

Chapter IV

CONTINUED

(107)

It was about 6:00 P.M. when Dave and June returned from talking with the kids. when Pet saw the kids he went silent and just looked at June. he then said I thought we decided that all the kids were to be at least 10 years old June said you didn't think I could just leave them there I had to take them. look at them aren't they cute, and there are eleven kids and one extra a man who will be a real help on the farm and he can stay in the tack room he's 30 years old and big and very strong. he said that he would work for room & board. he couldn't get into the army because he's a little short. Pet said I'll take him out to the barn after he eats and there are two boys who are 15 years old their names are Ted & Tom and they can be of help around here and help make your work easier. Pet looked like he was softening up a little. June said let me introduce you to the boys this is Bill 8 years old Tom 9 years old and Harry 7 years old and these are the girls this is Janet 10 years old, Rita 9 years old, Collins 8 years old, Karen 9 years old, Darlene 6 years old, and Diana 8 years old. I thought we only were going to get six kids June said, well we do have extra room now that we have more bed space. Dave said don't look at me I just drove the truck and here you can have this back (GON) Pet took it and put it in his room. Dave said sorry but I really tired I'll grab something to eat but I've got to get to bed. wake me up in about two weeks and all started laughing and I told Dave that I was really proud of him and get some sleep after dinner we all went into the living room and talked. I said hello to the new handy man John and I remembered a hand saw named John and a thing called a saw. I went to the store.

Pet took John out to the tack room and got him settled in and showed him around and told John what he expected from him. when Pet came back in from the barn he said I think he will be ok. I asked Pet if he was going to take a bath with us. Pet said no not tonight. I'm feeling tired I've had enough of a shake for one day. as we sat around the living room the smaller kids keep looking at the Christmas tree and then one of the kids asked does santa come here to. one of the other kids said of course he does see the snow that for his sleep. I said that we've had some surprises tonight (the other ones I was talking about the younger kids.) I said that coming to a new place was scary at first and I was asking the older girls to stay with the younger kids for a few days until they get settled in. to also sleep with them and make them feel comfortable. rose, anna, jam, and sue started gathering the kids to them and they took great pleasure in being asked to help take care of the younger kids. I told ted and tom that they weren't that young and that they would be with me. June said it looks like everyone is taken care of and that I should go to bed and take care of Pet I think he wants to talk to me. I was snubbing and thinking yes I bet he wants to talk to you but I didn't say a thing. I said its time for a bath and the girls all got up and ushered the kids along with them. ted and tom said well just wait until after the kid get done. I said that not how we take baths and I took them by the hand and took them along to the basement with me everyone had been shown where the out house was at and how to use the water closet. when we got down to the basement it was warm from the fire in the stove heating the tub water. sue and rose took

turns washing and helping there kids into the tub then came
 anna and Jan doing there kids the same first washing then getting
 them into the tub I took my cloth off and told Ted & Tom to do
 the same they hesitated at first then they did the same. as
 Ted and Tom and myself got into the tub the water level rose
 up making the older girls put the smaller kids on there laps
 when I sat down I had Ted on one side and Tom on the other side
 of me I told the girls to do the talking this time and I layed back
 and listened to them they were doing a real good job. I put
 one arm around Tom's neck and the other around Ted's neck and
 layed back and relaxed. soon I could feel both Ted and Tom starting
 to relax they were both sitting close to me. I put one leg over
 one of there legs and I said how do I feel and soon I had
 two different hands on me first they were rubbing and
 squeezing my tits and one leg one they took turns feeling
 my legs and my pussy and it felt good. I heard the girls
 gathering there kids together and taking them out of the tub
 and going upstairs and to bed. soon only the three of us
 were left in the basement. I said I think you two have
 been here before. I said I've got to get out of the tub
 as I got out of the tub both Ted and Tom were next
 to me and they both had hard cocks. I said I bet you two
 want to fuck don't you. they both said yes. I went over
 to a pile of blankets on the shelf and layed them down on
 the floor and then layed down on them looking up at them
 I said what are you waiting for both of them were laying
 next to me kissing me all over and touching me everywhere
 soon one of them was sucking on my pussy and licking

deep inside of my pussy. he then got on top of me and started fucking me so hard he cummed and he got up and the other one started fucking me and he started cumming. I told them to keep again only this time go slow after about four hours they were too tired to fuck any longer. So we got back into the bed and washed off again. I took them up to my bedroom and he got into bed. there was just Dave, Tom, Ted and myself in bed together and I felt satisfied with myself. these chicks were about the same as Paula and they felt good. two days later both rose and Jan returned to sleep with us now ~~there~~ we were six and we all enjoyed each other.

At this point Mary stopped telling me about how her family came together and what was going on in the house. Mary started again at the age of 21. she had two children one boy and one girl. she never said who the father was. but she led me to believe she really wasn't sure who he was. she said that June had a ~~boy~~ baby boy and that Rose and Jan both had babies and Anna had twins boys Sue and Paul got married and moved to Denver and they had a baby boy. Mary said that Dave left because he couldn't get over the fact that she (Mary) wouldn't fuck only him. Ted joined the army the next year and was killed on D-day in France and Bill and Harry went off to school in billing. all the smaller children the girls are still there and Tim was 17 now and determined to be a farmer. Pet was 38 now and he was still the same. Tom spends most of his extra time with the girls

at home and I think there are two who are present by him
I don't fuck hardly any more with the exception of Pet and
Tom from time to time and a couple of times with Tim.
all of the children mine and all the other children ^{and} raised as if
everyone was there mother. I've been thinking of lately if John
would be available to have love with me. he so quiet all the
time.

Summer of margo 21 year

I got another diary for myself the other one was full. and for several
year I didn't keep a diary but now I thought it would be nice
to keep one again.

