with
 his tongue and lips as he sucked and licked my pussy I
 could feel the tingling in my pussy and the hollow feeling
 in my stomach and the warmth spread over me and burst through
 my pussy and it felt great and Jim was still sucking
 on my pussy. I told Jim to come up for air and he looked
 at me and smiled and I could see my wetness around his
 mouth I said I need for you to put some of this on your
 dick as I reach out and touched his dick he started cumming
 he got embarrassed and said I'm sorry. I said don't be sorry
 if you didn't cum I would have thought you didn't
 like me or want me. oh no I do want you. as I put
 my hand around his dick I guessed he was about
 8" long and about 1 1/2" dia. I said to myself goodbye

he quickly put the navel jelly on his dick and then I said don't get any sand inside of me please. he said I'll be careful. he put the head of his dick against the outer lips of my pussy he gently started pushing his dick forward and then the head of his dick slid into me. he stopped and then started pushing again slowly at first and then all the way in but the last inch or so really scared me because I didn't think he was going to get by the narrowing but he did. I did feel a little extra pressure and a extra push on his part but there was no discomfort or pain. but his dick really felt good as he pumped it in and out of me for a moment he felt like John after we had fucked a while except for the fact that I could move around and lift and draw my legs into a better position to get the most pleasure that I could feel was a perfect fit for me now. we fucked like that for about 20 min. and then Jim was exhausted I had Jim roll over on his back and I was on top he was still inside of me. as I straddled Jim I could control the speed of the fucking and the angle that Jim rubbed against inside of me. soon Jim was ready to go again and that made me happy for he was the best luck that I ~~had~~ have had in many years I couldn't remember the last time I enjoyed myself so much and Jim looked like he was having the time of his life. I started summing the first orgasm was hard to feel but they started coming one after the other so fast that I couldn't count them. my head was spinning and I started giggling and

and couldn't stop. the next thing I knew was that I was laying on the sand and still giggling I felt wave after wave of warm pleasure going over me. after a few min. I was able to stop giggling and I wanted to curl up in the warm sand and sleep and dream. I felt Jim tapping me on the shoulder and asking me if I was ok. I told him that was the best sex I had ever had then I realized I was laying in the sand and I was getting sand into my pussy. I told Jim lets take a swim. we both jumped into the water and soon had all the sand out of me. Jim was washing also he washed the sand and navel jelly off. Jim swam over to me even though the water was only four feet deep. he put his arms around me and kissed me on the neck I had my back to him and I let myself lay back against him as he kissed my neck and shoulders Jim ran his hands over my stomach and tits soon his right hand was rubbing the inside of my pussy and his left hand was squeezing and rubbing my tits. I turned around and put my arms around Jim's neck and pulled him down to me and I kissed him hard and long. then I turned and walked up to where my things were on the beach. I pulled my bikini top and bottom out of my bag and put them on. Jim was doing the same with his suit. we then started walking back down the beach toward the party. Jim walked close to me as we reached the fire three girls were playing tag and they came up to me and looked at Jim. then one of them said why do you let this loser follow you around. I looked at her

and said what loser and she pointed at Jim. and the other two girls just knodded there heads and called Jim a nerd. I said do you mean you have never been out with a nerd or had sex with a nerd. I said you must have been raised in a nunnery. didnt anyone ever tell you that if you ever want the have really good sex always take a nerd. they make the best lovers. you see a nerd is out to please you. the jocks think you are there to please him. and he doesnt care if he shits on you he only cares about himself. boy you girls have really lived a sheltered life. I feel sorry for you. now that you know, dont touch this one, hes mine. go and find your own. as Jim and I walk over to our towels I could see the girls standing there with there mouths open and not saying a word and looking at us. as we sat down on the blankets I put my hand on Jims upper leg and smiled at him. at this point the three girls started talking to each other and occasional looking at us. in a low voice Jim said you are one of the best lovers Ive ever met. I said I really dislike girls like that there so full of shit they think there shit doesnt stink. and what they know about life comes from other full of shit girls. and besides what makes you think I was lying. Jim look at me for a full sec. and said I cant tell when your joking or not. I said that ok as long as I know the difference. is all that matters. Jim looked at me and asked me if he was going to see me again I told him. do you mean do I want to see you again. I said

that all depends on him. he then said. ok if I wanted to see you again how would I go about it. I said. now you are getting the picture. he just looked at me but said nothing. I told him that I didnt love him or would I ever let myself love him. second is that I like sex and I would like to have sex with you. maybe every day maybe several times a day. and nights. I come and go and you come and go as we wish with no explanations. I said can you live with that type of arrangement. he was going to answer but I stoped him and said think about it and then let me know.

Jim got us a burger and another beer. as Jim was getting the burgers one of the girls that had called him a nerd said Im sorry for what I said. and maybe we can go out together sometime. I heard Jim say that everything was ok. but we were going to be busy for awhile and when he came back and sat down next to me. he said at least you made them start thinking about people. a little while later I went up into the dunes to talk to another nature. and when I was coming back the same girl stoped me she was the same girl who apologized to Jim. she asked me if she could talk to me sometime. I asked her why. she said what you said about nerds and jocks made a lot of sense. and I was wondering if you would tell me more about people. I never looked at these two groups of people like that. I told her that there was really only one group of people she needed to know more about. and she said which one is that. I said the group you didnt speak about tho. 400

one group that consisteste of only one person the group that is you. she asked if she could still talk to me. I said I will be at the restaurant on the beach I told her the name of the place and that I would be there on sat. at noon. she said ok I'll be there and she turned around and left. I went back to my towel and sat down. Jim said I would like to see you again and I can handle the grown rules. I asked him are you sure. and Jim said yes. I told Jim do you want to go with me now or would you rather meet me tomorrow Jim. said I would like to go with you now. I said ok and I got up and picked up my towel and my belongings and Jim picked up his towel and radio. and we walked along the beach to my place. as we came into my apartment he said its nice here. I told him to make himself at home. he looked around and said were is the bathroom I showed him and then he disappeared a few min later he was back and I said would you like to see the rest of the place and he said yes. I took Jim up to my roof and he said this is great. I pulled the half empty bottle out of my bag and sat down ~~on~~ a air cushion on the roof. I took off all of my clothes and took a drink Jim did the same he said that he really liked my place. and the view was great and so was I. I reach over and kissed Jim on the lips and he responded with hat passion soon he had taken the towel fully out of my bag. but the time I said only we had as much as before. he did exactly what I had told 401

him to do. but this time I rolled over on my stomach and got into a doggie position for him he quickly responded to what I wanted and as his dick went deep into my pussy his dick stop into forward motion at the narrowing spot he went back and then push in again. this time with more force and he went past the narrowing spot and all the way into me. I found that I could change the amount of pressure that I applied to Jim's dick by moving it up or down and changing the angle of entry it was almost like being able to reach out and rap my hand around his dick and hold him where I wanted to keep him. but the only really sensitive place was on the outer lips and just inside my pussy. I liked to squeeze a man dick until he has trouble either pushing it into me or pulling his dick out of me. But when Jim was fucking me in the doggie style on my roof the first time the same waves of pleasure went through me just as it did on the beach and the bits of rapid cumming and uncontrolled laughing and giggling. after a while I rolled over and Jim fucked me face to face and he went on and on he cummed several times and so did I. that night we fucked all night long. we woke up still lying together in the sunlight and we fucked for several more hours before stopping for the day. we got dressed and went across the street to eat lunch. as we were eating I asked Jim if he wanted a job. he asked, doing what I said manage this restaurant and my apartment house. he laughed and said

