BLOOD      HOMICIDE      10 NOV 72      1 of 1  
Type of Examination      Classification of Offense      Offense Date      Page No.

On 30 OCT 74, at 1230, Laboratory records indicate that Inv. John Fragola  
of the Syracuse Police Crime Laboratory, received from Dr. Martin Hilfinger, M.E.,  
the evidence listed below which was put tissue from scalp.  
Without disturbing any seal present, a unique laboratory evidence number was assigned,  
and the evidence was put in lab. refrigerator & analyzed by me on 7 NOV 74 :

EVIDENCE: A brown glass bottle with tag attached labeled "Tissue,  
right parietal, scalp [REDACTED] M.F. Hilfinger, M.E."  
The bottle contained hair and apparent scalp tissue.

REQUEST: Examine for presence of blood.

RESULT: A chemical test was positive for blood.

RW: BTL

Medical Examiner - Records - CID - Laboratory - District Attorney

Immediately after analysis, the evidence was put in lab. evid. room.

On 30 OCT 72, at 1230, Laboratory records indicate that P.O. John F. Fragola  
of the Syracuse Police Crime Laboratory, received from M.F. Hilfinger, M.E.,  
the evidence listed below which was a sleeveless sweater.

Without disturbing any seal present, a unique laboratory evidence number was assigned,  
and the evidence was sealed & given to R. Wilson & analyzed by me on 4-5 NOV 74.

EVIDENCE: A sleeveless sweater with black trim at neck, shoulder, and  
waist band. The manufacturer's label was: Express, made  
in England, acrylic. There was a considerable amount of  
dirt adhering to the fabric.

REQUEST: Examination for cuts and blood.

RESULTS:

1. A positive chemical test for blood was obtained on  
several locations.
2. There were four apparent cuts on the sweater, located  
as follows:
  - A. On right side about 5 inches from top of sweater,  
in front, shoulder area.
  - B. On right side about 7 inches from top of sweater  
in front, shoulder area.
  - C. On left side about 9 inches from bottom of  
sweater near left edge of sweater as observed  
if sweater lies flat.  
  
This cut was approximately 1/2 inch long.
  - D. An apparent cut located about 3/4" below cut  
C and approximately one inch long.