I've been feeling lonely lately yes I have my children and Jane and Pet
and all the others there to old to be calling them children so I will
call them my brother and sisters and use the word children for
the children. I've been spending more time out around the farm
walking and planting and weeding in the garden. John is quiet
and hardly says anything he works really hard and does a real
good job. he's about 38 years old now and I've never seen him
with a woman. he only talks to me if I speak to him
first and he calls me miss margo. I've made up my mind that
I wanted John to fuck me. I went out to the barn and I was
swearing only my robe and John was in bed already and it was
only about 9:00 clock P.M. as I came into the back room where
John sleep he jumped as if I surprised him. I said did I scare
you. John said miss margo I was thinking about going down
and washing swimming. I said I'll go with you. he said

no head already taken a bath. I came over and sat down on the side of his bed and said John I need your help. he said I'll get dressed and help you now. I put my hand on his shoulder and said no not that kind of help. he said I'll do anything for you miss mary. I said John I need to fuck a man and I want you to fuck me tonight. now! he said but miss mary it would hurt you and I don't want to hurt you. I'm your friend. I said John I'm asking you to please fuck me now I need your help. well you do this for me he seemed to be looking down and he said ok miss mary I'll do what you want. but I don't want to hurt you. I said do you mean that your dick is to big. he said yes I gently reached down and took a hold of his dick it was big bigger than I ever felt or seen. I told John how about if we use some apol grease to make it easier for us my mind was going back to the first time I had fucked it a long time ago. John said ok and he went and got the can. I took just a little bit and put it up inside of my pussy and a little on his dick there wasn't that much used. I thought I could get him inside of me with out the grease. but the grease was to make John feel better. I asked John to make me a promise not to take his dick out of me until I tell him to and if I fall to sleep or faint not to stop fucking me I told him that I wanted him in me all night he said miss mary I promise. I was telling myself now he won't stop if I cry out with pleasure or faint he will still fuck me. I said John move over and get on top of me I told him that he could touch me anywhere he wanted. he said yes won't be mad at me

no John I will only be mad if you stop or take your
 dick out of me. John said I promise John kissed my
 tits and rubbed them he acted like a dog with a bowl of
 food after not eating for a week. he was getting more
 and more excited. and my pussy was on fire from John
 kissing and rubbing I couldn't take it anymore I told
 John fuck me please John put his dick against my
 pussy and started slowly pushing I could feel the
 pressure of John's dick pushing against me then all of a
 sudden John's dick head was inside of me he drove his
 dick all the way into me I could not move or speak
 his dick must be as big as a fence post I started
 getting dizzy and my head felt like it was going to
 explode the last thing I remember is John cumming
 down my throat and coming out of me and running down to my
 butt. as I woke up John was still inside of me and he was
 slowly pulling out and pushing back into me he seemed
 to be moving easier and the feeling was making my body
 was racked with spasms one after the other this went
 on and on one explosion after another I felt drenched
 at twenty two explosions I passed out again I woke up
 again and it was getting light outside John was still
 inside of me. but he was past out I tried to roll him
 off of me but I couldn't he was too big and heavy. and
 I seemed like I had no strength left in me. I felt weak
 and light-headed. I layed there trying to clear my head
 soon I felt John growing inside of me again he was full
 again. I got John's attention and asked him to stop

and let me up he rolled over on his back. and his weight was off of me and I could breath again I tried to get up at that point I realized that John was stuck inside of me every time I tried to get up I got a pain in my pussy and I had to fall back on to John. John asked what was the matter I told him that we were stuck together and the only way that I could think of was to start fucking again and when we cummed for him to take it out then. I started rotating my hips pushing my pussy down on John dick slowly I felt both John and I started cumming and as he ejaculated and I pulled away from him his dick was at least 12" long and as big around as my ankle. and as I was pushing myself off of John's dick my pussy seemed like it didn't want to let go of his dick and as the head of John's dick came out of me there was a funny popping sound. the suction was hard to break. John held me on his lap for a long time and then he said miss Mary are you mad at me did I hurt you. I put my arms around John and kissed him. and said no you didn't hurt me I liked that did you like it to. John said yes I liked it it was nice John said do you want to do it some more I said yes. but not right now but yes I do want to do this a lot more and thank you for fucking me that was the best I've ever had. that brought a big smile to John's face. John said you come back soon and we fuck some more John then asked me if I was still his friend. I told him we are more then friends and we always will be. ok John said. as I got off

of John legs I found that I didn't have control of my legs
 and I felt weak I asked John to give me my robe and for
 him to get dressed he started rubbing my legs first one
 then the other slowly the feeling was coming back to my
 legs and I could stand but John carried me up to my
 bedroom and put me in bed. as we came in the door
 of the house June asked did I hurt myself I said sure John
 is just carrying me to my room I felt weak and I was
 having a spasm in my legs June said can I do anything
 I said no I just need some sleep then I'll be ok.
 John put me in bed and I gave him a big kiss then I rolled
 over and went to sleep I had wild dreams and all of them were
 around John and me fucking I woke up laughing several times
 it was about 4:00 P.M. when June came into my room to see how
 I felt, if my legs had stopped hurting me. I said June I told
 you that because the kids were around also because
 I didn't want John to feel bad. the truth is I made John
 fuck me last night and it was so good I stayed with
 him all night. my legs went to sleep from fucking on
 his bed. you know his bed is really small and it hurt
 my legs June said ok in that case you must find a
 better bed. June will you do something for me June first
 looked at me and said I bet you are going to ask me
 to talk to Pet. like see rather to get John a bigger bed
 or have John move in with you? which one is it, I said
 move in with me June said is he that good. I told June
 what happened and her eyes got as big as saucers
 I don't believe it, how big. I told her and her mouth

just stayed open 12" long and as big around as my ankle
 and the head was a little bigger. June said I'll have Pet
 move him up right away I've got to see this. June said
 we mustn't scare him he's so afraid of hunting anyone
 were got to go slowly. but do have Pet move him up right
 away. June said it done. I got up and washed up and got
 dressed I went down and got something to eat out of the root cellar
 a couple of apples. boy did they taste good. I heard some noise
 upstairs and I went up to see what was going on John had
 his belongings with him and he said that Mr. Pet told him
 to move up to the house because he wanted to rebuild the
 tack room in the barn. I said there is only one room open
 and it means that you would need to share the room with
 that person John said that will be ok. I said come on up
 stairs and I'll show you your room. I took John into my
 room and said here you are you need to share the room
 with me. John said would that be ok with Mr. Pet. I said oh
 I think it will be ok with him. John said good I don't want
 to get Mr. Pet mad at me. he's the boss. I told John to put
 his things away and get ready for dinner. he got busy
 putting everything away and then went down stairs to wash up.
 as John was washing Pet came in to wash up too John
 said Mr. Pet is it ok with you if I share a room with
 miss Mary she said it would be ok John stood there
 waiting and then Pet said ~~yes~~ yes I think that would
 be a good place for you to stay. John said good
 I like miss Mary she's my friend. Pet said come on
 John lets eat dinner. we all wanted to leave but we didn't