you own this business I said yes I do. and along with the job is a apartment for you. that is if you want the job? he said yes I'll take the job. and you won't be sorry. you'll see I'll do the best job that you would ever get done. you wait and see I'll make you rich. I patted Jim on the arm and said I'm rich. and then I smiled at him. I leaned over to Jim and said if we are going to be lovers so be it. but business is business and separate from sex. do you understand what I'm saying. Jim smiled and said that's perfectly clear and I'm glad you can see the difference. that will make both duties much easier to do. I told Jim as lovers if either of us decide that being lovers has to stop then it stops but don't expect the job. and if you quit or I fire you. then I hope that doesn't effect us from being lovers. There is something else you are 22 years old and I'm 34 years old. I'm telling you this so you come into this relationship with your eyes wide open. Jim said I thought you were older than I am but I don't care and if I say I love you please don't get mad. you see there are many different types of love other than the love a man has for his wife or a wife has for her husband. so if I say I love you what I'm really saying is that I like you. and that I would rather be with you than anyone else at that moment. I told Jim I here what you are saying. and I understand what you said. I believe I can live with your delinquency for the now. I asked Jim if he would like to

get something to eat, and he said yes, we walked across the street to the restaurant and ordered some food. as I sat there waiting for the food, I could see Jim's mind racing over many different scenarios and scenarios of how he would like to change my business practices and also doing make a name for himself as a wise kid when it came to business. when the food came, I said Jim I would like you to look over my business records and when you have made enough sense out of them, and then I want you to develop the best course of action that is available to me to invest in the future by growing. I could see by the look on Jim's face, that I had made his day. Jim tried to keep his voice at a normal tone, but I could detect the excitement in his tone. I said come on lets eat. The next day I had an appointment with my shrink, as I got to his office his secretary told me to go on in, that the doctor would be with me soon. after a few min. he came in. I was eager to tell him what had happened since I last saw him. after I was finished he asked me some questions about the party on the beach.

He waited a few more min. and then asked me what I thought of people who drank and about sex with people when they were drinking. I told him that sex and alcohol were natural and that taking a few drinks before having sex made

it possible to relax and enjoy ourselves and that I drank to be sociable and to have a good time.

The doctor said Mary just sit back and try to think as I recall things that you have told me about yourself when drinking was involved. I smiled to myself and said ok. He started out by saying you told me that when you were a young girl your dad and the handy man would make hard cider in the winter time, yes that is right. He then went on to say that they would give you a glass and you told me that it made your nose numb and made you quile. I remembered back to those times and I said yes it did. He then said that was a good time in your life your mom and dad were alive and well the handy man was your only friend. That is right. and then they went off and left you and died and left you with your mother soon she lost her mind and you were alone you had no one and that was scary and it hurt. Tell me how did it feel then to be a little girl all alone with noone to care about you. noone to love you noone to talk to. I said that was the worst time in my life I was scared all the time I felt that I was the only person on earth. I got so lonely I would talk to mom but she never heard me. She acted like I wasn't even there. at times I talked to myself and found myself talking back to me as if there were two people. I would talk to the house or to my room or to my ~~mother~~ or

anything at all. I wanted someone anyone to talk to me every night I would cry myself to sleep because I was so lonely. well what about the handy men did you talk to them yes but only to tell them what to do. why didnt you talk to them more about other things. I tried to but they always acted like I was too young to talk to they treated me like I was a little kid. I got so mad at them for not talking to me. soon I thought maybe I'm really affed to be around that noone wanted me around them. the worst part of the days was laying in my bed at night alone hearing the wind blowing against the house and howling throo the trees. and the emptiness of the big old house and knowing I was all alone. The doctor said the next time you had a drink was at the lake with the two handy men. yes they were saying that I wasn't a woman, that I was just a little girl. I had to show them I was a woman that I wasn't a kid. I needed them to talk to me. and it worked they started talking to me. they liked me. they fucked me and from then on I was not lonely anymore, they loved me. The doc. said the next time that drinking and sex were involved was when your truck hit the ever and sam was killed and the men were drinking and they raped you over and over again. I said yes they did, I really dont like to talk about that can we go on. the doctor said ok for now, lets see after you huson died and you came out to the west coast your truck broke down again and the four boys gave

you a ride and they were drinking and you had a couple of beers also, and they raped you and tried to kill you. yes they did and to this very day I don't know why they hurt me the way they did.

The doctor said the next time was when you went to L.A. to get layed you had your own bottle and drank before going out to let the men fuck you and drank some more and passed out in the back room of a bar after having several men fuck you, yes I did but I only did that because I thought I was following your instructions. I was wrong. The doctor took a deep breath and said you go to a beach party take a bottle of whiskey with you, you search out a young man who is alone and isolated by his friends go for a walk on the beach drink the whiskey and have him drink also, and then proceed to have sex with him not once but several times, and now you tell me he is your lover and works for you at the same time. Mary what I see is a pattern in your life, starting at early childhood leading up to now and you are doing the same things again. I said I don't know what you are talking about. I'm only having a drink now and then to relax and I'm only giving the other person a drink to help them relax too.

The doctor stood up and walked around his desk and started talking to me as he passed the floor back and forth. he said mary I need you to look at what I'm about to say it is important for you to understand

why you do the things you do. that is the only way you can grow and mature in your life

He started out by saying, the first time you had a drink you were a little girl your whole world revolved around your dad a mom and the handyman you knew no one else, the people you felt safe with they were your family and your whole life, so when you took a drink with them you were doing the same thing they were doing and that's good and ok to do. the drinking was a point of laughter and fun, with your love ones. the next time you had a drink was with the handy men after your dad and your friend the original handyman were gone and when the new men started kissing you you thought of the love and fun you had with your dad when you were young and so you told yourself that what they were doing to you was ok because they loved you and when they put these dicks into you and it hurt to you that was love to and any love was better than no love. these men raped you, they raped your body and raped your mind. and you told yourself it was ok because they loved you but in reality they were using you and you knew it but were afraid to face the truth you told yourself that this was better than the loneliness and fear & no one loving you. these men used your innocence and alcohol and your misfortune to rape you and you told yourself that this was love

The next time that you had sex were alcohol was involved was when the four men who had been drinking killed your friend held you down and raped you again and again you fought them at first but you soon found pleasure in the mistreatment of you and found yourself wanting more pain at the same time you were afraid for your life and started obeying everything they told you to do and in the end one of these men made you believe he loved you and you took him home as your lover but quite possibly he helped you get away from the other men because he wanted you for himself and didn't want to share you this is later explained by the fact that he left you because he couldn't learn that he didn't own you. The next time you were raped was by four boys in their car when you got into their car you accepted drinks from them and didn't try to stop them from kissing you or touching you at this point you had already told yourself it was ok to do. you only complained when you were tied up in the car and there were hurting you you had told yourself by drinking with them that it was ok to have sex. you had given yourself permission because it had happened before. The next time was when you went to San Diego to have sex with as many men as you could and everytime you drank before you made yourself available to them and let

them do what ever they wanted to do to you, now you tell me about a beach Party were you crashed you took a bottle of whiskey with you singled out a young man played up to him took him for a walk on the beach you then drank some whiskey and had him drink with you, and then seduced him. you latter offered him a job and hire him. what I see is you are doing the same things to this young man that the two handy men did to you. you have come full circle from being the victims to being the rapers you took advantage of this young man using alcohol and the promise of a job and security for sex, and what you did to those other kids living with you was rape also but at that time in your life it was not your fault because you didn't know any better. but know you do know better and you have got to stop this behavior before someone is hurt.

