of Crime or Complaint	Day of Week	Date of this Report	Case No.
ATTEMPT TO LOCATE Dean Kent	FRIDAY	NOV. 15, 1974	9340-74

Mr. Allen, the assistant principal of Woods Cross High School contacted this officer and stated that he might have students at that school who might have information concerning this case, which might be of interest to this department.

Mr. ALLEN was contacted by this officer assisted by Officer J.R. Hunt of the Davis County Sheriff's Office. Mr. ALLEN stated that he had spoken with Doug CHADWICK and George FREESTONE. Doug was brought to the office and questioned by us. [REDACTED]

Doug stated that last Friday night he had heard that a man answering the description of the man in the composite (#1) had been seen over in the area of 400 North in a park. Doug stated that he had not seen the individual in person, merely heard that a man of this description had been over there.

George FREESTONE was then called into the office and interviewed. He was heard to remark that he knows the "dude" on the composite drawing, which was being shown around Woods Cross High by Tricia KENT, Debra's sister. When one of the teachers, Mrs. GORDON, asked him what the individual's name was, she was told that it was none of their business.

When George was interviewed he confessed to these officers that he was merely acting and in fact did not know the name of the individual. He told us that he had seen an individual who resembled the picture, out behind the high school attempting to sell dope to the students. However he did not have any other reason to believe that this individual might be a suspect. He was reprimanded by this officer for insinuating that he might personally know the individual on the poster and for wasting our time.

George did offer the information then that the individual was dressed in a brown suit, 5'8" or 5'9", wearing a goatee, brown hair. George lives at [REDACTED]

I then talked to a Gary METTLER, who attends Woods Cross High, lives at an address unknown to me. Gary stated that the composite looked almost identical to the subject that George was talking about. He stated that definitely the man did not have a goatee. Gary stated that his hair was parted a little more to the middle and looked freshly styled. He stated that the individual was very neat in appearance but could not remember a description of the clothing. Gary stated that he had also heard that this individual was seen in the area of the 400 North park and was at that time reportedly driving a smaller white car described as both a Nova and a VW. Gary stated that he spoke personally with the individual at the same time that George FREESTONE did and stated most emphatically that he did not have a goatee. He did not know why George would

lie about this but he stated that he must be, as he did see the individual as close or closer than he did.

It is possibly that George is trying to conceal the real description of the individual however in further interviews, George did not change his description and insisted that the individual was wearing a goatee.