after dinner we sat around the living room listening to the
 radio about 7:00 P.M. I asked John if he would like to go to bed
 now. yes I have to get up early for work. as we went upstairs
 I told Pet John might be a little late tomorrow. he said
 I thought so said Pet. We went into my bedroom and got undressed
 and we got into bed. I asked John if he would fuck me again
 he said that he would like that. I said that last night
 was the best sex I've ever had and I would like to have sex with
 him all the time. John said I would like that too. but what if
 Pet finds out. If Pet finds out I'll just tell him that I love
 you and I want to fuck you and he will say ok he happy.
 would he really say that Mary. I said yes he would. ok like
 fuck but remember let me know if I hurt you. I said you will
 not hurt me. I said like this I put my pussy in John's face
 and I started sucking on his dick this was really amazing. his
 dick was as large when it hung limp as Pete's when he was hard
 and as he sucked on my pussy I watched and felt his dick
 as it grew to a size that I could never get my mouth around
 the size really amazed me. I never knew a man's dick could
 get this big or how I could fit around it. with the pleasure
 in my pussy and the dick in my hands and my mouth I started
 cumming so hard that my stomach hurt. I spit on John's dick
 and made it really wet. I said John now its time to fuck
 I hurried up and straddled his dick. I could only get his dick
 partly in and only the head. I said that we couldn't start this
 way. he asked should we do it the same way we did last night.
 I said that would probably be the best idea I layed down on the
 bed and John got on top of me. he put his dick against my pussy

again I tried to relax every part of my body slowly I could feel Johns dick easing its way into me first its head and then the head moved a little deeper then out and back in again each time John went a little deeper into me I felt like I had a fence post inside of me and the fence post keeps getting deeper into me my chest felt like he was going to push everything up to my head. I took a deep breath and let it out and at the same time I pulled John the rest of the way into me now he was all the way inside of me and soon my body started relaxing and getting up to the size of his dick he made a couple of motions and he started to cum. I felt his cum going inside of me and out of me then all the discomfort stopped and he slid easily inside of me I felt in and out in short strokes and then in longer strokes soon he was going in and out of me in long steady strokes my whole body was shaking and moving with every move of Johns body I said John dont take your dick out of me all night again he said I was hoping you would say that. do you know that you are the first girl Ive even fucked no other girls would have sex with me because I was too big and they said it would hurt them. I felt my whole body start to explode in a river of pleasure I started cumming one after another the whole world was in my pussy and I loved it. and I wanted more I couldn't stop cumming my head and my body lost all sense of time and motion I was in a dream of happiness I tingled all over and I dreamed that I was in a hot bath tub with big soap bubbles all around me and I didnt have a care in the world after a while I thought the bath water was getting cooler

and I woke up to find myself back in bed with John still deep inside of me and he was smiling at me, and he said are you alright I said Im perfect and this was even better then last time. John said there was no pain and I didnt hurt ~~you~~. I said John I love you this does not hurt me it makes me feel real good, and I never want to stop. I asked John if he was tired and wanted to rest, he said no I feel great. I said do you want to try something different John said I will do anything for you miss Mary. I said the first thing you can do is stop calling me miss Mary, call me "Mary" please? John said yes Mary, then I said John roll over on your back but keep ~~your~~ dick inside of me, he did and now Im on top. I said make sure that you stay inside of me now I want you to help me get into a sitting position he did over my legs were straight out to the side of me. now move me around until Im facing the other way John took one of my legs and passed it over his head and then he took ahold of my hips and my leg and slowly turned me around until I was facing toward Johns feet. I told John to put two pillows one on top of the other on the bed and then roll over so my hips were laying on top of the pillows when this was done I told John to rub my tits and stomach as much as he wanted and fuck me some more. I could feel John dick getting harder again, and it seemed to be getting bigger and longer then before. Johns hands were rough and hard from hard work and the way he squeezed and rubbed my tits so good.

want to cry out in pleasure or in pain. I don't know
 which one I liked best. and as John filled my pussy with
 his beautiful dick this also felt great it seemed his dick was
 touching places he had not touched before in side of me. I told
 John how good it felt. he said I like this to. all night we
 fucked until we both passed out in exhaustion neither of us
 could move any more. the feeling had come over me several
 times that night of the repeated cumming and the hot bath
 with lots of big bubbles and as I sleep with John inside of
 me I felt happy and safe and loved for the first time
 in a really long time. and that felt good too. the
 next morning we woke up feeling like we were on top of the
 world. I asked John to stay inside of me and at the same
 time to hold onto me and get out of bed. he did this I said
 to stand facing the bed. and help me to kneel on the bed.
 after that was done I told John that I wanted to lay my
 head and arms on the bed but for him to remain standing
 on the floor this he also did. I was kneeling on the bed and
 my head and arms and tite were on the bed also and John
 had his dick inside of my pussy. I told John to take
 hold of my hips and start fucking me slowly as John pulled
 backward my insides felt like he was pulling them out also
 and when he pushed back in I thought he was going to push
 me thru the bottom of the bed after a few min. John started
 cumming and a shot of warm cum hit me inside my
 pussy and it felt like this cum was going to run out
 my ears. as John pushed in again I could feel his
 cum leaking out of me. Now he was sliding early inside of

me and this felt a whole lot better, my own body was starting to scream at me to keep to cum then I was cumming and John was fucking me faster and faster deeper and deeper my whole body exploded and I started cumming over and over again and again I couldn't catch my breath there was a buzzing in my ears my mind kept saying more more at that point I must have fainted but when I came to John was still fucking me and then he exploded in my pussy again and I was in the warm bath tub again with those big soapy bubbles I felt John stop I asked him why he stopped and he said miss Jane. I look around and Jane was standing next to John. I said John show miss Jane how we like to fuck. John started fucking me some more and then I exploded again. I told John to take his dick out of me slowly and to let miss Jane see how good you are to me I felt John slowly take his dick out of my pussy and as the head came out that funny popping sound was made again, and I felt empty again and that didn't feel good. as I turned around Junes eyes and mouth were open and the expression was one of disbelief and wonder. she just stood there and looked. I wanted to laugh but instead I told John to wash up and get something to eat and that I would talk to him later and to do a good days work. also I said John I love you and I'll see you tonight bye. I wanted for Jane to say something but she left the room with that same look on her face and then I laughed to myself slowly I got up and put my robe on and went downstairs to take a bath.