At this point I would like to tell the reader that I have been working on this book for about 8 months now, and all of the material presented up to this point was the reality that Mary believed! What you are about to find out is the memory of a young girl over the period of years are not always what they seem. As time goes by we tend to overlook anything that might be harmful to ourselves we tend to try to make sense out of what we don't understand and for get what is unpleasant. Mary went through many months of hypnosis being taped and now you will see how our minds work to shift memory around to what we wish to believe or hope to believe and for a young child the shifting may be drastic

(Tape one)

John said just lay back and relax John will make you feel real good. I'm laying there and John is kissing my stomach and legs and his hands are rubbing me all over soon I could feel John kissing my pussy I felt real nice I could feel John touching sucking into me ~~the~~ I felt like I was drifting on

I was getting out of the tub and drying off, and James came down the stairs, and said we need to clean up the root celler before we can put this years food away. I finished drying off and put my robe on. I led James down the other stairs that went to the root celler. the celler was cool and the smell of all the types of food that was stored down there was heavy in the air the strongest smell was the apples. I turned on the lights in the celler the two lights came on and made the white walls the room looked bigger then before and brighter James and I walked around and we spoke of moving different things around to make room for the larger amount of crops that we would be storing this year. we came across a dead store of hard cider and James said I wonder if this stuff is still any good. I told him I dont know. James opened one of jugs and took a drink he said I think this is just fine here you try it and tell me what you think. James found a old glass and wiped it and put some hard cider in it about half a glass. I drank it and ~~was~~ nose 414

started tingling. I told James I think dad would have liked it. James said we might as well sample more of it we don't want it to go to waste. I told James he could have the jug he said thank you. he filled my glass again and handed me a full glass and ~~me~~ I drank it I could feel a warm wave go through me my nose started getting numb and I started giggling. James came over to me and put his arm around my shoulder and said I think you had better sit down. James led me over to several sacks of apples as we sat down James pulled me closer to him and I fell over him and landed on the sacks of apples as I rolled over on to my back, James was laying over half of me his face was close to mine and he kissed me on the mouth and I kissed him back. he started kissing me more and more on the mouth on my neck and as he kissed me he pulled my robe off of me, and I had no clothing on. his hands started squeezing my tits and then he started kissing my tits and the feeling was nice and I layed there letting James kiss and squeeze my tits and the feelings were great. James put his hands between my legs and put one of his fingers inside of my pussy as I felt him moving his finger around inside of me. I started getting scared I started saying no, no don't not that that only for John not you I started hitting James to stop the more I tried to get away the more he did I was hitting him and kicking 415

him. he finally stopped and looked at me. I yelled
 let me go. get out of here. and dont ever come back
 I pulled away and stood up. James jumped up and grabbed
 me and said you are just a little cock tease ~~you~~ well your
 teasing days are over now. he dragged me over to the
 end of the table under the light and pushed me back
 against the table. there were several peaces of rope on
 the table that was used to tie up the shelves when they
 were full to keep the food from falling out. James
 grabbed the rope and tied my wrist and pushed me
 onto the end of the table I tried to fight but he was
 too strong soon I was laying on the table on my back
 my arms were spread out and tied under the sides of
 the table. he then put a peace of rope around my
 knee and bent my legs back so my feet were under
 my butt when he had both of my legs tied that way
 he pulled the ropes and tied them back against the
 legs of the table my butt was hanging off the end
 of the table I was still trying to fight him he bit
 me on the mouth and everything went black I awoke
 to find he had pulled the ropes to my knees out
 farther my knees were almost straight out to the side
 and my pussy was pushed up into the ~~air~~ air
 and the tightness of the ropes were so tight that I could
 not move at all. James was standing there drinking the
 cider and looking at me and laughing. he said now
 bitch I'll show you what that pussy is used
 for.

196

I was scared what was he going to do to me. Why was he hurting me I thought he liked me I always been nice to him why was he doing this. I said I hate you let me go. he came over to me and reach down and started squeezing my tits he then pinched my nipples so hard I screamed out in pain and he just laughed and said bitch you are going to love everything I do to you. he moved his hands down my stomach and when he got to my pussy he pinched the lips of my pussy and that hurt also. he said did that hurt I said yee please stop he said ok I'll kiss it and make it better he pulled a chair up and sat down on it he was between my legs and I could see everything he was doing. he took his tongue and moved it all over the outside of my pussy I wanted him to stop but what he was doing felt real good soon he put his tongue into my pussy and I remembered how good John made me feel and the feeling of pleasure that John made me feel soon I thought John was there kissing and licking my pussy and the waves of pleasure rushed through me and my pussy exploded with wave after wave of warmth. I look down to see James licking my pussy and I wanted to scream he is not John. he can't be doing this that is only for John not him. James looked up at me and smiled I had to look away I hated him for what he did. he then started laughing and I got mad all over again I wanted to hurt him like he hurt me. I tried to get loose but

I couldn't move, I could only move my head. James stood up and was still laughing he took his finger and put it into his mouth and then he put it into my pussy at first he had trouble getting it inside of me slowly he moved his finger around and around he was soon able to put two fingers inside of me it felt good and I hated him for hurting me like this he kept moving his fingers around and that felt the worst pain I had ever felt James had push his fingers into me until he had broken my maiden head the pain lasted for only a few min. but I could see the blood and the blood was all over James fingers slowly the pain was replaced by more pleasure as I felt myself moving with the feeling James stopped and took his fingers out of me I was glad he had stopped I was getting to the point where I wanted more. I looked up at James and he was smiling at me again he said you never had a man inside of you before I though you said that your pussy was for John. I said yes he never hurt me like you did. He then said now you will know what it feels like to have a man fuck you and you will love it all woman do. after this you will not be a girl any more but a woman my woman I said no never. he started laughing he then took off his pants. he stood there between my legs with his hand around his dick and he looked at me and said do you see this its all for you. his dick was huge I watched him stick it in to me and cut the head of his dick 418

against my pussy. I said its too big to go in me he forced the head against my pussy and I felt the pressure of his dick trying to enter me but it would not go. he stoped pushing and I said see its too big he got a mean look on his face and said its just the right size for you. he spit into his hand and rubbed the spit all over the head of his dick and up the length of his dick. he then spit into my pussy and rubbed it all around inside of me. he stoped close to me and started pushing his dick into my pussy again this time I saw and felt the head of his dick go inside of me. the pain was as if someone had cut me with a knife and at the same time I couldn't believe my eyes when the head of his dick disappeared inside of my pussy. It looked just like when dad was fucking mom but I didn't think I was big enough for James's dick to fit in me I was so small. but soon there wasn't any pain at all. James had stoped pushing he just stood there holding his dick with the head of it inside of my pussy. he said now what do you think I wanted to say something but no words would come out. slowly I started relaxing and I was able to breath easily again. then James started talking to me in a soft voice and he was telling me how beautiful I was and how he loved me. I looked down at James and he had one of his hands on my hips and the other one around his dick as he spoke to me in a soft tone he started to

rush into me again I felt his dick move a little further
 into me and then he back his dick out of my pussy
 but he still left the head of his dick in me he did
 this several more times and each time ~~she~~ would go a
 little deeper into me soon he was no longer holding
 his dick he had both of his hands on my hips. I
 looked down at his dick going in and out of me and
 I had a hard time believing this was really happening
 to me there was no pain at all only pressure inside of
 me. slowly the feelings of tingling started deep inside
 of me I knew that I was building up for an explosion
 in my pussy and it felt good and as I watched his
 dick go in and out of me I started telling myself how
 good it felt I wanted him to give me more. now
 the explosion rised through my pussy again and
 again each one stronger then the one before it. my
 head was swimming with laughter and giggles, and
 pleasure and more laughter at that point I was looking
 at James he took hold of my hips and made one
 push and I watched as his dick disappeared into me
 and the sight of all of his dick going into me and
 the explosion of pleasure in my ears and in my pussy
 I only felt pleasure and warmth James through back
 his head and shook he had cumed in side of me and
 it felt good and warm, soon he was pulling his
 dick out and then pushing it back in he did this over
 and over again and again soon I was exploding again
 with man. now I wanted more this was great. 420

James stopped when he was deep inside of me and he wanted
for me to come back to my senses. he said you see
a perfect fit. I looked at him. I said I didn't think it
would fit inside of me it was so big. he said now you
know what a man feels like to fuck you tell me
how much you liked it. he was smiling I shook my
head and said no I didn't like it leave me alone
until we and get out of here. he only started laughing
and said so you want more. I said no please leave
me alone, dont do this anymore. James started fucking
me more he fucked me for what seemed like hours
until he had no more strength. during that time I
ejaculated many many more times. he stopped and pulled
his dick out of me slowly I watched as his dick
retreated from inside of my pussy, it seemed to
take for ever before he was all the way out of
me even now as I see his dick outside of me it
is hard to think that dick of his was ever inside of
me. it is so big. he stopped back and put his pants
on he said tell me how much you liked it. I
said no until we and get out of here. I hate you
he came over to me and reached down and kissed me
in the mouth and said when I come back we will
fuck some more. he left the room and left
me tied on top of the table. as he left he turned
out the light and he was gone and I was all
alone on top of a table with my pussy pushed
into the air and there was no tilt at all. 421

Dr: tell me what you were thinking after James left you tied up on the table all alone in the dark.

