THURSTON COUNTY SHERIFF'S OFFICE

OFFICER'S REPORT

Capt. Mark Curtis & Det. Dave Haller

CASE NUMBER:

73-17592-12

VICTIM:

101C

INCIDENT:

Murder

DATE OF INCIDENT:

On or about 11/25/73

LOCATION:

Thurston County

SUSPECT:

William Earl Cosden JR.

DOB: 12-19-46

Birth Place: Baltimore, MD

SSN# 412

DOC #249717

NOTE:

See attached list of people for address/phones.

DATE OF REPORT:

February 15, 2002

SYNOPSIS/INVESTIGATION

Barbara E. and Dale S. Saling discovered the body of a female at the Camp Margaret McKenny at Capitol Forrest by the Waddle Creek parking lot. The victim was face down and her trousers had been cut down the middle, exposing buttocks. The Salings telephoned TCSO from the Cedar Creek Youth Camp via supervisor Ben Newnahm. This was December 6, 1973.

Inspector Charles Graef and Chief Criminal Deputy Dwight Caron and Det. Lt. Don Snook and Sgt. Mike Cleland responded. Deputy Paul Buerger protected the area. Det. Paul Barclift arrived and the scene was processed. See Caron's report of 12-9-73. Coroner Hollis Fultz arrived, as did Olympia PD Capt. Bill Remsen, Det. Ron Schultz and Det. Ron Hopkins, (hoping the body was their missing person case, but was not). The body showed considerable animal activity at the throat area, likely where the

victim was attacked by a suspect. A "waffle-stomper" boot was missing from the scene. Olympia beer was present, as was a short length of natural fiber rope. Also found was a small piece of bracelet metal. Thus, it appeared she maybe was bound, and the bracelet removed to conceal identification. Although the body was found face down, a 10/23/86 Crime Lab Report, by Lynn D. McIntire indicated that the victim bled while on her back position, in contrast to how she was found, face down. The coat pockets were cut with a sharp edged instrument, even though access was easy, otherwise.

Also at the scene was Deputy Pat Sweeney that located part of a metal bracelet and Tricia Hamilton who went looking for the other boot and did not locate it. The body was removed for autopsy for 12/7/73 in Lacey, WA.

Olympia Police officer Elbert Davis and son Charles had spotted a boot on Waddle Creek Road, 4 or 5 days prior to the body discovery, but possible road grader work may have covered it over.

Officers thought that a small cut was seen on the neck. A Frank Vincenzi of Woodland Park Zoo was contacted re: animal behavior to explain the eating of the body by animals.

The autopsy was conducted by Dr. Patrick E. Besant-Matthews who took a swab from the vaginal area, took photos, and wrote a report. The swab was put into evidence and the item was tested for DNA very recently. It was determined to be the DNA of William E. Cosden Jr. See Lab Report. And more detail in this report, following. Also witnessing that autopsy were:

Dr. Ronald Larson, D.D.S

TCSO Lt. Don Snook

Capt. W.W. "Tag" Frazier

Capt. Harold Bade

Coroner Hollis Fultz

Chief Dwight Caron

Joe West

Dr. Delion

Sgt. Henry Baesen

Lacey Sgt. Don Smith

Olympia PD Officer Frank Hamilton

Olympia PD Officer Bill Eppenstein

Lacey PD Officer Andy Kollmer

Sgt. Paul Barclift

Other photos were by Bade, West and Sgt. Paul Barclift. Blood screening for drugs and alcohol were sent to Dr. Ernest Thomas, State Toxicologist, and the screening was clear of alcohol and drugs.

Note: Examination showed that a right posterior area of the scalp had a minimal subgaleal hemorrhage. The breasts were likely cut below the nipples. An abrasion on the knee was seen, hands soiled and the throat showed potentially being cut.

Positive Identification of the Victim:

-Photos of **101C** clothing, especially the coat, boots, decorations, facial photos (of a rebuilt neck) with face

-William Devine gave permission to remove a tooth from his **101C** jaw and executed by court order by Judge Robert Doran

-Dr. Ronald Larson, D.D.S cast the dental area of the victim

-Dr. Stanford D. Prince, D.D.S. identified the victim's dental x-rays against the victim's King County Health Department Records.

-Dr. William Bigelow helped with extracting the tooth and dental cast

101C family associate Charles F. Charbonneau identified the victim.

-Delmer Bennett, and **101C** to the victim identified her by forehead and nose

-Victim friend **101B** identified the earrings from the victim in detail

-Seattle Police Det. Duane Holman saw the TCSO information and suggested **101C** was his runaway report person.

-TCSO Deputy Thomas Barte took her footprints for birth record comparison if needed.

-Her **101C** Howard W. Devine re: her ring and jacket

-And Dr. Stanford D. Prince identified the tooth as from **101C**

Observing **101C** hitch hiking south from 93rd and Aurora Ave north, Seattle, WA were (Nov 25, 1973, 1:30 p.m.)

101B saw the truck as "blue", old, beat up, maybe a canopy of the same color, driven by heavy set, broad shoulder big man, shoulder length dark wavy hair.

101B **101C** stayed the night with her the night prior to running away, getting into an old truck, muddy dull brown, with Washington license plates, unknown. The driver wore a T-shirt, shoulder length hair, wavy, dark brown, well kept. The truck had "spray paint all over it" and had black upholstery. **101C** mentioned consuming anxiety medication the night before leaving.

-Will Rohrich, of Chevrolet Motors, who saw **101C** hitch hike away in the truck on 11/25/73. He thought the truck was a Dodge, green in color, old, beat up, driven by a long haired, bearded man. We know that Cosden did have a 1961 Dodge flatbed truck #G51234 on 11/30/75 when arrested for rape.

Aware of **101C** intending to go to Oregon

A) Kathy Morrison – not relocated

B) **101B** who thought it was a spontaneous thing contemplated by **101C** heading to Oregon.

C) Delmer Bennett - **101C** aware only via victim's family

LaVerne "Beth" Bennett (LaBree) only via victim's family

(the victim never arrived) **101C** had written that she would come to visit at Christmas time.

Early Suspicions of William Earl Cosden Jr.

The Sheriff's Office received an anonymous telephone tip that Cosden Jr. of the Restover truck Stop (served time for murder once), was up at Capitol Peak on 12/1/73 in a truck. The caller gave no further information on 12/10/73. This was three days before the sheriff's office printed up a bulletin and sent out to the public looking for witnesses 12/13/73, the same day as her death announcement in the Olympian, and the same day we passed out these bulletins to every gas station, motel or restaurant between Grand Mound and Seattle, at each I-5 exit. The public learned of the finding of the body on 12/7/73. A sketch and photo of part of her clothing was published 12/9/73 and her facial profile was published 12/10/73. Margaret Howell had suspicion of Cosden very early in the investigation. She called in a tip that we cannot now document. Years later, we received a tip dated 1/24/89 from a concerned citizen. This person suggested we not look at Ted Bundy, but check specifically with the Piney Point, Maryland Sheriff's Department regarding Bill Cosden Jr., who lived at Scott Lake "then". The use of the word "then" was not clear, i.e. meaning the time of the Devine murder, or, the time of the murder case in Maryland.

To explain, Cosden Jr. was accused of the murder of 21 year old Helen Patricia Pilkerton who was found 4/16/67 on Flat Iron Road, face down in a culvert ditch. The face down info is not the only similarity to **101C** Pilkerton had been stabbed in the chest, breast, and she was transported away from the attack scene to the dumpsite. Sex was also part of that crime. Pilkerton also had wounds on the head, as did **101C**

On 1/9/73, Cosden came into the TCSO and applied for a concealed weapons permit. His application included admission of the above murder arrest in Maryland, and sent to a mental hospital. Undersheriff Jack Crawford denied the permit and sent to Maryland for the police report. Thus, we were aware of Cosden.

Sgt. Paul Barelift began to work on Cosden as a murder person of interest. Cosden claimed to be victim of at least 5 fires, most significantly the fire on 11/26/73 0220 hours. His 1972 International ¾ ton 4x4 pickup, license #GE5514 was fully gassed up at the family business at 93rd and I-5 early A.m. the truck had a canopy and a carpet laid in the pickup bed. The fire occurred on Case Road. This particular day/night date is the same as **101C** is believed to have come through Thurston County. Cosden's truck stop family business was a natural place for hitch hikers to seek a ride, food and relief. Barelift was to later interview the truck stop employee Carl Clark, who noticed Cosden Jr. had a stain on his clothing. Clark and coworker Bill Shears saw Cosden drive off, as Clark said he wouldn't be surprised if he found Cosden's truck on fire on the way home, as they were aware of Cosden's reputation at the workplace.

101C hitch hiked away from 91st and Aurora Avenue in Seattle at 1330 hours, seen by **101B** **101B** and **101B** Amster, as well as a Will Rolrich from across the street.

We now have a witness to seeing blood. He is David W. Perschon, DOB 01-07-27, who had done some work around the Restover Truck Stop for Bill Cosden Sr. David was aware of the theft reputation of Bill Jr. Suspecting Jr. may be responsible for stealing David's tire rims, he went looking around the truck stop. with Tim Cosden present, David looked inside Cosden JR's International pickup truck with canopy. He saw coagulated blood on a sleeping bag, partially covering a "dark waffle-stomper shoe with wide yellow diamond decoration in the shoe laces". He could not recall which shoe it was. This was between 2200 and 2300 hours of what we know to be 11/25/73, recalled as the night before the fire of the same truck.

One employee was a Ben Hicks on duty at the time, but not right there to see the blood and shoe. A similar described shoe was viewed in evidence by Capt. Curtis, Det. Haller and Deputy P.A. Harju. The shoe lace hooks do shine brightly and could have been what Perschon saw as "decorations". The shoe in evidence is a waffle-stomper from the victim's body. Perschon gave a taped statement that indicated the shoe laces had yellow diamonds in the laces. This is just slight different to what he said before the taped statement to Curtis. Earlier, it was a "diamond decoration", just slightly different.

Perschon was not focussed on the bloody sleeping bag, but rather focussed at finding his tire rims, which he never found.

Bill Jr. had come out of the toilet area, caught Perschon looking in the truck. Bill Jr. said he shot a deer and had not cleaned it up yet, and kicked them (David and Tim Cosden) out of there and locked the door of the shop. David did recall seeing gun stocks under the sleeping bag, a point of conflict with what

Bill told Clark as the truck was burning on Case Road. There, Bill Jr. said he just barely got his gun out of the truck, meaning cab of truck. We are unclear if David saw one or more gun stocks.

Perschon was also aware of Bill and Tim Cosden saying they had been deer hunting all between Littlerock and Rochester in the hills and over to Millersylvania (in the past). (This point is a concern to us, due to another female body found in 1974 at the edge of the Millersylvania State Park, near where Bill Jr. resided).

Other Fires of Interest:

(Yet another tip comes into TCSO on the 4/15/74, fire indicating fraud)

- 4/15/74 The Cosden Jr. home burned at Scott Lake
- 1/29/74 The Cosden Jr. bathroom caught fire
- 7/15/75 The Cosden business suffered a pump house fire at the work station of Bill Jr.
- 8/10/75 Cosden Jr. reported his '73 Ford white/red pickup #GR4618 stolen and set afire near his work place
- 10/27/75 Cosden Jr. reported a burglary and arson to a pole building off Shelley Road, used as his residence.

A Felony Crime of Rape was charged on Cosden Jr. re: an early morning assault and rape of a woman on 11/30/75. Cosden had offered to make sure she drove home safely in the snow. He slid into some potential trouble, she stopped at an intersection to check on him. She turned to go to her vehicle and he hit her on the back of the head with a large rubber mallet, which causes us to see a comparison to **101C** The victim asked him not to hurt her again and would do as he wished if he did not hurt her again. Cosden put her in his vehicle, left hers running and took her to a remote place on the Shelley Road off Maytown Road. She was twice raped, grabbed by the neck and said he was doing the same thing as "Ted", (meaning Ted Bundy, we surmised later). The victim talked her way out of more assault by flattering Cosden, who then took her back to her car. His '61 Dodge pickup also caused us concern, due to the vehicle description that was described in Seattle, giving Devine a ride south. For this, Cosden was convicted and sent to prison where he is today. Very recently Cosden was interviewed by Det. Dave Haller and Deputy Tim Rudloff on 1/4/02. Cosden now admits he raped the '75 victim Bev Fredericks. He earlier denied it. See this case file and news publications showing quite a different claim on his part, at the time. #75-21181-11.

Note: When interviewed by Curtis on 4/25/95, Bill Cosden denied trying to kill the rape victim, just to knock her out. He denied saying anything about "doing the same thing as Ted". He did admit hitting her with the mallet on her head, thus he lied to the trial court during the rape trial in Olympia. However, in 1986, Cosden denied to Detectives Vukich and Schoening that he hit the victim in the head. See the detective reports and search warrant.

Statements Against William Cosden Jr.

1. Rita Luce, ex-wife of Cosden. She recalls:
 - A) Cosden admitted the earlier Maryland murder
 - B) Puts him at Camp Margaret McKinney prior to the alleged crime of murder
 - C) Recalls that Bill's pickup truck, green, had a canopy and carpet on the bed floor
 - D) That Bill was photographing nude women
 - E) That Bill left a 12 year old girl in his vehicle all night, who was naked from the waist down and alcohol was related
 - F) That Bill was a peeping tom
 - G) That Bill had contacts at a group home for girls and provided alcohol to them and took one of them hunting over night, a 14ish aged girl
 - H) And that Bill wanted anal sex and was denied

2. Susan Cosden recalls:
 - A) That she told Bill she believed he killed **101C** He denied it. He admitted a rape guilt and that he did a lot more things, but not the murder.
 - B) That she was now aware that Bill had tried to rape their brother Tim's wife on (5)five occasions before his prison incarceration. On one occasion, Bill broke into his sister-in-law's home, picked Margaret up and threw her on the bed and broke the bed. She is known as Margaret Howell.
 - C) That Bill molested her sexually for years and used force, manipulation or psychological intimidation, since she was a little girl. He seemed to often end up at her buttocks.
 - D) That Bill had considerable anger aimed at family.

3. Karen Therese Cosden-Harris, now of Olympia, will testify that:

A) She was molested by Bill Cosden Jr. starting at a very young age, 4. Bill started again when he arrived home from Vietnam, not long before he did a murder in St. Mary's County and restarted again the night Bill arrived from Maryland, four hours later. Bill would make partial penetration to her vagina, but not full penetration. Bill was always angry even when molesting. On one occasion, molesting occurred in the back seat of a vehicle, unbeknownst to his wife who would be driving. She recalled being face down during one particular incident.

Bill discussed doing animal abuse at the freeway and Bill's mother, Janet, apparently believed Bill Jr. did an arson in Maryland.

B) She recalls talking about the 101C murder news coverage in front of her brother Bill, who said nothing recalled.

C) She discussed Bill doing digital and oral sexual conduct on her

D) Her ankles would be restrained using her underpants

E) Bill often could not get an erection, not at the vagina of his sister

F) Bill claimed to have killed children in Vietnam with other Marines and allegedly took pleasure in communicating that story.

4. Margaret (Cosden) Howell-8929 Armstrong Rd, SW, Olympia, WA, 352-7492.

While Bill Cosden Jr. was still in the community, and she was married to Tim Cosden, Bill allegedly tried to have sex with her multiple times. On one occasion, Bill allegedly pushed her on her bed so hard it broke the bed.

5. Janet C. Cosden, mother of Bill Cosden Jr., who will refute some of the claims Bill has made, blaming his behavior on parents and a former babysitter.

6. Carl Edwin Clark Jr. - Former coworker of the defendant.

He gassed up the Cosden Jr. pickup truck very early A.m. with 40 gallons, just before it supposedly caught fire nearby. Clark, "nosey," went looking after a deputy went by and found the truck on fire and asked what happened.

Bill gave an explanation and also said he got his rifle out in time. Clark had noted that when Cosden was at the gas station, his "Army fatigue shirt had stains that looked like blood," and said he was up at Capital Peak spotlighting for deer.

During the summer, Clark has seen Cosden a few times come into the truck stop with a 15 or 16 year old girl and go back into the compound and spend the night with the female, perhaps in his vehicle. Other coworkers would say they saw similar occurrences, meaning:

-Dan Felker, who went to Alaska

-Bill Shearer, who went to Arizona and died

-Cosden did have a hunting knife on his belt that night and his jeans were dirty. He drove into the gas station from the west.

7. We talked with a Bradley W. Baker, 07-21-48 of Alaska. On one occasion in the 70's, exact year not recalled, saw Bill Cosden Jr. with teenager girl leaving from the truck stop. The girl was thin in build, 5'3" or 5'4", maybe without a coat. Brad saw her come out of the Restover Truck Stop motel room where some truckers were inside. It was raining, cold, in the winter time, exact 70's year not recalled. Cosden Jr. took off with her in his own truck, best recalled as a Dodge Power Wagon.

Baker also recalled the 1975 rape case when Cosden Jr. hit the victim with a rubber mallet. Only a few days earlier, Cosden Jr. came to visit, bringing a Miller brand welder, wanting Brad to remove or stamp out the serial numbers from this stolen property. Baker was afraid to do so, already not wanting to continue a friendship. The reason was that Cosden Jr. had been "popping" off the metal tags that seal the truck doors, these being semi truck stop customers of the Cosden family business. Bill would "help himself" to truck contents. On one occasion, Bill brought over 20 to 25 pounds of ham to Brad. Thus, Brad ended contact with Cosden, believing the meat was stolen.

When questioned about a teenage girl that Cosden brought to Elk Camp, Brad does recall that. The location was next to the then Spirit Lake boat ramp. Brad was camped in a trailer with a Helmut Henshaw (not yet relocated, thin in his 50's), exact year in the 70's not certain. The girl was a dishwater strawberry blonde, thin, 120 pounds, young, 5' to 5'6". The two stopped by the

trailer, did not stay the night, did not hunt, and left. The two did not have sex in the presence of Brad.

Baker saw no elk or deer in the presence of Cosden, nor did he ever do so. Cosden may have told his wife of hunting with Baker on that day, but Cosden was untruthful on that point.

We also contacted Baker's ex wife, Nancy Bier-Goudy, now of King Salmon, Alaska, 907-246-7773. She recalls her husband Bradley returned from that hunting trip as irritated that Cosden Jr. brought up the teenage girl. Nancy recalled Bradley said the girl was screaming a lot, tossed over Cosden's truck, but acted willing as a participant, as Bill was "getting it on with the girl."

On the other hand, Nancy had some trouble herself with Bill Cosden Jr. He was trying to "visit" her during the day at her home while her husband was at work. She denied him entry, fearing him, and the attempted visits stopped.

8. (Ret.) Sgt. Paul Barclift did identify the girl. She is still known as **101B** DOB: 12/28/60, who had been at the Skyway for Youth group home at Waddle Creek Road in Thurston County in 1974. **101B** informed Barclift that Cosden Jr. made attempts at having sex with her that day, but she declined.

Cosden's wife was aware that her husband was going to take the **101B** girl camping. Rita (Cosden) Luce was supposed to go with them, but did not. And, she was not comfortable with her husband taking the girl anyway.

Other girls at Skyway for Youth had been uncomfortable with Cosden Jr. See early reports. They were not relocated:

101B

Cosden Jr. had made alcohol available to them and had come upon them swimming nude in the creek. He held a towel up for one girl to wrap herself, but peered over the top of it, denying privacy.

9. David W. Perschon – DOB: 01/07/27

On 1/22/02, David was interviewed at his home. He very clearly recalls the night the Cosden Jr. International pickup burned. Earlier that night, actually close to 11:00 PM, some 4 hours before the fire of 11/26/73. See above explanation of him seeing coagulated blood in the Cosden Jr. pickup bed. (In relationship to the truck fire).

10. Margaret L. (Cosden) Howell

Ex-wife of Tim Cosden, ex-sister in law to Bill Cosden Jr. She suffered from psychological stress from Bill Jr. telling her how he killed children while in Vietnam. Also, Cosden Jr. would come to her home and talk like they had some affair. She would rebuff him. But one day, Bill Jr. pushed her back to the bedroom, causing her to fall on the bed, breaking it. He had her pinned to the bed (much like his sister would recall) and Margaret yelled out and "Tom" a neighbor, came over to stop whatever was going on. Margaret was sure she was going to be raped. "Tom" put an end to that. See her statement.

Interviews with William Cosden Jr.

A) Was 4/25/95 at Twin Rivers, Monroe Washington by Mark Curtis.