after I came back to my room. I felt happy like when I was a young
 girl swimming with dad and John in the pond and I remembered the
 time when dad said that I was starting to fill out and I thought
 he meant I was getting fat and how I stood in front of my
 mirror looking to see if I was getting fat how I used the tape
 measure to see how fat I was I decided to measure myself again
 I got the tape measure out and started measuring myself.
 Chest $39\frac{1}{2}$ ", hips 31", waist 22". I then went over to the door frame
 and saw the old mark that I had made before to see how tall I
 was. so I stood against the door and made another mark and
 measured that to the floor $5'3\frac{1}{2}$ " tall I put my robe back on
 and went down stairs and weighed myself 122 lb. I said to my-
 self that not bad, here I am 21 years old I've had two children
 I've been fucking since I was 13 years old now I have a man
 who has a really big dick and we fuck all of the time
 and I'm really looking good. I got dressed and went outside
 to get some sun. I went walking down to the lake pond and
 Jane was laying on a blanket naked getting some sun also
 as I looked at her she had about the same figure as I did
 maybe a little bigger in the waist not much maybe 6 or 7 lb heavier
 and she was 40 years old. I said to myself I hope I look that
 good when I'm 40 years old. everyone except Pet and myself
 think Jane and I are sisters but Pet and I know that Jane
 is my mother even Jane doesn't know that she ever had a
 daughter. I wonder if she will ever remember dad's death in the
 war and remember that the man that she calls Pet my dad's
 name is really a hired hand hired by dad when he went
 to war.

I love Jane and she loves me I think that if she hadn't lost her mind when dad died, that she wouldn't be here ~~now~~ she would have probably died, but now we have a loving relation. ship and I believe we would never have had if she hadn't trap the hired hand as dad. So I'm happy for that also.

I walked down to where Jane was laying and said is there any room on the blanket for me. Jane said yes I was hoping you would come out here I would like to talk to you. I said about John she said yes, Jane said I'm sorry for walking in on you this morning. But when I saw how the two of you were fucking I was curious just how big he really was and when he took his dick out of you I couldn't believe a man could have a dick that big. or that you could get something that big inside of you. does it hurt you. I said no it does feel uncomfortable for a little while until he came then everything turns to pleasure and I feel as if I'm happy inside even when of me screams more I can't get enough he is great and he is gentle to he wants to please me and make me happy. and he is always very careful not to hurt me. Its funny I've never fuck a man like him its so great. and the really strange part is I really love him. I know he's older than me but I don't care I want to be with John all the time. its as if we are the only two people in the world. when we are together no one else exists for me. Jane looked at me for a long time and then said, you really do love him I've never seen you like this before but I like it. I asked Jane if she would like to fuck John to see how he feels like to her. she looked at me again and said you mean you wouldn't care.

I put my arms around Jane and hugged her and then kissed her on the lips and said I really do love John but I also love you to, and if I can make you and John happy at the same time then I would be happy also. Jane said yes I would but he so big. I said I will help you maybe the best way would be the same way it was for me the first time I fucked Pet got me drunk and I knew everything that was going on but I didnt care if it hurt or not I was totally relaxed and he fucked me until I went to sleep. of course he also used grease. yes maybe you are write maybe that the way to go. Let me think about it and I'll let you know lotta I said ok. I then asked if I could get some sex with her and she said imaged love you. and then moved over on the blanket. after dinner Jane came to me and said can we do what we talked about at the pond today I said do you mean about John Jane said yes. I said ok how about 7:00 @ Clock PM. in my room Jane said I bring everything needed I said ok. at about 6:30 John and I went to our bedroom. we got undressed and got into bed I told John that I had a surprise for him tonight and John said about fucking I said yes but not with me I think you should fuck someone else tonight but I'll be here all night with you. John didnt say anything for a few min. and then said did I hurt you. and dont you want to fuck with me anymore. I said John listen to me you didnt hurt me. and I want to fuck you all the time but I was trying to show you how much I love you by getting someone else to night to fuck so you would feel better about fucking more then one

girl this way you can fuck another girl and when you do fuck her I will know that you love me John said Mary I do love you and I will do anything to make you happy. I said it is Miss Jane that you are to fuck tonight and dont worry Mr. Pet said its ok. at 100 P.M. Jane came to my room wearing her robe only. she had a bottle of whiskey and a jar of something. Jane came in and took off her robe and sat on the bed. she then handed John and me a glass then poured us a glass of whiskey on one for herself. she said that she had already had one glass also she chose to use lard instead of grease. I thought yes that would be better than grease. I told Jane that I had told John about tonight and that it is ok with me and Pet. Jane said that is right Jane said John I would like it if you would fuck me tonight. John said yes I will do what you ask. I told John we will do the same thing we did last night I told John to lay down on the bed and I told Jane to she had her pussy on Johns mouth really quickly and she was having the same trouble I had in sucking on Johns dick. soon Jane was cumming and John was at full size. I told John to lay down on the bed and spread his legs I then took a pillow and put it under her butt I then took some of the lard and rubbed it into her pussy and then I smeared it on Johns dick the head on down the shaft. I told John to do everything slowly and it told Jane to think of nothing but relaxing and dont move. I looked at the head of Johns dick as it touched Junes

pussy. June pussy looked small next to John's dick
 head. John started slowly pushing into June pussy by
 now John had pushed her pussy out of my sight but still
 hadn't entered her and then all of a sudden his dick
 disappeared into June's pussy she had taken all of it and
 as I looked at June's face her eyes and mouth were open
 John slowly moved in and out slowly he started cumming
 after that she relaxed and started enjoying the fucking she
 was getting. John looked over at me and I smiled and nodded
 my head yes. he then started fucking June steady with
 long strokes in and out. June started moaning and her eyes
 rolled back in her head and then her mouth opened and she
 started shaking like she was having a fit. John looked at
 me and I smiled and told him to keep going. John never
 lost a stroke. John exploded inside of her again and she stopped
 shaking and her eyes opened and she looked at the two
 of us and I smiled and said you're doing great she was
 going with John's fucking again she started shaking and
 her eyes rolled back into her head again and it looked
 like she was having a fit again. This lasted for about
 8 min. and then she stopped and looked at us again. she
 said stop and at the same time John started cumming and
 June's mouth opened and closed and she didn't say a thing. I
 told John to slowly take his dick out of her so John eased out of
 June and the sound of the pop was heard again. John layed
 down beside June and I layed down on the other side of June
 after about one hour June said thank you for stopping. I thought I had
 died. June said maybe take me down to my room I want to

sleep I'll talk to you tomorrow but I need to sleep now.
 John get dressed I put James robe on her and also put
 my robe on John carried June downstairs to her room
 and we put her to bed. I told John to go on back to bed
 and get some sleep I was going to stay here with June
 tonight I'll see you before you go to work in the morning
 I got in bed with June and put my arms around her. I thought
 that she might die. I was afraid that I had helped in killing
 my mother. how could I have done something like that I started
 crying. Pet came in and asked what was the matter I told Pet what
 happened and that I was afraid. Pet checked June and said she is
 sleeping and I don't think she in any danger of anything but sleeping
 I think she had maybe the best fuck she ever had and she wasn't
 ready for it she will be fine. pet said I would like to fuck you
 tonight I said that would be nice but your sure June is
 going to be alright Pet said yes pet said I want to fuck
 you in the butt. so would you kneel on the bed. I knelt
 on the bed and Pet put his dick into my pussy and I hardly
 felt anything in me. but when he told me to lay down on the
 bed. Pet put his wet dick into my butt and that felt real good.
 it had been a long time since I had a dick inside my butt
 I put my legs together and squeeze my butt cheeks together
 making Pet's dick feel even better. I pushed my butt up to his
 dick and Pet said oh wow now that feels real good. Pet fucked
 me hard and long and I was cumming after only a few min.
 I cummed about four times before Pet dumped his cum into my
 butt and I wanted to keep fucking. but Pet was worn out
 from fucking one of the girls earlier tonight.

