Ex-wife Rita comments that Bill was always upset with his working conditions at job created for him by his father. He disliked especially his truck washing job, (which was set on fire), the red truck he torched near the truck stop was a lemon of a vehicle, which is why he torched it. Bill was simply volatile all the time & would just erupt.

sister Susan recalls:

A) Bill sees women with an antagonistic attitude and feels women think they are better than anyone else.

B) Bills personal things are stored in his mothers attic, papers, etc.

C) Bill was questioned in Maryland about either doing or witnessing a killing there, in a barn type restaurant-bar. A frying pan was used in a fight & a man died while Bill was present & Bill denies anything, then & now. This was 6 mos. prior to the murder he did do there.