He waived his rights, declined to permit a tape recorder, but talked with Curtis. Present at his request was his counselor, Shirley Grey, at 1039 hours. Bill was in the treatment for sexual psychopath. He told of things that were inconsistent and uncorroborated, using bravado to impress. Contrary to his words, he never was a machine gunner, nor Marine Corps recon, nor a POW, nor helping tend to the dead, according to his military records. These are things he would claim to former coworkers. Bill went on to claim only 3 weeks in the military hospital, but was in as a patient different times that added up. See the report of 4/27/95.

Bill did claim of killing a lieutenant earlier. And on 4/25/95 he claimed killing several military persons which we cannot corroborate. He told his wife and sister Karen of "having to kill kids". We cannot corroborate that either. None of this multi-person taking of lives is verifiable in any known way.

Concerning the 1967 murder and rape of Helen Pilkerton in Maryland, Bill now remembers doing the crime and described how it "possibly" happened, using a cue stick to stab her. See reports. She was raped.

Concerning Bill Cosden's taking a teenaged girl elk hunting, Bill admits that and her age was 101C years old. But he denies abusing her, because "she was not family" and "it would be weird to rape a stranger" but not a family member.

Not being a family member did not stop Cosden from trying to have sex with her. Sgt. Paul Barclift interviewed her, 1/31/78. She is 101C She recalled Cosden teaching self defense to herself and other girls of the Skyway for Youth home. He often would brush up against her breasts and encroached on them when they were swimming nude in a creek. He offered a towel for one girl as he watched over the top. On the camping trip, "Cosden did try to have sex with her several times". She declined. He tried to get her drunk on rum but did not succeed. She was actually 101C then, not 101C as he may have thought.

Cosden also admitted he took a 13 year old girl to his home, intoxicated after swimming nude in a pond by 93rd and I-5, with Bill and her family. The mother of the girl had to called his home the next day to look for the girl. Rita (Cosden) Luce found the girl outside in their vehicle, nude from the waist down, and cold. Bill does not admit to any sexual contact with the girl who has never been identified by name. Her mother did arrive and remove her from the Cosden vehicle.

Bill Cosden claimed he was raped as a child, a point not given credibility by his mother, Janet Cosden. Bill claimed the rape occurred in the bath tub, but Janet said they only had a shower, no tub. Other inconsistent claims are refuted by his family. See the 4/25/95 report by Curtis.

Bill Cosden denied the murder of the girl found at Capitol Peak area, denied blood was seen on his clothing and denied another murder of a girl found at the edge of Millersylvania State Park. Also see the May 5, 1995 addendum report by Curtis and military records that include noting that Bill Cosden Jr. had an almost uncontrollable urge to kill other Marines.

Cosden was also found (by Twin Rivers staff) to have in his possession, an extensive manuscript of interest. It is a front to back writing to extreme sex abuse of a young female, written in third person. Cosden admitted writing it and claimed he considered it as part of his therapy. The key points of this writing included:

- the use of the rope to bind his victim
- use of a knife to cut "Mary's" jeans off, starting at the waist ending at the crotch.

These points are strikingly similar to the **101C** case.

- B) June 27, 1986 Interview by Det. Joe Vukich and Brian Schoening
At McNeil Island Penitentiary. He waived his rights. In that interview, Cosden said he was not familiar with the Margaret McKenny Campground, yet he would have gone by this camp each day he drove to Skyway Group home. Cosden now claimed he was spotlighting for deer in Yelm, not at Capitol Peak (area), on 11/26/73. He said he had not known **101C** and had never seen her. Cosden did admit having sex with two hitch hikers, and did not like hitch hikers. He denied remembering any blood stains on his clothing.
- C) July 1/ 1986, Cosden read the Miranda warning and refused to waive any rights. Dets Schoening and Vukich served a search warrant on Cosden for blood, hair, saliva to be used later in any analysis of criminal evidence.
- D) Friday, January 4, 2002, interview of Cosden by Det. David Haller and Deputy Tim Rudloff at the McNeil Island Penitentiary.
- E) Monday, January 7, 2002 interview of Cosden by Haller and Rudloff

SUPPLEMENTARY REPORT

By: Det. D. H. Haller 159

NARRATIVE:

In November of 2001 I was made aware of a DNA match on a suspect in an unsolved 1973 Homicide where the victim was a 101C year old 101C identified as 101C. I was contacted by Captain Kimball and it was requested I assist Captain Curtis with the investigation of the case. Captain Curtis had remained current with the case documenting evidence, statements and relevant information as it came to light from the time of the original finding of 101C. I reviewed the case file in preparation to interview the identified suspect, William E. Cosden Jr., who was currently serving out a sentence at the McNeil Island Corrections Center located in Pierce county. I reviewed all reports, statements, photo's and other information in the file making mental note of all significant area's relating to the murder of 101C.

On 12/14/01 I attended a meeting with Captain Kimball, Captain Curtis, Undersheriff McClanahan, Lt. Watkins, retired Sgt. Barcliff and Deputy Prosecuting Attorney Harju. It was decided in that meeting that I would contact and attempt to interview Cosden in early January of 2002.

On 12/18/01 I contacted DOC Investigator Kelly Frake telephonically and verified Cosden was still an inmate serving out a sentence at McNeil Island. I requested that she research and identify present and past cell mates of Cosden explaining I would be needing to interview each. I advised her that I needed to set up a time and date to interview Cosden explaining he was a suspect in a 1973 homicide that now had a DNA match identifying him. January 3rd, 2001, was the date set up for the Cosden interview. In the interim I took advantage of time to continue to review the case file and the case Cosden was currently serving his sentence on. I noted that in that case Cosden never admitted to assaulting or raping the victim even after being convicted and sentenced to 48 years. He was interviewed by Det. Vukich and Det. Schoening of this agency in 1986 and continued to deny any wrongdoing in that case during those interviews. I also noted in that interview Cosden was questioned about 101C and denied ever having any contact with her and denied even knowing her which was noted in Det. Vukich's notes. I noted a series of events that showed a pattern which coupled with the DNA evidence indicated that Cosden was

the person responsible for the death of **101C** Cosden was acquitted of a homicide in the State of Maryland by reason of insanity in 1967 and was committed to four years in the state mental hospital as a result. In that case the victim was stabbed numerous times and raped, lived approximately three hours and then her body was dumped into a canal where she was found by authorities. While that was under investigation Cosden was found by his father to have blood stained clothing and was taken by his father to law enforcement who then connected him to that homicide. His father was supportive of Cosden through that whole process and shortly after his committal moved his entire family to the west coast where he bought and operated the Restover Truck Stop located on 93rd Ave. SW and southbound I-5. Cosden was found sane and released in 1971 and joined his family on the west coast where he went to work for his father at the truck stop. As a result of known information at the time Detectives were able to author and receive a search warrant to obtain comparison samples of Cosden's blood, hair and saliva. That search warrant was served on him that same year and samples were taken and booked into evidence. The WSP lab did comparisons on hair and were not able to eliminate Cosden as a suspect at that time. Other information noted concerned a witness that was found and interviewed in 1977 who remembered Cosden driving into the Restover Truck Stop the early morning hours of November 26th, 1973 in his 1974 International pickup truck. The truck had driven onto the property from the west heading east on what was then known as Lathrop Rd, known this date as 93rd SW. The witness observed Cosden to be wearing a coat that had what appeared to be blood stains on it, observed a knife on his waistband in a sheath and asked him where he had been. Cosden told the witness he had been in Capitol Forrest poaching. Capitol Forrest is located to the west of the truck stop. The witness stated he observed Cosden fill up his truck with 40 gallons of gasoline then drive off the property heading eastbound on Lathrop. As that witness left work and drove south on Case Road he observed Cosden's pickup truck parked and on fire on the side of the road. Cosden reported the fire to the Thurston County Sheriff's Office and Deputy Zimmario responded and took a report of that incident. The fire occurred at approximately 0220, on the 26th of November **101C** was last seen alive and hitchhiking in Seattle on November 25th, 1973. Her body was found in Capitol Forrest at the Margaret McKinney campground on December 6th, 1973. Time of death was estimated to be between November 25th and December 3rd, 1973. The fire would be consistent with a person(s) involved in illegal activity where a vehicle was used and it was determined it needed to be destroyed due to the possibility of evidence of the crime being discovered by investigating law enforcement officials.

Based on this and other information I went to McNeil Island on 01/03/02 accompanied by Deputy Tim Rudloff. It was determined that in prior contacts Cosden would not allow investigating officers to record any conversations with him. Deputy Rudloff is an experienced note taker known for his accuracy while employed as a Deputy with this office. We met with Cosden in Investigator Frakes office and I introduced myself and Deputy Rudloff. I explained to Cosden my purpose for being there and speaking with him. I advised him that I was asked to take up an old unsolved case by administration of my agency and had found while reviewing that case that he had been talked to about it in the 80's. I then advised him since he was in custody as a matter of formality I needed to advise him of his Miranda Rights and then read him those rights which he stated he understood and waived. His attitude at that time was very relaxed both physically and verbally. He was seated in a chair facing me, arms relaxed, hands resting on his legs, feet spread and leaning back in the chair. I started the interview updating him on the detectives who had interviewed him in the 80's and asked him if he remembered that interview or those detectives. He stated he did not remember the detectives but did remember the interview about a homicide but did not remember details. I then pulled out three pictures I had taken with me to show Cosden. They were two color pictures of 101C and one black and white picture of the coat she was wearing at the time she ran away from home on November 25th, 1973, and which she was still wearing when her body was found. I placed the two color pictures of 101C on the desk in front of me and asked Cosden to look carefully at those pictures. He looked at each for a moment. When he leaned back I asked him if he had ever seen that person before, he stated no he had not. I asked him if he had ever been with that person before, he stated he had not. I asked him if he had ever has sex with that person before, he stated he had not. I then picked up those two pictures and placed the black and white picture on the table and asked him to look carefully at it. He leaned forward and looked at that picture. When he leaned back I asked him if he recalled ever seeing that coat before, he stated he had not. I asked Cosden if he ever heard the name

101C He stated he thought that was the name of the person the other detectives had asked him about back in the 80's. I discussed with him briefly a few of the points discussed by those detectives with him back in the 80's in an effort to revive his memory of that interview, he was non responsive to my questions advising me that was a long time ago. In an effort to help him remember the time frame of this investigation I asked him if he remembered the night his truck caught on fire on Case Rd. He perked up and stated he did remember that night and remembered it well. I asked him what happened. He stated he had pulled into the truck stop and filled his gas tanks, was driving home and saw a glow in his rear view mirror and realized his truck was on fire and jumped out. I asked what had happened to the truck

and he stated it was destroyed. I asked him where he had been prior to fueling up the truck. He replied that he recalled his wife being mad at him and so he was probably doing what he did to relax and that was to go poaching. I asked him if he remembered where he went poaching that night. He hesitated, leaned forward, thought for a few seconds and then stated Yelm, but didn't seem to be sure of his answer. I then asked him if he knew where the Margaret McKinney camp ground was in capitol forest. He hesitated again then stated he wasn't sure. I explained to him that in his previous interview with detectives in the 80's he had claimed not to know where that camp ground was. I asked him if he remembered where he used to teach karate to young girls. He stated he did remember that. I asked if he remembered where that place was and he stated he did. I asked him if he used Waddle Creek Road to get to that location from the Littlerock area and he stated he did. He then stated he thought he remembered where that camp ground was describing its location on Waddle Creek Rd.. I asked him if that was the area he was poaching in the night of his truck fire. He stated he was not poaching in that area due to the area not having any game in it. I asked him what he meant. He explained that due to the motorcycle trails and noise game had left the area and was no where to be found up there thus it was not a place to go hunting. I then asked Cosden what kind of firearm he used when poaching. He recalled having a pistol and at least two rifles. I asked him if he remembered pulling a rifle out of the truck the night of the fire. He stated that was the only thing he was able to save out of the fire. I asked him what else was in the truck and he replied all his camera equipment explaining he was a hobby photographer at that time. I asked him what other items he carried with him to use when poaching. He asked me to explain. I explained to him I was not and never had been a deer hunter and wanted to know what kind of equipment a person would need to keep with them if a deer was found, shot and killed. He replied that he had a knife that he usually carried on his belt. I asked if he would need rope after he explained he would bleed a deer out then gut it. He was non responsive to that question. I asked him to explain how he bled a deer out, he was non responsive to that question. I asked him if he remembered what knife he had on that night, he stated he didn't. I asked him if he knew what ever happened to his hunting knife, he was non responsive. His only response in those series of questions was that when he did get a deer he would bleed it out and gut it quickly so as not to get caught. I asked Cosden what happened to his personal property after he was convicted and sent to prison. He didn't know what I meant and I clarified my question asking him what may have happened to his personal property at his home when he got locked up. He stated he had no idea where that property had gone and speculated that his ex wife Rita had gotten everything and had probably thrown it all away. I asked Cosden if he had been having any visitors or been staying in contact with his

family. He stated he never gets visitors and his family has not contacted him in many years. I asked Cosden if he recognized the name Brenda Baker. He stated he did not. I asked him if he remembered being questioned about Brenda Baker when the detectives talked to him in the 80's. He stated he did not recall her name being discussed during that interview. I told Cosden that I had reviewed the case report involving the rape he was serving out his sentence on as well as his comments to the press and detectives in the 80's about that case and his continual denial of any wrongdoing even when he testified at his own trial. I asked him if that was still his position regarding that conviction. He began to get teary eyed, stated he had denied it for a long time but now admitted it was rape and he was responsible for that rape. He stated he was sorry for what he did and did not understand at that time his anger and violence. He claimed he was told by a psychiatrist that it all stemmed from him striking his father. I then asked him about the homicide he committed in Maryland. I advised him I knew he was sent to a mental hospital for four years and claimed at that time he did not remember anything about what he had done to that girl. Cosden advised me that he did remember what he did to her saying he knew he had raped her and knew he had beat her to death leaving her in the water. I asked him if his father was very helpful in keeping him out of prison regarding that incident. His reply was that is what he should have done. I went on to explain my understanding of youth, puberty and the effects that has on young males in the area of fantasies and how some never out grow their fantasies and some even act on them. I asked Cosden if he remembered any of his fantasies from his youth. His only reply to that question was that believed fantasies were dreams that should not be acted on, they were not real. I asked Cosden about his military career explaining I had reviewed what he had told others in regard to his service in Viet Nam. I asked him if he had killed anyone while in Viet Nam. He stated he had accidentally killed one marine while responding to an ambush explaining the marine stepped into his line of fire. I asked him if he had shot any other soldiers, he stated he had not. I asked if he had shot any civilians like women and children, he stated he had not. I asked him if he had told the detectives in the 80's who had interviewed him that he had shot other marines as well as a woman and child, he stated he did not tell them that. I advised Cosden that I had his military records and showed him a manila envelope that I had taken with me to the interview which contained a copy of his complete military record. He asked me where I got it and I had him look at the return address on the envelope. He stated after looking at the address that I did not have all of his military records and needed to contact Langley indicating there may be a secret military file on him there. I asked him how he felt about hitchhikers at the family business at the Restover Truck Stop. He stated that hitchhikers never bothered him. I asked him if he ever dated or had sex with any of the

girls that would come through the truck stop hitchhiking. He stated that he was positive that he had not explaining that was not only where he worked but his father worked also. I advised him that he claimed to have sex with two girls who had come through the truck stop hitchhiking when interviewed by detectives in the 80's. He replied that he had not told them that. I asked him if he remembered his wife at the time finding a half naked thirteen year old in the back seat of his car. He stated he did not remember that. I asked him if he remembered skinny dipping in a pond behind the truck stop with a woman and her two girls, he stated that could have happened but did not remember it specifically. I reminded him that his wife knew the woman also and that she had called his home looking for her daughter who turned out to be the half naked thirteen year old found in the back seat of his vehicle by her. He stated he didn't remember that. At that time I shared religion with him to get a take on his position in that regard. He stated he read the bible and went to church about once a month. I encouraged him at that time to be truthful about the night of the truck fire and any knowledge of 101C. He was non responsive to that encouragement. At this point I advised him of the DNA result showing him a copy of the WSP crime lab report and reading the section to him on the findings. I told him that the DNA report positively identified him as being the person who had deposited sperm inside the vagina of 101C and asked him if he had never seen her before or had any contact with her before how could his sperm have gotten inside her vagina. As I was advising him of the DNA information I observed his posture to change dramatically, his legs to come together, he leaned forward, shoulders hunched up and arms crossed. He started blinking his eyes quickly and biting his lower lip with his mouth closed. This was typical of other persons I have interviewed in criminal matters who took a defensive pose when confronted with facts implicating their involvement. His response to my question was not I did not kill her but was, "I haven't killed anyone." "It can't be right." He repeated that exact statement three times. I asked him to clarify what he meant by his statement that it can't be right asking him if he was saying the lab made a mistake or error. His only response was again, "I haven't killed anyone, it can't be right." I then asked three specific questions: "Did you kill 101C?" His response to that question was, "No." Did you have sex with 101C? His response was, "No, I don't think so." "Did you ever meet 101C?" His response was, "No. I have no idea, it was a long time ago." Cosden began crying and I changed the subject asking him questions about his time in prison. I then asked him if he remembered committing any other rapes besides the one he was serving out his sentence on. He looked at me and said, "yes I have." I asked him if he knew who those persons were. He responded as follows: "You don't understand anything about rape. When you rape someone you turn them away from you so you don't have to look at

their face. When you look into their face your seeing yourself." As he was telling me this his eyes went blank and he stared off to his right slightly, he raised his hands cupping them as if he had grabbed someone, twisted his hands to his right and away from himself as if showing me how he controlled his victim while raping them. The look in his eyes was that of a person reliving an incident. His eyelids came together slightly, his eyebrows came together and slightly down and the general look was similar to that of a person in a rage. I tried to question him further on what he had described but he refused to talk further about it. I explained to him that the statute of limitations had run out a long time ago on any incident involving a rape. He responded that he knew that and was aware of what the law said in that regard. He again stated he had not killed anyone. I took a different stand with him at that time and explained to him the death penalty was not in force at the time of 101C homicide. He did not respond. I explained that nothing would change for him even on conviction for this homicide since he himself had already told me in the interview he did not expect to live long enough to get out at the completion of his sentence in 2024. He only responded that he had not killed anyone. I told him not only did 101C family need closure on this matter but his own family needed it also, he did not respond. The interview was stopped at this point and he left the room still in tears.