Pet said Mary June will be alright she's just sleeping go on back to bed I'll stay with June tonight you go on back to bed and keep John happy. Mary June told me that you really love John and she said that she was really happy that you had finally found someone at last, and so am I, you see I love you to, and for happy that you have found someone to love at last. I want you to be happy, now go upstairs and fuck John's dick off, and be happy. I went up to my bedroom and John was asleep I sat on the bed, and looked at John laying there sleeping he looked so peaceful I sat there just looking at John and my head hurt. I had to walk around I needed time to think. I went outside in the early morning darkness, as I walked I came to the pond where I had spent so many hours relaxing and having fun. I sat down on the grass next to the water the moon was bright and shining on the water and the sound of the breeze blowing through the leaves of the apple trees was relaxing. I layed down on the grass, my mind was all cluttered up with all of my feelings both Pet and June said that I loved John I don't mean love as in fucking, but love as in part of me. I didn't know what they meant but I felt something different with John something that was different it felt good to be around John and when we were alone I didn't want it to end. I was asking myself is this love or is it just for a perfect dick that was attached to a man. I wasn't sure. I thought back to how I felt with all the men and boys I had fucked and how I felt about them, not the fucking, but them as a person.

as I thought I realized that I never wanted them all I
 wanted was there dick and hands and mouth on and in
 me. if one left there was always another to take his place
 shore I felt close to some of them. like Pet, or Dave or Dan.
 but I never wanted to be with them all the time and when
 Dave left I felt bad but I always felt another man would
 come along. I know John is slow in his thinking and that
 it would be easy to leave him as long as I wanted him
 but it was more with John shore he had a fabulous dick
 but John also had something I am not sure what it is but
 I want to be with him all the time I tried to think what
 I would feel if he left me how would I feel then. then I
 knew that my whole world would fall apart and want to
 die. I thought now I know what Pet and June were talking
 about. I do really love John. and I want to be with
 him always. I wanted to be with John only. I looked around
 me and the sky was starting to get light in the east.
 I got up and walked back to the house. my heart was
 pounding in my chest and I felt as light as a feather as
 I moved across the grass as I got to the house several
 people were already up and getting breakfast. as I came
 in the door I was greeted by several people. and I spoke
 to them and then I hurried upstairs to my bedroom. John
 was getting dress for work. I asked John to sit on the bed
 that I needed to talk to him. John looked at me as if I
 was going to say something that he didn't want to hear.
 Mary are you mad at me. I said no I'm not mad at you
 you have done nothing wrong. everything is good.

I saw John relax as I started talking first I said John your
 not going to work today we have got to talk about some
 things. John said ok many I'll talk with you. I smiled and
 that seemed to put John at ease. I said John you said that
 you grow up in a orphanage and never knew your parents.
 yes thats right never knew them. John who do you feel about
 me what do you really think about me. John was silent for a long
 time and then said I think your sad and lonely I told John
 I think your right, what else. he said I like you your
 nice and pretty and your are nice to me. I said do you want
 to stay with me. John said please don't send me away
 I want to be with you forever I love you. I said John
 I'm not going to send you away. I said John how would you
 like to stay with me forever and always be together all
 the time. John said I love you and always will love you.
 I said John would you like to be my husband and I would
 be your wife. John sat there and finally said yes I would
 like that very much. I said then from this day on you
 and I are married for ever. I kissed John and he kissed
 me again and again. I told John not to say anything to
 anyone that we will tell them latter together. John smiled
 and said ok. I said lets get something to eat. John and I went
 down stairs and ate breakfast we both eat a lot. Jane came out
 of her room with Pet. when she saw us sitting there she came over
 and put her arms around us. She said pet told me how he found
 you last night. Im ok well talk latter but that was the best
 I've ever known thank you. Pet came over to us and said Im
 glad that both of you are here. because I have to say

Pet came up to John and shook his hand and said John your
 not the handy man anymore! you are family and here
 to welcome you into the family. John said thank you
 I've never had a family before. Pet wasing well lets
 have a wedding reception. John said to me what's that
 I said its a party to celebrate the marriage, its for us.
 the men took John away to one side of the room and the
 woman took me to the other side of the living room Pet was
 pouring drinks of hard cider that he made last winter
 the woman had some also rose said I thought you were best
 friend and you didn't even tell me. I said I didn't tell
 anyone and yes you are my best friend and I expect
 you to be happy for me. you mean you didn't
 even tell your sister June. I shook my head no, does
 the mean you are going away are that I can't sleep
 with you anymore. I said silly I'm staying right
 here and yes you can still sleep with us. but not for
 at least a week. rose giggled and then said why? and
 laughed some more. June said Well talk soon I'm really
 happy for you and John he's a good man, and
 you had better take care of him. yes I will and hell
 take care of me. June said thats what its all about.
 there was a small dinner because most of the people
 were drunk. soon I found John and the two of us went
 upstairs to our bedroom. John said are you happy.
 nancy I threw my arms around John and kissed him
 hard on the mouth and then said I'm the happiest
 that I've ever been in my whole life. John said I'm