Mary: after James left I felt alone I was glad he was gone but I wanted to be untied and taking a bath and sleeping in my own bed. there was no sounds around me I could not here anything or see anything as I layed there I started thinking how much my arms and legs hurt and how my pussy had hurt I started crying because I hurt all over I started cussing James for hurting me I called him all the bad names I could think of but there was no one to here me I hated him I started remembering what had happened today or was it yesterday everything that had happened from the time I got out of bed up to now. I found that I keeps coming back to the point when his head of his dick first went into me. I couldnt believe it, it was so big and I was so small. and when he pushed his dick all the way into me it was as if he had done something that was impossible to do how could that big thing fit inside of me. and what caused that feeling of pleasure in me. it had to be his dick it felt so really good. inside of me. I love it I want more I want to be fucked more. I cried out in the darkness to help me I'm afraid and hurt anyow please help me. but no one and I was all alone. again.

Dr: when did James come back and what did he do and what did you say and do, and how did you feel.

Mary: the lights came on and and soon James was beside me he said how do you feel today I begged him to untie me that my arms and legs hurt. he asked me if I loved him I said yes I love you he leaned down and kissed me on the mouth he said I love you Mary would you like to be my girl. I told him yes. he said can I have your tits. I said yes they belong to you. he said your head can I have your head. I said yes my head is yours he said your arms can I have your arms. I said yes you can have my arms. he said your stomach can I have your stomach. I said yes you can have my stomach. he touched my legs and said can I have your legs. I said yes you can have my legs. he put his hand on my pussy and put a finger inside of me. he said can I have your pussy all of it. I said yes you can have my pussy. he said can I have your butt as he ran his hand to my butt I said yes you can have all of me. All do anything you want to me I belong to you. as he stood between my legs he took off his pants against. he stepped closer to me he spit into his hand and rubbed it all over his dick he then spit into my pussy and rubbed it all into me the feeling of his fingers inside of me made me start wanting to fuck more he put his dick into my pussy and it slid into me easier than before it was slow at first and there was no pain and he slowly went all the way into me and the feeling of his dick was great after a few min. we both started ejaculating at the same time it was as hard as it was. he pulled his dick out of my

pussy I asked him to put it back in me dont stop, I
 was afraid he was going to leave me alone again. he
 then put the head of his dick against my butt hole
 and slowly pushed his dick into me. it hurt at first
 but after a few min. I could feel the pleasure running
 thro me again it was like I was fucking only different
 but it felt good. after he finished he pulled his dick out
 of my butt and put his pants back on. he then walked over
 and kissed me again on the mouth. as he turned to walk away
 I asked James to please untie me and let me get up. he said
 I dont believe you maybe tomorrow I'll change my mind
 but remember you belong to me now. and you will do
 everything I want you to do. is that right? yes I belong
 to you and I'll do everything you want me to do.
 he then said why do you make me do these things to
 you dont you know how much I love you you
 hurt me so much to have to do this to you I
 would like you to think about this. you are my
 woman and we belong together as lovers we should
 be making love together because we are lovers. and you
 love me and I love you.. is that not right. I said
 yes it is. I love you too. James left and as he
 went out he turned off the light and closed the
 door. I layed there in the dark I didnt know what to
 think James said he loved me and we should be making
 love and Im causing him great pain because Im making
 him do this to me. Ive got to stop making him feel
 pain. he loves me and I love him. I belong with

him. we are lovers. soon James returned he had some food for me he fed me and he had some milk also I said I understand now we are lovers and I love you we belong together can we make love more I like to fuck. James kissed me and held me he kissed me again and said that he had to go. James left and I knew I loved James he is so good to me. after what seemed like days and James came back I was so ~~very~~ very glad to see him. James came over to me and kissed me. he then untied my arms and then untied my legs soon I could move again James rubbed my legs until I got feeling back in them he then he then rubbed my arms and shoulders soon I could move them freely. James took up my robe and put it around me he then picked me up and carried me out of the root cellar and carried me over to the tub he took off my robe and his clothes and carried me into the large tub the water was warm and it felt good I sat in James' lap and he rubbed my body all over the water made me feel relaxed I shifted my seat until I was facing James with one leg on either side of his legs. James started rubbing my pussy his fingers slipped inside of me and the water rushed inside of me and as the water washed out all of James' semen he keeps moving his fingers around and the warm water relaxed me. James then pulled me closer to him and told me to wrap my legs around him. after that James put his dick into my pussy and told me to move up and down on his dick as I did what James

said I realized that I could move my hips to get more pleasure from the fucking and I liked the feeling of being able to create more feelings in my pussy. after a few min. I started cumming and James exploded again inside of me. James kissed me and held me close and said many I love you. and I tingled all over and I told James that I loved him too. James washed my pussy out until all of his semen was out of me and I was relaxed again, he then carried me up to my room and put me in my bed, he kissed me. and said I want you to rest and sleep. I have to go into town tomorrow but just relax and when I get back well make love. I said "ok" I love you James kissed me again and left. as I sleep I had dream of being wrapped up in a big pink cloud and floating in the air and I was feeling free and happy. it was the best feeling I had ever had and I didn't even want to wake up. I woke up to dan sitting on my bed telling me to wake up he said its time to wake up and enjoy life. I smiled at dan and said Im awake. he ~~then~~ said I brought you something to eat. and I sat on my bed and ate the breakfast dan had brought me. he said, lets go down to the pond its a hot day and a good swim would be nice and Ive already got a blanket. I said ok. that sounds good I got out of bed and put my robe on, and we walked down the pond dan spread the blanket out on the bank as I took off my robe and jumped into the water. dan invited

taking off his clothing and jumped into the water also
 neither of us had any cloth on and the water against
 my skin felt nice. dan started splashing me and I was
 splashing him soon we were trying to dump each other
 I got a cramp in my leg and dan grabbed me and pulled
 me to him and I put my arms around his neck and he
 carried me to shore and layed me on the blanket he then
 started rubbing my leg and the cramp disappeared he then
 layed down beside me on the blanket and we talked.
 dan said james had told him that he had fucked you
 and you liked it. I said yes he did and I do like it
 dan said that he had known james for a long time
 and that they were close friends. I asked dan if I can
 be his friend to. dan said I'd like to have you as
 my friend. dan then went on to say since we are
 friends now and you are fucking james my best
 friend that I should show you how to please james
 so the two of you can become closer. I said oh
 would you do that for me. please show me james
 will be so happy. dan said well ok I'll show you
 he moved closer to me and said try to think of me
 as james pretend. ok. I said ok. dan leaned over and
 kissed me on the mouth and his hand was rubbing and squeeze
 my tits and he payed close attention to my nipples, they
 were getting hard and standing up. dan then leaned
 down and started kissing and sucking on my nipples.
 the feeling of warmth sweep over me and I felt good
 I wanted dan to do more. as he was kissing and sucking