On 01/07/02 myself and Deputy Rudloff returned to McNeil Island for a second interview with Cosden. I asked Cosden if he wanted to talk with us anymore about the homicide. He stated he was okay with that and to go ahead and ask him whatever I liked. Cosden was relaxed and calm from the beginning of the interview. I asked him if he remembered any more about the contact in the 80's with detectives from this agency. He stated he remembered that they had a court order to take his hair and body fluid samples. He was upset about it thinking his sister was setting him up because she was married to a cop who was out to get him. He claimed he understood that now because of what he had done to his sisters. I asked him if those were the incidents he was referring to when he had told me he had raped others. He responded it was. He went on to explain how his behavior damaged others mentally for life and he was sorry for that becoming watery eyed again. I advised him I had read statements made by both of his younger sisters regarding his molestation of them from the time they were very small. He did not respond to that information. I asked him about what he thought the future held for him. He stated his sentence was up by 2024 but he did not think he would live half that long now. He expressed some hope at that time of getting out some day. I shared with him his mothers current health in the hope he would take into consideration her need for closure. He was slightly interested in the information but it did not appear to

have any effect on him. I asked him again about the persons he stated he had raped at the end of the last interview and asked him to explain what he meant by not being able to look into their face without seeing yourself. He stated the thing about rape was it was all about control not penetration. I again tried to clarify information about other rapes he may have committed, he refused to respond. I left that area of questioning and attempted to get more information about his childhood and puberty, home environment and home life. He told me about an abusive father who would knock him out of a chair if he did not get his answers right. He described an incident involving a math questions he had missed and was struck by his father. He stated he wanted to get a gun and blow his head off but decided not to because it was his father and the family needed him for monetary support. He claimed since that time he did not want to see another day and wanted to get away from the family. He again became teary eyed as he was explaining this. He stated this was the time he began doing things wrong in a deliberate effort to get his family to throw him out so he would not have to have anything to do with them again. He went on to explain his childhood was normal other than that. I asked him to explain his reasoning behind molesting his little sisters. He avoided a response to that question but went on to explain that he knew it wasn't right at the time he was doing it. I asked him how he had avoided getting caught by his parents when involved in that kind of activity. He stated he did nothing to keep from being caught and in fact wanted to be caught but his parents disregarded his activity and did nothing to stop him. He again stated that would have been a way for him to get away from his abusive father. He continued to cry during this part of the interview but remained relaxed in his posture and body language. I went back to his claim of faith and asked him to be more forthcoming about information the night of the truck fire and his knowledge of 101C. His response was different this time. He stated he had been thinking about things since our last conversation and he wanted to tell us that he did in fact have contact with 101C on the day of the truck fire. At that point Cosden leaned forward glaring at my partner Deputy Rudloff who was listening but not writing and raising his voice stated, "What are you doing! You better pick up your fucking pad and get all this shit down! You don't want to miss any of this, this is what you've been waiting for!" He then went into a description of his contact with 101C that was fairly well thought out since our last contact with him four days prior. He stated he had met 101C at the truck stop the night of the truck fire. She was hitchhiking south and was looking for a ride. He did not recall where she was trying to get to, only that she was headed south. He explained he was able to remember her because of her last name, 101C stating he joked with her about that by sharing with her when she told him her last name 101C being so 101C. He claimed he couldn't tell her age and he never asked. He stated he

offered to provide a ride south for her but one favor meant another favor from her. I asked him what he meant by that. He stated he told her he would want sex for the ride. He said she agreed and he got her a room at the motel part of the truck stop stating he had told her he would give her the ride in the morning. I asked him which room, he stated on the freeway side about half way down from the restaurant. I asked him if he registered her into the room, he stated he did not. He stated he had free run of the place and the rooms were something he could take advantage of. He went on to explain after he got her settled into the room he decided to go poaching and did so in the Yelm area stating they did not have sex at that time. He returned to the truck stop later on that night and went to the same room where he claims 101C was staying. He went in and stated 101C asked him what he wanted and he reminded her of their agreement, one favor for another. He stated she agreed and they had sex together both vaginal and anal. After they had finished he stated he went to take a shower and clean up, when he came out she was gone. He left the room and as he was walking by the lounge by the PUD office he saw her sitting inside. He claimed she would not look in his direction so he kept going, got his pickup truck and filled both tanks full. He then drove towards him home and that was when the truck caught on fire on Case Road. I asked him about what time of night it was when all this took place. He explained he thought it was around two in the morning when he last saw 101C sitting in the lounge and he left. I told Cosden it was obvious to me by his description of the events that he did recall having contact with 101C and questioned him as to why he did not reveal that information to the detectives who had talked to him in the 80's. His only explanation for that was he knew it was a crime to have sex with minor. I reminded him that the statute of limitations had long run out in the 80's and he again stated he was aware of that but had no further explanation of why he had not revealed the information sooner. After listening to his claimed recollection of his contact with 101C I advised him that it did not surprise me that he would come up with a story like that to explain the presence of his DNA in 101C's vagina. I again shared the need for closure for 101C's family as well as his own family and himself to which he would not respond only stating he had not killed anyone. At that point it was obvious he was not going to say anything further about the incident and I asked him if he now felt he would need a lawyer, he stated he would and the interview was stopped at that point.

In summary of these interviews the following points were noted by this investigator:

When shown photo's of the victim Cosden claimed to never have seen her, never to have had sex with her and never had been with her.

He remembers the night of his truck fire clearly and does not mention any contact with the victim. In the second interview he places himself with the victim that same night. This was after he was advised of the DNA match in the first interview.

In previous interviews he claimed to have been poaching in the Yelm area the night of the truck fire. He advised his co-worker he had been poaching in Capital Forest and was seen driving his truck onto the truck stop property, going directly to the gas pumps, coming from the west heading east on Lathrop Rd. the night of the that truck fire. After filling both tanks he drove off to the east where the truck burned under suspicious circumstances. There was no indication he had gone elsewhere, come from a different direction, was with anyone else or had contact with anyone else when seen that night. He claims different, again after being advised of the DNA match, claiming to have returned from poaching and going to the room where he had sex with the victim, then went to his pickup truck filling both tanks and leaving alone.

He claimed in previous interviews and these interviews not to know where the Margaret McKinney camp ground was. He was known to hunt that area regularly and drove past the campground regularly when going to teach young girls karate which he remembered doing. The victim's body was dumped in that campground.

He claimed not to know what had happened to his personal property after he was convicted of rape and sentenced. I had interviewed both his mother and ex wife in regards to his personal property and was advised he knew the property had been stored in his mothers attic every since his conviction and sentencing.

He had denied any wrong doing regarding the rape he was convicted of until he learned in order to be considered eligible for parole he needed to admit his wrong doing and complete sex offender programs. He now admits to raping that victim and unidentified others and expressed the hope of being released.

He denied any memory of the homicide he committed in 1967 in Maryland, however was able to describe what happened when interviewed in the 80's by this agencies detectives, still denying that he could remember it. He admitted in these interviews that he remembered that incident clearly and had lied about not remembering it. He went on to describe what he had done and claimed his fathers help was the right thing for him to do at that time.

He claimed his actions were due to his father's sever physical punishment when he failed to perform up to expectations in his school work. An interview with his mother, brother and sister refuted that claim. I was advised his father was rough on him verbally and very rarely hit or spanked him.

When interviewed in the 80's he claimed to have shot marines as well as a woman and child while in the marines and in Viet Nam. I asked him if he had shot anyone while in Viet Nam. He stated he shot one marine by accident in an ambush and stated he never shot women or children and had not told detectives he had.

He claimed he did not mind hitchhikers coming through his parents truck stop, stating their presence did not bother him. A co-worker at the truck stop advised in a previous interview William Cosden Jr. could not stand hitchhikers.

He claimed he had never had sex with female hitchhikers. When told that when interviewed in the 80's he had told detectives from this agency that he had sex with two separate female hitchhikers, he stated he had not told them that. Again, after being advised of the DNA match he changed his story again and claimed to have had sex with a female hitchhiker, that female being the victim in this case.

When advised of the DNA match his body language changed dramatically both physically as well as verbally.

When advised of the DNA match his only responses were he had not killed anyone and it could not be right. When given the opportunity to clarify what he meant he continued to claim he had never killed anyone and it was not right. He avoided saying that he had not killed her or make any mention of the

victim herself. He also failed to mention that he had killed someone which is a matter of record from the 1967 Maryland homicide.

It was obvious to me that Cosden was now trying to explain his way out of the DNA match and knew he needed to come up with an excuse for the finding. I shared my thought's with him in that regard to which he had no response.

I had interviewed his mother Janet Cosden prior to contacting him the second time at the institution and found that his personal property had been placed in the attic after she had been given it by her daughter in law Rita Cosden, now Rita Luce. Janet was able to provide information as to the status of the property since she received it and advised that it had remained in her attic undisturbed since she took it in. She also stated that she had been in contact with Cosden since he was sentenced and had cut off all contact with him over the past five or six years. She stated she had visited him with her husband prior to his passing in 1983 and kept him up on matters including where his personal property was being kept.

During the review of the case file I read a hand written book authored by Cosden while serving out his sentence at the Twin Rivers Correction Center in Monroe. The book was very graphic describing the female writer as a victim of incest, rape, kidnap, sodomy, child molestation and rape by several males. Towards the end of the book a situation was described where the victims pants were cut with a knife from the front at the belt line down to the crotch and the underwear cut in the same manner laying the cut clothing aside exposing the genital area and the sex act performed at that point on the exposed areas.

101C pants were cut at the belt line down to the crotch area as were her under pants both of which were laid aside exposing her bare buttocks and vagina and she was found to have sperm inside her vagina where the DNA sample used for comparison was found. The description of the incident in Cosden's hand written book and the condition of **101C** clothing at the discovery of her body in Capitol Forest differed only in that in the book the cut's were made in the front while **101C** were made at the rear. It should be noted that in interviews with Cosden's ex wife Rita she relates that Cosden was constantly requesting to have anal sex with her which she did not allow. Captain Curtis of this agency had authored a search warrant for the hand written book and it is currently in custody in the evidence section of DOC in Olympia. I located and took a taped statement from Corrections Officer Gerald E. Johnson, DOB 10/23/42, POB 888, Monroe, WA. 98272, phone 360-794-2400. Officer

Johnson and his partner Officer, Cheryl A. Peitzmeier, DOB 04/24/53, same address, did a routine cell shakedown and found the handwritten book. Johnson reviewed it and found it to be in violation of the SOTP program Cosden had been involved in and it was seized and turned into Pat Glebe, Cosden's counselor, address POB 777, Monroe, WA. 98272, phone 360-794-2605. Mr. Glebe remained in custody of the book until booked into evidence with DOC. Another officer involved in the search and seizure of the book was Katherine L. Jones, DOB 03/24/54, same address and phone as Johnson.

It was decided to request a search warrant of Cosden's personal property stored at his mothers in an effort to find any evidence relating to this incident. I drafted that request and was granted the search warrant on 01/04/02 by Judge Casey. I served that warrant on 01/08/02 at Janet Cosden's residence located at 8921 Armstrong Rd. SW, Olympia, WA. 98512. I took into custody three cardboard boxes and one green duffel bag which was identified by Janet as being the property of William her son. I searched through each box and the duffel bag and found nothing of evidentiary value to this case and all property was returned to Janet Cosden.

I found and interviewed several DOC inmates who had been housed with Cosden since 1994, none had any information of evidentiary value to this case. All remembered him and described him as a heavy smoker, heavy soda drinker, bragger and game player advising he was good at Dungeons and Dragon games.

On 01/07/02 I contacted Mildred M. Tibbetts, 03/19/18, 10910 Case Rd. SW, Olympia, WA. 98512, phone 352-9876. I asked Mildred and her husband Mel if they remembered the night of a truck fire up the road from them where Bill Cosden had come to their home seeking assistance. Mel had suffered a stroke and heart surgery and did not have a clear memory of that incident. Mildred did remember the incident clearly and advised when Bill had come to their home he had handed her his rifle and told her to hang on to it, he couldn't be in possession of a firearm and the cops were coming. It frightened Mildred but she did keep it in her home while Bill and Mel went back up to the truck to help put the fire out. Later, Bill returned and picked up the rifle from Mildred. Mildred thought it was strange that Bill ran all the way to their home the night of the fire when there was a home across and up the street that was much closer than theirs.

I re-contacted Tim Cosden and asked if he remembered Bill deer hunting on a regular basis. He stated Bill was always going deer hunting but he never got a deer. I asked him if he was sure about Bill never getting a deer. He stated he was sure he hadn't.

I re-contacted Rita Luce and asked her if while she was married to Bill Cosden she remembered him going deer hunting on a regular basis. She stated he always went deer hunting but she does not recall him ever getting or bringing home a deer. She stated she remembered on one occasion cooking venison but does not remember where it came from. She was sure Bill had never brought home a deer from any of his hunting trips.

SUPPLEMENTARY REPORT

By: Deputy Tim Rudloff

NARRATIVE:

On 1-3-02 and 1-7-02 I accompanied TCSO Detective Dave Haller to DOC's McNeil Island Facility for the purpose of an interview regarding this case. On both such dates, we met with suspect William E. Cosden, who agreed to be interviewed. The following is an account of the information learned from such interviews.

1-3-02 / 0930 hours --

We met with William Cosden and made introductions. Detective Haller read Cosden the Miranda Warning. He informed us that he understood the rights that Det. Haller had read to him and agreed to speak with us. Det. Haller informed Cosden that he was investigating a homicide from 1973. He explained the process by which such unsolved cases are periodically reviewed for continued investigation. Det. Haller then asked Cosden about his recollection of the case as it pertained to past contacts with him by TCSO Detectives. Cosden stated that he recalled two TCSO Detectives came to interview him in the 1980's concerning a homicide but had no specific recollection of the case details. He added that it has been a "long time."

At this time, Det. Haller showed Cosden photographs of 101C and asked him if he had ever recalled seeing her. He stated "no." Detective Haller asked him if he had ever had sex with her. He stated "no." Det. Haller then took back two color pictures of 101C and showed him a black and white picture of a coat and asked him if he had ever seen that coat. He stated he had not. Det. Haller asked him if he recalled the name of 101C. Cosden responded that it was possible that this was the name of the victim in such homicide case that he was contacted about in the 1980's. Det. Haller refreshed Cosden's memory concerning the contact detectives had with him in the 1980's, and Cosden stated that some of the details were "coming back" to him.

At this time, Det. Haller took Cosden back to the time period of the homicide and asked him if he recalled the truck fire on Case Road. Cosden responded, "oh, yeah" indicating that he recalled this. The specific fire that was being recalled was an evening during such time period when Cosden's pickup had totally burned up a few miles away from the Restover Truck Stop. Case reports from past interviews with Cosden had indicated that he claimed his pickup had suddenly and unexpectedly caught fire. However, there were now suspicious circumstances known about the evening of the fire. Such circumstances being that an attendant at the Restover truck stop recalled Cosden's arrival at the Truck Stop on such evening just prior to the fire. Such attendant was to have recalled him arriving from the west in an eastbound movement on 93rd Avenue. The attendant recalled Cosden having blood stained clothing. When asked where he had been, Cosden said he had been poaching in Capital Forest. He recalled Cosden filling both tanks to his pickup with fuel and driving off. Shortly thereafter, Cosden's pickup went up in flames on Case Road.

In speaking of his actions on such evening, Cosden stated that he had filled both tanks to his pickup and headed for home. He stated that during the drive, his pickup just caught on fire and burnt up. He did not mention what he had been doing previous to fueling the pickup. Det. Haller asked him if he recalled where he had come from prior to fueling up. Cosden stated that he recalled his wife being mad at him, and so he was probably doing what he always did during such time, which was poaching. Det. Haller asked him if he recalled where he was poaching. Cosden stated, "Yelm?" as if he was unsure.

At this time, Det. Haller asked Cosden "you know where Margaret McKinney campground is, right?" Cosden stated he wasn't sure. Det. Haller followed up by asking him about his recollection of teaching

karate to girls in a house up that way, giving direction as they spoke. Cosden remembered the location of the camp and described it at that point. Det. Haller asked Cosden if he had been poaching in Capitol Forest the night of his truck fire. Cosden took a several second pause and stated, "No, no game up there," in explaining why.

At this time, Det. Haller asked Cosden what kind of firearm he used to hunt with during this time period. Cosden recalled having a pistol and at least one rifle but maybe two rifles. Det. Haller reminded Cosden that he saved his rifle from being destroyed in the fire on such evening. Cosden recalled this and suggested that it was the only thing he was able to save. Det. Haller asked Cosden what other things he used when he was poaching. Cosden stated that he had a knife. Det. Haller followed up by asking him to recall his knife or knives from this time period. However, Cosden stated that he did not recall. Det. Haller asked him a series of questions relating to what one has to do once a deer is poached. Cosden explained how he had to gut and clean the deer in a quick manner during such times as to lesson the risk of getting caught.

At this time, Det. Haller asked Cosden what happened to all his personal items once he was incarcerated. Cosden suggested that it was probable that his ex-wife ended up with such items. He added that he had not had any contact with her in years, and did not even know where she was these days. Det. Haller and Cosden then had several minutes of conversation relating to the Cosden family. According to Cosden he has not had any contact with his family in years and does not see any regular visitors.

Next, Det. Haller asked Cosden if he recalled being questioned about Brenda Baker during the 1980's when the detectives were last there. Cosden stated that he did not recall her name being the subject of any questioning during that time period.

At this time, Det. Haller and Cosden had conversations concerning the rape conviction for which Cosden is serving his current sentence. Det. Haller reminded Cosden that he adamantly denied guilt for such crime for many years, including during some of his first parole hearings. Cosden agreed that he had denied the truth for some time. He stated that he completely admits and accepts his guilt in the crime to date. He stated that it was a terrible thing that he had done and how wrong it was. He stated that he did

not understand his anger and violence during that time. He stated that there was a psychiatrist that told him that it related to him striking out at his father.

Det. Haller then had some conversation with Cosden regarding his recollection of a past incident in his 20's where he had killed a female in the state of Maryland. As a result of such case, Cosden had received a mental commitment. Case files indicate that Cosden had never claimed a specific recollection of such incident. However, Cosden informed Det. Haller that he did remember killing the woman. In speaking of it, he stated "That was just a case where I raped and beat her to death and left her in the water." At this time, Det. Haller had conversation with Cosden about having fantasies and whether he would live these fantasies out. Cosden's only comment was that he believed fantasies were dreams that should not be acted upon. Det. Haller then discussed Cosden's military enlistment, which included a tour in the Vietnam War. Cosden stated that he only knew of one direct death he caused in the war. He stated that it was a fellow marine who he had accidentally shot during an ambush. Det. Haller questioned whether he had made comments about killing more of his fellow soldiers during the interview with detectives in the 1980's. He stated that he did not. Det. Haller told Cosden that if there were questions to what he had or had not done in the military, it could now be answered due to currently having his military file. Cosden stated, "you don't have all of them." Det. Haller asked him to clarify this. Cosden simply stated, "you don't have all of them," and then asked, "Where did them files come from?" Det. Haller commented that he was unsure where they ultimately derived from but suggested that it was by way of the Defense Department. Cosden then stated "well then you don't have all of them, you'd better check Langley." Cosden was not questioned further on the matter as it was assumed that he was simply trying to suggest that he had some Top Secret or special file on him of which we were not aware.

At this time, Det. Haller questioned Cosden concerning any specific feelings he had for hitchhikers when he worked his family's business at the Restover Truck Stop. Cosden stated that hitchhikers never bothered him. Det. Haller asked him if he had ever dated or had sex with any of the girls that would flow through the Truck Stop. Cosden stated that he was positive that he had not. Det. Haller informed Cosden that the case file indicated that he claimed to have had sex with a couple of girls via meeting them at the Truck Stop. Cosden stated "no." Det. Haller asked him if he recalled his wife finding a half-naked thirteen-year-old girl asleep in the back seat of his car back then. He stated he did not remember that. Det. Haller asked Cosden if he recalled a time when his wife was to have caught him skinny dipping in a

pond near the truck stop with another woman and her kids. Cosden stated he did not have a specific recollection but that this could have been a probable event.

At this time, Det. Haller and Cosden had several minutes of conversation about religion and aging. Det. Haller had asked him about being forthright with the events that took place on the evening of the pickup fire. He also asked him to be forthright concerning any contact he had with 101C Cosden made no additional comments in regards to Det. Haller's suggestion.

At this time, Det. Haller informed Cosden of the DNA test results indicating a positive connection to him. Specifically, Det. Haller read these results to him directly from the lab report. Upon hearing this information, Cosden had a tremendous reaction in his physical stature. I had been closely monitoring Cosden's demeanor and posture throughout the interview. Previous to this, Cosden was very relaxed. He was seated in a chair with his legs and arms in open positions and his shoulders relaxed. However, upon hearing of the DNA results, Cosden had several body reactions showing his immediate defensive posturing. Specifically, I observed that his legs and arms came together and he interlocked all his fingers. His body became rigid and his shoulders shrug upward as to protect his neck area. I also observed that his eye blinking was now twice the rate it had been. All of these reactions that I observed happened in direct response to the DNA evidence. It was very obvious that hearing this DNA test result put him in an immediate defensive posturing. Regarding his verbal reaction to the DNA evidence results, Cosden stated, "it can't be right," "I didn't kill anybody." Detective Haller spent several more minutes discussing the DNA results with Cosden. He never made further comment to the results other than "it can't be right" and "I didn't kill anybody."

Det. Haller then asked Cosden, "Did you kill 101C" Cosden answered "no." Detective Haller asked Cosden, "Did you have sex with 101C" Cosden answered, "No, I don't think so." Det. Haller asked, "Did you ever meet 101C" Cosden answered, "No. I have no idea," and commented that there was a long time factor involved.

At this time, Det. Haller and Cosden had a discussion about Cosden's time in prison. Cosden was showing obvious emotion at this point as he had been crying ever since hearing the DNA evidence. Det. Haller asked Cosden if he had committed other rapes in his life other than the one he is serving on.

Cosden made a comment suggesting that there were other rapes he had committed. Det. Haller asked him who he had raped in the past. Cosden then explained he didn't know who they were, saying, "The thing about rape is that you don't want to see the victim's face 'cause it's like looking at yourself." Det. Haller attempted to question him further concerning his comments about these additional rapes. However, Cosden avoided the questions and got up out of his chair, distraught and crying. Det. Haller ended the interview with Cosden at this time, which I noted to be 1045 hours.

1-7-02 / 0920 hours –

We met with William Cosden who was already familiar with us from our interview with him the week prior. Det. Haller informed him that we came back to talk with him since he had some time to think about our last interview and the new information that came out. Cosden was open to discussion and maintained a relaxed posture much like he had at the start of our first interview. He and Det. Haller talked for several minutes concerning his classification change relating to his DOC status.