happy too. I heard a soft knock on the door I opened it
 and June handed me a bottle of cider and a jar, in it was
 hard and then she said have fun kissed me and John and
 left smiling. John sat down on the bed with his head
 down. I asked him why was he looking so miserable on
 his wedding day. John took a deep breath and said
 why did you marry me I'm older then you I have
 nothing I'm slow in the head and I don't have much school
 I'm not handsome, did you marry me because you felt
 sorry for me. You know you didn't need to marry
 me just to keep me around I would have stayed as
 long as you wanted me to stay. I took a deep breath
 and sat down next to John. I took hold of his hand and said
 John I've been fucking men since I was 13 years old I have
 had many men some of the men were real good looking
 all of them have treated me good. Some wanted me to only
 fuck them and nobody else, some I have lived with and stayed
 with for years two of them saved my life. and I never
 wanted to marry any of them. I don't feel sorry for you
 or think your someone to pity you I know I didn't have to
 marry you that you would have stayed with me
 and all I had to do was ask you to, and you say that
 you are older then I am John I know what I want and that
 is you not someone else. I look at you and I see a big
 man who cares about other people what they think as well
 as how you can help them you have a good heart. and you
 are kind. you when I first came to you in the back room
 all I wanted was to have a man fuck me. but after I look

a chance to get to know you. I couldn't think of being alone without you. I needed you to know that I love you so much that I would rather die than be without you and that the only time I feel good is when you are with me. John said do you really mean that. I love you to. John ~~was~~ squeezed my hand and said come we have sex now. I told John ita about time you got around to that John said I saw the hard for that Jane gave you. I said do you think we can find a good use for it. John laughed and said I think so. ~~we~~ slowly got undressed when we both had all of our blouse off I stood in front of John and told him to take his hands and touch every inch of my body and John did what I had said and I told him that everything he has touched and everything that is inside of that belongs to him. everything belongs to him. he started touching me all over again saying I love every inch of you. he told me to do the same to him and I did he said all of me belongs to you also. he then reach down and pick me up and layed me on the bed. he started kissing my hair and then my ears my face and neck my shoulders and arms and hands my chest and tits and nipples he then kiss his way down to my stomach and hips down to my left leg and on down to my left foot and toes and then to my right foot and toes up to my right leg then he slowly parted my legs and kissed my pussy licking and sucking my pussy until I started cumming and he still licked and sucked my pussy over and over again and cummed then slowly he took the for of hard and squeezed some inside of me and then he squeezed the hard and

his dick he then wiped his hands off on a towel John raised
 my hips up and put a pillow under my butt he then gently
 put the head of his dick against the opening to my pussy
 he gently pushed his dick into me and there was only a
 little resistance and then he slowly went into me I could feel
 every inch of him he never felt so nice I started cumming
 before he was half way inside of me by the time John was
 all the way inside of me I felt like I was in heaven and I didn't
 want to stop there was no more discomfort only sheer pleasure.
 John said I don't want to take my dick out of you tonight, I said
 yes I want that too. I found that I could move my legs and
 I put them around John butt and as he pushed into me my
 legs pulled him in deeper and at the same time my hips were
 forced up against John hips I wanted more and more of him
 John was kissing me and fucking me and I never wanted to stop
 I felt complet I had never felt like this before I didn't
 want any other man only John inside of me we fucked
 all night and in the morning John rolled me over and
 put his dick into my pussy from the back and at the
 same time he rubbed and squeezed my tits my nipples
 were so sore after about an hour that everytime John
 rubbed his hands over my nipples my pussy titred
 and we both got a kick out of that. I have never known
 a man who could fuck for hours at a time and still
 want more. I found someone who could fuck as
 much as I could. we stayed in our room for about 2 1/2
 days before we had to come out to eat and clean up
 and after we rested John went outside and started playing

with our two children. the children that I never had time for. it wasn't until this happened did I realize that I was treating my children just like my mother treated me when I was young, and I remembered how I felt growing up and how lonely I was, then I remembered once when my mom said that she liked kids but never wanted to have any, and how I felt when she said it. I didn't want my children growing up thinking that I didn't want them or love them. I just wanted time for myself, and how I have time, and I have children I've got to get to know them, my son's name is Peter after dad and my daughter after my mom Jane. I went outside where the children were playing with John and I told the kids that John was there too. Peter was six and Jane was five and for the first time in my life I came to realize that the kids loved me then mom and I loved them, after that John and me and the kids went everywhere and did everything together, like was like a dream we were a family and the kids brought a new feeling into my life, and thanks to John I can enjoy ^{life} the more.

Mary stopped at this point and wouldn't talk to me for about seven weeks. then one day as I came by to see how she was doing she said please come in. I needed time to sort out my feelings and memories of the past, Mary went on to say that for the next eleven years everything went great with all of us, then in 1969 Peter was killed in a car crash, the same year my mom died of cancer my daughter Jane went off to school

with hopes of becoming a teacher. It seem like everyone just faded away. Tom ran the farm with help from John everyone else all went there own ways. Tom married a girl from Billings and the two of them have three kids. the following year John died of pneumonia, when I was 32 years old and I had someone to share my life with life from me was hell I was alone again. more alone than I had ever been. I decided to leave Montana. and go somewhere, anywhere where there were people, somewhere that there was no snow, winter cold made me think of everyone ~~at home~~ that had died in my life I wanted warmth, and bright lights and happy people.

she put her things in and old pickup and headed for Hollywood and the ocean she had never seen the ocean. she drove across country to a place called Rockford, Wash. where her truck broke down.

June 1959 I'm in a city and the ocean is over there I can see it. the gas station mechanic said my truck is beyond repair. I didn't doubt him because the pickup was more then twenty years old. As I was standing next to my truck at the gas station a big black car drove in to get gas. I saw that it had Calif. plates on it. the car was a Cadillac "57" it was long I asked the man in the gas station what kind of a car was that he said its a touring car with jump seats that fold away. the car had four boys in it. and one of the boys heard what I was asking the gas station man. the young man said havent you even seen a car like this before. I said no.

I heard the other boys laughing the boy said would
 you like to take a look at it. I said ok I'm not going
 anywhere my truck is down for. the boy said is that
 your truck. I said yes. he then said your from mass.
 and you drove it here? I said yes. were were you going
 I said hollywood Calif. he kind of smiled and said you
 want to be in the movies. I said no. I just want to go there
 I love its warm all year round and I can swim anytime. he
 laughed and said thats right. I asked him were he was
 going he then said home to calif. he then said that he
 and his friends had just got out of school. I looked at them
 and said school. he then said College! oh I understand now.
 he said do you need a lift to hollywood you can come
 with us I said would it be ok you see I've got two boxes
 of belongs that I got to take the boy said shore well put
 them in the trunk. I got in the back seat and the other
 boys moved aside to let me sit in the middle of the back
 seat. the man at the gas station said I hope you get to
 hollywood. he seemed real nice. as we left the gas station
 one of the boys said were celebrating summer vacation
 away from college. I said that sound good. people should
 have fun because life seem to pass you by so quickly.
 one of the boys handed me a beer and said welcome to life
 I thanked him and drank the beer then another handed me another
 beer. I drank that one too. the boys were drinking also one
 of the boys said here and he poured some whiskey into
 my bottle of beer. it was really more than half whiskey now
 I was drinking and the boys had the radio on and the