on my nipples his hand moved down my stomach and started rubbing my stomach each time he would rub my stomach his hand would move lower until he was rubbing my crotch. he gently put his hand between my legs and parted my legs he then started rubbing my pussy and I was starting to get wet he then put one of his fingers inside of me and moved it around and I started cumming and I could feel my pussy getting wetter. dan moved his body so he had his mouth on my pussy and my legs were open very far apart and he was laying between them he kissed and licked my pussy and I started cumming even more. soon dan got up on his knees and spit into his hand and rubbed it all over his dick and all over he dick he spit again and this time he rubbed on the head of his dick I looked at dan's dick and he was even bigger than James and I wondered if he would fit inside of me. James was smaller and he had trouble getting inside of me. dan said dont worry it will be ok. I said I know and I felt it would be ok. dan reached over and pulled his clout to him and put it under my butt. and pushing my pussy up. he then said relax dont tighten up just let all of your muscles go limp. I did what dan said and he gently put the head of his dick against my pussy and started pushing after a few min. the head of his dick popped into my pussy. dan then layed down on me and took me in his arms and I put my arms

around him he put one of his hands under my butt and pushing the clothing away. then he started kissing me and I was kissing him and as we kissed he started pushing his dick into me. he hadnt moved into me very far when I felt dan tighten up and I felt a warm gush inside of me I knew dan had eplerged in side of me. he kept kissing me. and soon dan was pushing into me again but this time he wasnt having as much trouble his dick moved easier and after a few min. dan was all the way inside of my pussy and he felt huge in me it felt like I had a fence post in my pussy but there was no pain only presher from the size of daves dick a few more min. passed and the presher lessened then dan started fucking me in an out in an out first a little then with longer strokes. I was cumming one after the other I couldnt stop even if I wanted to. all that I knew was I felt great. and I didnt want to stop. dan had reach down and pulled my legs up and I put them around his butt and as I did that the feeling got better. we layed there and fucked for several hours I dont know how many times I cummed or how many times dan cummed. all I knew was we had fun and we were both to tired to move. we fell asleep and dan was still inside of me. I wanted dan to never take his dick out of me. I wanted to stay like that for ever.

Q: what happen after that

dan rolled over onto his back and I was on top and he was still inside of me. he told me to sit up and go

up and down on him but not to let his dick come out of me. This sounded nice. I like to fuck dan but he's heavy, as I move around dan dick fills me completely the feel of his dick touches every part of me. my pussy is in fire I want to fuck all the time I ask dan if he would always fuck me. he said only if you love me I told dan that I'll always love him he makes me feel so good. as I rise up and down on dan's dick, dan rubs and squeezes my tits soon I'm cumming so hard and long I get dizzy and almost fall over but dan catches me and we continue to fuck. later after we stop dan takes his dick out of me. we lay on the blanket and hold each other for a long time. then dan tells me to kneel down on the blanket with my butt up in the air and my shoulders on the blanket so I do what he said. he gets behind me and puts his dick back into my pussy and it slowly slides into me the feelings are more intense and a little different he feels like he's deeper inside of me and we fuck like that for several seconds of cumming. he tells me then to lay down on the blanket and spread my legs and do he lays down on top of me again and puts his dick into my butt. It hurt at first but after a couple of min. the feeling of fucking takes over and the pain stops, and only pleasure remains that was also really good. after we had both cummed dan took his dick out of my butt and we went for a swim and washed our selves off. we then went back to the house. 1 1 + 1 1 T 430

bed. and dan went out to the barn. it was dark when James came home. I was in the kitchen making dinner. James came in and gave me a kiss and went downstairs to wash up. he came back and sat down at the table and dan came in and sat at the table and we ate dinner. James said that he was tired and needed to get some sleep. he gave me a kiss and went into the livingroom and layed down on the couch and went to sleep. dan said that he had to do some work in the barn. he got up kissed me hard on the lips and squeezed my tits smiled and left. I cleaned up the dishes and put everything away I went into the livingroom but James was sleeping hard. and I didnt want to wake him. I walked around the house and I was feeling lonely. so I went out to the barn to see dan. when I went into the barn dan was stacking the hay. when he saw me he said come an over. I went over to were he was and dan took me in his arms and kissed me hard and long. he then layed me down on the hay and took all of my cloathing off. he then took all of his cloathing off. dan kissed me again and again he then slowly started kissing me all over my tits my stomic and my pussy the feel of his mouth on my pussy was driving me wild it felt so good I started cumming he then put his dick into me and we fucked for a long time then I heard James shouting you cheating bitch. dan jumped up and stood between James and

me dan said you dont deserve her she should be with me not you. dan said you cant have her. shes mine, so just get out of here and leave us alone. James said no shes mine and always will be mine. dan made an move toward James and then I heard a loud bang, and dan fell on the floor. there was blood running out of his head. James said Mary you are mine and you love me, and I love you. dan is dead because you forgot that you belong to me. James said its your fault, hes dead. after a few men. James said grab daves feet and James picked up dan by the arms, and we carried dan over to the pig pen and dropped daves body into the pen. and the pigs started eating on dan I couldnt look at dan. I ran back to the house went to my room and cried until I fell asleep.

Dr.: Mary when I shape my hands three times I want you to wake up. when you awake I want you to remember everything that you have told me. I want you to feel relaxed and refreshed I want you to feel calm and safe. now one, two, three

When I awoke I sat there in the large chair and didnt say a word. the dr said that I would remember things in my childhood that I never new. but there is so much can these things really be true did these things really happen this way. had John really touched me that way. had James really raped me like that I dont remember ever being tied up in the root cellar by James and raped like that

not James. how could he have done that to me. Although he loved me and damn he raped me too, and why didn't I remember that James murdered dan and made me help him to put dan's body in the pigs pen and watching as the pigs eat dan. why didn't I remember all of that, am I that crazy?

it was a long time before I could talk to the Dr. but when I did my words came out jumbled and he couldn't understand me. hell I couldn't understand myself I stopped and started again. I asked the Dr. did all these things really happen this way or are they the way that I always remembered them, the truth. the Dr. said what you remember now from this session is really what happened to you. I asked am I crazy. the Dr. laughed and said ~~no~~ of course not, he went on to explain that when people experience traumatic moments in their lives we tend to remember things in a way that we can expect, because if we don't we would go crazy it's our minds way of protecting us from harmful memories, but when the person is a child the memory can change so drastically that any sense of time or resemblance to the actual event is lost sometimes for ever that is why people get amnesia the brain tells itself I can't deal with this at this time I'll just shut down until I can deal with it, and in your case the events happened to you when you were young and you didn't have the gears of experience to fall back on so you made up a fantasy like to remember.

now when I say you made up a fantasy life I don't mean that you chose to remember things one way or another what I'm saying is your mind chose to preserve the information it was receiving as something different than what was really happening. you didn't have any control over what your mind told you was the truth.

I think I know what your telling me, but I'm still not sure I fully understand how it works. the Dr. said well when you were a child and you touched something that was hot, what happened. I said I jumped and cried the dr. said why did you jump and why did you cry. I said because it hurt it burned me, then he said your mind told your body I don't like that feeling don't do it again. and your mind said to make sure that you don't touch it again the mind caused pain and you jumped. so from then on you knew that if you touched something that was like the object that you knew as hot and pain that it hurt. in that way the brain protected itself by telling you its hot don't touch. but in your case a memory that was painful to your mind said I don't like that because it hurts me. so if you think of it as something else then that will be ok because something else doesn't hurt so much. so you forget what really happened and only remember what your mind says and that doesn't hurt so much. in other words don't touch what is hot. but its ok to touch what is warm. I told him now I think I understand more of what happened to me I don't like the memory

but I will have to live with them. the Dr. said yes you will have to live with them but you dont have to let your whole life be ruled by them think about them accept what happened and go on from there what happens in the past can't be changed the only thing that matters is how you live from this day on. you cant worry about yesterday because yesterday is gone. and can never be changed. I went out side and walked along the street thinking about what I could remember now about my early life and I got depressed and then got angry. then I started thinking about yesterday and how they are gone and can never be changed. that the only thing that was important was today and tomorrow. I made up my mind then to try to find out as much about my life as I could I knew that if I could remember everything and figure out why things happen. that I could start putting them behind me and start living my life as I wanted to. that I could take control of everything in me. I had to thank that sweet old man, my Dr. for making me see myself at last I went back to the apartment house and told Jim that ! though maybe it would be a good idea to stop our sexual relationship for a while until I get everything worked out in my mind. as to who I really am. also I needed time to put my life in order. and he needed time to get some work done without feeling that he had to hold my hand he needed to become fulminate with the busness without any distraction from me.