Next, Det. Haller talked and asked questions about Cosden's recollection of the contact that detectives had with him in the 1980's concerning this case. Cosden recalled it as a general probing interview along with a court order to secure hair and body fluid samples. He distinctly recalled being upset over the whole matter and believing that it was harassment via retaliation by one of his sisters who he claimed was married to a police officer at the time. He added that it probably was his own fault being that he put his sisters through so much. Det. Haller asked if he was referring to when he molested his sisters in their childhood. He indicated that this was what he was referring to. The facts of such molestation had been alluded to by Cosden's family in past parole hearings and were included in the case file.

At this time Detective Haller and Cosden talked for several minutes about Cosden's future expectations. Cosden suggested a bleak future of incarceration and was not hopeful for a successful Parole. However, he also talked about a desire to get out of incarceration for at least some portion of his life span. Detective Haller then talked for several minutes with Cosden concerning his Mother's health and updated him on his family's status. This appeared to relax Cosden who was still very open to conversation with Detective Haller. Detective Haller then brought up comments that Cosden had made toward the end of our previous interview. Specifically, his comments on how he did not want to see the face of his rape victims. Cosden

did not answer the question and appeared to contemplate this topic as a defensive one for him. He commented that the thing about rape is that it's more about control than penetration. Again, his answers to such line of questioning by Detective Haller showed that he was not going to discuss his comments concerning further rapes that he allude to the interview prior.

At this time Detective Haller questioned Cosden about his childhood, puberty and general upbringing. Cosden suggested an abusive childhood at the hands of his father. He alluded to a couple scenarios in which he was physically "fist beat" by his father. One such beating involved a math test he had failed and the other was for an overturned Christmas tree accident. He sobbed emotionally during his account of these scenarios. He stated that around the age of 10 years old he was so distraught with his father that he seriously contemplated "blowing his head off with a gun." He suggested that the only thing that prevented him from carrying through with it was the fact that his father was the "bread winner" for the family. He commented that since such time period in his life he "did not want to see tomorrow". Cosden continued to talk about his life within his puberty years. He suggested that there was nothing unusual to this time period and felt it was as any normal boy in puberty. He claimed he was generally shy but did have girlfriends from time to time.

At this time Detective Haller asked him the reason for molesting his sisters. This was another time in which Cosden completely avoided the direct question he was asked. He simply commented that he knew it wasn't right at the time. Detective Haller asked him what he had done to cover it up. Cosden stated that he didn't cover it up and suggested that he was hoping to get caught. He added that it was just like the rape he is serving for now and suggested that in some way he wanted to get caught.

At this time Detective Haller and Cosden had several minutes of conversation concerning Cosden's religious beliefs and his overall faith in general. During this time Detective Haller asked Cosden again to be forthcoming with the events surrounding the evening of his truck fire and any knowledge of 101C

101C during that time period.

At this time Cosden stated that he had been thinking about things since our last interview. He stated that he had to tell us that he did in fact have contact with 101C on such date of his truck fire. Previous to this initial statement by Cosden I had been taking a break from my note taking. As such, I had set my pen and pad down. Cosden looked at me with a prominent scowl on his face and stated "what

are you doing"? "you better pick up your fucking pad and get all this shit down"! "you don't want to miss any of this, this is what you been waiting for!" This was the first time throughout our interview that I had observed Cosden's aggression. His demeanor was showing that he was about to be forthcoming concerning a matter that was obviously upsetting to him.

At this time Cosden alluded to the following scenario concerning the totality of his contact with 101C on the date of his truck fire. Cosden stated that he met 101C at the Restover truck stop sometime during the evening hours on such date. He recalled her as being a hitchhiker that was looking for a ride to continue South. He had no specific recollection to her final destination. In describing how he had specific recollection of her he commented on her last name, 101C. He stated that he joked with her about 101C being so 101C. He suggested that throughout his contact with her she never gave her age and he never asked.

Cosden stated that he offered 101C a ride to her Southerly destination for the return of having sex with him. He suggested that she agreed to this arrangement and it was determined that they would leave the next morning. Cosden stated that he then got 101C set up in one of the motel rooms at the truck stop. Detective Haller asked him if she was officially registered into the room. Cosden stated that she was not. He added that this was his advantage of having the run of the place. This was in reference to the fact that his parents owned the truck stop.

Cosden stated that he escorted 101C to the room and saw that she was settled in. He added that at this point they did not have any sex and he simply left her there. From here Cosden suggested that he did go out poaching in the Yelm area by himself. He later returned to the truck stop and went to 101C room. He stated that he reminded her of their sex for a ride agreement. He stated that they then had vaginal and anal intercourse within the room for some period of time. After they were finished, Cosden went into the bathroom to clean himself. He stated that when he came out of the bathroom, 101C was gone from the room. He stated that moments later he saw her in the truck stop lounge. He suggested that for reasons unknown to him, 101C appeared as if she did not want to have anything more to do with him once she got to the lounge. As such, he departed company with her at that point which is the last time he saw her. Cosden stated that he then filled up his pickup tanks with fuel and left the truck stop for home which is when he had the fire with his truck.

Upon completion of his scenario Detective Haller asked him about the time of day for such events. Cosden could only best recall that it was around 0200 hrs. when he last left 101C within the lounge.

At this time Detective Haller pointed out to Cosden that it was obvious by his current admission that he had recalled the events of his contact with 101C from as far back as the interviews in the 1980's. He asked him why he had not been forthcoming at that time. Cosden would only allude to the fact that he would have been admitting to a crime concerning the sexual contact with a minor. He further suggested that he was uncertain to date if there would still be a chargeable crime for such a sex offense.

At this time myself and Detective Haller continued to question Cosden concerning his current motivation to finally disclose his scenario of sexual contact with 101C. It was obvious to us that his long held disclosure now suddenly revealed was based on his need to further explain the presence of such recent DNA evidence. Cosden would not elaborate on this. As well, he again denied being responsible for 101C death.

Detective Haller concluded the interview with Cosden at this time and I noted the time as being 1025 hrs..

End of supplementary report.

TCSO Deputy Tim Rudloff #47

Physical Evidence

William Cosden Jr. had long been considered suspect and we sent his known blood to the state crime lab for comparison to a swab of the victim's vagina during the 1973 autopsy.

Forensic Scientist Jeremy D. Sanderson tested the evidence against Cosden and reported to us that:

"The DNA profile from William Cosden matches the profile of the major DNA component recovered from the sperm fraction of the vaginal swab at all of the sites examined. It can be estimated that not more than one person in the world's population, excluding identical twins, would have this profile (using frequency data compiled by the FBI and published in the Journal of Forensic Sciences 2001, 45 (3))."

Thus, Cosden's DNA was found in the vaginal tract of victim **101C** See the 11/13/01 report from Sanderson at the crime lab.

Sanderson had earlier examined **101C** vaginal swab evidence for comparison to the convicted felon databank maintained by the WSP Crime Laboratory. O matches had been found until we sent up Cosden's sample for comparison. See the 9/26/01 report by Sanderson.

Supervising Criminalist Donald C. MacLaren examined the **101C** and Cosden samples much earlier, in 1986, but could not make an adequate comparison with technology of that time. See 9/25/86 report. And Cosden could not be excluded either. On January 2, 1974, MacLaren did find the presence of acid phosphate on the vaginal swab.

An October 1986 report by crime lab employee Lynn D. McIntyre indicated that:

- a) The cut hairs off the jacket supports the hypothesis that her throat was cut. Also, the blood stain pattern on her blouse indicates she was on her back in a prone position at the time of the bleeding."

- b) "the condition of her jeans (the mud in the front and the clean cuts in the back) as well as the condition of her shoe suggest she did not walk but was transported to the woods after her throat was cut, as there are no indications she was on her back at the site.

We also had collected evidence in 1973 of two pieces of natural 3/8" fiber rope at the site the body was found. The rope was cut and thought to have been used to bind the victim.

Deputy Pat Sweeney had noticed and seized a piece of link chain at the dump scene, indicating **101C** medical bracelet had been removed to conceal her identity. The rest of it was never found.

The state toxicology report of 1/7/74 showed no sign of basic or barbiturate drugs nor alcohol in the **101C** samples submitted. Thus, the beer found at the dump scene was not consumed by the victim. Photos showed some beer was unopened and abandoned there by the body.

Time Line - Mark Curtis 2/8/02

November 24, 1973

101C broke up with her boyfriend, had sex with another boy, Jim Mergens, baby sat for a family

November 25, 1973

101C arrived 0200 at the home of Robert Starostka and stayed the night.

1000 am awoke, no breakfast

1330 hours **101C** hitch hiked south from 91st and Aurora North, Seattle, Washington, seen by Roberta Starostka, Gail

Schwendeman, who recall they "thought they would never see her again, headed to Oregon." Also witness Will Rohrich.

2200 to 2300 hours, David Perschon saw coagulated blood on a sleeping bag in the back of Bill Cosden Jr.'s International pick up truck, canopy curtains were not showing. He also saw a shoe quite like the victim's shoe and a gun stock under the sleeping bag.

November 26, 1973

0200 ish, Carl Clark observed stains on the clothing of Bill Cosden Jr., possibly blood stains. Carl fully gassed up the truck.

0220 hours, the truck is reported as burning. Cosden got his gun out of the burning vehicle.

The canopy curtains were pulled when the truck left the Restover truck stop gas pumps.

November 26, 1973

Sally Devine reported her **101C** as a runaway, headed to Rockaway, Oregon.

December 6, 1973

101C body was reported found at Camp Margaret McKenny, approximately 1000 hours. 1023 hours reported to TCSO.

December 7, 1973

Autopsy

The media notified of body markings.

December 11, 1973

Delmer Bennett and Charles Charboneau identified the body as

Date: 12-9-73

Case No. RE: 73-17592-12

12-6-73 1023 Hrs. This Deputy received a phone call from Ben Newnham, from Cedar Creek Youth Camp. Mr. Newnham started to explain that he had a man (I don't think he gave me his name) that worked for Cedar Creek and spent some time cleaning up the parks in that area. He then very calmly went on to say that this man had found the body of a 101C at Camp Margaret McKinney.

I then asked him the approximate age of the 101C and how long she had been there. He guessed about age 101C and had no idea how long she had been there. I asked him if there was any decomposition and he said he didn't know.

I then advised Sgt. Cleland and Dave Humphrey (was working Dist. 1) and Undersheriff, Etc.

Kathy M. Kaplan C-71

22. Commence the crime scene sketch. Utilize the attached graph paper. Scale drawing is not necessary at this time, however, measurements must be accurate. Triangulate the body, evidence, weapons, blood pool, etc. by measuring the distance from body or object from at least two fixed objects (stationary post, large identified tree, corner of room, door jamb, window sill, fireplace, etc). Use as many reference points on the object as is necessary to relocate in the exact position if asked at a later date by prosecutor or jury. Record case number, sketcher's name, date, time on each sketch sheet. Materials needed: Tape measure, pencil and attached graph paper.

73-17592-12

SUPPLEMENTAL EVIDENCE SHEET

() Additional evidence items may be listed in the same manner as previous page.

73-17592-12

25. Prior to making the proper notification to the Medical Examiner, ask for a meeting of all officers assigned to the case. They should meet close to the crime scene to discuss the overall situation thoroughly, attempting to reconstruct the crime physically and mentally. Check through the evidence, make additional search if it appears something is missing. Do Not Hurry Beyond This Point. Be prepared to make a press release if working alone, or provide the information to your immediate supervisor. Refer to General Order #71-4 Alpha Index R-1.

26. Notify the Medical Examiner: Time: _____ Hours.

Method of notification: _____

Who you contacted in Medical Examiner's Office: _____

Time M.E. deputies arrived: _____ Hours.

Prior to Medical Examiner's removal of the body, chalk an outline of the form. Be present when M.E. deputy identifies the victim by removing wallet, purse, etc. When body is turned or moved by M.E., photograph the underside. When removed, photograph the surface under the body and any evidence in that location. Log photos in same manner on a supplemental photo page.

27. Secure the crime scene at this time. In the event it is necessary to return, an officer can be left on the scene. Once the house or area is vacated, it may be necessary to obtain a search warrant for re-entry or a voluntary permission form if a spouse is involved or present. Be sure all evidence, equipment, and personal belongings are removed. Either lock the door and windows securely or turn the building or area over to the owner or responsible agents of owner (relatives, neighbor or close friend) after authorized verification by some member of the immediate family.

A. Scene turned over to: _____ (name)

Address: _____ Home phone: _____

Business phone: _____ Date: _____ Time: _____

HOMICIDE INVESTIGATION

CASE:

72-17536-12

VICTIM:

101C

Brown mock-suede coat, flared blue jeans, white peasant blouse, brown waffle stomper boots, white bikini panties, white bra.

Gold cross earrings (pierced type), gold ring with green stone, silver friendship-type ring.

SYNOPSIS:

101C was last seen alive at approximately 1:30 P.M., November 25, 1978 at 91st Avenue and Aurora Avenue in North Seattle. She was last seen by two girl friends and a used car salesman. The girl friends had walked **101C** to this location and watched as she hitchhiked and caught a ride. **101C** was running away from home and intended to go to a cousin's house in Rockaway, Oregon.

The two girl friends described the vehicle which stopped as an "old pickup truck". One thought it was greenish-blue, the other brown. One of them thought it had a home-made wood canopy. They could only describe the driver as a young man with dark wavy shoulder-length hair. The car salesman believed the vehicle to be a 1951 Dodge pickup truck, brown in color; later, under hypnosis, he changed the color to red.

101C lived at **101C** with her mother, an older sister and a younger brother.

Victim was found at Camp Margaret McKimney, a state park maintained by DNR, on December 6, 1978. This park is located approximately 10 miles southwest of Olympia and 5 miles west of Interstate Five. Victim was found near a parking area.

The body was found face down in satal brush. Vehicle access to approximately 10 feet of the body; part of the face, the front of the neck, the tongue and all of the chest vital organs devoured by rodents. Blouse and bra pushed up over the breasts. Blue jeans were unshapped and partially unzipped in front, pulled down slightly (just over the heels) and were cut from the small of the back to below the crotch. Panties were also cut down the back. The blue jeans and panties were then folded downward, exposing the entire buttock area. The left waffle stomper boot was missing and never located. Arms appeared to have been tied behind victim's back. Pieces of 3/8 inch hemp rope, cut with sharp instrument, were found about the body. A medic alert bracelet was cut or broken from around victim's left wrist. Some links were recovered by the body. Victim's coat had been pulled up from above, over the body. Pockets of the coat were cut open with a sharp instrument.

Victim was found to be wearing her jewelry, other than the identification bracelet.

HOMICIDE SYNOPSIS

101C

CASE NUMBER: 73-17592-12

Camp Margaret McKenney Park is located in the Capitol Forest area of Western Thurston County. It is situated in the foothills of a small mountain range known as the Black Hills, which run north and south between Grays Harbor and Thurston Counties. Camp McKinney is geographically midway between State Highway 8 and State Highway 12, approximately 5 miles west of Interstate Highway Five. It is approximately 10 miles southeast of Olympia.

The park was designed primarily for outdoor recreation to include camping and picnicking. It is known for its natural enviromental setting of rustic and scenic beauty. The site has picnic tables, open barbecue pits, outdoor toilets, ample vehicle parking and is designed to accommodate horse and motorbike enthusiasts. Miles of trails lead from the park and encompass the entire mountain area. One section of the park is isolated for horses and provides hitching rails and ample space for parking of trucks and horsetrailers.

The dirt and gravel road to the park is known as the Waddell Creek Road, named for a wandering creek which runs along side the park. Few residents live on this road and the nearest resident lives approximately one mile away.

During the summer months, numerous vacationers can be found camping and enjoying the scenic beauty of the park. It is also a favorite place for horse clubs and riding enthusiasts, both horse and trail bikes. Local residents use the park often for overnight camping and afternoon picnicking. The park has also been the site of many teenage beer

parties, and is used frequently as a lover's lane. During the fall and winter months the park is used less often, except on weekends.

On December 6, 1973, a young couple hired by the State Department of Natural Resources as caretakers arrived and began their duties of cleaning up debris and trash strewn about by careless visitors during the previous week. This time of year, the caretakers make weekly trips to the park. For several days the weather had been temperate and wet with temperatures in the mid 30's to mid 40's occasionally dropping to freezing at night.

Not long after the caretakers began their duties, they discovered the partially disrobed body of a white female. The body was located near the park area designated for horses. The body was laying in salal brush in a small depression behind a large stump, and was difficult to observe, until you were very close. The caretakers confirmed that she was dead, then went to the nearest telephone and notified the authorities.

Upon receipt of the call, a deputy was dispatched to the scene. He verified the report, sealed off the area and called for assistance. A team of investigators and the County Coroner was dispatched immediately to the park. Upon arrival at the crime scene the team began their duties of photographing, drawing sketches and collecting evidence.

It was noted that the body was laying face down in a slight depression, left arm outstretched above the head. Her coat appeared to have been pulled up onto her back, after the body was laying down. Pockets on the coat had been cut open with a sharp instrument. Zippers on both pockets were later found to be in good working condition and easily opened. Victims blue jeans were pulled down slightly over the heel

of her right waffle stomper boot. The left boot was missing from the body and was not found during the subsequent crime scene search. Victim's bra and blouse were found to be shoved up above her breasts. Her blue jeans and panties had been cut with a sharp instrument from the small of the back to just below the crotch, then separated, exposing her buttocks. Next to the outstretched left arm two small pieces of 3/8 inch diameter hemp rope was located. The ends appeared to have been freshly cut. Red marks were found on both wrists. Found also by the left arm was a small chain and some loose links. This chain was subsequently identified as part of victim's Medic-Alert bracelet which contained her name, address and a notation of an allergy to penicillin. The remainder of the bracelet was not recovered.

During the subsequent body examination, victim was found to have a laceration on her left breast. The laceration was approximately four inches long, located just below the nipple, was shallow in depth, was lateral to the body and had been made with a sharp instrument. An abrasion was found on the right breast. A few insignificant small bruises were found on the legs and one on the back of her head. Exact cause of death could not be determined, due to the many vital organs being missing from the body. The majority of the neck, right side of the face from the eye to the chin, the tongue and most of the chest vital organs were gone. This appeared to have been caused by rodents or other small animals eating on the body. A small cut was found on the left side of the neck which led into the missing area of the neck. Victim is believed to have had her throat cut. No overt signs of sexual molesting was found. Oral, vaginal and anal smears were obtained and submitted for laboratory examination. Oral and anal smears were

found to be negative. Vaginal smears were positive for acid-phosatase only. Time of death was estimated to be between November 25 and December 3, 1973.

Victim was subsequently identified as **101C** age **101C** reported as a runaway by her mother on November 25, 1973. Her home was located in **101C**. She was last observed by two girlfriends at 92nd and Aurora Avenue during the early afternoon hours, where she was hitchhiking. She was observed to enter an old pickup truck of vague description which stopped for her. Vehicle was headed south on Aurora Avenue.

CRIME LABORATORY REPORT

Agency: Thurston County Sheriff's Office

Laboratory No. 186-2827

Suspect: Cosden, William E. Jr.

Victim: **101C**

Agency Case No. 73-17592-12

Officer: Sgt. Paul H. Barclift

Clothing Exam - **101C** Items #16, 19, 18, 14, 15, 13.

101C right shoe (Item #16) has a deposit of light soil on the surface with no leaf debris observed on the tread. The deep grooves between the treads are clean in appearance. The shoes appear relatively new. This indicates that the shoes had little contact with muddy areas or extended use in the woods where heavy vegetation would be observed.

The jeans (Item #18), underpants (Item #19), and jacket (Item #13) pockets have been slashed with the blade of a knife or other sharp-edged instrument. The jeans and underpants are both cut in the back; the jeans are cut from the waist to the crotch, the underpants on either side of the buttocks. There was no soil or debris observed in the cuts. The jeans are heavily soiled in front from just below the waist to just below the knees. There is little soiling in the back in comparison to the front however, there is some on the inner right leg.

Multiple hairs were recovered from the jacket (Item #13) by the officers (Item #26) and the criminalist. These hairs exhibit the same microscopic characteristics as **101C** head hair standards and could have originated from her. Also, these hairs are cut at both ends and a combination of cutting and tearing was observed at the proximal end (root end) of the hair.

Bloodstains were observed on the jacket collar (Item #13).

Summary:

According to conversations with Thurston County Sheriff's Office Sgt. Paul Barclift, **101C** was located face down in the woods and it was in question as to whether her throat was cut or she was strangled.

