**Supplemental Forensic Case Report
May 12, 2008**

To:

Andy Horita
Boulder District Attorney's Office
1777 6th Street
Boulder, CO 80302

BODE Case #: 2S07-101
Agency Case #: 96DA21871

List of Evidence Received on April 18, 2008 for possible DNA analysis:

<u>BODE Sample #</u>	<u>Agency Description</u>
2S07-101-07	Labeled as "Barbie Nightgown BPD#12KKY, CBI#17"
2S07-101-07A	exterior and interior of the bottom front of nightgown
2S07-101-07B	exterior of the left shoulder region front and back of nightgown
2S07-101-07C	exterior of the right shoulder region front and back of nightgown
2S07-101-07D	exterior and interior of the bottom back of nightgown

Table One contains Profiler Plus and Cofiler data submitted on March 12, 2008 for the following samples:

<u>BPD #</u>	<u>CBI</u>	<u>Description</u>
001BP	14B	Blood standard JonBenet-Victim
5RTG	36B-2	Blood Standards Burke Ramsey-Brother
4RTG/069TET	35B-2	Blood Standards Patricia Ramsey-Mother
3RTG/068TET	34B-2	Blood Standards John B. Ramsey-Father
2RTG/72TET	33B-2	Blood Standard Melinda Ramsey- ½ Sister (Common Father)
1RTG	32B-2	Blood Standards John Andrew Ramsey- ½ Brother (Common Father)

DNA PROCESSING, RESULTS, and CONCLUSIONS:

Item 2S07-101-07 was processed for DNA typing by analysis of the 13 CODIS Short Tandem Repeat loci, the D2S1338 locus, the D19S433 locus, and the gender determining locus Amelogenin using the AmpFLSTR® Identifier® kit. Appropriate positive and negative controls were used concurrently throughout the analysis. The DNA profiles reported in this case were determined by procedures that have been validated according to standards established by the Scientific Working Group on DNA Analysis Methods (SWGDM) and adopted as Federal Standards.

1. The DNA profile obtained from sample 2S07-101-07A contains a mixture of at least two individuals including the victim and at least one male contributor. The individuals associated with samples John B. Ramsey, John Andrew Ramsey, and Melinda Ramsey are excluded as possible contributors to the mixture profile obtained from sample 2S07-101-07A. The individuals associated with Burke Ramsey and Patricia Ramsey cannot be excluded as possible contributors to the mixture DNA profile obtained from sample 2S07-101-07A.

The probability of randomly selecting an unrelated individual who would be included as a possible contributor to this mixture at the core CODIS loci (excluding CSF1PO, D13S317, D5S818, and FGA) is:

- 1 in 50.0 Thousand in the US Caucasian Population
- 1 in 220.0 Thousand in the US African American Population
- 1 in 43.0 Thousand in the US Southwest Hispanic Population
- 1 in 58.0 Thousand in the US Southeast Hispanic Population

Date: May 12, 2008

2. The DNA profile obtained from sample 2S07-101-07B contains a mixture of at least two individuals including the victim. The individuals associated with samples John B. Ramsey, John Andrew Ramsey, and Melinda Ramsey are excluded as possible contributors to the mixture profile obtained from sample 2S07-101-07B. The individuals associated with Burke Ramsey and Patricia Ramsey cannot be included or excluded as possible contributors to the mixture DNA profile obtained from sample 2S07-101-07B.
3. The DNA profile obtained from sample 2S07-101-07C contains a mixture of at least two individuals including the victim and at least one male contributor. The individuals associated with samples John B. Ramsey, John Andrew Ramsey, and Melinda Ramsey are excluded as possible contributors to the mixture profile obtained from sample 2S07-101-07C. The individuals associated with Burke Ramsey and Patricia Ramsey cannot be included or excluded as possible contributors to the mixture DNA profile obtained from sample 2S07-101-07C.
4. The DNA profile obtained from sample 2S07-101-07D contains a mixture of at least two individuals including the victim and at least one male contributor. The individuals associated with samples Patricia Ramsey, John B. Ramsey, John Andrew Ramsey, and Melinda Ramsey are excluded as possible contributors to the mixture profile obtained from sample 2S07-101-07D. The individual associated with Burke Ramsey cannot be included or excluded as a possible contributor to the mixture DNA profile obtained from sample 2S07-101-07D.

See **Table Two** for summary of alleles reported for these samples.

NOTES:

1. A supplemental report was issued due to an additional submission of evidence. Please see original report dated March 24, 2008.
2. The DNA extracts and submitted evidence will be returned to Andy Horita at the Boulder District Attorney's Office.

Report submitted by:

Amy Jeanguenat, MFS
DNA Analyst II