I needed time by myself to think about all the new memories that I now knew, and what Doc. said about when I used alcohol to make things ok to do how I was raped when I was a child and how I made it ok to rape others using old distortions and alcohol to make what happened to be good. I had to distract Jim to not look to me as a sexual partner, I needed to have time to sort things out, and I didn't want to hurt his feelings, I liked him, he was nice. I stayed around the apartment for the next three days. I had a meeting with my Dr. today to work on more memories I was looking forward to finding out about my early years. I wanted to know who ~~my~~ really is. I went to my Dr. office and he greeted me and I sat down. I told him how I had dealt with Jim and how he took the information, he seemed happy for me. I then told him that I wanted to remember everything about my childhood. he said that a good sign of a healthy person. I asked the Dr why he took so long before he tried to get me to remember my early life. he said that there were several reasons the first was that when I came to him I was suffering from a traumatic experience of rape and several both physical and emotional trauma, and that in the past few months that he had seen a great change in me that before I wanted to stay to myself and not get close to anyone, and then I started trying to interact with people, maybe not on a healthy level but interacting the same. the need to express myself sexually and emotion

was a good sign that I was coming out of my shell. he said he was concerned about some of my episodes especially my trips to San Diego for sex. but he couldn't do anything about it. he said that he felt that now I was strong enough to face the truth in a healthy manner. and that he was getting concerned with my latest adventure at the beach party. that he saw my use of alcohol as a regression to my earlier childhood where alcohol was linked to sex and love. but in reality alcohol was used by adults to rape me. I was using alcohol to seduce a younger man for sex I saw this as a rape behavior. and I was afraid of it escalating into something worse. that is why I chose to have you work on my memories and how they were linked with my actions now.

The Dr. asked if I was ready to remember some more. I said yes.

(TAPK II)

Dr: Mary I want you to relax and go back in time I want you to go back to the time when you and Sam are in the truck and its snowing and the truck hit the curb in the road. the two of you have walked in the cold and blowing snow you reach a house and knocked on the door. the men pulled you in and through a bucket of water on Sam and left him outside to freeze. I want you to tell me in every detail what happened inside the house with the men. remember what

you remember is not happening now it can't hurt you now. I want you to tell me everything that happened as you remember it. do you understand what I want
Mary: yes

Q: ok start the men threw the water on you and locked him outside and they pulled you inside the house.

Mary: the men shoved me into a chair I couldn't speak some one put a wet rag over my eyes and it burned the men were laughing but the nigger was screaming when they threw the water on him. I tried to talk but I couldn't speak all I could say was help. one thought I was asking for help and another said I was asking for help for that nigger outside one man went outside. and then came back they grabbed me and dragged me outside they shoved me down he was frozen and his eyes were open he was dead dead he was calk grey in color. my head started spinning the men started laughing again they grabbed me back inside the house and dropped me on the floor in front of the stove I could only see a little bit the lights hurt my eyes. two men came over to me and said we want to get those wet clothes off of her. I was fighting then but I couldn't move very well. I was shaking so hard. they took all of my clothing off and one of the men started laughing and said what we have here is a pink and blown ice cube here and a black ice cube outside. one of the men reached down and squeezed my tits real hard and it hurt even though the cold. the men grabbed my legs and pulled them apart as another man put his hand into my pussy and it hurt to. he said

well our pink ice cube is warm in here, the men all were there one took the rope that was laying in the corner and wrapped it around my ankle and tied it to a ring in the leg of the stove he then took another piece of rope and tied it to my other ankle and pulled it so hard that I felt they were going to pull me in half. he took the end of the rope and wrapped it around the post in the center of the room, two other men put ropes around my wrists and pulled them apart and tied them to different places in the room. I was cursing them one of the men sat on my stomach and started pinching and twisting my nipples the pain was horrible I have never hurt so much and the more I screamed the more they laughed. the big man had stopped twisting my nipples and he took special care to look over my pussy and legs he ran his hands over my legs squeezing my skin and rubbing the inside of my legs he ran his fingers thru the small patch of blown hair between my legs and as he did he moved his fingers so they were rubbing the outside of my pussy he then slowly put one of his fingers inside of me then two fingers he moved them around he pressed against my love bud, and I wined I didn't want him to know how much his touch was driving me crazy his hands were ruff and hard. with his other hand he looped into the soft hairs of my pussy he caught the hairs down close to my pussy opening and he pulled them so hard he pulled some of them out I let out a loud scream and they all laughed he started moving his hands around inside of my pussy

and he payed close attention to the lone bad of mine and with his other hand he keep pulling hairs out of my pussy patch. he was hurting me with one hand and driving me crazy with pleasure with the other I didn't know what to do laugh or cry and the whole time the other men would laugh and laugh. then the big man asked me do you want me to keep pulling this hair out. I said no don't pull any more hair out. he said ok I wont. the big man got up and went over to the stove pulled out a piece of burning wood. walked over to me and ran the burning piece of wood against my pussy and the smell of burning hair filled the air. he got close to my pussy as if he was looking for something. he then put the piece of wood back into the stove. he was laughing and said there. I wont pull any more hair out of your pussy I was frozen with horror and fright of the sight of the flames licking my pussy and the smell of burning hair he got down between my legs and his hands over my pussy and said look no more hair and no burns I did a real good job. the men walked away and were gone for a few men. and then they came back they were all naked but they were all carrying belts they moved around me and they took turns hitting me with there belts they mostly hit me on the tits on my legs and on my pussy. my arms and stomach to bottoms of my feet and they were all laughing at me. trying to make out at the way of the belts 440

Then one of the men put a blind fold over my eyes
 so I couldn't see. They kept slapping me with their
 belts. one of the men had put his fingers inside of me
 and was bringing to the point of cumming but before
 I could cum he stopped and they kept slapping me
 all over my body. I wanted to cum and I wanted them to
 stop hitting me it hurt and I wanted to cum. the feelings
 were driving me crazy and I felt warm water on me
 when I realized what was happening they all were passing
 on me and laughing. I heard them as they left the room
 the smell of urea was all over me and the heat from the
 wood stove made it worse I felt helpless and afraid.
 the smell was making me sick and the heat ~~was~~ ^{made it} ~~worse~~ ^{worsest}
 I don't know how long I layed there like that but
 it felt like for ever. Then one of the men came back
 and dumped a bucket of water on me he went out and
 got another bucket of water and dumped it on me also
 he came back with a third bucket but instead of dumping
 it on me he had a scrub brush with hard bristles
 he started scrubbing me from head to foot, the brush
 hurt my skin but when it came in contact with the
 sore places where the belts had hit me I cried
 out in pain. and when he scrubbed my tits I couldn't
 stop crying. but when he started scrubbing my pussy
 the bristles felt like they were cutting into me
 he dumped two more buckets of water on me to wash
 me off. I felt something go into my pussy it was the
 neck of a bottle and when it poured into me it burned