windows down. we had driven over a really high bridge
 and one of the boys said we are in one. now another
 boy said here try this I said what is it he said something
 I don't remember what he said it was, but he said lol like
 it so I took it and wash it down with another bottle
 of beer. we were driving along next to the ocean and the
 sun was setting and it was beautiful. I started to feel like I
 was on a cloud I felt like I was a young girl again. the
 two boys next to me pulled me back from the window I was
 looking. one of the boys kissed me and I could see John kissing
 me and I wanted to be with John. then another boy kissed me
 and he was John too. I was really happy I had two Johns.
 I felt John's hand go under my shirt and grab my tits
 soon John had taken off my shirt and bra. and he was kissing
 my tits and John felt good. I felt John's hand go down and
 unbutton my jeans as he slowly pulled them off of my
 legs John had moved me down on the seat. then he slipped
 my panties off. I had no clothing as John's hands were
 rubbing my legs and up inside my pussy. John had taken
 his belt off and put it around my ankle one on each ankle
 he then tied the other ends of the belts to hand loops above
 the side windows. my legs were wide apart when the car
 stopped I don't know. first John fucked me then the other
 John until four Johns had fucked me then again and again
 at some time during the night I realized these boys were not
 John my John was dead. I started screaming and yelling
 trying to get free one of the boys put me in the mouth
 and said shut up now.

and they were laughing they kept fucking me in my pussy and in my butt over and over again I was still fight to get free and eventually they would change two of them would hit me another one took a belt and started beating me the buckel cut into me and I was bleeding and they kept on beating me and fucking me they called me names as they beat me. I felt a pain in my pussy so bad that I screamed out in pain and they just laughed and spit on me and called me more names one of them squeezed my nipples so hard that blood oozed out of them. the worst thing I remembered was waking up in a hospital bed. I had a hose running out of my nose and a hose running out of my pussy. another hose had blood running into my arm. the pain was great and I hurt all over. a nurse came in and gave me something for pain. then two people came in and said that they were police and asked me to tell them what happened and another man came in and said he was from prosecuting attorney's office. I told them what had happened and they said nothing. then they asked me about myself and I told them about myself. they said that they would be back soon and not to worry. I asked where I was at and the nurse said you are in the hospital in portland ore. the nurse said that they got the people who did this to you. and for me to rest and get well. I spent 5 months in the hospital. the doctors said that they had to take part of my vagina out because I was torn up inside so bad. that I was lucky that I didn't die. I said yes so lucky that I was beaten up and raped by four boys.

the doctors told me that all the hospital costs were paid for. there were other people who came to the hospital to see me, attorneys for the boys families. my doctor said I shouldn't talk to them with out my attorney present. I told him I didn't have one, he told me his brother was a real good lawyer and did he want him to call him. I said yes I think so.

Mary then went on to tell me what happened with the attorney. I found out that the police had come upon the car with me inside and the boys beating me. the police put them in jail and had taken me to the hospital. they said I was close to dying several times. the families of the boys were really rich in Calif. and the families had paid for the hospital costs for me. the families asked to be able to handle the case outside of court. my attorney asked me if I wanted to press charges on the boys. he said that he could make a deal were the boys could get psychiatric treatment outside of jail and that I could be paid enough money to live quite well. he then asked me what I wanted to do with my life. I told him how I wanted to live in the warm sunshine in Calif. near the ocean and work out making friends. after several weeks attorney returned and said that the families offered to pay me to drop the charges against their sons and for doing so they would give me a hotel they had in Calif. on the beach and pay me \$ for dropping all charges. I asked my lawyer if he knows this hotel. he said that he went to Calif. to look at the

place. he said its about 10 years old and it sets on one city block that there are four storeys and a basement for storages and there are 114 apartments with ~~cooking~~ kitchen and bathrooms in each apartment. he said he had a electrician and plumber check all the apartment also he checked all loans and financial costs against the place and all checked out good. he said its a good deal. I asked how can I pay you and he said that he gets $\frac{1}{3}$ of all properties received in a settlement. but in this case he would only take $\frac{1}{3}$ of the money and I can keep the apartment house.

I agreed to the agreement and received the money and the deed for the apartment house. I gave the lawyer his share. and he said if you ever need a lawyer again to please call him. I had more money than I thought expected and a place to live. a place I owned. my attorney took me to my new apartment house by bus. he took care of all the paper work and setting up a new bank account for me and the house he then put all the paper work in order and found an accountant for me to do my paper work for the apartment house. after all the was done he said good bye and left. I picked out a apartment on the top floor over looking the ocean. it was a corner appart after a while I had carpenters take out the wall between my apartment and the next one to make one large apartment. out side of my door was the stairs leading to the roof. I liked to go to the roof and look out over the city I was the tallest building around no other buildings had more than four storeys. and the ocean was beautiful but really pretty air sand down. I also liked to walk

along the beach at night with bare feet and the wet sand opening between my toes. everything was peaceful. I had lived there for about a year before I felt like meeting other people again. I slowly started getting to know first the people in the apartments then I started getting to know the people who lived and worked around my place. The apartment house was making money and paying all the bills.

June 1961

Today I layed on my roof staring at the sun going down over the ocean. and I remembered the first time I saw the ocean and how the sun looked going down all the colors. and then I remembered the pain and the fear and the many long days of pain and suffering laying in the hospital room and the operations to try to put me back together again. why did they do that to me. they seemed like nice boys how could they hurt me like they did. what have I done to them why me then I realize that this is the same things that have been going thru my thought every day since it happened it is time I find out why I can't sleep at night why I can't make friends why I can't trust people. have I changed so much. or is it that everyone else has changed. I tried to sleep again last night but I woke up twice thinking that I wasn't alone I got up out of bed and there was no one else there and I felt foolish. I decided to go to the doctor to get something to make me sleep at night he gave me some pills. and then said I would like for you to see an other doctor she is