The cut hairs off the jacket supports the hypothesis that her throat was cut. Also, the bloodstain pattern on her blouse indicates she was on her back in a prone position at the time of the bleeding.

Lynn D. McIntyre

Laboratory Case No. 186-2827
Agency: Thurston County Sheriff's Office
Agency Case No. 73-17592-12
Suspect: Cosden, William E. Jr.
Victim: 101C
Officer: Sgt. Paul H. Barclift

The condition of her jeans (the mud in the front and the clean outs in the back) as well as the condition of her shoe suggests she did not walk but was transported to the woods after her throat was cut as there are no indications she was on her back at the site.

It is not possible to determine at what point the cuts in the jeans, underpants and jacket occurred.

Hairs - Items #55, 56, 26, Hairs from Items #37, 18, 31/32, 14, 42, 13, 58, 19, 100, 57.

The hairs from the following items exhibit the same microscopic characteristics as 101C head and pubic hair standards (Item #57) and could have originated from her:

- #14 Shirt - 5 hairs
- #18 Jeans - 2 hairs
- #13/26 Coat - 15 hairs (please refer to the clothing exam section for these results)
- #31/32 Rope - 1 hair
- #37 Body bag - 1 hair
- #42 Throat area - 12 hairs
- #58 Pubic hair combings - 23 hairs

Three hairs are dissimilar to 101C head and pubic hair standards and Mr. Cosden's head, pubic and body hair standards (Item #100) and could not have come from either of them. One of the hairs is from Item #56 (from the anus) and two are from 101C pubic hair combings.

One hair from Item #5 (from 101C arm) is a grey hair which has limited microscopic characteristics suitable for comparison and is of little evidentiary value. Because Mr. Cosden's head hair standards fall within this range he can neither be suggested nor eliminated as a possible source of the hairs.

Seven short hair fragments - five from Item #13 and two from Item #14 (the shirt) and one body hair from Item #18 (jeans) are similar to 101C hair standards and she cannot be eliminated as a possible source.

Of three hairs from Item #13 (jacket), one has insufficient characteristics for comparison purposes and two are debris hairs.

Lynn D. McIntyre

Laboratory Case No. 186-2827
Agency: Thurston County Sheriff's Office
Agency Case No. 73-17592-12
Suspect: Cosden, William E. Jr.
Victim: 101C
Officer: Sgt. Paul H. Barclift

Twelve hairs from the items are animal hairs or wool fibers and not examined further. These originated from the following items:

- #14 Shirt - 4 animal hairs, 1 fiber
- #18 Jeans - 1 animal hair
- #13/26 Coat - 2 animal hairs
- #19 Underpants - 2 fibers
- #37 Body bag - 1 animal hair
- #56 Anus - 1 animal hair, 1 fiber

Miscellaneous Items 5, 31/32, 59, 60, 61, 62, 35, 36

Items #5 and 31/32 are pieces of three stranded natural fiber rope, cut at both ends. Item 31/32 is six and a half inches long; Item 5 is approximately two and a half inches long. The ropes were examined visually and stereomicroscopically.

Items #35 and 36 (bags from the hand) Items 60 and 61 (fingernail scrapings), Item 59 (fingernail polish of victim) were examined. No evidence of apparent significance was recovered.

Item #62, a "metal fragment from body" was examined stereomicroscopically and microscopically (magnification to 100X).

This particle is very small; it is unlikely that a source can be suggested by further testing. However, if a control sample should be available this can be submitted for comparison. Then this particle can be tested microscopically and for elemental content. Beyond that, further appropriate testing can be conducted by a laboratory specializing in very small particles.

Lynn D. McIntyre, Criminalist

October 23, 1986

THURSTON COUNTY SHERIFF
Olympia, Wash.

OFFICER'S REPORT
Chief Criminal Deputy
Dwight J. Caron

CASE NUMBER: 73-17592-12
VICTIM: Unidentified body
LOCATION: Margaret McKenny Park, Capital Peak Forrest
INCIDENT: Homicide
DATE: TIME: 6 December 1973, 1100 hours

DATE OF REPORT: 9 December 1973

SYNOPSIS:

Approximately 1040 hours, 6 December 1973, Inspector Charles Graef and this officer were notified by Sheriff's Office Control and Sergeant Mike Cleland the body of a girl had been found in the Capital Peak Forrest. Sergeant Cleland advised detectives had been notified and were in route. Inspector Graef and I met Detective Lieutenant Don Snook, Sergeant Mike Cleland, Detective Sergeant MacFarland and Mr. Dale S. Saling at the juncture of Littlerock and Waddle Creek Road. Mr. Saling advised us that he and his wife work for the Cedar Creek Youth Camp and have a contract with the Department of Natural Resources, as a second job, to clean up the various campsites in the Capital Peak Forrest. It was during the cleanup of the Margaret McKenny State Park, or horse staging area, that his wife, Barbara Saling, discovered the body. They immediately returned to the Cedar Creek Youth Camp whereupon they notified Mr. Ben Newhahn, who telephoned in the report.

Mr. Saling directed us to the Margaret McKenny State Park area, where we arrived at approximately 1100 hours, and Saling pointed out the location of the deceased. Deputy Paul Buerger was set up at the entrance to the park area to keep out unauthorized persons. We surveyed the body from a distance of from 15 to 20 feet from all directions first before walking into the area to determine whether or not there was any evidence between us and the body. I photographed the body and the area adjacent to the body and all foreign objects which appeared on the ground around the body (see photographic information sheet for pertinent details).

Sergeant MacFarland and Sergeant Cleland were assigned triangulation and measuring the body to the landmarks, being trees and stumps. Lieutenant Snook searched the surrounding area for any other possible evidence or clues. Inspector Graef transcribed pertinent lens settings, photo speeds and photo data for this writer. Detective Paul Barclift arrived on the scene and he was assigned the additional photo work.

Chief Civil Deputy W.W. "Tag" Frazier and Coroner Hollis Fultz arrived on the scene to assist with the investigation. Captain Bill Remsen, Detective Ron Shultz, Detective Ron Hopkins of Olympia Police Department arrived on the scene to render whatever assistance they could and to determine whether the decedent could possibly be their missing person, Debby Potter. When it was determined the decedent was not Debby Potter, they assisted Sheriff's

Deputies in conducting an area search. They later reported finding shoe impressions in soft mud on a trail nearby which appeared to be those left by a "waffle stomper" tread. There were two impressions and I photographed both impressions using a ruler to determine length and width. Lieutenant Snook assisted.

Upon completion of photographing the scene, Coroner Fultz directed the turning and removal of the body from the spot in which it had been found to a stretcher and the stretcher and body moved to a point approximately 15 feet away so a closer examination of the girl and surrounding sallow brush in which the body lay could be closer examined. Detective Paul Barclift performed the photography of this area. Detective MacFarland was assigned to the collection, marking and preservation of evidence removed from the scene for transmittal to Detective Sergeant Hank Baesen, Sheriff's Identification officer. The clothing of the victim was directed removed from the body by Coroner Hollis Fultz. The body was photographed again on the stretcher and once more after the removal of the clothing.

The park, located in the southwest quarter of section 21, township 17 north, range 3 west, was searched by all officers present for additional signs of evidence and the missing "waffle stomper" boot. Across from the parking area clearing in a direction southeasterly of the body and approximately 100 yards from the spot the body lay, Detective MacFarland found an unopened six-pack of

73-17592-12

Olympia Beer in bottles. Also nearby was a short length of rope. These two items were picked up for further examination. A tire track, which appeared to have been made by a motorcycle extending 50-60 feet in length in an easterly direction from the location of the body, was found and photographed. As the rain was very intense during the time of the examination of the parking lot and surrounding area, the tire track was nearly obliterated.

Lacey Funeral Home arrived upon the scene at approximately 1350 hours, at which time the body was turned over to the funeral home by Coroner Fultz. All items picked up at the scene were packaged and marked and the area was cleared of the body at 1408 hours.

Dwight J. Caron
Chief Criminal Deputy
Thurston County Sheriff's Office

/sb

SUPPLEMENTAL REPORT
C. R. McFarland

DATE: 12-6-73
TIME: 1115 HOURS

73-17592-12

PERSONS PRESENT: LT. DONALD G. SNOOK
INSPECTOR CHARLES GRAEF
CHIEF DEPUTY DWIGHT J. CARON
CHIEF DEPUTY W. W. FRAZIER
SGT. MICHAEL A. CLELAND
DEPUTY PAT SWEENEY
SGT. C. R. MCFARLAND

WEATHER: RAIN

On this date, Mr. Dale Scott Saling, DOB 10-16-42, 1765 Linwood, Apt. #1, Tumwater, phone 943-6481 and wife, Barbara E Saling, discovered the body of a partially nude female at the Margaret McKenny State Park. The body was laying to the left of the main entrance to the State Parking area, dressed in blue jeans, a brown mock suede fur trimmed coat. The body was lying face down. The body was partially concealed by an old stump covered with sallow. The body was lying in the sallow in a depression on the ground. The head of the body was pointed 260 degrees West and the feet were pointed 16 degrees in the opposite direction. The body was laying face down with legs together and the bottocks area exposed. The footwear is of heavy waffle stomper type, the left of which is missing.

Chief Deputy Dwight Caron took photos of the body and Inspector Charles Graef recorded the film sequence. The outer perimeter search was conducted by Sgt. Michael Cleland and Deputy Tricia Hamilton in an attempt to locate the missing shoe from the left foot. The left hand of the corpse was out thrust and clenched and bore a small gold colored ring with a green stone set in a floral design. There was a piece of what appeared to be rope or hemp fiber observed sticking out from under the body in the approximate area of the neck. There was a shiny metallic

73-17592-12

object lying between the head and the left arm, which appeared to possibly be a part of an I.D. bracelet, due to its chain linked design. The clothing on the corpse was water soaked.

After the body was photographed, Sgt. Cleland and myself measured the area and triangulated the body by using trees for reference points. Upon completion of this, a survey was taken of possible evidence and its position relative to the body. Sgt. Cleland and I then gathered the evidence and placed it in containers in my patrol car. At this time, Detective Barclift arrived and again took photos of the body.

At 1300 hours, Mr. Hollis Fultz, Coroner, arrived at the scene and ordered the removal of the body. Detectives Frazier, Caron and Sgt. Cleland picked up the body and placed it on a stretcher. Located under the body at the approximate area of the lower abdomen was a piece of plastic. The body measured by Lt. Snook and Sgt. Cleland measured **101C** First observation of the body appeared that animals had been at the body from the area of the throat and there was a cut apparently going from ear to ear. There was a cross shaped design earring in her right ear, pierced type.

At 1302 hours, Tag Frazier called for Lacey Funeral Home to remove the body. There was a ring on her left hand on the little finger, a band type of whitish material. It appeared that the body is mutilated around the breast with apparent stab wounds in the breast and what appeared to be stab wounds on the lower abdomen above the navel area.

/ At 1309, Detective Frazier removed the clothing from the body and it was taken into evidence. The blue jeans and underpants, when they

73-17592-12

were removed by Detective Frazier, appeared to have been cut. The big toes of the body were painted with orange colored polish. On the left hand fingernails, a blue paint like residue was observed. The driver from Lacey Funeral Home arrived at 1355 hours. The body was removed by Lacey Funeral Home at 1405 hours. The scene was secured at 1410 hours and a Deputy left to guard the scene.

THURSTON COUNTY SHERIFF'S DEPARTMENT

Supplementary Report

DATE: 11 December 1973

CASE: 73-17592-12

Approximately 1900 hours, 10 December 1973, Mr. Hollis Fultz received a call at his home from Seattle City Detective Duane Holman, Homicide Squad, 583-2340, in reference to Thurston County Sheriff's Department case via Dr. Matthews (or a friend of Dr. Matthews') and our attempt to identify a young woman.

Detective Holman had spoken by phone to a deputy sheriff of Thurston County whom he did not identify. Holman had expected the deputy to call back. Holman continued to work on the case the rest of the day and about 1900 hours decided to call the Thurston County Coroner.

Holman identified the unidentified Thurston County body as that of a 101C

101C

The girl had run away from home 26 November 1973. The girl's 101C Bill Devine, was at CH 3-9019 waiting a call from the Thurston County Coroner.

Detective Holman continued. The 101C

101C

The girl was wearing custom jewelry matching the jewelry found on the deceased. Detective Holman knew Bill Devine and Devine described his 101C to Holman.

Coroner Fultz called Sheriff Redmond to come to the Fultz residence after talking with Holman and Sheriff Redmond advised that he would be there.

Coroner Fultz phoned Mr. Bill Devine at the number given and suggested Mr. Devine come to Thurston County immediately to identify the girl. At that

time Sheriff Redmond arrived at the Fultz residence. Sheriff Redmond then took the phone to question Mr. Devine. Identification was discussed in further detail.

Sheriff Redmond arranged for Mr. Devine to come to Olympia, 11 December 1973.

The enclosed piece of stationery from the Coroner's office contains the notes taken at the time of the call.

Supplemental Report

Date of Report 12-8-73 District 1 Shift DAYS Case Number 73-12592-12
Date of Occurance 12-6-73 Officer Burget Type of Complaint Homicide

RE: MISSING SHOE OF VICTIM IN HOMICIDE AT CAMP
McKinley. SGT. DAVIS OF O.P.D. REPORTS SEEING A WATILE
STAMPED SHOE ALONG ROAD ON OR ABOUT AND ONE. DURING HIS
OFF DUTY HOURS. SGT. DAVIS STATED THAT SHOE WAS ON EAST
SHOULDER OF WADDLE CR. RD. ABOUT 1/4 MI. PAST SHERMAN
VALLEY RD. THIS DEPUTY MADE TWO SEARCHES OF AREA BEGINNING
AT SHERMAN VALLEY RD. SOUTH ON WADDLE CR. FOR OVER 1 MI.
ALSO SEARCHED WAS GRAVEL PIT AREA. NO SHOE WAS LOCATED.
A MORE EXTENSIVE SEARCH IS RECOMMENDED AS ROAD APPEARS TO
BE RECENTLY GRADED.

1/22/74 - Again contacted Sgt. DAVIS - O.P.D.. He went up to Waddle
Creek w/ TCSO Deputies - unable to again locate the shoe.
He stated that the shoe was three or four feet from the
ditch on the road in plain view. The shoe looked new & he
wondered why anyone would throw it away. His son also saw it.
This was 4 or 5 days prior to the body being found by TCSO.

Supplementary Report

Date: December 19, 1973

Case No. 73-17592-12

AT 0925 HRS, SHERIFF REDMOND AND I CONTACTED
FRANK VINCENZI, CURATOR-WOODLAND PARK ZOO,
5400 Phinney Ave North, SU2-5045.

WE ASKED MR VINCENZI QUESTIONS ABOUT ANIMAL BEHAVIOR
AS PERTAINING TO THIS HOMICIDE CASE.

MR VINCENZI STATED THE FOLLOWING. MANY SMALL ANIMALS
AND RODENTS, SUCH AS RATS, MICE, WEASELS, SQUIRRELS WOULD
BE FOUND IN THE AREA OF CAMP MCKINNEY AND WOULD BE
CAPABLE OF EATING ON THE BODY. THEY WOULD EAT ANY
BLOOD FOUND AND WOULD CONSIDER IT A DELICACY. THEY
WOULD START EATING ON THE BODY AT THE SOURCE OF
AN OPEN WOUND FIRST, BEFORE ATTACKING SOME OTHER PART.
IF A WOUND WAS PRESENT ON THE NECK THEY WOULD EAT
ON INTO THE CHEST CAVITY AND WOULD EAT ON THE VITAL
ORGANS BEFORE EATING OTHER FLESH.

1 IN THE MATTER OF)

2 **101C**)

3 _____ Deceased.)

MOTION TO DEMAND PRODUCTION
OF EVIDENCE FOR CRIMINAL
INVESTIGATION AND ORDER

4 Comes now Smith Troy, Prosecuting Attorney by and through Thomas
5 J. Taylor, Jr., Deputy Prosecuting Attorney in and for Thurston County,
6 State of Washington, and moves the Court for an order directing Lacey
7 Funeral Home, Lacey, Washington, to provide the Thurston County
8 Sheriff's Office with specimens (teeth) from the body of **101C**
9 **101C** said specimens to be taken from the body of **101C**
10 **101C** on December 13, 1973 by Dr. William Bigelow.

11 Such specimens are deemed necessary for positive identification
12 of homicide victim believed to be the above-named individual in Thurston
13 County Sheriff's Office Criminal Case Number 75-17592-12.

14 A signed statement of permission has been granted by William
15 Devine, **101C** of the aforesaid homicide victim, **101C**

SMITH TROY, Prosecuting Attorney

17 BY Thomas J. Taylor, Jr.
18 THOMAS J. TAYLOR, JR.
19 Deputy Prosecuting Attorney

20 ORDER

21 Based upon the above and foregoing Motion, the Court now being
22 fully advised in the premises, and good and sufficient cause appearing
23 therefor, it is hereby

24 ORDERED that Lacey Funeral Home provide the Thurston County
25 Sheriff's Office with specimens (teeth) from the body of **101C**

101C

DATED this 13th day of December, 1973.

Robert A. Devine
JUDGE

LAWRENCE BERGNER, M.D., M.P.H.
Director of Public Health

73-17592-12

December 14, 1973

Honorable Hollis Fultz, Coroner
Thurston County

RE:

101C

Dear Sir:

I, Stanford D. Prince, D.D.S., examined extracted teeth presented to me by Thurston County detectives. With the dental x-rays taken in post-mortem and dental records of the Seattle-King County Health Department, I identify the restorations in teeth #2 and #3 to be the ones of 101C which I filled on June 21, 1973 in the Public Safety Building Dental Clinic. Irrefutable identification can be made by the presence of a pin in the #2 tooth.

Respectfully,

Stanford D. Prince D.D.S.
Stanford D. Prince, D.D.S.

		CORRES. NUMBER	UNIT FILE NO. B/A NUMBER
12-10-73	0900 hrs: Received TT from Thurston County with details of unidentified IF found in their area. Descriptions given in TT match very closely to that of 101C . 101C The 101C was contacted under the pretext that additional information was needed for a TT that I wanted to sent to Oregon. Information gained, such as, 1. Missing party does have pierced ears, clothing described in TT is exactly as described by 101C even to the point of very recently acquired, waffle stompers. Jeans were of the navy type as opposed to the Levi type.		
	1000 hrs: To the Seattle Public Health and Dental Department, 14th floor, Public Health and talked to Dr. Prince. He looked up R/W dental chart and compared in to the description in the TT. R/W had not had too much dental work done at the clinic, however their records as far as they have, are identical to the description in the TT. He does have x-rays.		
	1130 hrs: To medical examiner's office and talked to Dr. P.E. Resnick. He did autopsy for Thurston County. He looked at picture and said that the dental formation in the picture is as he remembers it to be on the victim. He also took x-rays and has them at his home. He will cooperate in any way.		
	1200 hrs: Contacted University of Wash. Dental school. Subject was to have started dental work there, however no work has been done at this date, so they have no records on child's teeth.		
	It is this Detective's opinion that the victim in the Thurston County Homicide is the same as Our Runaway CS# 73-57047, 101C .		
	NOTE: MRS. SALLY DEVINE 101C ABOVE DOES NOT KNOW THAT THIS DETECTIVE HAS VERIFIED THE ABOVE FACTS. Further identifying facts may be able to be proven by contact with her and comparing to TT. THIS DETECTIVE DID NOT PROCEED ANY FURTHER ON THIS LINE, AS IT IS FELT THAT IT IS VERY PROBABLE THAT THE R/W

the Homicide victim and this detective did not wish to overstep the limits of a
R/W investigation.

The runaway subject and parents are close, personal friends of this detective
and it was becoming progressively more difficult to talk to them, without arousing
their suspicions that something more than runaway was involved.

This matter will be turned over to H&R for further follow-up in attempting to
ID the homicide victim in Thurston County. Picture of Runaway is inclosed.