we had as the pain was stopping there was a man
 putting his dick inside of me my pussy stung from
 the whiskey and the feel of his dick made me feel like
 I didn't have any skin inside of me any more. the
 pain was so bad inside of me I felt no pleasure at
 all only pain. after he got done fucking me he
 took the ropes off of me he through my cloathing to
 me and I got dressed. the man took the rope and tied
 me up and layed me in the corner and I fell asleep
 crying. the next morning I awoke I was tied up and
 laying in the corner of the living room I couldn't move
 the four of them came into the room. I remembered how
 they had killed Sam last night and I was mad and
 scared all over again. I felt hands pick me up and
 throw me into a chair. the one who had thrown me
 into the chair started torturing me as he took the last
 of the ropes off of me. he stood up and I jumped out
 of the chair and kicked him. he slapped me and I
 fell back into the chair. I heard the other men laughing
 at him and saying that little nigger lover is
 going to hurt you. watch out. he leaned over me
 and slapped me twice more. I kicked him again and
 he grabed me by the hair and pulled me out of the
 chair and threw me on the floor I landed on my back
 and this man was sitting on my chest he was so heavy
 he slapped me again this time harder. I started bleeding
 my mouth. I was so mad and scared that I was trying
 to kill him. I.T.P. T.H. 442

the more I fought the more they laughed at me and I was getting madder and madder. I am saying I'll kill you I'll kill you. he called the others over and told them to hold this nigger loving bitch down. that he was going to teach this bitch some manners. one of the 2 men grabbed my hands and pinned them down to the floor. above my head. the other two men each grabbed one leg each and pulled my legs apart they had pulled my legs apart so wide that I thought that they were going to pull me apart. the big man was sitting on my chest moved down to sit on my hips and he was laughing at me. and the other men were also laughing at me. the big man pulled out a big knife and held it up in front of me he said see this its for you. he reached down to my waist and grabbed my shirt he then cut the knife under the shirt and cut the shirt off of me one of the men said it just like skinning a deer. and they all laughed after my shirt was gone he grabbed the longjohn tops and cut it off also soon I was completely naked from the waist up. and the men went on laughing and I seemed to get even madder I was yelling I'll kill you I'll kill you. the big man got off my hips and knelt on the floor between my legs. he took the big knife and grabbed one of my pants legs at the cuff put the knife under the cuff and started cutting my pants leg he cut all the way to my crotch. he then grabbed the other leg and did the same thing. he then cut the pants open at the fly and then cut the piece of pants left between the legs and

the pants fell away. he then cut my longjohns bottoms off in the same manner. I was laying there on the floor with out any clothing on, and these three men were holding me spread eagle and I couldn't move. I fought to get loose but I couldn't free myself the big man got up and sat down on my stomach again he grabbed my tits and squeezed them hard, squeezing and pinching my nipples, twisting them. the pain was horrible I was screaming and yelling and saying I'll kill you, my tits hurt I never felt so much pain, my nipples were getting really hard and they stood out like little thumbs. I hated my tits for doing that, the men were saying look she likes it see her nipples are hard, she likes this. I was yelling at them, no, I hate you I'll kill you and they keep laughing at me and hurting my tits, the big man who was sitting on my stomach and hurting my tits told the man holding my hands to tie my hands down, he tied my hands together and then tied them to the ring on the stone and came around and traded places with the man sitting on my stomach and he started doing the same things to my tits only harder the big man got down between my legs and I felt him start pinching the outer lips of my pussy, he squeezed and pulled so hard I didn't know where the most pain was at, my tits or my pussy. sometime during this the man holding my legs had taken off my shoes and socks and tied my legs up onto other things in the room and I still couldn't move. then they started whipping me with their belts

they hit me everywhere from the bottom of my feet
 over my legs my arms and hands and from time to
 time they would spank my tits and my chest anywhere
 they could they were hitting me so hard that red
 welts were covering my body and the pain was too
 much to take. every part of my body was on fire
 I heard myself begging them to stop. but they didn't
 they just kept hitting me I was starting to feel dizzy
 and then one of them threw a bucket of cold water on
 me. and I started screaming again the big man said
 do you want more. and I was begging him to stop
 I said I'll do anything you want just dont hurt me
 anymore. the big man said tell me how much you
 love me. beg me to fuck you. I said I love ya. and
 please fuck me and breed you inside of me, please fuck
 me hard please. the big man said keep telling me
 how much you want to fuck. as I started begging
 him to fuck me he started rubbing his hands over
 me but this time he was not hurting me as I kept begging
 him to fuck me. I was thinking how much he stunk
 and how much all of them stunk and how the house
 stunk. I got lost in my words of begging him
 to fuck me. his hands I wanted him to touch
 me all over he was not hurting me noone was
 his hands were hard and ruff but they felt good
 every now and then he would touch a place on
 me that was sore from the whipping and I would
 but he would kiss the hurt and rub me some

were else, sometimes between my begging to be fucked and his genital rubbing of my body I wanted him to fuck me, I wanted him so badly I could not stand it, he then started slowly rubbing my pussy lips and slowly he was inside of my pussy with his fingers. I was going wild the hunger was beyond my stopping, I was begging him to fuck me hard and he was twisting his fingers around inside of me and I did want to fuck now now now! I couldn't think about anything else I needed his dick in me now. he took off his chullo and put his dick inside of me and the feeling was great I had never felt so good. I was going wild with pleasure I wanted more. some were in all of them my legs and arms were freed and I had my legs around him and my arms round him as he exploded inside of me. he rolled off and another man took his place as he was fucking me he rolled us over and another man put his dick into my butt and that felt good too. just as I was getting used to having two dicks in me at the same time a third man put his dick into my mouth and it slid all the way into my throat with I had three dicks in me and I couldn't sit enough this was fantastic three at the same time, I don't know how many times I cummed or how many times they fucked me I figure it was several hours soon I was laying on the floor all alone the men had gone into the kitchen and were sitting at the table watching me lay on the floor was thinking of how I loved that fucking and how I wanted more. then I remembered how they had killed Sam. 446

he was my friend and they killed him. And I fucked
 then I was just as bad as they were just as if
 I had killed sam. and layed there the big man
 yelled come in here to me. I got up and walked into
 the kitchen he said do you like it here I said yes
 then he said do you want to stay here with us
 I didn't say a thing he got up and grabbed my
 arm. he looked at me and said if you want to leave
 then get out of here. I had no choice on he took
 me to the door opened it and said if you want to
 stay you've got to ask. he then throw me outside
 and closed the door. I slipped on the ice on the steps and
 fell into the snow the cold was like thousands of little
 knives poking at me. everything was white as I was getting
 up again I saw sam laying there face up in the snow
 his eyes were open and he was gray and hard he was
 frozen hard they had killed him. the wind and cold
 was so bad that my feet were trying to stick to the
 ice I looked out across the fields there was nothing
 no trees no houses, no people, only miles of white
 cold snow some drifts were 8 to 10 feet high I looked at
 sam and then the fields again and then I moved to the
 door of the house and started banging on the door crying
 to them to please let me in. the door opened and I tried
 to come in but I was pushed back and he asked me
 if I liked it here I said yes. he then asked if I would
 like to stay here I said yes. he then said do you want
 to work all the time. I said yes. he then reach out

grabbed me and pulled me into the house as I stood there shaking the men came over to me and said lay down on the floor I did what they said the floor was cold it was some type of a tile the men said lay on your back and put your hands beside your body and don't move. and layed there the men moved around me they turned around and they shit on me. there shit fell all over me. the big man said take the shit and spread it all over your body. I scooped it up and smeared it all over me I covered every inch of me from my head to my toes both front and back. they then stand up and I did they said just stand there and we will tell you when to me and what to do. I stood there like a statue not moving or talking. I don't know how long I stood there but most of the shit was dry before they came back. and when they did come back they didn't talk to me they talked to each other about me they walked across me looking at me and saying to one another how I stunk and how ugly I was and how dirty I was. and that I was lucky that they felt sorry for me. and if I was real good to them they would let me stay but I had to take care of all there needs that I had to fuck and suck anytime they wanted. then the big man spoke to me. he said what will you do for us if I let you stay I said I'll do anything you want anytime you want. then he said you know that we are only letting you stay out of the goodness of our hearts. And that you asked us to stay here

