

Enclosed please find records responsive to your public records request.

Please note that some information has been redacted from the enclosed documents pursuant to the Public Records Act. This exemption letter and key will explain how the redactions are made, and the statutory basis for the redactions.

Please note that there are black boxes (redactions) on various pages of the responsive documents. The black box may be small or large depending on the amount of information that is redacted. There may also be multiple redactions on one page. Within the redaction is a code – for example, 101A, 101B, etc. That code designates the statutory exemption applicable to the redacted information. If there is only one code on the page, but there are numerous redactions, that one statutory exemption applies to all of the redactions on that page. Otherwise, the code printed within the redaction designates the exemption for that redaction.

Also provided with these records is a key to the codes. This key identifies the statutory basis for the exemption as well as a brief explanation for why the exemption applies to the redacted information. As you review these responsive documents, you can refer to the key to identify the exemption and its applicability.

We have attempted to apply consistent redactions on documents that contain the same information. In the event that you locate documents that contain redactions that are not applied consistently, please let me know.

Finally, the disclosure of information in the records being produced does not in any way constitute a waiver of attorney-client and/or work product privileges.

For documents that are being withheld in their entirety, you are receiving a separate log identifying the document specifically, along with the applicable exemption and how it applies to the record.

If you have any questions, please contact me at (360) 596.5155.