a specialist he deals with the mind. I said a shrink he said yes but I think he can help you. I went to see him he was a little old man who smoked a pipe. we talked a while and then he said come back tomorrow at noon and we will talk someone after about three weeks I had told him everything about my life that I could remember. he then started telling me how I had been raped all my life how after my dad was killed and my mom lost her mind how the two handy men had raped me and my mother. I couldn't think of that as rape he said it was rape because you were not a willing person you could not reason the facts of life you didn't know about life and how people were you were only a child and saw things as a child saw then you were looking for love and someone to take care of you. your knowledge was the knowledge of a child these men raped you and then made you think that what they were doing was the way things were supposed to be then to the part about your mother did she know that this hired hand was not her husband. I said no she thought he was dad. there you see your mother thought she was having sex with her husband, and these men made you think that having sex with them was right and having sex with your mother was right. do you think that your mother would have sex with her daughter if she had known you were her daughter now I was starting to understand what he was saying. I saw my whole life as a lie based on a lie he said these men didn't love you or your mother they used both of you for their own sexual fulfillment, and didn't care about you. I was having a hard time trying to look at what he said

the following day when I saw the Dr. I told him if they didn't care about me or mom, why did they save me from those other men, and kill them. the Dr. said think about it. did they save you because they loved you or was it because you belonged to them and were they just getting back their property, and didn't you say that you were teaching the other kids to fuck. think if they wanted the other kids to fuck also wouldn't it be great to have your property take control of the other kids to bring them to do what they wanted, these men rape you and raped your mind and have told you what to believe and trick you into helping them. I said well how about John. the Dr. said that part of your life I see as being real and loving and good I don't see anything wrong with what you did or had between you and John. you said John was slow in thinking and you were thinking with misinformation so I see your marriage as good.

when the Dr. said that about John or me I felt better and it was easier to look at everything else as a rape of my body and mind by people I trusted, a lot of my marriage that I had that I thought were good about my childhood I started to realize as being horrible, and the rape by the boys as just a continuation of my life. I had to put all of these memories out of my life I had to stop looking back and living in the past, and feeling sorry for myself. I had to look at today as today and hope that tomorrow will be better to trust others again and realize not all people are out there to do you harm. It took a few months before I could sleep at night and put everything behind me I had to forgive

others for what they did to me. but the hardest was to forgive
 myself for what I did to myself and to others. my motives
 may have been good at the time but what I did was
 wrong. there came a time when I wanted to clean up everything.
 I had the hole apartment house painted and had awnings
 put over all the windows and doors. I had larger fans
 put on the roof to bring more air thru the building.
 I then had the roof resurfaced then I had the carpenters build
 a flooring like a board walk covering the whole roof. there
 was a small wall around the roof about 12" high. I then
 had the wall made of out of wood a fence like wall put
 around the roof on three sides and leaving the side toward
 the ocean open this wall fence was 6" high and made out
 of redwood as well as the board walk flooring on the roof.
 I then had plants and scrubs and small trees planted on the
 roof. and a gazebo built on the roof it had eight ~~sides~~
 sides and a eight sided roof on top of it. it was made
 out of redwood. but painted white. there was a building
 across the street that was two stories I think it was a
 restaurant at one time with living quarters above and an office
 I had my accountant buy the building and redo it I made
 a restaurant out of it and redid the upstairs I bought new
 equipment and fixed the place up like a picture I saw in
 a magazine of a french cafe with outdoor tables. I put an
 help wanted article in several papers looking for people in the
 restaurant business. the menu was simple coffee, soda pop, ice cream
 chili, soup, hot dogs, & hamburgers. I sat on my roof and watched
 the people come in and out every day. and my accountant pays

track of the money it took less than a year before the building had paid for itself. the people who worked there were mostly college kids, and they did a real good job.

I had been seeing the scripps for all this time about once a week. and everytime I saw him he would ask if I was seeing anyone yet. and my answer would always be the same no. then he would say why not you a beautiful woman who could pass easily for twenty two and I would laugh and say I'm too busy working. then he would say you not fully cured until your head comes to grips with your pussy. never get out of here and find someone. and he would tell him if I have time to. he would say make time. I told him just think if I get well you want see me any more and look at all the money you'd lose. and we would laugh. I went home and took off all my clothing and looked at myself in the mirror. he was right I look the same as I did when I was twenty one. no wrinkles no flab. my tits didn't sag. my skin was tight, my hair was almost white from the sun. I got dressed and went about my day. I don't have time for this. the next day I was walking on the beach and it was dark and the wet sand felt good under my feet. I saw a camp fire just off the beach as I got closer I could see a man who was naked he had just come out of the water and was drying himself off. I started fantasizing about having sex with him. I shook the thought out of my head. I started walking and walked down the beach and I heard the man's voice say its a beautiful night isn't it I looked around and the man was standing near his camp fire. he had a

towel wrapped around him. I said yes it is. he asked me if I would like a coke and I said yes I would. I walked over to the fire and the man handed me a bottle of coke it was cold. he had an ice chest there. As I drank he held out his hand and said my name is Brad and yours? I told him maybe he said that a pretty name. he then asked if I would like to sit and talk a while I said ok I sat near the camp fire and he sat on the other side of the fire he asked if I lived around here I told him I lived up the beach ok. I asked him where did he live he laughed and said you in my living room. I didn't expect that type of answer and I guess I blushed and then I laughed also. he said oh you come here often I said about three times a week but I've never seen you here before he laughed and said I moved in today and I haven't had time to clean the house yet on most the nights as we talked I felt at ease talking to him I could see his dick under the towel he was wearing and my mind was racing with wild fantasies. my pussy was starting to itch with anticipation of a fantasy fuck I tried to get up saying I've got to go now and he got up and put out his hand to me and said here give me your hand when I did he pulled me up to my feet I fell towards him and pulled his towel off. he flopped and said maybe I should have put pants on, but he never picks up the towel or tried to hide himself I looked at his dick and then at his eyes and then back at his dick. he took a step towards me and tilted my face up to his and kissed me hard on the lips and I responded to his kiss. between kisses he said I want to make love to you right here

and I was kissing taking my clothing off and saying yes soon I was naked lying beside him on the sand. we kissed and touched each other slowly he started rubbing my pussy and I couldn't think I went with the feeling of shame pleasure he then started kissing and licking and sucking my pussy and the feelings were driving me crazy I cried out please fuck me and he did. he felt so big inside of me the sensation were unbelievable we fucked and fucked for hours and as we rolled apart he got up and said I think its time you leave. I couldn't he leave what I was hearing he was telling me to leave after just fucking me to the point were I wanted more of him. I got up and got dressed as I was walking away I turned and asked why. he said my name is Brad not John if your are going to fuck me please fuck me not someone else. I walked on back to my place and took a hot bath and layed down on my bed. I told myself so I called him John whats the big deal then I thought what is as we were fucking Brad had called me another girls name ~~the~~ how would I feel. after a little while I realized why he got so mad and asked me to leave and I was truly sorry for hurting his feelings. I didn't mean to.