is that right. I said yes thank you. for letting me stay here with you. he then said if you are going to stay here with us you are going to need to clean yourself up you cant be going around like that and he pointed at all the shit I had smeared on me. he said you need to wash yourself and keep clean and also keep that pussy clean because some of us will stand for a stinking bitch living here do you understand I said yes. then he said get yourself cleaned up and clean this place up also. you know you made a mess here. I jumped and started cleaning myself and everything up. it took more than two hours to finish cleaning myself and the room up. one of the men come over and said are you clean yet I said yes. he then told me to turn around and bend over when I did he said take your fingers and spread your pussy lips apart and spread your legs I did what he said he then put his finger inside of my pussy moving his fingers around until I was good and wet he then took his fingers out and told me to open my mouth I did and he put his finger into my mouth and told me to suck his fingers I did what he said then asked how did I taste. I said real good and clean. he pulled his fingers out of my mouth turned and left. then one of the other men came in and told me to kneel down and put his dick in my mouth and suck him real good. I did what he said. took all of his dick into my mouth I tried but I couldnt get it all in and I tried to see how when his dick stuck down my throat

soon I found I could suck his dick and breath at the same time. he soon started cumming down my throat I keep sucking his dick until every drop was gone he pulled his dick out of my mouth and left the room. then the third man came in and told me to bend over a chair and take my hands and spread my butt cheeks I did what he said and he fucked me in my butt hole and after he cummed he also left. the big man came into the room told me to spread my legs apart and to grab a hold of my ankles and he put his dick into my pussy and fucked my hand he cummed several times he then sucked his dick out of my pussy and left the room I stood there and then started cleaning myself up again. after I got done cleaning myself up. one of the men came back into the room and said for me to follow him and I did he took me into the living room again and told me to put on my shoes and socks I did he then told me to follow him. he stopped at the outside door and put his coat on and threw my coat at me and I put it on. my coat only came to about 4" below my pussy. he opened the door and went outside and I followed him he went around the house and went into the next house and closed the door as we entered the room it was just as cold in there as it was outside except there was no wind. I didnt like the cold wind my pussy hurt from the cold wind. he said we need to get a large roast for dinner. he asked me if my pussy was cold I said yes he said that he would help me warm it up. he told me to come over to him. he propped his pants

down just below his crotch and layed back on a
 bundle of empty sacks he told me to come and
 sit on his dick and take it in my pussy and get me
 both warm. I did what he said. but before I could
 lower myself onto his dick he stoped me and told me to
 hold that position he then put his hand down onto my pussy
 and opened my legs up and the cold air rushed in and I felt
 cold all the way thro. me. soon I was begging him to
 fuck me. then he told me ok go ahead. I lowered myself
 onto his dick and after the cold his dick felt like it was
 huge and steaming hot. I had to have all of him inside of
 me he was warm. once he was all the way in I started
 sucking his huge hot dick the warmth put me in heaven
 I fucked and fucked we both cummed several times. I felt
 like I was going to melt into him I didn't want him to
 take his dick away I needed it. he told me not to wash
 his cum out of me that he wanted to have his cum
 deep inside of me in that way he said that he would
 always be with me. I told him that I would keep it
 for him. as we walked back to the house I don't know
 why but I felt closer to him like he liked me,
 and wasn't going to hurt me. when we got back
 into the house the big man told me to put the meat on
 the table and to go over to the garbage can and get out
 and empty wine bottle I did what he said he then told
 me to put $\frac{1}{2}$ " of whiskey in the bottle I did that to he said
 now fill the bottle up with warm water. after filling the
 bottle he told me to bring the bottle to him. he took

the bottle told me to turn around and bend over and spread my legs, then he said reach between my legs with both hands and spread and hold my pussy lips apart. I did what he said he then took the wine bottle and pushed the neck of it into my pussy. I felt the liquid tingle into me he told me to relax the muscles in my pussy and let the water wash my pussy out good. as I relaxed I felt the water go deeper into me and soon I was full the water was running out of me. he pulled the bottle out of me and told me to stand up straight as I did more water ran down my legs he then took his fingers and pushed them into me and spread my inner lips apart and more water ran out. he repeated the hole process again and then he told me to go over and wash myself real good. I did what he said and I was glad to do it. I felt dirty all over but washing wasn't able to wash all of the feeling away. after I was finished washing I felt better. when I came back into the kitchen the big man told me to go to the ice box and get some food to eat. he told me to eat the ham and beans he told me to drink some juice also. I ate so much I felt really full. he then told me to put the roast on for dinner. I got a large pan and put salt & pepper on the roast I put onions and carrots and potatoes in the pan with the meat. I also put some water in the pan and put it into the oven to cook. he then asked me if I had the

room in the back of the house that was an indoor
 out house after I was finished, he said, come on lets
 go. I follow close behind him. he went to his bedroom
 he went in and told me to close and lock the door behind
 me. he went over to the big bed and started taking his
 clothes off. when he was naked he sat down on the bed
 he told me to sit on his lap and I did. he gently put
 his arms around me and was running his hands over
 my body and telling me how he didn't like to hurt me and
 asked me to not make him hurt me again. that he
 loved me. he said a little pain was good. but bad
 pain was hurtful to me and him he kissed me and said you
 are mine and he said that I was going to have sex with
 him I told him yes I want to fuck him all the time. he
 layed back on the bed and had me suck his dick and
 he was kissing and licking on my pussy his tongue was
 making my pussy jump every time he would bite my
 outer lips. I was sucking on his dick I had all of his
 dick in my mouth and thought I felt like I was coming
 apart my mouth was full of him and my pussy was
 on fire and I wanted to fuck. he started cumming in my
 thought when he was finished he pulled my mouth off his
 dick and had me turn around. he had me straddle his
 dick. but before I could get his dick into my pussy he reaches
 between my legs with both of his hands and caught my outer
 pussy lips with both of his hands and using his thumb
 I for fingers of both hands. he squeezed them hard and

of my pussy. not inside or outside but only in the opening.
 he squeezed my pussy lips hard and it hurt and at
 the same time the pain was driving me crazy with pleasure
 he told me to beg for him to fuck me. and I started
 crying and begging asking him to please fuck me. after a
 few min. he said ok if you want to fuck I'll do it for
 you. he let go of my pussy lips and I force my
 pussy down onto his dick and his dick dug deeply into
 my stome. he felt so good all I wanted to do was fuck
 I didn't want to stop. I was going up and down on his dick
 so fast I was getting dizzy my head was spinning and my
 pussy was on fire. I was cumming and cumming he finally
 started cumming and the force of his cum drove me on to
 cumming even more. as I stopped cumming I fell forward and
 he caught me and layed me down on him. he rolled me
 over he was still inside of my pussy and he was on top
 of me he was kissing me and I was kissing him. he keep
 fucking me and he felt great inside of me. I felt wave after
 wave of pleasure flow over me. he was cumming inside of me
 again. and I felt like I belonged here. we layed there for a
 long time. his dick was in me and his arms were around me.
 and my arms and legs were around him. and as we layed
 there we were kissing each other. I jumped and he said
 what is wrong. and I said the meat. I've got to turn it
 or it will burn and it wont get done all the way thro
 he said then you had better go an turn it and then come
 right back and dont let anyone else touch you. I jum
 ...t ...d and I went down stairs turned the meat covered

It again and ran back up stairs and relocked the door and jumped back into bed. I felt like I belonged there. He then said here kneel on the bed and put your shoulders on the bed. I did and he got behind me and started fucking me again. This felt like he was deeper in me and it felt good. soon we were both cumming and we fell forward onto the bed. He had his hands on my stomach and his on my back. He then had me open my legs again and he put his dick into my butt and that felt good too. one of his hands were around me and squeezing my tits and his other hand was around me and he was rubbing my pussy and the feeling of love was all over me. I begged him to never stop fucking me and I kept turning my head to be able to kiss him and I loved him. because he loved me.