1.10	12-10-73	1030 hrs. Called Sgt. Gagnier, Juvenile Control Div., Services. Advised him we had word from Thurston Co. on an unidentified body of a murder victim that may possibly be PLOE, LYNDIA JOANN, that this office had been in contact w/ Thurston Co. and would handle it from here. Gagnier states Det. Bishop (Missing Persons Unit) off today. That Det. VonAllmen was aware of the found body, felt it was a runaway Seattle girl (case # 73-57046), that VonAllmen had secured a copy of the Thurston Co. teletype and had contacted Thurston Co. about the relationship of the runaway to the found body. Gagnier will have Vonallmen call this office when he returns to his office.										
	Lt. H.L. Schneider											
7.11	12-10-73	1100 hrs. Sgt. Gagnier called back: runaway girl is 101C a family friend of Von Allmen's. VonAllmen and his Sgt. Bob Rice are now at 101C dentist with a copy of the teletype attempting to determine if dental description on the teletype is same as 101C dental work. Gagnier will have VonAllmen a/o Rice call here.										
	Lt. H.L. Schneider											
8.12	12-11-73	0930 Hrs. To KOMI obtained skull X-Rays that Dr. Beasant-Mathews had taken of the victim when he did the autopsy. Dr. said he had taken some 35mm pictures of the vic. but that he has not sent them out to be developed as yet, the dental impressions he took are still in the custody of Thurston Co. He has not had the autopsy report typed up as yet.										
9.13	12-11-73	1010 Hrs. To Public Health Dental Office and compared dental X-Rays taken by them against those taken by Dr. Beasant-Mathews. Dr. Prince of Public Health stated he was fairley possitive the identification is that of 101C he could be possitive if he had the x-ray of the victim's upper Rt. 2nd molar, as this tooth has

the homicide victim and this detective did not wish to overstep the limits of a R/W investigation.

NOTE:

The Runaway subject and parents are close personal friends of this detective and it was becoming progressively more difficult to talk to them, without arousing their suspicions that something more than runaway was involved.

This matter will be turned over to H&R for further follow-up in attempting to ID the homicide victim in Thurston County. Picture of Runaway is inclosed.

101C

Wm. L. Davine is divorced from R/W mother. His phone number and address are unknown, however he works for AAA Tire Franchising.

ADDRESS - 455 1st Ave. S.E.

PHONE - 343-7019

12-10-73 1545 hrs. Appraised of this case by the day Sgt. and advised to contact Dr. Prince in the Public Health Dept.. P/C to his office on ext. 2530 and spoke with Dr. Prince. He advised that the x-rays that they have are not a complete set of all the dental work that is in the homicide victim's mouth. It could be that the R/W **101C** had more dental work done by some other dentist prior to or after the work done by Dr. Prince. Dr. Prince suggested that we contact Dr. Beasant-Mathews and obtain the x-rays taken by him so he can determine if they are dental type x-rays or normal x-rays, similar to those taken in a medical office. Dr. Prince said that he would be able to identify the various surfaces of the teeth filled.

12-10-73 1550 hrs. P/C to Dr. Beasant-Mathews who has not yet arrived home according to his housekeeper. Message left for him to call.

3.	12-10-73 1645 hrs. Dr. Beasant Mathews called back and advised that he will bring the x-rays and dental impressions to the office in the morning. At that time someone from our office can pick them up and take them to Doctor Prince on the 14th floor of this building. Dr. Prince then can compare the medical type x-rays to those of his. If he also has impressions of the 101C mouth, according to Dr. Mathews, this would be a "Natural".		
4.	12-10-73 1800 hrs. Received p/c from Det. Von Allman who had just rec'd a call from Mrs. Sally Devine who had just seen a newsboard cast concerning the XX found body in Thurston County. She is convinced that the body, description and the composite of the picture shown on the T.V. is her 101C . Von Allman stated that he would have the 101C give us a call as soon as he could contact her. In the meantime he was going to contact the 101C Bill Devine and have him call us.		
5.	12-10-73 1815 hrs. Rec'd p/c from Bill Devine, Bus; AT 4-1721 Home; CH 3-9019. He wanted to know just exactly what our thoughts were on this thing. Von Allman advised that he wanted to hear it from the shoulder, therefore he was advised of our feelings as of this point. He stated that he couldn't answer all of our questions as he had been away from the home for 2 1/2 yrs. It was requested that he contact his ex-wife and find out what other dentist she had attended. At first he could not remember any of them and then recalled a Doctor Paul B. Stanton on North 85th Street. A check reveals a Dr. Stanton at 101 N 85th phone 703-5388 home residence of 23715 110th West, Edmonds, Wn. home phone #512-1134. Mr. Devine stated that her teeth were very distinctive in that she had a double set of eye teeth growing out of the upper plate. Mr. Devine will check on some items and call back.

6.	12-10-73 1830 hrs. Mr. Devine called back and stated that his 101C was wearing small "Crosses" in her pierced ears. He described the saude jacket almost identical to that mentioned in the teletype. He also asked his wife one other question which had not be mentioned to him earlier. He asked if this found girl had an embroidered Dragon patch on her blue jeans, on the rear pocket. Det. answered in the affirmative, at this time Mr. Devine stated that he was 90% sure that it was his 101C body. He was advised that we would contact the Thurston County Coroners office and advised them that he was willing to go down there to attempt identifi- cation. He is willing as long as he doesn't have to wait to long.		
7.	12-10-73 1900 hrs. Contacted the Thurston County Coroners Office, 357-7402 Coroner Hellis Faulz. Advised him of the possiblity that their homicide viotkm is our 101C Filled him on the date and misc. of her reported runaway. Also gave him the 101C home phone number to make arrangements for him to make identification. Faulz stated that the victim face on one side is in good shape, the other side is unidentifiable. He stated that they had sent a wirephoto of the victims good side to the Seattle newspapers and the 101C should be able to make an I.D. from this photo. Faulz stated that he would contact the Sheriffs office for us and fall him in. This Det. called the listed number on the teletype but there was no answer.		
8.	12-10-73 1910 hrs. To the press room and contacted Jerry Carson who will check on the photo sent from Thurston County. He will let us know, what he finds out as soon as they can get through to the photograph dept..		
9.	12-10-73 1950 hrs. P/C from Sheriff Den Redmond who had just spoken with the 101C Bill Devine, Redmond is fairly convinced that this is their

DATE: 1-9-74

CASE NO: 73-17592-12

On 11 December 1973, contact was made with Detective J. E. Cook and Detective George Cuthill at Seattle P.D. and was sent to Juvenile to contact Detective Van Allman. Received information and reports from Juvenile, including names of friends. Went to County Health Department and contacted Dr. Prince, who identified the dental chart as one belonging to **101C** with on exception, the number two molar had a pin that was not indicated on our chart. Dr. Prince stated that if the pin was there, he could state positively that the victim was **101C**. Returned to Detective Cook's office.

In company with Detective Cook, went to **101B** and contacted **101B** age 14, and **101B**. Conversation with these girls revealed they had been with **101C** when she was picked up at 91st and Aurora on 11-25-73 at 1330 hours and headed South. Both girls gave different descriptions of the vehicle, see statements. When talking to **101B** it was discovered that the clothing and earrings **101C** was wearing belonged to **101B**. She described the blouse, trousers and earrings in absolute detail. Statements were taken at 1350.

At 1700 hours, contact was made with **101B** **101C** and two other boys at **101B** who knew **101C** **101B** stated he had been going with **101C** for several months and had decided to break off because he did not want to be tied down. He stated that he had seen **101C** **101B** and **101B** at approximately noon on November 25th 1973 and had refused to talk to **101C**. He has not talked to or seen

73-17592-12

101C since. His friends, **101B** and **101B** were also talked to, but could add nothing to the incident.

On 12-12-73, contact was made with Mr. and Mrs. Devine and **101B** **101B** **101C** of victim. Permission was given to go through victim's personal effects. Sheriff Redmond and myself searched the room and with Mrs. Devine's permission, took diary, photo album, undeveloped film and numerous letters to be screened for clues. Appointments were made to interview **101B** at a later time.

At 1400 hours, contact was made with Will Rohrich at Chevrolane Motors at 91st and Aurora. He stated that on the date of 11-25-73, he had observed **101C** and her girl friends walk down 91st. **101C** hitched a ride while the other girls went across the street. A truck described as an old beat up green Dodge driven by a long haired bearded man picked **101C** up and departed South on Aurora. He could not give a better description of the truck. A statement was taken on tape from Mr. Rohrich.

At 1710 hours, went to **101B** residence at **101B** and contacted **101B** age 16. Subject stated he knew **101C** but did not associate with her. He stated he last saw her on 11-23-73 and gave her a ride to the 6400 block on Aurora. He stated she hung around with the wrong crowd and he was not surprised that she had got into trouble as she always hitchhiked. Detective Nelson will report further on this lead.

On 12-13-73, contact was made with Mrs. Verna Smith at 6411 Linden, reference **101B**. She stated she had not seen **101B** for several weeks, but would call as soon as she saw him. Went to Wallingford Precinct #2, contacted Capt. More and attempted to gain information in logs for

73-17592-12

11-25-73. Nothing useful was determined. At 1445 hours, received information via Mrs. Smith that **101B** was home. Subject came to this location at 1509 and gave statement. Nothing valuable was gained to disclose assailant in this case.

On 12-14-73, was contacted by Sgt. Schenke of Bellingham P.D. A strange circumstance had occurred on evening of 12-13-73. An individual, described as Hippy type, 6', 20-21 years, 200 lbs, long brown hair and beard, dressed in faded jeans, old black coat, heavy boots or unpolished shoes and carrying a black purse, made and received a call from a restaurant just off I-5. While in restaurant, subject took large black handled knife from purse and cut out item from P.I. on **101C** murder. Left the item on counter when he left. Subject believed to have called a female on Sunset Drive and mentioned he would be at Canadian border in early a.m., 12-14-73. Sgt. Schenke will forward information by mail to Thurston County Sheriff's Department.

THURSTON COUNTY SHERIFF'S DEPARTMENT
Supplementary

DATE: 7 January 1974

CASE NO: 73-17592-12

On 2 January 2, 1973, contacted Dr. Don MacLaven, Seattle Police Lab. reference results of examination of evidence on the **101C** case. He advised that so far, he had only examined the vaginal swabs which were positive indicating presence of acid phosphatase.

Detectives Guthill and Cook were then contacted. They had just brought in **101B** for a polygraph examination. She was tested by Norman Matzke, Seattle Police Department. Results of the examination indicated she was truthful and last saw **101C** on November 25, 1973, as she had previously stated. Tests indicated she had no knowledge of what happened to **101C** or who may be involved.

During the evening January 2, 1973, David McClure and Ray Vine were interviewed. Ray and David both stated they were sure they had seen **101C** after November 25, 1973 at **101B** residence. They stated they believed the date was November 29th. They determined the date to be the 29th because they had moved a refrigerator on that date. At about 1730 - 1800 hours. They said they stopped at **101B** and went in. **101B** was home and two girls were there, **101b** and another they thought may have been **101b** went into the bedroom with **101B**. When **101b** came out, the two girls left stating they had to get home for supper. A couple minutes later, **101C** entered the front door. They said they don't know how **101B** could have missed seeing her. **101C** was there a few minutes then said she had to make a phone call. She walked down to use the phone at the service station on Aurora Avenue. She returned about 5-10 minutes later and had a worried look.

They both left, went home and ate, then loaded a small bar type refrigerator in their car. They returned to 101B and entered the house. 101B met them and appeared anxious to leave. They did not see 101C at this time.

On January 3, 1973, arrangements were made to test 101B on the Polygraph. Permission was obtained from her mother. Test results indicated that 101B was truthful in her answers to the police, that she last saw 101C on November 25, 1973 and had no knowledge of what happened to her or who caused her death. She was not at 101B house on November 29th, but had been to his house on November 30. She had gotten permission on November 30 to stay all night with 101B but 101B mother wouldn't let her, so she went to 101B. She said she went in and went to bed, that no one was home. 101B showed up in the early morning hours. She stated that on November 25 and the night of the Ingram game that she and a Renee Wysong went to 101B and then left for the game. They left and caught a bus at Aurora by the gas station. She said this was the last time she was at 101B until November 30.

Mr. Mergen, 101B of 101B was contacted and gave permission for 101B to take a Polygraph examination on 1-7-73 at Seattle Police Department. He also gave permission for us to search 101B house. A close inspection of the house revealed it to be in a very dirty, unkept condition. No painting or cleaning had been performed in the house in recent months. No evidence was discovered in the house which was connected with the 101C case.

Paul H. Barclift, Detective
Thurston County
Sheriff's Department

January 2, 1974, 1935 hours.

73-17592-12

RAY MICHAEL VINES - 8-20-48

101B

- 2-1-57

VICKY HACKETT (Girlfriend) 9111 - 50th So., Apt. 309, PA2-0857

THURS. November 22, 1973, Thanksgiving. Ray was with Vicki, drove around with her until approximately 1630 hours, then took her home. She had to meet friends. Ray then went to dinner and ate at sister's. Stayed night at sister's.

FRI. November 23, 1973, went to sales meeting at Hoover Sales Office, 10828 Gravelly Drive. There until Noon, worked until 1900 hours.

SAT. November 24, 1973, not sure.

SUN. November 25, 1973, moved into his new house, but stayed at home.

MON. November 26, 1973, had sales meeting, 4 hours, then set up scissors clinic at Payless Drugs.

TUES. November 27, 1973, picked up Vicki in afternoon to take her shopping. (Verified by Vicki who said she bought a coat). Later took Vicki to dinner at Six Leins. Called sister, Pat and Steve to meet them at Black Angus for drinks. Pat or Steve cashed a check on the way at a tavern for spending money. (Verified by Steve, check, dated November 27, 1973). Vicki stayed all night (Verified by Vicki). She stated she was sick and wanted some juice and Ray had to go to the store because he didn't have a refrigerator.

WED. November 28, 1973, had to go to see his Attorney, Richard Keene, 1700 Westlake Drive North, Suite 420, 285-3900. Vicki went with him. There 1000 - 1500 hours. (Verified by Vicki and by law clerk)

THUR. November 29, 1973, worked. 101B went with him. Worked in Everett, Lynnwood and Seattle. They stoped at 101B about 1730-1800 hours. 101B and another girl was there. 101B and 101B went into the bedroom or were in the bedroom. The other girl kept asking them to go get 101B that they had to get home for dinner. After she came out of bedroom the two girls left. Five to ten minutes later, 101C entered through the front door. After a few minutes she left saying she had to walk down to the gas station to use the telephone. She returned in about 5 - 10 minutes. She had a worried expression on her face. Ray and 101B then left, went home and picked up a small refrigerator and also ate while there. They then returned to 101B and entered the house and was met by 101B who was anxious to leave. Did not see 101C. 101B acted suspicious. They then went home. 101B went also.

THURSTON COUNTY SHERIFF'S DEPARTMENT

Supplementary Report

Paul H. Barclift

DATE: 20 December 1973

CASE NO: 73-17592-12

At approximately 1200 hours, December 6, 1973, I was notified that a white female body had been discovered in the area of Camp Margaret McKenney State Park, located on the Waddel Creek Road.

At 1215 hours, I was requested to go to the scene. I arrived on the scene at 1235 hours.

On arrival, I was requested by Chief Criminal Deputy, Dwight Caron, to immediately proceed with backup photography. (See photo logs) After photography work was complete, I assisted in the search of the immediate area. I located several pieces of broken glass, which I took into evidence, this broken glass was strewn over a small area in an area adjacent to where the body was located. I departed the scene at 1410 hours.

I then proceeded to the autopsy room at St. Peter Hospital. In the presence of Tag Frazier, Deputy Coroner and Coroner Hollis Fultz, photographs were taken of the body. (See photo log.)

I was present while Dr. Bigelow, a local dentist, prepared a dental chart of the victim, which I then took into evidence at 1535 hours. I then returned to the Department and began to call all local dentists. I advised them that copies of the dental chart were being sent to their office in an attempt to identify the victim. All local dentists were again contacted on the morning of December 7, to verify that they had received a copy of the dental chart. Copies of this chart were sent to the cities of Yelm, Tenino, to the Sheriff's Departments of Lewis, Grays Harbor, Mason, Pierce and King Counties. The military authorities

at Ft. Lewis and McChord Air Force Base, Seattle and Tacoma Police Departments were also sent copies of the Dental Chart.

During the afternoon of December 7, 1973, I was present during the body examination of the victim, conducted at St. Peters Hospital by the pathologist. At 1704 hours, I departed the hospital with Captain Bade and went to assist Detective Curtis in the Littlerock area.

At approximately 2000 hours, I accompanied Captain Bade to the Rochester area to check on a juvenile girl at the Tharp residence which is located at 178th Ave. SW. This girl had been reported to the Department as closely matching the description of the victim. The juvenile in question, however, was home and safe.

At 11:30 hours, December 11, 1973, I interviewed a Mrs. Eva Jean Rohr, age 45, P.O. Box 397, Tenino, residence telephone, 264-2809, business 264-2960. Interview was conducted at the Log Tavern where she is a bartender. Mrs. Rohr advised that she had observed a girl matching the description on November 26, 1973 or on November 30, 1973 at the Bank of Olympia, Tenino Branch. This lead was checked with the bank and the girl that Mrs. Rohr had observed was not believed to have been the victim. (See officer's supplemental report)

At 1245 hours, December 11, 1973, I interviewed a Mr. William E. Lawrence, age 18, 905 Spring Lane, Centralia, 736-7593, business phone 273-5578, interview was conducted at the Washington Weyerhaeuser Nursery located at Rt. 8, Box 434, Olympia. Mr. Lawrence advised that on December 2, 1973, that he and his girlfriend were at the Camp Margaret McKenney Park between the hours of 11:45 to 17:30 hours. He advised that he had observed one vehicle with two individuals in it who had been trail riding. (See officer's supplemental report for details)

116

During the afternoon hours, December 11, 1973, I was transferred to the Seattle area with the investigation team.

At 1215 hours, December 12, 1973, I received from the victim's **101C** Mrs. Devine, a copy of the victim's birth certificate, one letter box containing miscellaneous letters and papers, one leather purse with contents, one jewelry box with miscellaneous items of jewelry, one metal box containing miscellaneous papers and a diary, two photo albums, and miscellaneous school papers.

At 1450 hours, December 12, 1973, I interviewed the victim's **101C** **101B** See statement for further details.

At 1700 hours, December 12, 1973, I interviewed a **101B** by telephone. This interview was in reference to several obscene telephone calls that she had been receiving. (See officer's supplemental report for further details)

At 1745 hours on December 12, 1973, I interviewed a **101B** **101B** by telephone, reference obscene telephone calls which she had been receiving. (See officer's supplemental report for further details)

On December 13, 1973, at 0930 hours, I interviewed a Miss Maude W. Bakken, 747 North 155th Ave., this interview was in reference to her having seen victim. The interview determined that victim had been seen on November 20, 1973, prior to the time which she disappeared. (See officer's supplemental report for further details.) At 1500 hours, December 13, 1973, I interviewed a Mrs. Francis M. Berry, age 35, 12320 East Marginal Way, So., Seattle, Telephone 242-0756. Interview was in reference to her having observed victim on Old Highway 99, one block north of entrance to Sea-Tac Airport. (See officer's supplemental report for further details.)

107

At 1845 hours, December 13, 1973, I received from Dr. William Bigelow seven extracted teeth, one set of dental casts, upper and lower, and one card containing seven X-rays. These items were taken into evidence at 1845 hours.

At 0845 hours, December 14, 1973, evidence taken from Mrs. Devine which was property of the victim, 101C was turned into the evidence officer, Sergeant H. V. Baesen.

At 0930 hours, December 14, 1973, I met with Dr. Stanford D. Prince in Seattle and showed him the X-rays, the dental casts and teeth which had been extracted from the victim. Dr. Prince then examined these items with the dental record which he had of 101C. At this time he stated that he could make a positive identification of the victim. Dr. Prince then prepared a certificate stating that he had made positive identification. A copy of this letter, the chart containing old X-rays and a dental record of 101C was then given to me. These were taken into evidence at 1000 hours.

At 1130 hours, December 14, 1973, I talked with the pathologist who had conducted the autopsy on 101C. He advised me that his report had been mailed to the Thurston County Coroner on the evening of December 13. I then asked him a few questions which I had concerning 101C the victim. I asked him about the marks found around the wrists. He replied that he could not state definitely what had caused the marks, however, they could correspond to the fingers of her assailant who may have grabbed her about the wrist. I asked him about a bluish area which had been located above the victim's right breast. He stated that he believed that this spot may have been caused by a small animal which had entered the chest cavity. I then asked him

118

about a bruise which had been found on the scalp and he stated that this bruise was from a very minor bump to the head, that it had been caused by nothing with any force to it. I then asked the doctor if any observations had been made on the lower extremities in the ankle area, of the victim's legs, that may have indicated that she had been tied or hung upside down. He stated that nothing was noted, however, if she had been tied with a sheet, towel, a wide strap, or something of this nature, that there would be no marks. The doctor then estimated again that he believed the victim had been dead 2 1/2 to 3 days prior to the time the body was found, if she was killed at the place where the body was located.

On December 14, 1973, between the hours of 1520 and 1630, I made a TV recording tape of all those attending the memorial services for

101C

On December 17, 1973, at 0810 hours, the evidence obtained from Dr. Prince, the evidence obtained from Dr. Bigelow and the T.V. tape of those who had attended the memorial services were turned into the evidence room to Sergeant Hank Baesen.

Case: 73-17592-12
Date: 12 December 1973
Time: 1450

STATEMENT: **101B**

DATE OF BIRTH: July 2, 1957

PRESENT ADDRESS: **101B**

PHONE: 783-6577

Q. Are you older than **101C**

A. Yeah, a year and a half.

Q. When was the last time you **101C**

A. A quarter after two the day before they left, the 24th.

Q. She left home on the 25th?

A. Yeah, at about 1:30.

Q. Was she alone?

A. She was alone when she left. She had two girl friends with her when she got in the car but she was the only one in the car.

Q. I mean when she left your house.

A. Well, mommy was taking her to a babysitting job.

Q. Do you know the name of the people where she was babysitting?

A. Their name is Bobby Stuart, the telephone number is AM 5-2250.

Q. Do you know the names of the boyfriends that **101C** had during the last year?

A. Yes, there was three of them. **101B** and **101B**

Q. Can you give me the ages and addresses of these three boys?

A. **101B** 16, lives on **101B** phone: SU 3-4454, **101B** 15 and I believe the address is **101B** phone: HA 2-8443, and **101B** is 14 and he lives on **101B** I don't know the address, phone: SU 3-9719.

Q. How long did **101C** go with these boys?

A. She went with **101B** for ten months and **101B** I'm not quite sure, it was either four or five months and **101B** about eight months.

Q. **101B** was the last boy to go with **101C**

A. Yeah.

Q. Who before **101B**

A. It was **101B** first then **101B** and then **101B**

Q. Has **101C** ever runaway from home before this time?

A. Once.

73-17592-12

- Q. When was this?
- A. It was just before Halloween, I think. She got all the way to Olympia and came back home. She left at 11:30 at night, again it was after her babysitting job, and returned about 5:30 in the morning.
- Q. How did she get to Olympia??
- A. Hitchhiking.
- Q. Did she mention what she did in Olympia to you?
- A. No, she just said she had runaway. She called me the next morning and told me to destroy the note on her bed. I didn't destroy it, I just took it away and mom didn't know about it until this time.
- Q. Did she know anybody in the Olympia area?
- A. No. But, I just remember something, we had a pen pal from Olympia. His name was 101B He has a New York accent.
- Q. Do you know his phone number?
- A. No. He always called us. We didn't care for him that much.
- Q. How did he get your number?
- A. From a girl friend I know in Rainbow.
- Q. And her name is?
- A. 101B
- Q. Do you know anything else about this 101B
- A. He's a sex fiend that's all he ever talks about on the phone.
- Q. What type of things does he say?
- A. He asked 101C and I if we ever had sex before. If we did, what we liked about it. Then he would tell us what he liked about it. It was hard to understand him because he had the accent so heavy. He'd asked what would make us, as he said, hot, did we get off easily, eating out, put in different positions and then he'd tell us, you know, that he didn't mind if he was excited if he was just alone, that he would get himself off and he didn't care too much for women on top but he did like other positions and we just about said the same thing over and over again on each telephone call.
- Q. When was the last time he called?
- A. The day 101C turned up missing. I remember that distinctively. He called and I asked if he would call back, I didn't enjoy talking to him. I told him we had a problem and we couldn't talk to him.

Q. Did he ever tell you about himself?

A. About he was from New York that's just about it. He told me is last name. He did call 101B and talked to her and he may have given her his last name. He told her he was in another city.

Q. Did he always call your or did you call him?

A. He always called our house and asked if either 101C or I was home.

Q. He never left his number?

A. No. I'm not one for calling long distance, you know, I don't make that much on my job.

Q. I read in one of 101C letters where you had just made arrangements to cut a record. What kind was it?

A. It was going to be a 45 rpm. One song I produced myself, Grand Fund Railroad, the other the guy that was to become my producer was writing to a group for the rights to a song. He's in Portland getting my back up music for the record.

Q. Do you know many musicians?

A. No, my friends play some type of instrument or sing themselves. I'm not familiar with any hit groups.

Q. Do you know anyone who teaches guitar lessons?

A. I never took a lesson. I don't know anybody that teaches. I just looked in books and my friends and things, that's how I learned.

Q. Your sister has fingernail polish on her fingernails which is light blue or gray in color. Does she have this type of nail polish?

A. She doesn't even like fingernail polish. I have thirteen different colors. She might have used mine. I've got a blue.

Q. Have you ever seen her wear this shade?

A. Before she did try on one of my fingernail polishes once. It was a glittery type of orange. She could have gotten it from one of her friends. It's the thing now-a-days.

Q. She also had orange color nail polish on her large toe nails.

A. Did you know that she had that on?

A. Yeah.

Q. Was this hers?

A. No, it was mine.

Q. When did she put this polish on approximately?

A. It was a long time ago. About a month or a month and a half ago. It's probably pretty well chipped by now.

- Q. Do you have any ideas who she may have obtained a ride with to Olympia?
- A. No, it was just probably someone off the street. You asked before at home if she'd had any other close calls, well, she had. I didn't want to say anything, I didn't want 101C to know I was with her. She got a ride with two guys from California going to Canada. We'd all been at the Center and her and her girl friend left. 101B and I came back to the house. She wasn't home. At about one half an hour later and just after he left, a white pick up had these two guys in it, late 20s, rough looking people. 101C and her friend 101C and 101B and 101B who's now in Seattle Youth Center, and 101B were in the truck and they came in and told me they wanted me to come with them to these people's hotel room for a few drinks. I didn't want to go. We got there and had a couple of beers. They didn't let us leave. They said they wanted sex in return for the beer, they had given us and I told them if they didn't let me out, myself, 101C and friends, I'd scream. That didn't phase them a bit. It went on for about an hour. It was about 3:00 in the morning finally we walked out the door and we started walking cross the bridge. They wouldn't drive us home. It was a long way on the other side of Aurora. They came and picked us up and took us back to the motel. They didn't let us go again and we finally got out. We hailed a taxi and none of us had any money except 101B who had \$3.00 but the guy said that's o.k. he'd just take one and leave us the rest and he took us home.
- Q. When did this happen?
- A. Last summer probably in August, I think. From then on I never went with them. 101C tried it with 101B and I told her if I ever caught her doing that again I'd tell 101C. I didn't like 101C hitchhiking.
- Q. Do you know if 101C used any narcotics?
- A. Her and I used to split a joint. Just before she left, she got a concussion. She told me she tripped over a guys foot at a football game. She had three barbituates at 101B. She passed out and hit her head on the bed in 101B's sister's house. She got a concussion and hit her head. She had a bad trip. She wasn't hooked or anything. She dropped speed a couple of times. It was mainly just marijuana and hash.
- Q. You mentioned briefly that she ran away and went down to Olympia and returned. Had she ever gone to the Olympia area before this that you knew of?
- A. She never said anything about it to me. She would tell me everything.

Q. Other than this one individual calling, you don't know if she had any other acquaintances in that area?

A. No, I don't think so. I'm pretty sure.

Q. Do you know if **101C** was acquainted with anyone from this area who was previously stationed at Ft. Lewis, Washington or attended Evergreen College?

A. Not that I know of.

I, **101B** have read this statement of five pages and I find it to be true and correct to the best of my knowledge and belief.

THURSTON COUNTY SHERIFF'S DEPARTMENT

Supplementary Report

Paul H. Barclift

DATE: 20 December 1973

CASE NO: 73-17592-12

At approximately 1200 hours, December 6, 1973, I was notified that a white female body had been discovered in the area of Camp Margaret McKenney State Park, located on the Waddel Creek Road.

At 1215 hours, I was requested to go to the scene. I arrived on the scene at 1235 hours.

On arrival, I was requested by Chief Criminal Deputy, Dwight Garen, to immediately proceed with backup photography. (See photo logs)

After photography work was complete, I assisted in the search of the immediate area. I located several pieces of broken glass, which I took into evidence, this broken glass was strewn over a small area in an area adjacent to where the body was located. I departed the scene at 1410 hours.

I then proceeded to the autopsy room at St. Peter Hospital. In the presence of Tag Frazier, Deputy Coroner and Coroner Hollis Fultz, photographs were taken of the body. (See photo log.)

I was present while Dr. Bigelow, a local dentist prepared a dental chart of the victim, which I then took into evidence at 1535 hours. I then returned to the Department and began to call all local dentists. I advised them that copies of the dental chart were being sent to their office in an attempt to identify the victim. All local dentists were again contacted on the morning of December 7, to verify that they had received a copy of the dental chart. Copies of this chart were sent to the cities of Elmhurst, Tonino, to the Sheriff's Departments of Lewis, Grays Harbor, Mason, Pierce and King Counties. The military authorities

Dr. Matthews;

We have been working on the November 1973 murder case of **101C** whose body was found at Capital Forrest in December. We have reason to believe that we may be able to bring this case to the prosecutor in the springtime of 2002. At present you are the only Dr. Matthews found in this whole country. We greatly hope you are same pathologist who did the autopsy for the Coroner on 12/7/73 in Lacey, Wa..

If so, we ask for your phone number and your availability to testify in the spring or summer. I have your report available to refresh your memory of your very valuable work that day, 28 years ago. We are very excited about this case and the swab you took for evidence.

Thank you for being there. Awaiting to hear from you.

Capt. Mark W. Curtis

Recycled Paper

HOLLIS B. FULTZ, CoronerTHURSTON COUNTY
OLYMPIA, WASHINGTON 98501**73-17592-12**

Dec. 19, 1973

Smith Troy,
Prosecuting Attorney,
Thurston County Courthouse
Olympia, Wash.

Dear Mr. Troy:

For your information I have today signed the death certificate on the young female found murdered in Capitol State Forest on Thursday morning, December 6, 1973, as: homicide by knife and/or strangulation by an unknown party while attempting anal rape.

My reasons for this preliminary report is to furnish you and the County Sheriff, Don Redmond with all the factual information possible in helping find the perpetrator of this crime.

As soon as I was informed of the finding of this body, I proceeded to that part of Capitol State Forest known as the Margaret McKinney Park. The body lay face downward with the clothing disarranged in such a way as to leave no doubt of an intent to rape.

When the body was turned face-up, the left side of her face was bare of flesh to the bone. There was a huge hole extending from under her chin across her neck and into the body.

An autopsy performed the next day, Dec. 7, by Dr. Desent Matthews revealed that all the principal organs had been devoured by animals. The lungs, heart and liver were all missing. Dr. Matthews reported that there was no physical evidence as to the cause of death.

He states that the girl was not beaten to death; she was not killed by a gunshot wound. This leaves only strangulation or a knife as the cause of death. However, no physical evidence of the use of a knife or of strangulation was found.

There was not enough blood in the corpse to classify it.

As soon as I have Dr. Matthews report, I will send a copy to you, which will give you more definite information as to the time of death, which at this time I estimate to have been on either the afternoon of December 2 or 3, 1973.

The vagina and anus were normal. She had not been raped.

130

The work of the Sheriff's deputies in this case speaks highly for a well-organized group. I am sure their reports will substantiate my conclusions. I suggest that you confer with the Sheriff and his Chief Criminal Deputy Dwight Caron for any information as to the clues that have been developed as to the identity of the girl.

Feel free to call upon me for any assistance I may be in the further investigation of this case. The remains are at the Lacey Funeral Home.

Sincerely,

Hollis B. Fultz,
Coroner,
Thurston County, Wash.

DEC 3	36° TO 47°
DEC 4	29° TO 39°
DEC 5	31° TO 44° (INVERSION)
DEC 6	44° TO 51°

DURING THE ABOVE PERIOD, IT WAS MOSTLY CLEAR DURING NOV 25-30, AND WAS RAINY DEC 1-6 WITH UNSTABLE CONDITIONS. I WAS ADVISED THAT AT CP MCKENNY IT COULD BE AS MUCH AS 5° COOLER, WITH THE EXCEPTION OF DEC 5 WITH THE INVERSION, WHICH WOULD HAVE MADE IT SLIGHTLY WARMER. BEING IN AN AREA SURROUNDED BY SELAL BRUSH WOULD TEND TO RAISE THE TEMPERATURE, BUT BY BEING IN A DEPRESSION THE COOLEST AIR WOULD

THURSTON COUNTY SHERIFF'S DEPARTMENT

Supplementary Report

Date: 8 December 1973

Case No: 73-17592-12

INVESTIGATION:

Date: 7 December 1973 Time: 1430 hours Place: Morgue, St. Peter's Hospital

The pathologist performing the autopsy is Dr. P.E. Besant-Matthess.

The doctor performed an autopsy on an unknown subject. Present in the room at the time was Dr. Matthews, Dr. DeLeon, who is part of the staff at St. Peter's Hospital, Coroner Hollis Fultz, myself, Captain Bade, Detective Barclift, and Frank Hamilton of the Olympia Police Department. Before taking any action on the body, Dr. Matthews photographed the body in it's entirety and made the statement, at this time, that he would photograph different parts of the body as he went. He took pictures with a 35mm Nikon camera. After the pictures were taken, the body was measured. It was **101C** or in height,

101C The doctor approximated the weight as being about **101C**

At 1437 hours, Dr. Matthews requested x-rays of the skull. The skull was x-rayed at this time by the x-ray technician at St. Peter's Hospital, whose name I do not have. While the x-ray pictures were being taken and developed, Dr. Matthews stated that he thought it would be a good idea to have the cast made of the subjects mouth. He was informed at that time that Dr. Ronald Larson, dentist from the Olympia area, would be in around 1630 hours to do this. Dr. Matthews further stated he thought it would be a good idea to remove the jaw of the subject and put into evidence along with the cast for further identification. He brought out the fact that her ears were pierced. He stated that there

73-17592-12

was a possibility of a cut on the left breast. He further stated that the tearing on the right breast, he felt, was not a cut.

After much probing and deliberation on the part of Dr. Matthews, he made the statement that the victim was younger than what we had figured.

He would place her between 15 and 20 years of age. He felt from certain aspects of the body that the subject had been away from home for some time, however, he did not give a definite period of time. It was further felt that she had been a welfare recipient. Either through her parents or on her own.

At 1515 hours, hair samples were taken from several different parts of her head and placed into evidence. At 1517 hours, swabs were taken from the vaginal tract and placed into evidence. At 1518 hours, combed samples were taken from the vaginal area. At 1519 hours, samples of the pubic hair were taken from around the groin in the vaginal area. These hairs were pulled out from the body. At 1530 hours, Dr. Matthews removed samples from underneath the fingernails, scrapings from on the fingernails, and these were taken into evidence. Also, the fingernails were clipped and these clippings were included with the scraping samples and so forth. Also, at 1532 hours, a sample was taken of the fingernail polish on the fingernails.

The fingernail samples were of a blue color and the doctor stated that had not been renewed for a considerable period of time.

At 1540 hours, the doctor examined the victims eyes, looking for

141

contact lenses or any foreign articles that might be in the eyes. This had negative results.

The number of smears that were taken from the vaginal area were six glass slides. At 1549 hours, slide samples were removed from the victim's mouth. At 1554 hours, pictures were taken by both Dr. Matthews and Detective Barclift of the anus area showing the opening of the area.

The pictures were black and white and colored. The photographs taken by Captain Bade were taken with a 120 and the colored pictures taken by Detective Barclift were taken by a Micromat millimeter camera.

At 1505 hours, Dr. Matthews took swabs from the anus tract. At 1600 hours, loose pubic hair was removed from around the anal area by Dr. Matthews.

1602 hours there was a small piece removed from the back on the right shoulder. One inch above the crease when the arm is put next to the body where the crease stops.

At 1611 hours, samples of hair was removed from the upper right forearm. This hair was light colored foreign to the victim's own hair.

At 1620 hours, x-rays were taken from the chest adominal areas. At 1628 hours, Dr. Ronald Larson, a dentist from Olympia, took casts of the victim's mouth. These casts will be made up by Dr. Larson this afternoon and turned over to me. At 1640 hours, Sergeant Baesen and

Chief Caron prepared the hands for fingerprinting and the hands were fingerprint by Sergeant Baesen. At 1645 hours, x-rays of the head were again taken from a different angle from the first x-rays.

At 1702 hours, Dr. Matthews went into the autopsy of the inner area of the body by cutting and laying the body open. Once the body cavity was open, all the chest organs were missing. Both lungs were missing, the heart, part of the liver had been taken away and was missing and part of the liver was still there. The doctor then proceeded to cut the vaginal and anal tract out. Upon cutting into the vaginal area, there was a milky substance present in the vicinity of the clitoris. Samples of this milky substance were taken and put on gauze. This substance will be allowed to dry and then sent to the FBI lab for identification.

The vaginal tract was not torn in anyway. When the anal tract was opened there were no tears or any foreign substances present in it. There was almost no blood present in any part of the body, however, Dr. Matthews was able to draw off a few drops of blood out of one of the vital organs.

At 1850 hours, the autopsy was terminated. The body was closed and returned to Lacey mortuary by the mortician, William Gwinn.

Thurston County Sheriff's Department
Supplemental Report

Date of Report 12-7-73 District 1 Shift DAY Case Number 73-17592-11

Date of Occurance 12-6-73 Officer SWENNEY Type of Complaint Homicide

At 0900 12-7-73 I started searching the CRIME SCENE

ALL EVIDENCE RECOVERED BY THIS OFFICER WAS MEASURED
FROM THE FOLLOWING DIAGRAM

-1030 12-7-73 SAMPLES OF LEAVES, TWIGS, BLOOD, AND HAIR
TAKEN 88" FROM A, 57" FROM B. THE AREA DIRECTLY BELOW
WHERE THE VICTIM'S THROAT HAD BEEN.

-1040 12-7-73 A SMALL SAMPLE OF EARTH APPROX $\frac{1}{2}$ " WIDE X 1" DEEP
TAKEN FROM THE SAME AREA AS ABOVE.

-1050 A 6 $\frac{1}{2}$ " LENGTH OF HEMP ROPE WITH WHAT APPEARED TO
BE A STAIN OF BLOOD HAIR LOCATED 65" FROM A, 65 $\frac{1}{2}$ " FROM B
THE APPROXIMATE LOCATION OF THE VICTIM'S LEFT HAND.

-1107 1 SILVER COLORED LINK FROM A SMALL CHAIN APPROX $\frac{3}{16}$ "
IN DIAMETER 79" FROM A, 50" FROM B. THE APPROXIMATE LOCATION
OF THE LEFT SIDE OF THE VICTIM'S HEAD.

-1155 A LARGE SAMPLE OF EARTH + BLOOD APPROX 4" DEEP BY
9" DIAMETER TAKEN FROM THE SAME LOCATION AS THE 1ST EARTH
SAMPLE DIRECTLY BELOW WHERE THE VICTIM'S THROAT HAD BEEN.

ALL PROPERTY RECOVERED BY THIS OFFICER WAS TURNED
OVER TO DET. MC FARLAND 0-11 AT 1205 HRS 12-7-73

ALL PIECES OF EVIDENCE WERE TAGGED BY THIS OFFICER

DEPUTY MCCLANAHAN ASSISTED WITH ALL MEASUREMENTS
AND THE RECOVERY OF EVIDENCE

John P. Swenney 0-35

SUPPLEMENTARY REPORT
H. V. Baesen

DATE: 12-20-73

CASE NO: 73-17592-12

EVIDENCE - IDENTIFICATION REPORT

On 6 December 1973, the undersigned received a telephone call from the Thurston County Sheriff's Department at approximately 2100 hours requesting his presence at the Sheriff's Department. Upon arrival at the Sheriff's Department, evidence was present in the jury room that had been gathered because of a death incident. Evidence observed were items one through 26. These items were received by the undersigned. They were marked, initialed and so documented by the undersigned. Complete listing of the received items documented on a report and is incorporated in the file to this case.

On 7 December 1973, the undersigned again completed identification work on additional evidence that had accumulated in this case. At approximately 1500 hours, on this date, the undersigned made himself present at St. Peter Hospital and an autopsy was going to be performed on the deceased subject by the King County Medical Examiner, Dr. P. Besant-Matthews. During intervals of the autopsy, the undersigned received evidence from the doctor. The evidence which was received from the medical examiner, was marked, documented and prepared for shipment to the State Toxicologist, Dr. Loomis at the University of Washington. The letter of transmittal to Dr. Ernest Thomas, State Toxicologist is incorporated with the files of this case. Evidence was to be subjected for alcohol and drug screening test. The undersigned, with the assistance of Chief Criminal Deputy Dwight Caron, fingerprinted the deceased for identification purposes.

73-17592-12

On 8 December 1973, the undersigned searched the fingerprint files for identification of the deceased. The remainder of the work was dedicated to the documentation and identification of additional evidence in this case.

On 9 December 1973, work was performed on the attempt to identify the deceased through fingerprints. In addition, evidence was again marked documented and processed for readiness for shipment to the Seattle Police Department Laboratory.

On 10 December 1973, the evidence to the State Toxicologist was transported to him at the University of Washington. On this date, the fingerprint card and the undersigned went to the Olympia Police Department to search their files for possible identification of the deceased.

On 11 December 1973, the undersigned accompanied Mr. Delbert Bennett to the Lacey Funeral Home where identification was made of the deceased. Chief Criminal Deputy Dwight also interviewed the subject for additional information regarding the identification. On this date, the undersigned, with the assistance of Deputy Tom Barte, footprinted the deceased at the Lacey Funeral Home. This foot printing was necessary in an attempt to thoroughly identify the deceased with baby prints taken at the Swedish Hospital at the time of birth.

On 12 December 1973, all physical evidence for the Seattle Police Department was delivered to Mr. George Ishii by the undersigned with the assistance of Deputy Totten. The evidence was personally accepted by Mr. George Ishii on this date at approximately 1645 hours. On this date, the undersigned received the birth certificate which had the footprints of

101C

on it. The birth certificate was received from Deputy Paul

73-17592-12

Barclift while in Seattle, Washington.

On 13 December 1973, the undersigned attempted to photograph the birth certificate of **101C** [REDACTED]. In addition, the undersigned attempted to identify the footprints of the deceased with the footprints on the birth certificate, but it was not possible. There were no visible ridges on the birth certificate footprints to make identification with the footprints taken of the deceased by the undersigned.

H. V. Baesen, Sgt.
Thurston County
Sheriff's Department

TO: DONALD SNOOK, CAPTAIN
Detective Bureau

FROM: H. V. BAASEN, LIEUTENANT
Detective Bureau

RE: CASE NO. 73-17592-12
Homicide Victim - 101C
HANDWRITING REPORT

HANDWRITING QUESTIONED:

Compare anonymous letter and envelope dated 14 December 1973 naming alleged suspect "Emile Torence" against known handwriting submitted in notebook of Delight Kraus.

QUESTIONED DOCUMENTS

- Q-1 Envelope postmarked 14 December 1973
- Q-2 One 4-page letter, anonymous.

KNOWN DOCUMENTS

- K-1 Notebook of Delight Kraus

OPINION:

It is the opinion of examiner that the handwriting on the face of the letter is the same writing of that of the letter written therein.

The handwriting of the letter and the envelope is not identical with the handwriting in the notebook of Delight Kraus.

WIND COLUMNS--

Directions are those from which the wind blows, indicated in terms of degrees from true North; 18 for South; 27 for West. Entry of 00 in the direction column indicates calm.

Speed is expressed in knots; multiply by 1.15 to convert to miles per hour.

[illegible]

HOURLY PRECIPITATION (Water equivalent in inches)

[illegible]

- Extreme temperatures for the month. May be the last of more than one occurrence.
- Below zero temperature or negative departure from normal.
- V 70° at Alaskan stations.

Also on an earlier date, or date.
Heavy fog restricts visibility to $\frac{1}{4}$ mile or less.
In the Hourly Precipitation table and in columns
9, 10, and 11 indicates an amount too small to
measure.

measure.
The season for degree days begins with July for heating and with May for cooling.
Data in columns 12, 13, 14, and 15 are based on 8 observations per day at 8-hour intervals.
Wind directions are those from which the wind blows. Resultant wind is the vector sum of wind directions and speeds divided by the number of observations.
Figures for directions are tens of degrees from true North: 14 = East, 18 = South, 27 = West, 36 = North, and 45 = Calm. When directions are in tens of degrees (e.g., 14 = East), Col. 16 are the fastest observed 1-minute speeds. If the "4" appears in Col. 17, speeds are gusts.

Any errors detected will be corrected and changes in summary data will be annotated in the annual summary.

Subscription Price: Local Climatological Data \$ 2.00 per year including annual issue if published, foreign mailing: 75¢ extra. Single copy: 20¢ for monthly issue; 15¢ for annual summary. Make checks payable to Department of Commerce, NOAA. Send payments and orders to National Climatic Center, Federal Building, Asheville, North Carolina 28801.

I certify that this is an official publication of the National Oceanic and Atmospheric Administration, and is compiled from records on file at the National Climatic Center, Asheville, North Carolina 28801.

William H. Haggard
Director, National Climatic Center

CRIME LABORATORY REPORT

AGENCY: Thurston County Sheriff's Office
OFFICER: Sgt. Phillips
VICTIM: 101C
SUSPECT: Unknown

LABORATORY NO.: 386-0808
AGENCY NO.: 73-17592-12
REQUEST NO.: 1 & 3

Items Examined:

14. One off-white blouse with heavy staining on the front
44. Gauze material bearing an orangish stain, reported to be a vaginal swab sample from 101C
53. One vial with red staining dried on the inside surface, reported to be blood from 101C
The vial also contains a syringe needle.

Examination Procedures and Results:

A cursory exam for blood was performed on the blouse. Stains, which appeared to be mixed with soil, gave positive indications for blood when tested with phenolphthalin. No further testing was performed on this item.

The red staining found inside item 53 also gave positive indications for blood when tested with phenolphthalin. A portion of the staining found inside the vial of item 53 was removed and extracted for DNA content.

Seimen was identified on the vaginal sample via microscopic identification of spermatozoa. A cutting was removed and extracted for DNA using a procedure which attempts to separate non-spermatozoa DNA away from the spermatozoa cells by generating two sample fractions (termed sperm fraction and non-sperm fraction).

The extracted samples were quantified for human DNA levels, then amplified by the PCR (polymerase chain reaction) process using the Applied Biosystems AmpFISTR® Profiler Plus™ and COfiler™ amplification kits. The resulting STR (short tandem repeat) DNA products were analyzed using an ABI Prism™ 310 capillary electrophoresis unit.

The following DNA sites were examined during this analysis:

D3S1358	D8S1179	TH01	D5S818
vWA	D21S11	TPOX	D13S317
FGA	D18S51	CSF1PO	D7S820
D16S539	Amelogenin (a gender-determination site)

AGENCY: Thurston County Sheriff's Office
OFFICER: Sgt. Phillips
VICTIM: 101C
SUSPECT: Unknown

LABORATORY NO.: 386-0808
AGENCY NO.: 73-17592-12
REQUEST NO.: 1 & 3

Conclusions:

The major DNA profile obtained from the sperm fraction of the vaginal sample was searched against the convicted felon databank maintained by the WSP Crime Laboratory. No matches were found between it and those in the databank. This profile will be compared to the databank routinely as more profiles are entered. It will also be searched against a national database. A separate report will be issued if a match is found in a subsequent search.

No complete profile was obtained from the reference blood sample of 101C for comparison purposes at this time.

Disposition of Evidence:

DNA extracts remaining from the vaginal swab gauze will be stored frozen at the WSP Tacoma Crime Laboratory. Other items submitted will be stored in the laboratory vault pending return to the Thurston County Sheriff's Office.

Glossary:

Capillary Electrophoresis: A method of separating DNA fragments by size.

DNA (deoxyribonucleic acid): Genetic material found in every nucleated cell.

PCR: (polymerase chain reaction): A process used to make many copies of short target segments of DNA which can subsequently be typed. This process is commonly referred to as "DNA amplification".

Phenolphthalein: A chemical test used to indicate the possible presence of blood.

STR (short tandem repeat): Short segments of DNA, of a particular sequence, which is repeated a variable number of times. STR's are differentiated and categorized based on size.

CRIME LABORATORY REPORT

AGENCY: Thurston County Sheriff's Office
OFFICER: Sgt. Gordon Phillips
VICTIM: 101C
SUSPECT: Cosden, William E. Jr.

LABORATORY NO.: 386-000808
AGENCY NO.: 73-17592-12
REQUEST NO.: 0004

Items Examined:

90. Two vials of red liquid, reported to be a reference blood sample from William Cosden.

Examination Procedures and Results:

A portion of the reference blood sample was preserved in the form of dried stains. A cutting from one stain was removed and extracted for DNA content.

The reference sample extract was quantified for human DNA levels, then amplified by the PCR (polymerase chain reaction) process using the Applied Biosystems AmpFISTR® Profiler Plus™ and Cofiler™ amplification kits. The resulting amplified STR (short tandem repeat) DNA products were analyzed using an ABI Prism™ 310 capillary electrophoresis unit.

The following DNA sites were examined during this analysis:

D3S1358	D8S1179	TH01	D5S818
vWA	D21S11	TPOX	D13S317
FGA	D18S51	CSF1PO	D7S820
D16S539	Amelogenin (a gender-determination site)		

Conclusions:

An interpretable DNA profile for all of the sites examined was obtained from the reference blood sample of Cosden. This profile was compared to a profile generated previously from a sperm fraction extract of a vaginal swab reportedly collected from 101C please see WSP Report # 386-0808, Request 1 & 3, dated 9/26/01).

The DNA profile from William Cosden matches the profile of the major DNA component recovered from the sperm fraction of the vaginal swab at all of the sites examined. It can be estimated that not more than one person in the world's population, excluding identical twins, would have this profile [using frequency data compiled by the FBI and published in the Journal of Forensic Sciences 2001, 46 (3)].

CRIME LABORATORY REPORT

Agency: Thurston County Sheriff's Office

Laboratory No. 186-2827

Suspect: Cosden, William E. Jr.

Agency Case No. 73-17592-12

Victim:

101C

Officer: Sergeant Paul H. Barclift

Received and examined the following items:

- 1) One transparent plastic bag tagged "73-17592-12 #44 vaginal substance" containing one white gauze pad with an orange-brown stain on it. The stain was found to contain low levels of acid phosphatase (an enzyme found in high concentrations in semen and in low concentrations in vaginal secretions). No P30 (a semen specific protein) was found in the sample; however, spermatozoa heads were identified microscopically. The sample was also tested for the presence of ABH(O) antigenic substances with the H(O) antigen being detected.
- 2) One transparent plastic bag tagged "73-17592-12 #45 control swab for vaginal substance" containing one piece of white gauze material. A piece of this material was used as a control sample for Item #44. No semen was found on the portion tested.
- 3) One microscope slide box labeled "73-17592-12 46 Vag Smears" containing five (5) microscope slides each with a smear on one side.
- 4) One microscope slide box labeled "73-17592-12 47 anal smears" containing four (4) microscope slides each with a smear on one side.
- 5) One microscope slide box labeled "73-17592-12 48 oral smears" containing four (4) microscope slides each with a smear on one side.

One slide was chosen at random from each of the above three (3) items (46, 47, 48) and stained with a chemical stain. The slides were examined microscopically. Spermatozoa heads were identified in Item 48 (vaginal smear). Spermatozoa were not conclusively identified on Item 47 (anal smear) and no spermatozoa were found on Item 46 (oral smear). A second slide was chosen at random from each of the three items (46, 47, 48). The residue on each of these slides was washed off with water. These washings were tested for acid phosphatase, P30 and ABH(O) antigenic substances. The acid phosphatase levels on all three (3) items were very low and no P30 was detected in any of the samples. No ABH(O) antigenic substances were detected in Items 46 (vag smear) and Item 47 (anal smear). The H(O) antigenic substance was found in the oral smear.

D. C. MacLaren
Donald C. MacLaren

Laboratory No. 186-2827

Thurston County Sheriff's Office No. 73-17592-12

Suspect: Cosden, William E. Jr.

Victim:

101C

Page 2 of 2

- 6) One vacutainer tube labeled "73-17592-12 #53 Blood" containing a small amount of reddish-brown residue reported to be an autopsy blood sample from 101C. The blood was examined for ABO blood type with the H antigen being detected.
- 7) One sealed manila envelope labeled "73-17592-12 Known Saliva & Blood Sample of William E. Cosden Jr." containing two (2) manila envelopes:
 - A) One manila envelope containing two (2) vacutainer tubes each holding a red liquid reported to be a blood sample from William E. Cosden Jr. One tube was selected at random and two (2) blood components were typed with the following results:

ABO - Group B
Lewis - a negative, b positive
 - B) One manila envelope containing one white gauze pad bearing a residue reported to be a saliva sample from William E. Cosden Jr. The saliva sample was tested for ABH antigenic substances with the B and H antigens being detected.

Conclusions:

- 1) The presence of the H(O) antigen in the autopsy blood sample from 101C indicates that her ABO blood type was Group O. The presence of the H(O) antigenic substance in the oral smear (Item 48) indicates that she was a Group O secretor.
- 2) Low concentrations of semen were found on the vaginal sample (Item #44). This sample was also found to contain the H antigenic substance. Since 101C was of ABO Group O and was probably a secretor, the H antigenic substance detected may be from her vaginal secretions, from the semen, or from a mixture of both.
- 3) Because the semen concentration on the vaginal sample (Item #44) was so low, no useful information as to the ABO type or the secretor status of the semen donor could be obtained.
- 4) William E. Cosden Jr. is a Group B secretor. Since no information was obtained from the vaginal sample (Item #44) as to the ABO type and secretor status of the semen donor, William E. Cosden Jr. cannot be excluded as the source of that sample.

CRIME LABORATORY REPORT

Agency: Thurston County Sheriff's Office

Laboratory No. 186-2827

Suspect: Cosden, William E. Jr.

Victim:

101C

Agency Case No. 73-17592-12

Officer: Sgt. Paul H. Barclift

Clothing Exam - **101C** Items #16, 19, 18, 14, 15, 13.

101C right shoe (Item #16) has a deposit of light soil on the surface with no leaf debris observed on the tread. The deep grooves between the treads are clean in appearance. The shoes appear relatively new. This indicates that the shoes had little contact with muddy areas or extended use in the woods where heavy vegetation would be observed.

The jeans (Item #18), underpants (Item #19), and jacket (Item #13) pockets have been slashed with the blade of a knife or other sharp-edged instrument. The jeans and underpants are both cut in the back; the jeans are cut from the waist to the crotch, the underpants on either side of the buttocks. There was no soil or debris observed in the cuts. The jeans are heavily soiled in front from just below the waist to just below the knees. There is little soiling in the back in comparison to the front however, there is some on the inner right leg.

Multiple hairs were recovered from the jacket (Item #13) by the officers (Item #26) and the criminalist. These hairs exhibit the same microscopic characteristics as **101C** head hair standards and could have originated from her. Also, these hairs are cut at both ends and a combination of cutting and tearing was observed at the proximal end (root end) of the hair.

Bloodstains were observed on the jacket collar (Item #13).

Summary:

According to conversations with Thurston County Sheriff's Office Sgt. Paul Barclift, **101C** was located face down in the woods and it was in question as to whether her throat was cut or she was strangled.

The cut hairs off the jacket supports the hypothesis that her throat was cut. Also, the bloodstain pattern on her blouse indicates she was on her back in a prone position at the time of the bleeding.

Lynn D. McIntyre

Laboratory Case No. 186-2827
Agency: Thurston County Sheriff's Office
Agency Case No. 73-17592-12
Suspect: Cosden, William F. Jr.
Victim: 101C
Officer: Sgt. Paul H. Barclift

The condition of her jeans (the mud in the front and the clean cuts in the back) as well as the condition of her shoe suggests she did not walk but was transported to the woods after her throat was cut as there are no indications she was on her back at the site.

It is not possible to determine at what point the cuts in the jeans, underpants and jacket occurred.

Hairs - Items #55, 56, 26, Hairs from Items #37, 18, 31/32, 14, 42, 13, 58, 19, 100, 57.

The hairs from the following items exhibit the same microscopic characteristics as 101C head and pubic hair standards (Item #57) and could have originated from her:

- #14 Shirt - 5 hairs
- #18 Jeans - 2 hairs
- #13/26 Coat - 15 hairs (please refer to the clothing exam section for these results)
- #31/32 Rope - 1 hair
- #37 Body bag - 1 hair
- #42 Throat area - 12 hairs
- #58 Pubic hair combings - 23 hairs

Three hairs are dissimilar to 101C head and pubic hair standards and Mr. Cosden's head, pubic and body hair standards (Item #100) and could not have come from either of them. One of the hairs is from Item #56 (from the anus) and two are from 101C pubic hair combings.

One hair from Item #5 (from 101C arm) is a grey hair which has limited microscopic characteristics suitable for comparison and is of little evidentiary value. Because Mr. Cosden's head hair standards fall within this range he can neither be suggested nor eliminated as a possible source of the hairs.

Seven short hair fragments - five from Item #13 and two from Item #14 (the shirt) and one body hair from Item #18 (jeans) are similar to 101C hair standards and she cannot be eliminated as a possible source.

Of three hairs from Item #13 (jacket), one has insufficient characteristics for comparison purposes and two are debris hairs.

Lynn D. McIntyre

Laboratory Case No. 186-2827
Agency: Thurston County Sheriff's Office
Agency Case No. 73-17592-12
Suspect: Cosden, William E. Jr.
Victim: **101C**
Officer: Sgt. Paul H. Barcliff

Twelve hairs from the items are animal hairs or wool fibers and not examined further. These originated from the following items:

- #14 Shirt - 4 animal hairs, 1 fiber
- #18 Jeans - 1 animal hair
- #13/26 Coat - 2 animal hairs
- #19 Underpants - 2 fibers
- #37 Body bag - 1 animal hair
- #56 Anus - 1 animal hair, 1 fiber

Miscellaneous Items 5, 31/32, 59, 60, 61, 62, 35, 36

Items #5 and 31/32 are pieces of three stranded natural fiber rope, cut at both ends. Item 31/32 is six and a half inches long; Item 5 is approximately two and a half inches long. The ropes were examined visually and stereomicroscopically.

Items #35 and 36 (bags from the hand) Items 60 and 61 (fingernail scrapings), Item 59 (fingernail polish of victim) were examined. No evidence of apparent significance was recovered.

Item #62, a "metal fragment from body" was examined stereomicroscopically and microscopically (magnification to 100X).

This particle is very small; it is unlikely that a source can be suggested by further testing. However, if a control sample should be available this can be submitted for comparison. Then this particle can be tested microscopically and for elemental content. Beyond that, further appropriate testing can be conducted by a laboratory specializing in very small particles.

73-17592-12

Sheriff Don Redmond

To provide you updated information on the homicide of

101C

101C 73-17592-12, the following report on status of evidence is prepared.

On December 8, 1973, evidence consisting of victim's kidney, a portion of liver, gastric contents and bile was submitted to the State Toxicologist for examination for alcohol and drugs. On January 7, 1974, the examination was completed and returned this department indicating negative on drugs and alcohol.

On December 12, 1973, evidence collected at crime scene and removed from the body was hand carried to the Seattle Police Lab. Evidence consisted of 62 items. No written report has been received to date. Lab Technician assigned this investigation is Don MacLaren. Although no written report has been received, Mr. MacLaren has been contacted either in person or by telephone on numerous occasions. Contacts and findings to date are as follows:

January 2, 1974 Personal Contact -

Advised that vaginal swab had checked positive for acid phosphatase.

January 11, 1974 Telephone Contact -

- Advised that
1. Vacuum sweepings from Krueger vehicle negative evidence of victim.
 2. Oral & anus swabs negative
 3. Blood on victim clothing-Type O
 4. Hunting knife & sheath negative blood or hair

January 15, 1974 Telephone Contact - **73-17592-12**

- Advised that
1. Two pieces of rope by victim from same piece. Rope is hemp. One piece has a hair of length and color similar to victim.
 2. Knife has blood and hair identified as animal of deer family.

January 17, 1974 Telephone Contact -

- Advised that
1. Panties - no seminal stains. Trace of blood in crotch area believed old menstrual stain. One head hair found, may be from victim. Several pubic hairs possibly from victim.
 2. Boot confirmed to be size 8.
 3. Rope found by body 3/8 inch in diameter.

February 4, 1974 Personal Contact

Advised no further information.

February 21, 1974 Telephone Contact -

Advised no further information.

Paul H. Guey

73-17592-12

December 13, 1973

On this date at 1845 hours, I received the items listed below
from Doctor William H. Bigelow, D.M.D.

One box containing seven teeth.

Two dental models, one upper and one lower.

Set of seven dental X'Rays.

PAUL H. BARCLIFT

Detective

Thurston County Sheriff's Dept.
